Man Pushes Boy Cyclist to Death Under Truck

Today

95 Billion K. W. Hours.
The Lost Airplane.
Carpenters $100 a Week.
An Unchopped Octopus.

—By ARTHUR BRISBANE—

STATISTICIANS figure that in 1929 this country will use power artificially created amounting to ninety-five billion kilowatt hours. To realize what that means to national prosperity remember that all labor was done formerly by the muscles of men, horses, oxen, mules.

Every additional electric horsepower put to work in the United States means greater efficiency, greater prosperity.

LOSS of the trans-continental flying machine is a disaster, similar to many that inevitably follow each other through the years. It is nothing more and has no important meaning for flying or the future of flying.

In the week of that flying disaster, which killed eight people, 200 were lost at sea. Passengers will not abandon sea travel.

IT APPEARS that the pilot, miscalculating his height, or bewildered in fog, drove his plane into the side of a mountain. It is even suggested that he had turned around and was flying west, perhaps seeking, in the fog, to return to his landing field, not knowing that he had passed the mountain range.

THE loss of those eight lives will save others. Pilots, courageously indifferent to their own safety and devoted to the art of flying, will realize that, with passengers, SAFETY COMES LITERALLY FIRST.

It will be impressed upon them that they cannot proceed in fog or under the SLIGHTEST UNCERTAINTY.

IT IS NOT "coming through," but landing your passengers safely, that counts.

Fortunately, public spirited men that have invested large sums, knowing that inevitable loss faced them, in the operation of flying routes, and determined to promote aviation in America, will not be discouraged by any accident.

Nor will the American public be discouraged. It intends to fly and will fly.

JEWISH theaters in New York may not open this fall because stage carpenters, not getting $100 week, minimum, demand a 25 per cent increase.

Managers say they can't afford it. On the other hand they can't operate with non-union carpenters. Nobody would come. Their customers all believe in unions.

EVEN the young ladies in the chorus getting $40 a week demand more.

One hundred dollars a week for discontented stage carpenters recalls pleasantly an early president of the United States complaining that in his day you had to pay almost $100 a YEAR to a first-class workman.

GASOLINE and kerosene prices are out in Pennsylvania. A real price war may come.

The United States compelled Standard Oil to chop itself into several pieces, in primitive days, before we had learned that the bigger the business the better for the country.

THE British "Shell" Company comes over; it sells under the same name, from the same brilliantly painted yellow automobiles, rents the best corners, cuts or raises prices as it pleases from Seattle to Miami and the United States government doesn't tell it to chop itself into pieces.

PERHAPS Standard Oil will be allowed to fasten the pieces together again, or even make one oil company to fight the British invasion.

CLAUDIUS HUSTON, of Tennessee, was elected chairman of the Republican National Committee yesterday. Dr. Hubert Work, of Colorado, voluntarily gave up the hard, ungrateful job, warmly thanked by President Hoover.

WITH the announcement of Mr. Huston's election came a jump of $3 a bale in the price of cotton. It was due to a cut of more than 700,000 bales in the crop report.

Nevertheless, it will help the Huston program to make the South Republican.

TWENTY-SEVEN European nations are working at a plan called "The United States of Europe Plan." Germany says she will join, but not if there is an "anti-American pact."

That's another hint to President Hoover, and others responsible, to make this country strong enough to take care of itself.

CYRUS H. K. CURTIS, investigating Swedish control of liquor, reports, "no saloons, no profits for anybody, no prohibition, and crime and drinking are curbed."

That is interesting, although you can't do anything about it here. Prohibition is in the Constitution, and will stay.

HEAVY fighting on Russian-Chinese frontier. Shanghai says Russians were driven back. That won't last. The real brains of Russia, not the czar and his grand dukes, are in charge of Russian forces now.

Japan reports heavy Russian artillery fire, and an entire town in flames.

While Europe talks peace, it may find that a real war is on—at least, as real as China can make it.

JURY HEARS MARTIN PLOT CHARGES; POLICE GUARD REGISTRATION POLLS

BOY ON BICYCLE PUSHED UNDER TRUCK DIES

Police Seek Fleeing Bridge Pedestrian; Companion on Ride to School Uninjured

Two 15-year-old boys, inseparable companions, about to launch a joint career as student automobile mechanics at the Allegheny Vocational School today had their hopes blasted by death. On their way to the school they were pushed off their bicycle by an irate pedestrian who apparently resented their riding on the sidewalk. Both boys fell under a truck.

One of them, Frank Polokovicz, was crushed beneath the truck's wheels and died several hours later in Presbyterian Hospital.

James Poremski, 15, of 62 Steuben street, his companion, escaped unhurt.

BOY TELLS STORY

"We were going to school," James said. "Frank was riding on the handle bars and we were crossing the Manchester Bridge.

"Two men were walking toward us on the sidewalk, but we were going slow and riding near the curb. I hardly know what happened. The bike was pushed over and all I remember is jumping up alongside the truck and Frank screaming.

DRIVER RELEASED

"I saw one of the men cover his face with his hands and then both of them ran across the bridge. The truck stopped, and it was awful—Frank lying there with his clothes ripped off and him moaning."

James Marchetto, of 125 Howard street, driver of the truck, was released on his own recognizance. Police are searching for the two men who fled after the accident.

DELAY IN VARE FIGHT SOUGHT

WASHINGTON, Sept. 10.—(AP.)—Senate Republican leaders at a conference today decided to seek a postponement until the regular session in December of a vote on the pending Norris resolution to Deny William S. Vare, (Rep.) Pennsylvania, a seat in the Senate.

Senator Watson, of Indiana, the party leader, will offer this proposition coupled with a proposal to determine a definite date for a vote as soon as the resolution of Senator Norris, (Rep.) Nebraska, to bar Vare is called before the Senate.

Although the Norris resolution has privileged status, the Nebraskan does not intend to press it until the contest on the Simmons resolution to make available income tax returns of corporations interested in tariff revision has been voted upon late today or tomorrow.

CAROLINA MOB FLOGS STRIKE LEADERS

Lynching of Defense Lawyer In Halted Murder Trial Threatened; Offices Sacked

By HENRY LESESNE
International News Service.

CHARLOTTE, N. C., Sept. 10.—A wave of sabotage and mob violence brushed over Charlotte and nearby towns today in the wake of the sensational close of the trial of 16 alleged communists and atheists for the assassination of Police Chief O. F. Aderholt, of Gastonia.

Morris Wells, Cliff Saylor and C. M. Lell, three strike organizers, kidnaped from their rooms in Gastonia, returned here with stories of the severe beatings they received at the hands of a mob.

Wells, the most seriously hurt, said he had been flogged and then dumped out on the road.

MOB MEMBERS KNOWN

"They beat me with sticks and ropes and everything they could find," he said. "They were shouting all the time they would lynch me and were starting to string me up when some automobiles started up the road. They thought officers were in the cars, so they stopped and let me go.

"I recognized some of the men in the mob, including several prominent men of Gastonia. They saw that I recognized them and said I'd regret it if I ever revealed their identity."

OFFICES RAIDED

The International Labor Defense said they had obtained the names of a number of men in the mob and that they would divulge their identities later.

With shrill cries of "long live 100 per cent Americanism" piercing the early morning air, mobs gathered in Charlotte, Gastonia and Bessemer City and raided the offices of Communistic organizations which financed the legal battle for Fred Erwin Beal, Communist organizer of the Gastonia strike, and 15 of his aides, charged with slaying Aderholt.

TWO LEADERS BEATEN

The trial of the 16 strike agitators came to a dramatic close yesterday when a mistrial was ordered by Judge M. V. Barnhill after J. G. Campbell, one of the jurymen, became violently insane. His condition was described by physicians as acute religious mania.

Early today he was whisked

Many Endangered On Derailed Train

WILLIMANTIC, Conn. Sept. 10.—(INS.)—Passengers on a New York, New Haven and Hartford Railroad train had hair-breadth escapes from injury or death today when the entire train was derailed at Hop River, just west of this city. All cars except a Pullman, which settled at a sharp angle, remained in an upright position. Two passengers were slightly bruised.

RUSS OPEN WAR ON BIG FRONT

International News Service.

HARBIN, Manchuria, Sept. 10.—Two Soviet and Chinese armies, totaling about 40,000 men, each equipped for field service and drawn up in battle array, face each other in Pogranichnaya region today.

This area has been the scene of violent fighting in the past 72 hours, the Soviet forces having bombarded Pogranichnaya with artillery during intermittent fighting between infantry.

The Chinese troops in that zone are estimated at 20,000 and the Soviets are believed to have an equal number.

Only 1,000 civilian residents remain in Pogranichnaya because of the continued dangers from fighting between land and air forces.

The International News Service correspondent arrived in Harbin today after a visit to the Pogranichnaya sector, where he visited the Chinese front lines just before the battle began on Saturday.

The Chinese defensive trenches, dugouts and machine gun positions are excellently constructed after the manner of such military works

(Continued on Next Page, Col. Eight.)

Typhoon Hits Tokio; Property Loss Great

TOKIO, Sept. 10.—(INS.)—Following five days of steady rain, one of the most violent typhoons in years struck Tokio today. Many of the low lying slum districts were flooded. The property damage was heavy.

Legislator's Son Hurt in Accident

BEAVER FALLS, Pa., Sept. 10.—Robert W. Reader, 31, son of Assemblyman and Mrs. Willard S. Reader, of Patterson Heights, was seriously injured in an automobile accident at Portsmouth, Pa., according to word received here. Reader, a former newspaper man, had spent the week-end here and was returning home when the accident occurred.

FIND VOTE PLOT IN HOMESTEAD

Declaring he had discovered a vote fraud attempt in Homestead that would overshadow that in Pittsburgh, Charles W. Jacobs, candidate for burgess, today announced that he was taking measures to prevent false assessments and on election day would guard the bridges to prevent importation of fraudulent voters.

Jacobs declared a three-weeks' investigation has disclosed padded assessment lists. On past election days he charges machine load after machine load of bogus voters were imported via the Rankin, Brown's and Glenwood bridges.

TO GUARD BRIDGES

This year Jacobs says he intends to have special deputized officers on guard. Jacobs said that so far as the padded registration lists are concerned, the borough assessors, to whose books the names were added, will be called upon for an explanation.

Jacobs, who is opposing John J. Cavanaugh, present burgess, is

A'S LEADING INDIANS

FIRST GAME.

At Philadelphia—	R.	H.	E.
Cleve.	2	0	0
Phila..	3	0	0

SHIBE PARK, Philadelphia, Sept. 10.—Cleveland made its final appearance of the season here this afternoon, opposing the Athletics in a double-header.

The new American League champions relied upon Earnshaw to pitch the first game, while the Indians used Ferrell in the box. About 12,000 spectators were attracted by the bargain offering.

The game in detail:

FIRST INNING

CLEVELAND—Jamieson popped to Boley. Tavener doubled against the right field wall. Averill hit a home run into the left field stands, scoring behind Tavener. Fonseca singled off Bishop's glove. Falk drove to Miller. J. Sewell singled back of second. Hodapp fanned. Two runs, four hits.

PHILADELPHIA—Bishop walked. Haas flied to Jamieson. Bishop went to second on a wild pitch. J. Sewell tossed out Cochrane. Simmons singled to right, scoring Bishop. Foxx hit a home run over the left field pavillion, scoring behind Simmons. Miller doubled to right. Dykes flied to Jamieson. Three runs, three hits.

SECOND INNING

CLEVELAND—L. Sewell flied to Simmons. Ferrell fanned. Jamieson was safe on Bishop's wild throw. Tavener forced Jamieson, Boley to Bishop. One error.

PHILADELPHIA—Boley flied to Falk. Earnshaw popped to Fonseca. Hodapp threw out Bishop.

THIRD INNING

CLEVELAND—Averill struck out. Dykes threw out Fonseca. Falk singled to right. J. Sewell fouled to Cochrane. One hit.

PHILADELPHIA—Haas walked. Cochrane forced Haas, Fonseca to Tavener. Simmons flied to Falk. Cochrane was out stealing, L. Sewell to Hodapp.

FOURTH INNING

CLEVELAND—Hodapp singled over third. L. Sewell forced Hodapp, Boley to Bishop. Ferrell singled to

COUNTY GRANTS $15,000 MORE FOR INQUIRY; CHRISTY QUIZZED

Pittsburgh's scandal-ridden mayoralty campaign today brought these developments:

1—Candidate Judge Richard W. Martin took before the grand jury definite charges of assessment book padding under administration supervision.

2—The County Commissioners appropriated $15,000 for use by District Attorney Samuel H. Gardner and the grand jury in the inquiry.

3—Heavy police guards were placed at registration booths in the Third Ward, where Alderman John J. Verona, administration foe, is fighting to maintain his prestige.

4—Delinquent Tax Collector Walter J. Christy was questioned before the grand jury, which began a study of assessment books for the First, Second and Third wards.

Ten registration places in the Third Ward were being guarded by a score of city detectives and twice that number of patrolmen today to prevent violence feared as a result of rivalry between the adherents of Alderman John J. Verona, who is seeking re-election, and supporters of Samuel J. Price, who is opposing him.

Police Superintendent Peter P. Walsh ordered the men to the places late yesterday. They will remain on duty from 8 a. m. until closing time.

A light registration marked the morning hours at the 10 polling places, but signs pointed to an alert interest among the adherents of the office seekers, who were cruising the district in an effort to corral prospective voters.

VERONA OFFICE GUARDED

The places under guard are office of Alderman Verona, Wylie avenue; 94 Elm street; Washington Park Playground, Bedford avenue and Elm street; 21 Shomin street; Franklin school; Albert apartments, Stevenson street; 1311 Webster avenue; Central High school; Labor Lyceum, Miller street, and 46 Arthur street.

Adherents of all factions in the Second Ward stormed the registration commissioners' office today, contending that they had been refused the right to qualify for the election.

More than a score of individual cases in the Fourth, Fifth, Eighth, Ninth and Eleventh Districts of the ward were heard by the board members and disposed of, in several cases the action of the local boards being upheld while in others the boards were ordered to register the complainants.

Workers of the three mayoralty candidates were bending their efforts to roll a big second day's registration.

Polling places were opened at 8 o'clock this morning to remain open until 11 o'clock and after a recess until 5 o'clock will continue putting names on the registration list until 11 o'clock tonight.

TAX OFFICE OPEN

Delinquent Tax Collector Walter J. Christy will keep his office open until 9 o'clock tonight that electors may obtain tax receipts.

Register of Wills Joseph N. Mackrell, campaign manager for Councilman James F. Malone, issued a statement urging all citizens to report any indication of false registration or fraudulent tax receipts.

Alexander P. Lindsay, Martin campaign manager, in a statement pointed out that women are not required to tell their ages, the law requiring only that they are over 21.

BULLETIN.

Assemblyman Carl Baldridge, of North Braddock, was called before the grand jury this afternoon to corroborate Judge Richard W. Martin's charges of assessment book padding. He was questioned for 10 minutes.

Fraud charges clouding the mayoralty campaign began to assume tangible form today when Candidate Judge Richard W. Martin appeared before the grand jury to supply what were described as "good leads" in the investigation of charges that a conspiracy exists to add 60,000 phantom voters to Pittsburgh's electorate.

District Attorney Samuel H. Gardner said Judge Martin's charges of assessment book padding under supervision of administration officials had contained "some very good leads."

$25,000 FOR INQUIRIES

The grand jury was supplied $15,000 for the prosecution of its inquiry by the County Commissioners today. This was appropriated for use as Gardner might see fit in running down election frauds. It was in addition to $10,000 appropriated yesterday for a parallel investigation by the Election Frauds Committee of the bar association.

The Bar association committee today chose Edgar R. Ray, private detective and one-time acting prohibition administrator here, to conduct its investigation. Members of the committe asked that any individual or organization having information of election frauds trans-

(Continued on Next Page, Col. One.)

PLANE HITS 368 MILES AN HOUR

CALSHOT, England, Sept. 10.—(AP.)—Driving a blue and silver seaplane that shot through space like a comet, A. H. Orlebar, squadron leader and captain of the British Schneider cup team, today sped over a marked course of three kilometers here to break all world's speed records.

He reached a rate of 368.8 miles an hour on one run of the course and averaged 355.825 for four successive trials. It is this latter figure which constitutes the official record.

What It Means to Be President

—BY CALVIN COOLIDGE—

ARTICLE NO. 3.

(This is the third of a series of five articles by Mr. Coolidge on "What It Means to Be President," which will appear in the Pittsburgh Sun-Telegraph. The fourth will be published in tomorrow's issue.)

AS HE is the head of the government, charged with making appointments and clothed with the executive power, the President has a certain responsibility for the conduct of all departments, commissions and independent bureaus. While I was willing to advise with the men in charge of them and to give these officers any assistance in my power, I always felt that they should make their own decisions and I rarely volunteered any advice. Many applications are made requesting the President to seek to influence these bodies, and such applications were usually transmitted to them for their information without comment. Wherever they exercise judicial functions, I always felt that some impropriety might attach to any suggestion from me. The parties before them are entitled to a fair trial on the merits of their case, and to have judgment rendered by those to whom both sides have presented their evidence. If some one on the outside undertook to interfere, even if grave injustice was not done, the integrity of a commission which comes from a knowledge that it can be relied on to exercise its own independent judgment would be very much impaired.

Followed Established Rule

I never hesitated to ask commissions to speed up their work and get their business done, but if they were not doing it correctly my remedy would be to supplant them with those who I thought would do better. At one time the Shipping Board adopted a resolution declaring their independence of the President and claiming they were responsible solely to the Congress. As I always considered they had a rather impossible task, I doubted whether anyone could be very successful in its performance. If they wished to try to relieve me of its responsibility, I had no personal objection and felt I should probably be saved from considerable criticism. But they found they could not carry on their work without the support of the President, so that some of them resigned and the remainder re-established their contact with the White House, which was always open to them.

The practice which I followed in my relations with commissions and in recognition of rank has been long established. President Jefferson seems to have entertained the opinion that even the Supreme Court should be influenced by his wishes, and that failing in this, a recalcitrant judge should be impeached by a complaisant Congress. This brought him into a sharp conflict with John Marshall, who resisted any encroachment upon the independence of the court. In this controversy the position of Marshall has been vindicated. It is also said that in some of his official dinners President Jefferson left all his guests to the confusion of taking whatever seat they could find at his table. But this method did not survive the test of history. In spite of all his greatness, anyone who had as many ideas as Jefferson was bound to find that some of them would not work. But this does not detract from the wisdom of his faith in the people and his constant insistence that they be left to manage their own affairs. His opposition to bureaucracy will bear careful analysis, and the country could stand a great deal more of its application. The trouble with us is that we talk about Jefferson but do not follow him. In his theory that the people should manage their government, and not be managed by it, he was everlastingly right.

Tradition and Custom

Tradition and custom, it will be seen, are oftentimes determining factors in the Presidential office, as they are in all other walks of life. This is not because they are arbitrary or artificial, but because long experience has demonstrated that they are the best methods of dealing with human affairs. Things are done in a certain way after many repetitions show that way causes the least friction and is

North Side Wards Vote In Mayoralty Poll

The North Side wards provide a large share of the ballots counted for today in the mayoralty straw vote poll of Pittsburgh conducted by the Pittsburgh Sun-Telegraph.

Judge Richard W. Martin reduces by five votes the lead of Mayor Charles H. Kline, with President of Council James F. Malone third, as a result of the latest tabulation. The standing of the candidates in the poll at present is:

Kline	2,168
Martin	2,033
Malone	1,361

The totals in the day's returns are: Martin 213, 130 men and 83 women; Kline 208, 120 men and 88 women; Malone 96, 64 men and 32 women.

The ballots included in this tabulation give Martin a lead in the Twenty-second Ward, a tie with Kline in the Twenty-first Ward, and give Kline a lead in the Twenty-third and Twenty-fourth Wards.

A few votes were cast from the Fifteenth Ward, comprising the Hazelwood and Greenfield section, heard from for the first time, and each candidate is given some support.

With the exception of the Thirty-first Ward, the canvass has been extended to every ward of the city. In that ward, the distribution of ballots is completed by the mailing of cards today to eligible voters.

MARTIN GOES BEFORE GRAND JURY IN VOTE LIST FRAUD

KLINE GROUP ACCUSED IN NEW PLOT

Christy, Schad, Smith Called Before Investigators as Jurist Tells of 'Padding'

(Continued from Page One.)

mit it to Ray at his office, 408 Bakewell building.

SMITH BEFORE JURORS

Assistant United States Attorney Ralph H. Smith was called before the jury at its afternoon session. Smith, a speaker for James F. Malone, was to elaborate charges from Malone leaders that the phantom assessment conspiracy was being engineered by Kline lieutenants.

Assemblyman Carl Baldridge, of North Braddock, an associate of Judge Martin, was waiting to be questioned. It was understood that he was the "eyewitness" who told Judge Martin of the assessment book padding.

Judge Martin was called at his own request. The story he had to tell, he said, was that clerks had worked all night August 31 and September 1, in the tax assessment office, writing names into the assessment books while a uniformed policeman at the door kept watch.

Delinquent Tax Collector Walter J. Christy followed Judge Martin into the room. He had with him assessment books for the First, Second and Third wards. He was excused at noon. Later he was recalled with Fourteenth Ward assessment books.

George Schad, chairman of the board for the assessment and revision of taxes, and Assistant United States Attorney Ralph H. Smith, campaign worker for James F. Malone, also were to testify.

Subpenas were served on Edward Kenna, Jr., of 2115 Penn avenue, assessor in the First and Second Wards, and Joseph Kilkeary, of 267 Dinwiddie street and Lee McHugh, of 404 North Elizabeth avenue, assessors in the Third Ward. They were to help Christy and Schad explain the assessment books to the jurors.

Judge Martin yesterday issued this statement:

"I have requested District Attorney Samuel H. Gardner to call me before the grand jury now investigating illegal assessments.

'EYE-WITNESS INFORMATION'

"Certain information which came to me Sunday makes it my duty to do so. A gentleman occupying a prominent public position in this community, gave me certain information, which he said was given to him by an eyewitness.

"The information was to this effect: That on Saturday, August 31st, and on Sunday, September 1st, 12 clerks were put to work, day and night, in the office of the Board for the Assessment and Revision of Taxes, adding names to the assessment books; that the doors were closed and a policeman was on guard; that the names were taken from typewritten lists furnished from the headquarters of Mayor Kline; that one clerk entered 1,200 or more names upon the assessment books of the Second ward of Pittsburgh; that as soon as the clerks put the names upon the books, the typewritten lists were taken away by messengers, and tax receipts were issued for each person so assessed; that names were added to the books in this manner for many wards in Pittsburgh.

"Any aid that I or my friends can give will be extended in uncovering fraud in this election."

HEARING TODAY

County Commissioner Charles C. McGovern today heard several additional witnesses in the commissioners' fraud investigation which has resolved itself into a one-man investigation, McGovren's colleagues, Commissioners Joseph G. Armstrong and V. Babcock, having evidently lost interest in the probe after yesterday's morning session. McGovern announced yesterday that he would be ready "every morning, afternoon and night until after election in order to see this thing through," after Commissioners Armstrong and Babcock failed to appear at the resumed hearing.

John H. Bryan, of the Seventh district of the Twentieth ward, appeared before McGovern and alleged that he had been denied assessment for three members of his family on affidavits. Doubt existed as to whether the affidavit method of assessment was valid, but County Solicitor W. Heber Dithrich was ordered to take up Bryan's case.

$10,000 PROBE FUND

The Allegheny County Bar Association last night agreed to aid public officials in the probe. Earlier in the day county commissioners voted $10,000 to be set aside to pay expenses of having the association aid District Attorney Gardner in the investigation. A short time after Attorney Alexander P. Lindsay offered $1,000 toward the investigation.

CONNORS WITNESS

Connors, deposed member of the Detective Bureau, and now chief investigator for the campaign committee of Malone, was before the grand jury yesterday, being the only witness heard during the day.

For an hour he was closeted with Attorney Gardner, and Assistant District Attorneys Andrew T. Park and Ralph Hunter.

Later, Gardner announced that a number of subpenas had been handed to Chief George W. Murren, of the county detectives.

Questioned late yesterday by Commissioner McGovern, Connors, in describng assesment frauds on many sections of Pittsburgh where his investigation had led him, told of two Negroes registering from the home of a man who was arrested when he protested their action.

MARTIN TELLS ON RADIO

He cited another instance where a couple giving ther names as Harvey G. and Erma West had registered from 1331 Rush street. The house is owned by Walter Brosius, who told the investigator the Wests did not reside in the building.

When Frank Panner, of 1329 Rush street, protested, he was offered $5 to permit the Wests to register from his home, Connors said Panner told him. Panner is willing to testify before the grand jury, Connors said.

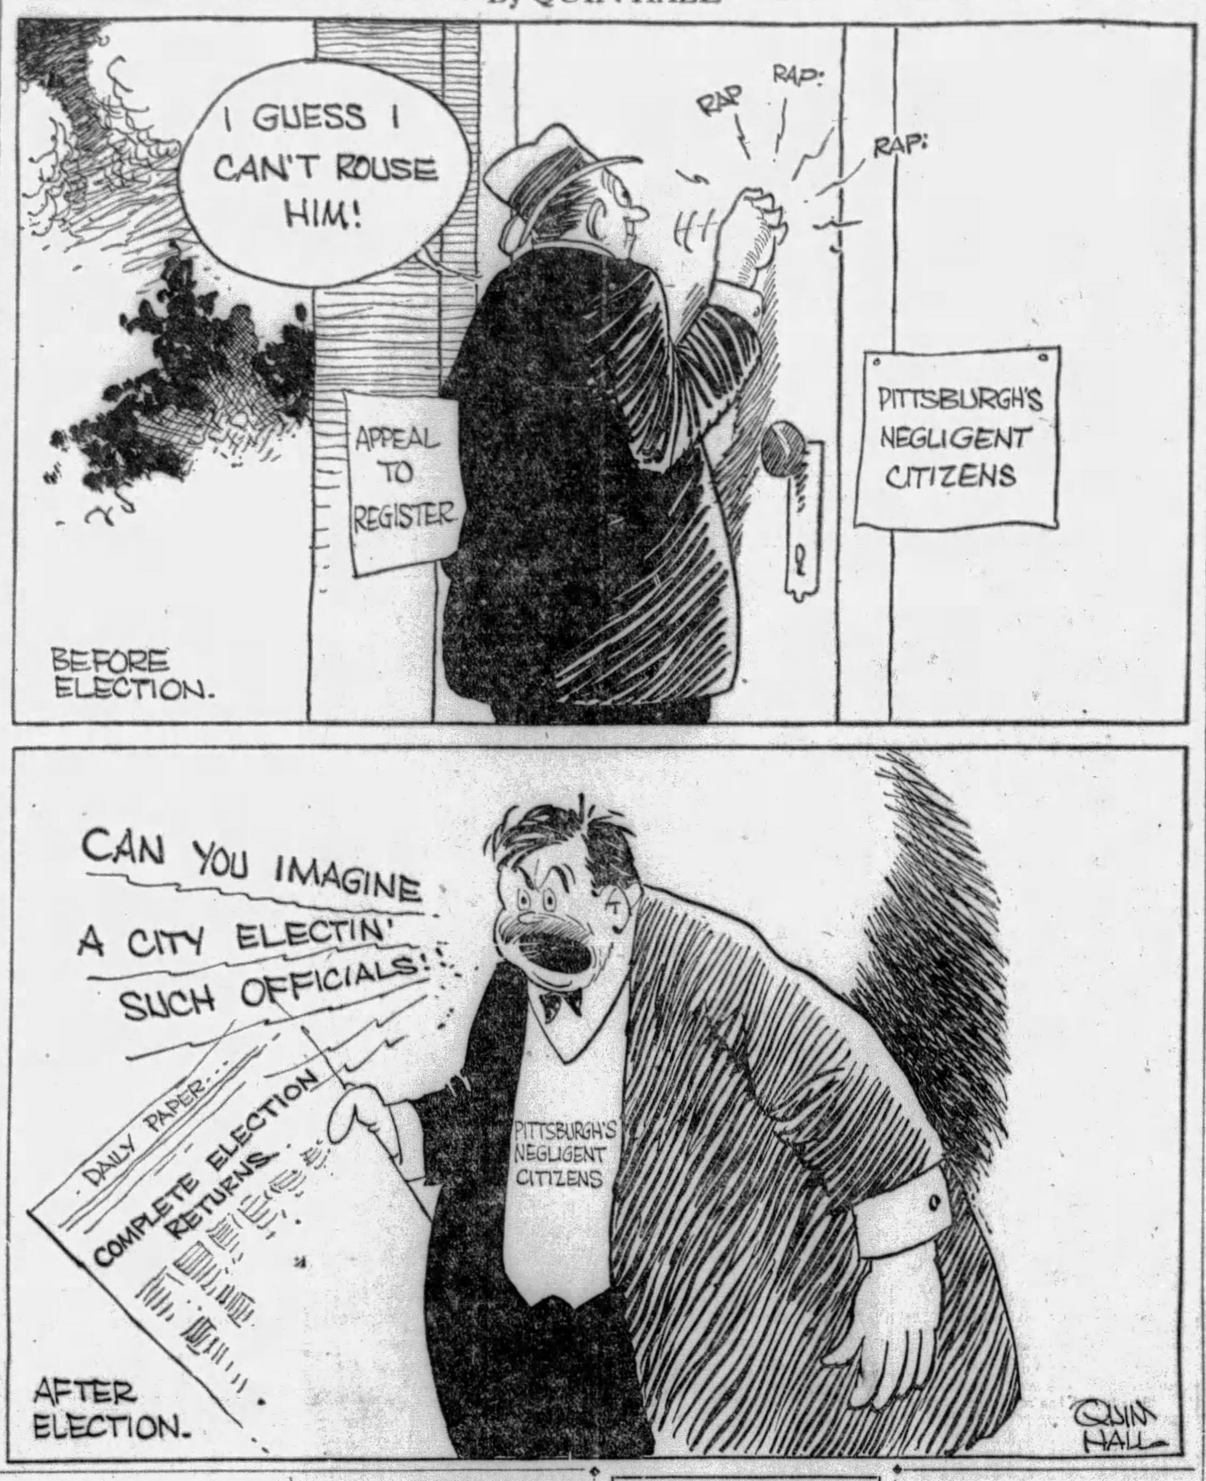
Judge Martin, speaking last night over KDKA, placed the blame for alleged assessment and registration frauds in both the Malone and Kline camps.

The Kline adherents blame the frauds on Malone, and the Malone friends blame the frauds on Kline, was his summary of the situation.

He urged a large independent registration as the surest method of defeating the "gang" brand of politics.

VOTE-SLACKERS COMPLAIN LOUDEST

By QUIN HALL



FIND VOTE PLOT IN HOMESTEAD

(Continued from Page One.)

hopeful that he and his investigators will be called before the grand jury at present delving into fradulent registration here.

"1,000 NAMES FAKED"

He is convinced, he said, that more than 1,000 names have been added to the assessor's lists. He further declared that padded registration lists have existed in Homestead for the last eight years.

Jacobs blames the fraud upon Cavanaugh, who he says, resorted to the practice that he might keep himself and his "gang" in office. Vacant houses, small residences, store rooms and other structures have been given as the residences of the phantom electors, he said.

CITES PLACES

Places in which Jacobs said he found evidence of false assement and registration included:

An empty house, 525 Beech Way, six persons assessed.

A building at 409 Fourth avenue, 15 assessed.

A building at 411 Third avenue, 10 assessed.

Two qualified voters and seven fraudulent voters found at 203 McClure street.

Three qualified voters found at 201 McClure, and nine others.

A house at 530 Dixon street, with two rooms, listed as the residence of 12 voters.

Another residence at 353 Eighth avenue, where 11 electors were reported to reside.

At 346 Eighth avenue, investigators said, 31 voters were registered.

Seventeen were registered from a house at 309 Seventh avenue, and eight others from 317 Seventh avenue.

Jacobs hopes that he and his investigators will be called before the grand jury at present delving into fraudulent registration in Pittsburgh. He and his men can supply the jurymen with all the evidence they want, he said.

How You Should Register

By MRS. DELLA B. HERSHEY, Director, Allegheny County League of Women Voters.

LESSON NO. 13.

This is the second registration day in Pittsburgh. You must register before you can vote for mayor. When you go to your polling place to register today you do not need to tell your age. All you need to say is that you are over 21. Of course, you must show your tax receipt. A naturalized citizen should take his naturalization papers. If you do not have a receipt go to the office of the Delinquent Tax Collector, Court House, to secure one. That office will be open until 9 o'clock tonight. Your registration place, which will be closed between 11 a. m. and 5 p. m., will be open until 11 o'clock tonight. If you want to vote for Malone, Martin or Kline, register as a Republican. Saturday is the last registration day.

Greensburg Firemen Fight Train Blaze

GREENSBURG, Pa., Sept. 10.—When ties caught fire on a freight train en route East over the Pennsylvania Railroad, Greensburg firemen answered a call sent from Pittsburgh to hold themselves in readiness when the train arrived. The firemen battled the flames for a half hour, but confined them to the car in which they originated.

KLINE VOTE LIST GONE; ONE HELD

Accused of looting the Hill headquarters of Mayor Charles H. Kline, 1219 Wylie avenue, Carmen Bevilaqua, of 1322 Gilmore way, was arraigned in Center Avenue Police Court today. He was held over.

Police Inspector James N. Hoey testified that Bevilaqua was suspected of breaking into the headquarters early yesterday and stealing 75 tax receipts and a list of names of Kline supporters in the Third ward.

The rooms also are used as headquarters for William Price, candidate for alderman of the Third ward against Alderman John J. Verona. Bevilaqua did not testify.

Martin, Evans Won't Hear Voting Cases

Neither Judge Richard W. Martin, mayoralty candidate, nor Presiding Judge John A. Evans, of Common Pleas Court, will hear motions bearing on the current election, it was made clear today.

Motions brought before Judge Evans were referred to other judges. His candidacy for re-election and Martin's for the mayoralty disqualify them from hearing such motions.

CANDIDATES IN FINAL DRIVE FOR VOTES

Aids Hustling in All Parts Of City to Push Kline and Foes; Martin Hits Police

Performers in Pittsburgh's three-ringed mayoralty circus were "whooping it up" today vieing for the plaudits and votes of the spectators, in a drive down to the primary wire next Tuesday.

While oratory flowed in a swelling stream, political workers were busy buttonholing electors in every section of the city.

EVANS OPENS FIRE

The leaders of the North Side organization supporting Kline were assailed today by Controller Henry Oliver Evans, speaking at the luncheon of the Men's Club of the Central Christian Church in Gimbels.

"The more they call themselves men the better opinion I have of a good dog," he said.

He mentioned by name Dr. F. H. Frederick, Samuel J. Grenet, William Herd, John O'Donnell, Justus Schroedel and George J. Schad.

Attorney Charles B. Prichard was the speaker at the noon meeting in the Malone headquarters today.

Speaking on "The Case of the Taxpayers of Pittsburgh vs. Mayor Charles H. Kline," over KDKA last night, Judge Martin quoted Councilman Malone, Controller Henry Oliver Evans and Councilman Robert Garland and Robert J. Alderdice to support his points against the present administration.

"Even these few witnesses are hardly necessary," said Martin, "Conditions are so bad in Pittsburgh that everyone knows about them."

Judge Martin repeated his charge that the Department of Public Safety "is either inefficient or honeycombed with corruption" and that the city "is in a decidedly unhealthy financial state."

KLINE SPEAKS

Mayor Kline and the other candidates on the Armstrong-Kline ticket were the speakers at a mass meeting in Barkers' Hall, Fifteenth Ward, arranged by representatives of various railroad organizations. The other speakers were T. J. O'Connell and C. T. Dwyer.

O'Donnell praised the labor record of the Mayor, citing especially his support as State Senator of the Mothers' Pension Bill, the Child Labor Bill and limiting women's hours of labor. John P. Egan, well-known football referee, urged the re-election of Kline in a speech at the Hotel Henry headquarters yesterday.

Hale Hill was announced as chairman of the campaign committee for H. Ralph Phillips, candidate for County Court Judge. Edward G. Coll is chairman of the committee of 500 lawyers supporting him, while H. D. Hirsh is chairman of the campaign committee. He is now in charge of the indictment room of the district attorney's office.

Roger McKelvey, candidate for council, announced today that he is in favor of the proposal to urge Council to increase the pay of police and firemen, which will be voted upon next Tuesday.

Thomas A. Dunn, unopposed mayoralty candidate in the Democratic primary, has announced that he will wait until after Tuesday before an extended attack upon the Republican Party. He pointed out that last fall the Democratic national ticket received 48 per cent of the votes cast in Pittsburgh and carried 14 wards.

PARADE FOR WINTERS

An auto parade as a testimonial to Daniel Winters, candidate for City Controller, will be held this evening. Starting at Washington boulevard and Fifth avenue, the parade will be routed through East Liberty, Lawrenceville, North Side, Herron Hill, South Side, Squirrel Hill, Greenfield, Hazelwood and Oakland.

"The statement of Henry O. Evans, City Controller, that I awarded or attempted to award city contracts for supplies with overcharges of 12 to 17 per cent to favored bidders is a lie," declared B. L. Succop, director of supplies last night. "I have never favored any bidder and Evans' intimation that I did or that I permitted overcharges is character assassination. I invite an investigation," said the director.

Boy, 14, Scolded, Slays Father In Sleep

FRIENDSHIP, Wis., Sept. 10.—(AP.)—Because his father, James Galeton, 50, scolded him for spending too much money and staying out late at night, Duncan Galeton, 14, said he shot and killed him with a rifle as he slept in his farm home near Adams.

Last night the boy was in the county jail here, charged with first degree murder. He readily confessed to the slaying when authorities arrested him at an Adams billiard parlor where he nonchalantly played pool. The money for the game, authorities said, was taken from his father's body.

CAROLINA MOB FLOGS TRIO

(Continued from Page One.)

away to the State Hospital for the Insane at Morgantown.

CRIES OF LYNCHING

At Gastonia a mob armed with sticks and stones, and estimated to number several hundred men, stormed the publicity headquarters of the National Textile Workers' Union and destroyed great quantities of Communistic literature.

After the Gastonia demonstration scores of men scoured the countryside in automobiles, threatening "Red" union sympathizers. Shortly after midnight the mob raided offices of the International Labor Defense here and at Bessemer City.

The Gastonia mob divided into three units. A large portion of them milled around the home of Tom P. Jimison, chief defense counsel in the Aderholt trial.

For 15 minutes yells of lynch law filled the air. When word was passed around that the attorney was at an uptown hotel the mob dispersed, not, however, until the main headquarters of the International Labor Defense across the street from the courthouse, where the Aderholt trial was held, had been ransacked and all Communistic propaganda destroyed and strewn over the streets.

INQUIRY PROMISED

The Gastonia mob descended upon Charlotte in 50 automobiles.

The onslaught upon the International Labor Defense branch office at Bessemer City occurred earlier. The mob tore signs from the building and made away with all the pamphlets and propaganda stored there.

Gastonia police professed to have no knowledge of the mob which paraded through the streets there. The occurrences here were not reported to the police until the mob had about dispersed. No arrests were made.

Solicitor John G. Carpenter, of Gastonia, who headed the prosecution in the Alderholt trial, declared that he intended to launch immediately a thorough investigation into the reported reign of terror.

RUSS OPEN WAR ON BIG FRONT

(Continued from Page One.)

in France during the World War. They are manned by obviously determined troops.

Disputed communication and transportation facilities have again reduced news from China-Russian "front" to rumor and hearsay, but it became increasingly obvious that a genuine offensive is under way, entailing heavy loss of life and threatening again to drag the Far East down into the morass of war.

CHINA RUSHES AID

Officials of the Nanking government are frankly fearful that the situation may shortly become one of direst extremity, and preparations are being made to rush all available reinforcements to the aid of Chinese troops stationed on the frontier.

Reports published by the official Kuomin News Agency state that Soviet troops have opened an offensive along a 2,000 mile front, with the heavy troop concentrations, which have been kept intact during the last few weeks of quiescence, flaring into sporadic activity at various strategic points along the border.

Manchurian commanders at Manchuli and Pogranichnaya have tendered official reports indicating that these two points have suffered most severely from the Soviet attacks.

SOVIET OPENS WAR

If these reports can be accepted without question, it appears that Sovet Russia has opened war upon China without the formality of a declaration.

SENATE QUIZ ORDERED IN NAVY ROW

Propaganda at Arms Parley Will Be Investigated by Naval Affairs Committee

International News Service.

WASHINGTON, Sept. 10.—The activities of William B. Shearer as a representative of American shipbuilding firms at the Geneva tri-power disarmament conference in 1927 will be investigated by the Senate Naval Affairs Committee, it was decided today.

A far-reaching investigation into anti-disarmament propaganda and those behind it was decided upon today by the Senate Naval Affairs committee.

EMPLOYED BY 3 FIRMS

It will extend to every phase of the matter — the activities of Shearer, who was employed by three shipbuilding concerns to represent them at the Geneva conference; the propaganda activities, if any, by high naval officers, and the activities of the big shipbuilding concerns that employed Shearer.

Admission that Shearr, so-called civilian naval expert, was employed by three shipbuilding concerns to represent them at the ill-starred Geneva conference in 1927 was made to President Hoover today by E. G. Grace, president of the Bethlehem Steel Corporation.

GRACE WRITES HOOVER

In a letter to President Hoover, which the White House made public today without comment, Grace said that Shearer was employed as "an observer" by S. W. Wakeman, an official of the Bethlehem Shipbuilding Corporation, who was described as being in charge of the steel company's shipbuilding business. He was given $25,000 for his services at Geneva, a third of which was paid by the Bethlehem corporation, and the rest presumably by the Newport News Shipbuilding Corporation and the American Brown-Boveri Company.

Shearer has sued the three concerns for $250,000 since they discharged him.

Grace's letter also disclosed that in 1926, Shearer was also employed by the shipbuilding interests for $7,500 to promote and encourage public sentiment in favor of a merchant marine.

The steel company head declared that Shearer's employment was without his knowledge, and that upon learning that Shearer was "a propagandist" his employment was terminated.

NEW YORK, Sept. 10.—(AP.)—A letter was made public today from Richard Washburn Child, former ambassador to Italy, to Senator W. E. Borah suggesting that the proposed investigation of the activities of William B. Shearer, should be extended to the disarmament lobbying of church and pacifist organizations.

A'S LEADING INDIANS

(Continued from Page One.)

right and when Dykes booted Miller's throw, L. Sewell went to third and Ferrell second. Cochrane dropped the third strike on Jamieson and threw him out at first. Tavener fanned. Two hits. One error.

PHILADELPHIA — Foxx drove deep to Averill. Miller popped to J. Sewell. Dykes walked. Hodapp tossed out Boley.

FIFTH INNING

CLEVELAND—Averill fouled to Dykes. Fonseca fanned. Falk walked. J. Sewell was hit by a pitched ball. Dykes muffed Hodapp's bounder, filling the bases. L. Sewell popped to Foxx. One error.

PHILADELPHIA — Earnshaw singled over first. Bishop forced Earnshaw, J. Sewell to Hodapp. Haas struck out and Bishop was out stealing, L. Sewell to Tavener. One hit.

Girl Who Won Swim To Buy Automobile

NEW YORK, Sept. 10.—(AP.)—What would a girl do with $10,000 suddenly acquired? Well, Martha Norelius, who won that amount in a swim at Toronto, is going to buy an automobile, for one thing.

TAKING HIS TAX BOOKS TO JURYROOM

Photo by Pittsburgh Sun-Telegraph

DELINQUENT TAX COLLECTOR WALTER J. CHRISTY MOVING ASSESSMENT BOOKS

Christy selecting the tax assessment books for the First, Second and Third Wards, as he was directed to do by subpena, to take them before the grand jury investigating alleged assessment fraud and phantom mayoralty vote conspiracy in Pittsburgh.

Modern Adam in Boston, En Route to Wilds

BOSTON, Sept. 10.—Burt H. McConnell, New York editor and back-to-nature exponent, passed through here last night on his way to New Brunswick, where he plans to spend 10 weeks in the bleak Canadian wilderness with neither clothing nor equipment.

The debonair adventurer seemed unconcerned on the eve of an experiment which has already taken the life of one famous explorer and endangered the lives of several others.

Accompanied by Mrs. McConnell, the modern Adam arrived in Boston late after a hurried trip to see his 6-year-old son, who is staying in Providence, R. I. Mrs. McConnell will return to New York Friday.

Just prior to the departure of the train for Canada he made the following statement:

"While the minister of lands and mines of New Brunswick is not hostile to my idea, he does not want to take the responsibility of approving what he considers a hazardous experiment.

"As a matter of fact, I would prefer to go to Quebec and have seriously considered going there. The reason is simple. There are no wolves in New Brunswick and I consider it very essential that I get some wolf skins and get them almost immediately upon my arrival at the scene of my life for the next 10 weeks."

McConnell will arrive at Fredericton, N. B., today. From there he will strike out by auto for Plaster Rock. There, he, in company with a committee, will board a canoe and proceed into the wilderness.

On Wednesday, McConnell, unarmed and naked, will be placed ashore and left to his own devices.

Cut in Mountains Named for Zep Chief

SAN DIEGO, Cal., Sept. 10.—(AP.)—A depression in the coast range of mountains east of here, through which the German dirigible Graf Zeppelin flew on its trip from Los Angeles to Lakehurst, today bore the name of Eckener Pass, in honor of the commander of the globe-girdling airship.

An Army plane carrying Maj. Carl Spatz, Army aviator, and Capt. Von Arnauld de la Perier, master of the German cruiser Emden, flew above the pass yesterday and dropped a parachute to which the American and German flags had been attached. This was the ceremony of dedication.

Britons Glower at Barber Called Over Sea for Trim

LONDON, Sept. 10.—(INS.)—The few remaining hairs which adorn the head of William F. Kenny, multimillionaire contractor and close friend of former Gov. Alfred E. Smith, may have to be entrusted to the mercies of European tonsorialists after all.

For, in spite of the fact that Kenny is spending something in the neighborhood of $1,000 to bring his own New York barber, Louis Arico, all the way to London to shear him as he would be shorn, sinister complications developed today.

With Arico aboard the Leviathan enroute to London and Kenny ready to pop over from Paris at a moment's notice for his hair cut, the British National Federation of Hairdressers is reported considering protesting to the Labor ministry and the home office against any such breach of convention as an American laborer plying his trade on British soil without proper official sanction.

This protest is based on the assumption that Arico departed from New York without obtaining a labor permit from the British consul.

Arico may be able to prove that he is coming to Britain only as a tourist. If he does, he may be able to cut Kenny's hair provided he receives no money for it, and provided Kenny is able to prove he has made all possible efforts to obtain a satisfactory hair-cut in London and failed.

But even with these proofs, Kenny may have to pay a British barber for the same length of time and wage as Arico would receive under ordinary conditions. All in all, it should be an interesting situation when Arico, armed with razor and shears, arrives at Southampton Friday.

5 MOUNTAIN CLIMBERS RESCUED FROM TOP OF MT. SHASTA

AMERICA'S AIR GIANT IN TESTS

Photo by Wide World

ASSEMBLED AT PHILADELPHIA NAVY YARD, 30-PASSENGER PLANE IN FLIGHT

The test flight of the first of two Dornier-Superwal flying boats to be assembled at Philadelphia Navy Yard by naval engineers supervised by German experts. This ship will carry 30 passengers. It is about 80 feet long and has a wingspread of 90 feet and in construction is a counterpart of the 100-passenger German plane. Each ship weighs 16 tons.

AIR TRANSPORT PILOT BELIEVED STORM-BLIND

T. A. T. Reports on Fatal Mt. Taylor Crash; Denies He Was Forced to Fly

International News Service.

ST. LOUIS, Sept. 10.—Following a conference of T. A. T. officials, including Col. Charles A. Lindbergh, chairman of the technical committee; Col. Paul Henderson, executive vice president, and J. V. Magee, managing vice president, a report concerning probable causes of the recent air tragedy on Mount Taylor was issued today.

The report was based upon Col. Lindbergh's observation of the scene and the telegraphic report from Paul Collins, general superintendent of the line, who directed the search and visited the wreck.

BELIEVED BLINDED

"Too many things are involved," the report stated, "to give an irrefutable cause of the accident. From a survey of the facts obtainable, it is our opinion that Pilot Stowe crashed into the ground at full speed and under full control. He may have been blinded momentarily by a severe storm.

"A dangerous storm area was not indicated in any of the weather reports and must have been very local in character. Just before taking off from Albuquerque Pilot Stowe was handed a weather report showing visibility, temperature, cloud conditions, barometric pressure and ceiling, and other important weather data from 12 reporting stations, in that area, three weather bureau stations and nine T. A. T. stations. At none of these places were hazardous flying conditions reported. On the same day our eastbound ship and aircraft of other companies flew the same route without encountering unusual conditions.

'NOT ORDERED AGAINST WILL'

"Pilot Stowe did not take off in the face of poor flying conditions or against his better judgment as no one in the entire T. A. T. organization has the authority to order a pilot to make such a flight.

"It is quite possible that full facts concerning the cause of the tragedy will never be known, but the company realizes its obligation to make public such facts and will do so if they are ever available.

"Because of the scores of planes, military, commercial and private which aided T. A. T. in its search, it will be some time before the searching fleet can be disbanded and the T. A. T. fleet and personnel returned to their proper stations. The mechanics of T. A. T. from Columbus to Los Angeles, having been assembled at Winslow, were engaged day and night in the task of keeping the searching fleet in proper condition. Regular schedules over T. A. T. will be resumed as soon as equipment and personnel are properly ready."

WEATHER PROBE FACTOR

LOS ANGELES, Sept. 10.—(INS.)—That the investigation of the crashing of the T. A. T. airliner, City of San Francisco, on the slopes of Mount Taylor, New Mexico, will hinge largely on the weather reports furnished the pilot of the plane was indicated here today.

The principal investigation will be held either at Albuquerque or Gallup, N. M., it was stated today by Maj. Clarence M. Young, federal commissioner of aeronautics.

The inquiry is to be in charge of R. J. Hazen, inspector for the aeronautic bureau of the Department of Commerce. He is now in New Mexico gathering data.

PUPILS MOWED DOWN BY AUTO

MARGARET SERRA

Margaret, 6, 22 Park way, one of six children, pupils of the first and second grades of Davis Public school, Stowe Township, mowed down by an automobile driven into a file of pupils crossing the street under the guard of teachers directing traffic. She was taken to Ohio Valley Hospital.

BESSIE MILANOVICH

Bessie, 8, 96 Fleming avenue, was treated and taken to her home.

LUCY DeALOISA

Lucy, 8, 33 Fleming avenue, was treated and taken to her home.

MILDRED ORLICH

SOPHIA ORLICH

Mildred, 8 and her sister, 7, 43 Fleming avenue, were also rushed to Ohio Valley Hospital after they were bowled over.

PLANE FINDS MAROONED GROUP

Two Men and Three Women 24 Hours on Bleak Peak Are Saved by Lumbermen

YREKA, Cal., Sept. 10.—(AP.)—Five mountain climbers marooned since Sunday on the eastern slope of Mount Shasta were rescued by lumbermen from McCloud last night after an airplane had located the group. All were suffering from cold and hunger but were otherwise unharmed.

The party includes Mr. and Mrs. L. J. Bedwell, Mr. and Mrs. Albert Bryson and Miss Rhoda Heney. They were forced to remain on a pinnacle from which they were unable to extricate themselves until a rescue party could reach them.

The climbers left McCloud Sunday morning to seek wood for violins on the slope of Mount Shasta. Bedwell is a violin manufacturer. They lost their way when the women wandered off into a side trail, and finally came to the pinnacle.

John Willbank, an airplane pilot who discovered the four missing persons, dropped food and coffee in hot water bottles to them. He notified woodsmen at McCloud of their position and a rescue party started up the mountainside.

SERVICE GROUP HEARS BREHM

River development, air-mindedness and industrial co-operation were outlined to Service Club representatives last night by Dr. Wayne Brehm, of Columbus, O., past international president of the Mercator Club, at an Inter-Club council dinner in the Fort Pitt Hotel. Closer harmony with the Chamber of Commerce was urged as a means of promoting greater interest in the projects.

The Inter-Club council is composed of officials of all service clubs in the city and prior to last night, when a change was made, it had been known as the presidents' round table. The membership includes presidents and secretaries of the Aero, Rotary, Co-operative, Kiwanis, Lions, Monarch, Mercator clubs and Downtown Post No. 59 of American Legion.

Prior to the dinner Dr. Brehm was taken for an air tour over Pittsburgh.

PALESTINE FOES OPPOSE QUIZ

JERUSALEM, Sept. 10.—(INS.)—Widespread opposition both by Jews and Arabs continued to be heard throughout Palestine today over the progress of the government inquiry into the recent interracial rioting in the Holy Land.

Efforts are being made by leaders of both factions to terminate the present inquiry headed by Sir John Chancellor, British high commissioner in Palestine, and have substituted for it an international commission of investigation.

ARABS FIGHT PROBE

Charging that the "Jewish Bolsheviki" was responsible for the outbreak, the Grand Mufti of Jerusalem has informed Sir John that all investigations would be illegal if conducted by Jewish investigators.

Supported by the Moslem Supreme Council, the Grand Mufti is demanding an investigation by representatives of all nations, instead of an all-British commission.

The Jews are equally dissatisfied with the progress of the inquiry, charging that biased testimony is being taken from Arab policemen who, instead of attempting to maintain order, participated in the attacks and were among the principal despoilers of Jewish homes.

CALM NOW

The situation is now generally calm, although sporadic conflicts have been reported between individual Jews and Arabs at Haifa and other places throughout Palestine.

Sir John Chancellor has been asked to investigate charges that Jewish merchants are selling poisoned food to Jews. The health department has seized stocks of grapes alleged to have been poisoned and sold to Jewish purchasers. One woman is reported to be in a serious condition as a result of eating poisoned food.

The third eye-witness account of the disorders in Palestine, as written by Dr. S. Margoshes, Jewish editor, is on page 11.

Teacher Fights 'Flapper-Age' Accusers

KNOXVILLE, Tenn., Sept. 10.—(AP.)—Miss Mildren Doyle, 23, and pretty, who is accused by parents of her pupils of being a product of "a young, reckless, thoughtless, don't care flapper age, thinking of everything but the serious side of life," performed her duties as principal of a county high school near here without show of concern today while awaiting a hearing of the charges before the Knox County Board of Education.

The accusations were answered by Miss Doyle in a statement in which she declared the mention of the "flapper age" was a "general indictment of the younger generation." The Knox County Board of Education meets tomorrow.

MISS TRUMBULL GIVEN SHOWER

PLAINVILLE, Conn., Sept. 10.—(AP.)—The young social set of Plainville, home of Gov. John H. Trumbull, last night gave his daughter Florence a kitchen shower. She is to become the bride of Major John Coolidge, son of former President Calvin Coolidge, the afternoon of September 23.

The shower, arranged by Mrs. John Minor, Jr., and her sister-in-law, Mrs. Richard Minor, social leaders of this place took place in the former's home, which adjoins the Trumbull estate.

BANKER CALLED 'ROBIN HOOD'

OMAHA, Neb., Sept. 10.—(INS.)—C. D. Waggoner, Telluride (Col.) banker, who is accused of having received $500,000 from New York banks on forged credits, was characterized as a "Robin Hood of big finance" today by District Judge James Fitzgerald, of Douglas County, who said he talked with Waggoner last Wednesday while a nation-wide search was in progress for the banker.

"He told me he took from the rich to aid the poor because he hated New York financiers, whom he blamed for wrecking Telluride," said Judge Fitzgerald.

He met Waggoner, the judge asserted, in Grafton, Neb., Waggoner's former home. They are old friends.

Of the $500,000 the Telluride banker is said to have obtained, $310,000 was applied toward regaining his own notes and those of his fellow townsmen, according to Waggoner's explanation as related by the judge.

Churchill to Visit Hearst in California

SAN FRANCISCO, Sept. 10.—The Right Hon. Winston Churchill, former British chancellor of the exchequer, will arrive in San Francisco Monday. The noted author-statesman, completing a trans-continental tour, was met in Grants Pass, Ore., by Gerald Campbell, British consul general here. He left the train there and in company with consul, is motoring here. Churchill expects to go to the San Simeon estate of William Randolph Hearst.

COOL WEATHER FORECAST

Cooler weather, following thunderstorms, was promised for the tri-state district today by the weather bureau.

The highest temperature recorded in Pittsburgh yesterday was 82 degrees, 10 degrees lower than the highest mark reached last week, but due to the humidity, the heat was more noticeable. The lowest was 72 degrees, with an average of 77 for the day.

Held in Fatal Fire, Admits Burning 4 Schools

MEMPHIS, Tenn., Sept. 10.—(AP.)—Rosebud Ankton, 15, Negro, held by police in connection with the recent burning of the industrial settlement home here in which eight Negro children lost their lives, has confessed also to setting afire three school buildings in Okolona, Miss., police announced.

"I wanted to leave school and go home, so I kept on burning the buildings," the girl is quoted as having told police officials.

AUTO INJURES SIX CHILDREN

If children of the Davis Public School, Orr street and Island avenue, Stowe Township, were a little startled at the sound of auto horns today, it was because they had a vivid lesson yesterday that haste often makes worse than waste.

Three of their number were in a hospital and three were in beds at home, suffering from injuries received when an auto plowed into their ranks while the pupils were crossing Island avenue at noon recess.

The injured are Mildred Orlich, 8, and her sister, Sophia, 7, of 43 Fleming avenue; Bessie Milanovich, 8, of 96 Fleming avenue; Lucy DeAloisa, 8, of 33 Fleming avenue; Margaret Serra, 6, of 22 Park way, and William Marracino, 6, of 75 Fleming avenue, all of Stowe Township.

3 TAKEN TO HOSPITAL

The Orlich sisters and the Serra girl are in the Ohio Valley Hospital. Their condition was reported as fair today. The others suffered lacerations and bruises.

Joseph Hohn, 21, of Federal, Pa., alleged driver, was arrested and lodged in the Stowe Township Police Station.

The children were being led across the street by two of the teachers, Mrs. Frances Dressman and Miss Bertha Curry.

Mrs. Dressman had halted a line of east and west bound cars in Island avenue and the children were crossing the street in two lines. Hohn was alleged to have disregarded her signal to stop after cutting around the line of waiting machines, and struck the double line of pupils.

Auto Kills Girl, 4, Going to Get Doll

OIL CITY, Pa., Sept. 10.—Her affection for her doll cost the life of Thelma Jean Oakes, 4. As she was crossing the street between two parked cars to get the doll from her father's automobile, she was struck and killed by another machine, in Lamartine.

Divorce Talk Denied By Young Vanderbilt

MONTCLAIR, N. J., Sept. 10.—(INS.)—Cornelius Vanderbilt, Jr., today put the quietus on rumors of a rift in his marital affairs by announcing that he and his wife were on the best possible terms. They are stopping at a local hotel.

SQUIRREL HILL WARS ON SPEED

The failure of police to curb speeding and reckless driving in the main thoroughfares of Squirrel Hill was hotly scored at the regular monthly meeting of the Squirrel Hill Board of Trade in the Morrowfield Apartment Hotel last night.

The complaints, made by a half dozen residents who charged that Murray avenue and Forbes street were being used as speedways, thus causing many accidents, were referred to the police and light committee of the board. The committee will take up the matter with Director of Public Safety James M. Clark.

John Heinz and Edward L. Carlin, chairman and secretary, respectively, of the Police and Firemen's Welfare Committee, addressed the body on the police and firemen's referendum for salary increases which will be voted upon at the primaries.

Upon motion of Thomas O. Hasley the trade board announced in favor of the raise.

Ex-Pitt Instructor Awarded Fellowship

Marvin Chauncey Ross, former member of the fine arts faculty of the University of Pittsburgh, has been awarded a traveling fellowship by the Carnegie Corporation of New York for study of the fine arts in Europe, under the direction of Harvard University. He plans to sail early next month and will spend most of his time in Paris, Italy and Spain.

ARABS WITH DRAWN SWORDS IN ANTI-JEWISH DEMONSTRATION

ARABIAN HORDE NEAR JERUSALEM IN MAD RIOT BEFORE MOVING TO RANSACK AND MASSACRE JEWISH SETTLEMENTS

Savage Arabs with menacing sabers in a demonstration protesting the presence and the religion of Jewish people in the Holy Lands. This mob rioted near Jerusalem in a mob scene oft-repeated during the past few weeks. British troops are battling for control of the situation.

Meyersdale Hotel Faces Dry Padlock

Judge F. P. Schoonmaker in Federal Court today granted a preliminary padlock injunction against the New Colonial Hotel, Meyersdale, Pa., for alleged violations of the liquor laws. William Stein was named as proprietor and J. W. Rush owner of the building.

Hat Store Concern Cited as Bankrupt

An involuntary petition in bankruptcy was filed in Federal Court today against J. Litt, trading as the Manhattan Hat Store, this city. Creditors' claims totaled $2,367.

POSITIONS OPEN TODAY

Building construction — architecturally interested men, preferably college graduates.

Draftsmen, immediate opening for several first-class designers, checkers and detailers on rolling mill machinery.

Templet makers, structural setters, tank and caulkers, layouts and fitters for structural shop.

Competent woman, 35 to 40 years, to supervise and check up on certain aspects of its work in Pittsburgh.

Secretary-Stenographer, appearance and neatness absolutely essential; college graduate preferred.

Stenographer, competent, $110.

Experienced shoe saleslady wanted.

Girl for general housework.

For these complete and other good positions, see Classifications 4 and 6, in Today's Sun-Telegraph Classified Ads.

'Chute Fails, Girl Falls 1,500 Feet; Lives

WAUKEGAN, Ill., Sept. 10.—(AP.)—Falling 1,500 feet in the air, certain that death awaits, is easy compared to the sensation of lying on the ground, breathless, while feeling to see if one is whole, in the opinion of Miss Evelyn Miller, 22-year-old aviation enthusiast. Miss Miller narrowly escaped death yesterday when the ring on the rip cord of her parachute broke as she pulled it, after she had jumped from her airplane.

The chute opened only enough to break her fall slightly more than a hundred feet from the ground.

"As I jumped from the plane I waited the regulation 100 feet and then pulled the ring for the chute cord," she said. "I felt a jerk like that which comes from the opening of the chute and paid little attention to anything, sure that the drop would be easy.

"Suddenly I got the sensation that I was falling very fast. It took my breath away and when I looked up I found that the chute had closed and the aluminum ring holding the shroud lines had broken.

"About 100 feet from the ground I felt another little jerk and people told me later that somehow the chute had filled out again to break the fall, but I didn't seem to notice it at all.

"Then I hit the ground with a thud and was sure that was the end. I couldn't breathe for a while and every part of my body was aching intensely. Gradually I began to breathe more freely and started to feel my bones, certain that some had been broken. It was terrible, but I was relieved when it was over. Then I had an impulse to stagger to my feet, but by that time a crowd had gathered and someone took me to an automobile."

Miss Miller's injuries consisted of a wrenched back and sprained ankle.

SOUSA'S TRAIN WRECKED

WALSENBURG, Col., Sept. 10.—(AP.)—Seven persons were injured when John Philip Sousa's special train was derailed 13 miles southwest of here yesterday afternoon.

Sousa, the noted band conductor, escaped with only a slight shaking up. He said it was a miracle that many were not killed. The cause of the derailment was undetermined.

The Denver and Rio Grande train left the track at Capps, Col. It was en route to Pueblo, Col.

The injured included E. D. Johnson, 44, of Pittsburgh, and William Herb, 45, of Allentown, Pa.

20 WILL TAKE 'ARMY' COURSE

Twenty young men and women will leave Pittsburgh for New York tonight, where they will begin training in the Salvation Army College, of which Ensign William Maltby, a Pittsburgher, is educational secretary. Each year Western Pennsylvania cities send a quota of students to the college, where they are trained in Salvation Army work.

Candidates this year are: Rebecca and Mary Funk, of 208 East Ninth avenue, Tarentum; Atha Miller, of 704 Braddock avenue, Braddock; Margaret McClymont, of Erie; Geraldine Bowman, of Corry; Albert Evans, of Dubois; Mary Garbrick, of Kane; Mary Woodley, of Bradford; Elsie Laws, of Washington; Dora Beers and Nina Williams, Clarence Dornberger and Robert Shannon, of Johnstown; Jennie Wilson, of Monessen; Amelia Wing, of Vandergrift; Martha Daugherty, of Kittanning; Mary Hullihan, of Greensburg; Mary Loonan and Mr. and Mrs. David Newell, of Oil City.

Aix-la-Chapelle Seals Bathtubs To Save Water

AIX-LA-CHAPELLE, Prussia, Sept. 10.—(AP.)—Every bathtub in Aix-la-Chapelle today was sealed officially with lead and made unusable as an emergency water conservation measure. Garage water connections also were sealed, and the water tax raised to 25 cents per cubic meter.

The extreme dry weather caused a water shortage here.

PITTSBURGHERS ON LINER

NEW YORK, Sept. 10.—Arriving from Europe with a distinguished list of fellow passengers, Miss Jean L. Fagan, of 738 North Highland avenue, and Howard C. Kidd, of the University Club, Pittsburgh, reached here last evening in the S. S. Carinthia, returning from Liverpool.

Others were Miss Philip Knapp, of Sewickley, and Mrs. R. H. Bailey, of 530 Grove street, Sewickley.

The Cunarder, arriving from Queenstown and Liverpool, also brought in John W. Davis, former United States ambassador to Great Britain; Lord and Lady Nunburn Holme, Baroness Wenner and Edward I. Edwards, former governor of New Jersey.

Court Orders Wife To Buy Beauty Aids

NEW YORK, Sept. 10.—(AP.)—It is just as important for a wife to keep herself attractive as it is for her to keep the house clean, in the opinion of Jeannette G. Brill, a Brooklyn magistrate. When Mrs. Bessie Schmierer complained of her husband's attentions in other quarters, the magistrate imposed the following sentence on the complainant: "Go to the nearest drug store, get yourself some rouge, powder and lipstick and make yourself attractive to your husband."

Slayer of 3, Facing Gallows, Poisons Self

SPRINGFIELD, Mo., Sept. 10.—(AP.)—Admitting that he deserved to die for the murder of three people, Newell (Dobb) Adams, under sentence to be hanged September 27, was dead today as the result of swallowing poison tablet, which he had kept hidden in his cell in the Green County jail for nearly a year. His dying words to Sheriff Marcell Hendrx and his wife, Mrs. Meada Adams, were: "I did not deserve to hang, but I guess I do deserve to die." He retained consciousness to the end.

Discharged in Dry Case, Demands Seized Liquor

CHICAGO, Sept. 10.—(AP.)—Mike Skuye, having been freed of a charge of liquor law violation, thought the court ought to return the bottle of whisky it had confiscated when he was arrested.

Skuye had gone into a place to buy liquor and raiders found him there. Judge Immenhausen yesterday ordered him discharged.

Alaska to New York Canoeist in Seattle

SEATTLE, Sept. 10.—(AP.)—Having navigated a tiny skin canoe through 900 miles of sea between Juneau, Alaska, and Seattle, Albert Voight, of Los Angeles, rested here today before resuming his trip to New York.

Leaving Juneau June 27, in the 16-foot vessel which contains a minature cabin and a single sail, the venturesome canoeist ran into two storms on his way here, he said. The little canoe rode through the ocean swells and Voight said he suffered no worse inconvenience than a thorough wetting.

TOMORROW

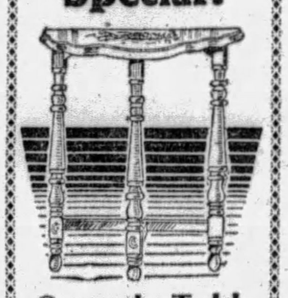
$79

Only $7 Monthly

Wednesday Special!



Console Table

98c

Another special at a price never before heard of. For that blank space in the hall or the living room, or at the head of the stairs, it is an ideal piece of furniture. The quantity is limited. The table is beautifully finished in duotone green.

Chairs or Rockers

Another Unusual May-Stern Offer.

$6.95

$1 Monthly

Very modish occasional chairs and rockers that enhance the beauty of your living room; have velour auto type seats; fancy walnut panel backs. They would cost you $10 if they were not specially priced.

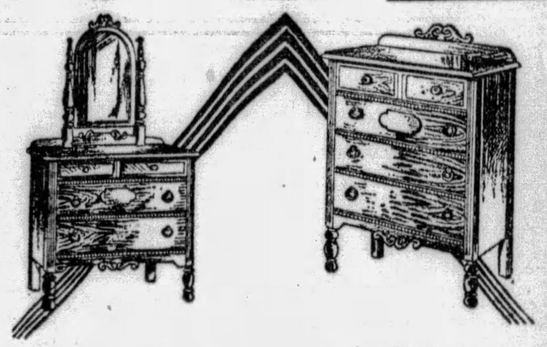
Chairs or Rockers

Featuring the New Scoop Seats.

$9.50

$1 Monthly

These are the much preferred scoop seat kind, with plain button tufted velour seat; stately high backs of figured velour. They will lend a touch of color and an air of luxury to the room. Formerly priced $14.75.



Handsome Dresser

$19.50

$2 Monthly

Has smart French mirror and four roomy drawers, well constructed. It matches the Chest opposite, and the Bed, below, should you desire a complete 3-Piece grouping. Priced separately for your convenience. Walnut finished, it will add greatly to the beauty of your room.

Chest of Drawers

$13.50

$1 Monthly

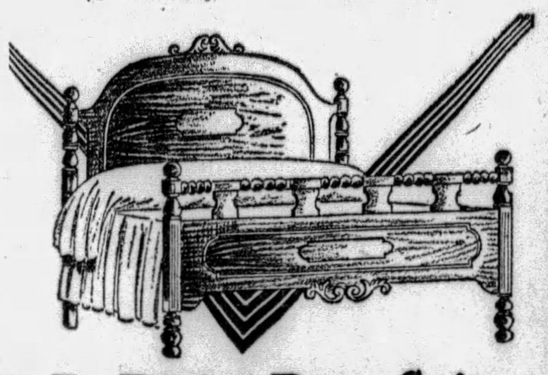
Ample drawer space is always needed in the bedroom. Five large, roomy drawers will amply take care of the average need. Like it's companion pieces, it is finished in walnut and is of the same fine quality construction. An opportunity that presents a real saving to you.

Modern Design, New Style Bed

Imagine being able to buy a bed of such quality for such a low sale price. Very modern in design with its paneled, straight foot-board with turned cross rails. Full size and finished in beautiful walnut. The ideal piece for the spare bedroom that will add greatly to its beauty.

$15.75

$2 Monthly



RCA RADIOLA 33 in a BRUNSWICK CABINET Instead of $122.75 All Complete for $69

Consists of:
—RCA Radiola 33
—RCA 100-A Speaker
—7 RCA Radiotrons
—Brunswick Cabinet

You would not for a minute question the quality of RCA products . . . Radiola 33 is their most popular model—housed in the Brunswick Low-Boy Cabinet (as illustrated).

A Radio you can justly be proud of and one that will give you utmost satisfaction, but—instead of the nationally advertised price of $122.75 you buy it at May-Stern's at $69 all complete.

See the big display in our windows.

Never Such A Radio Value!

Radiola 33 is noted for its sharp selectivity due to the precise tuning adjustment from the single illuminated dial. Tone unusually clear and distinct through the famous RCA 100-A Speaker built in the cabinet. Switch is the new pendant type, sure and positive in action. To insure perfect reception the set is powered with 7 RCA Radiotrons.

Brunswick has created a beautiful cabinet of American Walnut, artistic and stately in design, an additional piece of furniture worthy of the finest home.

ON EASIEST CREDIT TERMS!

8-Pc. Dining Room Suite

Includes Buffet, Extension Table Host and 5 Side Chairs in Mohair

$69

A Suite of such refinement and character that you will wonder how it can be priced so low. Just another proof of the value giving that May-Stern's are noted for. More surprising is the fact that the Host chair and 5 side chairs are covered with genuine Mohair, a feature found in the highest priced suites. A 60 inch Buffet and the extension table complete this exceptional grouping. Finished in a beautiful, polished walnut. A May-Stern super value.

Only $6 Monthly

Walter Winchell
On Broadway

NEW YORK, Sept. 10.

This Town of Ours

PAUL LANNIN, "Great Day" musical director, just inherited $3,000,000, but won't stop juggling the baton . . . Katharine Parrott's tag will replace "Anonymous" with the next edition of her novel, "Ex-Wife" . . . Edna St. Vincent Millay has written a series of pash sonnets for spring publication, but they are all dedicated to her husband, fancy! . . . The Satdee Evepost has dropped Tom Masson and its "Short Turns and Encores" page . . . Jed Harris, it is rumored, was captured by the Arabs—but they returned him . . . Ralph Barton has replaced the very odd McIntyre as critic on Life.

IT'S A SECRET

Harry Bruno, Lindbergh's only press agent, and Nydia D. d'Arnell, the prima donna, will be secretly wedded in London shortly....Homer Orvis, of the social register, and Shirley Vernon, the onginoo, will ankle up an altar next month...a. Consuelo Flowerton, phormer Ziegfeld phrail, who married Dirk Foch, the famous conductor, plays a bit in "Remote Control," which opens Chewsday.....The John J. Foxes' (Dorothy Brown of "Whoopee") anticipate a blessed event.....The Neiu Yaukur will undergo a shake-up.....Life and Percy (Skippy) Crosby have phffft!.....Arthur Schreiber, the "Yellow Bird" stowaway, is appearing in Philadelphia burlesk stick this wk. . . . The fussy Pennsylvania moom pitcher censors made nine cuts in "The Cock-Eyed World."

Agnes O'Laughlin, the Ziegfeld toe-tapper, still gives Rudy Vallee that thump in his heart, for he torrid-telegrams her hourly from Hollywood.....That story in the trade journals about the co-operative spirit in the Harold Heidt "Californians" band, was framed by Fred Whitney, a Philly exploiter.... The "Edward A. Edwards," listed as co-author in the "Great Scott" playbills, is Abe Blatt, who was afraid it wouldn't click.....Chick Kaler and Claire Carroll, show gel, went and did it in Newark last wk. Two collegiates had their domes busted by bottles in a whoopee parlor the other yawning for violating the Stem's only unwritten law: "Never fool around the other fellow's girl!" Bravo! Bravo! Bravo!

A MALE TENOR

NEW YORK Telegram reporters are warned that they musn't talk to Eveninw Sun men...Arthur Brown, one of the few tenors who doesn't walk like a pansey, walked out of the Chateau-Madrid in a huff . . . Before U. S. Customs men board sister ships of the Vestris they hold a mock prayer service aboard their cutter. . . . The orange drink stand which is doing a terrif trade on the Canyon at Forty-sixth was a flop in California. . . . Edna Ferber has an apartment next to Richard Rogers and threatens to put on a non-stop Gershwin record if the young composer disturbs her...Althea Heinie of "Show Girl" and Bud Ernst are plenty Garboing.

Elisabeth North, who did the flower girl bit in "Broadway," is now casting director for the R. C. A. Gramercy studios...The Pittsburgh Sun-Telly, the Baltimore News and the Washington Herald sell plenty at the Forty-third street, Out of Town Newsstand...Bobby Dolan and Josephine Dunn are That Way in Hollywood...The Abe Lyman-Frances Shelley romance is a phoney that some of the rags fell for with a thud...Hannan Swaffer of the London Express is the only critic who gets a hand as he walks down the aisle...Allen Jackson, the mag writer, and Libby Holman, of "The Little Show," are moanin' low... Add Broadway Toasts: "Here's champagne to my real friends and real shame to my sham friends!"

BIG PEDDLER'S REWARD

ONE of the better known New York drama oracles and the wife are having it amicably abrogated . . . Yvonne "Follow Thru" Gray and Bryan Dunleavy were handcuffed ever so many months ago . . . That show gel in "Sweet Adeline" who looks like Helen Morgan was once Broadway's prettiest ciggie peddler . . . George Horace Lorimer of the SEPost thinks the greatest humor-cartoonist is Donald McKee . . . B. Rascoe is slowly recovering after a sever illness . . . The horses in the Belmont racetrack ads run in the opposite direction . . . What very prominent novelist's wife takes off her clothes at parties after the 3rd drink?

Recommended to diversion seekers: "Open Up Your Heart," a contagious "Great Day" chune . . . Donald Barr Chidsey's "Marlborough" (John Day) . . . Edward Doherty's "The Broadway Murder" novel, a thriller . . . Paul Whiteman's crew at the Pavilion Royal . . . The electric chair at Texas Guinan's . . . "Big Time," the Roxy flicker . . . The Central Park Casino broccoli and butter sauce, and the Lenox Club in Harlem after 3 a. m.

WHO'S WHOING ALEX?

WHEN A. Woollcott debuts before the WOR mike Wensdee at 7:30 Retlaw Chellwynn will explain who he is. . . . William Fox's relatives have the insurance and candy concessions in his theaters. . . . When Guthrie McClintic directs a play of theirs Sam Shipman and John B. Hymer are not allowed in the theater until after the premiere. . . . Dolores Del Rio rates $8,500 per 52 wks. in the yr.... . . . William LeBaron, one of the richest movie magnates in Hollerwood, still writes lyrics for Vincent Youman's songs. . . . Adele Smith and Jack Lewis, of the "Whoopee" ensembles, shelve Ziegfeld this wk. for smaller wages in the California troupe of "Good News" so kuh-razee are they over each other. . . . In Washington they'll tell you that Cal wants to be prez, again. . . . Vincent Lawrence, the playwright, says if he has to die he prefers being crushed by a mob trying to get into one of his shows.

Sam Katz, prez of the Publix Theaters; Robert T. Kane, prez of Pathe, and Sidney R. Kent, general manager for Famous-Players, are called the "K. K. K." pals. . . . Katz is a Jew, Kane is a Cath. and Kent is a Prot.....Modern husband's threat to his wife: "You'd better be a nice girl to me or I'll write a book and called it 'Ex-Husband' and make you the heroine, boo!" . . . Sousa, who will be 75 in November, will earn more than $300,000 this season playing marches. . . . Before he got famous R. Vallee played for Harmony and Velvet Tone records under the tag of Frank Mater and Collegians. . . . It's a boy at the Walter (Colliers) Davenports' and at the John C. Borden's' (Judith H. Marvin). . . . The musical "Tin Hats" plot is based on "The Big Parade."

Man Pleads Guilty, State Asks Death

BEAVER, Pa., Sept. 10.—The state will demand the death penalty for Pete Militick, Midland, on trial for the stabbing of Mike Chuckovich at Midland, July 4. Militick pleaded guilty when arraigned on a charge of murder. Assistant District Attorney Leonard Ewing told the jury the state would show Militick invited the man to his home, then killed him.

Woman, 60, Arrested In Big Jewel Fraud

NEW YORK, Sept. 10.—(INS.)—Mrs. Marie J. Leslie, aristocratic looking gray haired woman of 60, was being held today on charges of fraudulently obtaining $480,000 in jewels from a New York department store. She said she is the daughter of the late Edward P. Eastman, Philadelphia sugar manufacturer.

Bee Sting Causes Collision of Autos

DOVER, O., Sept. 10.—A bee which stung Katherine, daughter of Mrs. Dora J. Casto, Akron, caused the latter to lose control of the automobile which she was driving, which collided with a machine driven by W. E. Simmons, Tuscarawas. Both women were injured.

WHAT IT MEANS TO BE PRESIDENT
by Calvin Coolidge

(Continued from Page One)

most likely to bring the desired result. While there are times when the people might enjoy the spectacular, in the end they will be satisfied only with accomplishments. The President gets the best advice he can find, uses the best judgment at his command, and leaves the event in the hands of Providence.

Under Multitude of Eyes

Everything that the President does, potentially at least, is of such great importance that he must be constantly on guard. This applies not only to himself, but to everybody about him. Not only in all his official actions, but in all his social intercourse, and even in his recreation and repose, he is constantly watched by a multitude of eyes to determine if there is anything unusual, extraordinary, or irregular, which can be set down in praise or in blame. Oftentimes trifling incidents, some insignificant action, an unfortunate phrase in an address, an injudicious letter, a lack of patience towards someone who presents an impossible proposition, too much attention to one person, or too little courtesy towards another, become magnified into the sensation of the hour. While such events finally sink into their proper place in history as too small for consideration, if they occur frequently they create an atmosphere of distruction that might seriously interfere with the conduct of public business which is really important.

Presidential Protection

It was my desire to maintain about the White House, as far as possible, an attitude of simplicity and not engage in anything that had an air of pretentious display. That was my conception of the great office. It carries sufficient power within itself, so that it does not require any of the outward trappings of pomp and splendor for the purpose of creating an impression. It has a dignity of its own, which makes it self-sufficient. Of course, there should be proper formality, and personal relations should be conducted at all times with decorum and dignity, and in accordance with the best traditions of polite society. But there is no need of theatricals.

However, much he may deplore it, the President ceases to be an ordinary citizen. In order to function at all, he has to be surrounded with many safeguards. If these were removed for only a short time, he would be overwhelmed by the people who would surge in upon him. In traveling it would have been agreeable to me to use the regular trains, which are open to the public. I did once or twice. But I found it made great difficulty for the railroads. They reported that it was unsafe, because they could not take the necessary precautions. It therefore seemed best to run a second section, following a regular train, for the exclusive use of the President and his party. While the facilities of a private car were always offered, I think they were used only once, when one was needed for the better comfort of Mrs. Coolidge during her illness.

Although I was not given to much travel during my term of office, it was sufficient to convince me that the government should own a private car for the use of the President when he leaves Washington. The pressure on him is so great, the responsibilities are so heavy, that it is wise public policy, in order to secure his best services, to provide him with such ample facilities that he will be relieved as far as possible from all physical inconveniences.

It is not generally understood how much detail is involved in any journey of the President. One or two secret service men must go to the destination several days in advance. His line of travel and every street and location which he is to visit are carefully examined. The order of ceremonies has to be submitted for approval. Oftentimes the local police are inadequate, so that it is necessary to use some of the military or naval forces to assist them. Not only his aides and his personal physician, but also secret service men, some of his office force, and house servants, have to be in attendance. Quarters must also be provided for a large retinue of newspaper reporters and camera men who follow him upon all occasions. Every switch that he goes over is spiked down. Every freight train that he passes is stopped and every passenger train slowed down to 10 miles per hour. While all of this proceeds smoothly, it requires careful attention to a great variety of details.

Effects of Radio

It was never my practice to speak from rear platforms. The confusion is so great that few people could have heard, and it does not seem to me very dignified. When the President speaks it ought to be an event. The excuse for such appearances which formerly existed has been eliminated by the coming of the radio. It is so often that the President is on the air that almost anyone who wishes has ample opportunity to hear his voice. It seemed more appropriate for Mrs. Coolidge and me to appear at the rear of the train where the people could see us. About the only time that I spoke was at Bennington in September of 1928, where I expressed my affection and respect for the people of the state of Vermont, as I was passing through that town on my way back to Washington. I found that the love I had for the hills where I was born touched a responsive chord in the hearts of the whole nation.

(Copyright, 1929, Bell Syndicate, Inc.)

(In the next article Mr. Coolidge gives us an insight into the workings of the Federal Government.)

Raiders Mop Up Evidence, Hold Man

BROWNSVILLE, Pa., Sept. 10.—When officers entered the home of Joseph Surago, at Vesta No. 6, near here, they claim Mrs. Surago attempted to destroy "evidence" by smashing a five gallon jug. The police mopped up a gallon, and placed Surago under arrest on charges of violating the liquor laws. They also seized a quantity of raisin jack and raisins. Surago was held for court under heavy bond.

Dover Mills Make New Tonnage Record

DOVER, O., Sept. 10.—August steel production of the American Sheet and Tin Plate, and the Reeves Manufacturing Company, Dover, established a post-war record. Sixteen hundred are employed at the two mills, which are working at capacity.

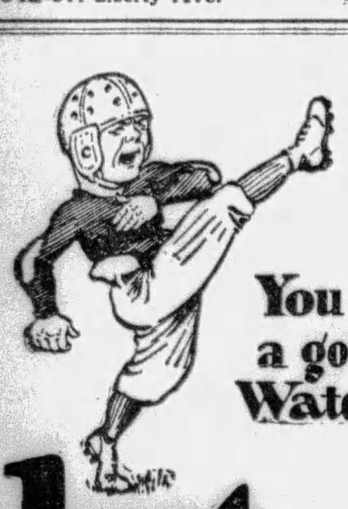
A WATERMAN PEN TO FIT EVERY STUDENT'S HAND
FOUNTAIN PENS REPAIRED BY AN EXPERT.



You can't kick a goal with a Waterman's but

you can use a Waterman's to help you make the team. The more easily studies are mastered, the sooner the team is made—and there are thousands of high school and college students ready to affirm that the use of a Waterman's simplifies the mastery of every student problem. No matter how ambition aims, a Waterman's will help.

Made in almost unlimited variety, there is a Waterman's to meet every preference.

The hard-rubber, perfectly balanced holder is light and stainless and does not tire the hand in writing.

The ink capacity is more than ample for all requirements, and refilling is accomplished almost instantaneously by means of a safety self-filling device which is a positive guarantee against the accidental discharge of ink.

Waterman's No. 7 is the newest and most appealing idea in fountain pens. There are seven different pen points to choose from, each identified by a distinctive color band on the cap.

Ask any dealer to show you Waterman's No. 7 and select the point that best suits your style of writing.

Real Estate

A three-story brick dwelling at 1908-10 Fifth avenue has been sold by George Antonoplos to Salvatore Busa, for $14,000. The lot is 45x85 feet.

A brick and stucco dwelling at 6612 Woodmont street, Fourteenth Ward, has been conveyed from Frank C. Iams to Malcolm C. Smith. The lot is 48x64 feet.

In Overbrook, Clifford W. Eighmy, builder, has sold to William Haller 30x110 feet with a house in Beverly place, for $9,800.

A property at Forty-sixth street and Eden way, Ninth Ward, has been conveyed from the Pittsburgh Baptist Association to John F. Loresch and Harry W. Loresch, for $8,300.

On the South Side, the Goedecke Realty Company sold for John Hubsch to Joseph Zanich, a frame dwelling at 136 South Twenty-fourth street, for $6,100.

The Sun-Telegraph Fifteen Cent Pattern

A DAINTY FROCK FOR SLENDER FIGURES.

Printed crepe or linen may be used for this design. The waist portions are lapped from left to right to effect a double breasted closing. The deep V opening at the neck is squared by a vestee, and outlined by a wide collar which extends over the back. Plait fulness is inserted at lengthwise slashes in the front of the skirt portion. The fitted sleeve is finished with a cavalier cuff.

This pattern is cut in 5 sizes: 34, 36, 38, 40 and 42 inches bust measure. To make the dress for a 38-inch size, will require 4 yards of 36-inch material. To make collar, vestee, cuffs, belt and plaiting of contrasting material will require ⅞ yard 39 inches wide and cut crosswise. If made without collar and cuffs the dress will require 3⅜ yards of 36-inch material. The width at the lower edge with plait fulness extended is 2 yards. To make the plaiting or ruffling cut a length or strips to measure 4½ yards by 1¾ inches wide, and cut crosswise of the material.

COUPON.

This pattern will be sent on receipt of 15 cents (silver or 2c and 1c stamps). Make number, name, address, etc., plain. Send to Pattern Department, The Pittsburgh Sun-Telegraph, Pittsburgh, Pa.

No. 6579. Size.....

IN THE STORE FOR MEN

Haberdashery in the Collegiate Manner

Clocked Silk Hose
$1.50

Clocked silk is the choice of the majority of college men. These are in gray, black, tan and plain white, with contrasting clocks. Full fashioned with reinforced lisle tops, toes and heels. Sizes 10 to 11½.

Broadcloth Pajamas
$2.50

Fine count, high lustre broadcloth in solid colors of blue, tan, green, helio and white. Each generously cut to give that fullness which assures comfort. A, B, C and D sizes in English collar, middy or low-neck styles.

Shirt and Tie Set
$3.50

A new college style in which both the shirt and tie are made of Oxford cloth. Come in solid colors of blue and tan—also white. Shirts have the smart bandless attached collar, two pleated pockets and sports cuff. Complete size range.

Hornebilt Hats
$5

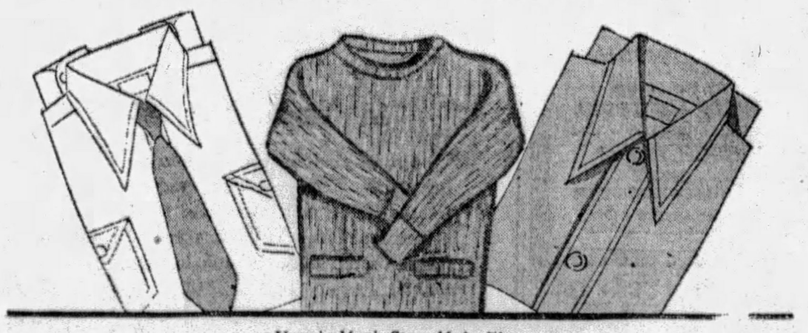
Choose your new school hat from this exclusive line . . . accurately showing the best and smartest accepted college models. The favorite is the snap brim of lightweight felt, with smaller brim and higher crown . . . usually worn in lighter shades of brown and gray.

Shirts and Shorts
$1 Each

Made by Manhattan of light, comfortable and long-wearing rayon. Shirts are unusually well tailored with strongly taped seams at both neck and armholes. Shorts are buttonless with woven elastic waistband . . . reinforced at points of strain. In blue, helio, peach and white.

Imported Sweaters
$10

Knit in Scotland of the finest cashmere and zephyr wool. All heather mixtures in shades of blue, green, tan and red. Round crew neck with the smart new front pockets favored by college men. Reinforced at neck, wrists and pockets. Sizes 32, 35, 36, 38 and 42.



. . . Horne's, Men's Store, Main Floor . . .

Tweed Camel-Hair Coats

Horne's Famous "Wear Weaves"

$25

What a modest price for a good-looking coat which has the gratifying texture of camel-hair and the sturdiness of tweed! It is a fact that these women's *Wear Weave* service coats are very specially priced.

The camel-hair is woven in tweed effects and has a delightfully soft finish.

Besides, there are coats of mannish tweeds in the group, which equal the camel-hair ones in value. Both fabrics come in tan, brown, gray and blue tones.

All the coats are tailored like much higher-priced ones, and have excellent silk linings.

. . . Horne's, Second Floor . . .

The Book Shop Recommends

"The Tragic Era" By Claude G. Bowers

"John Keats" By Amy Lowell

These two books . . . one very recently published . . . the other now published in a popular edition . . . are recommended to those whose reading interest lies in political and biographical fields.

"The Tragic Era" is a history of the political intrigue and corruption of the dark era following Lincoln's assassination . . . history in a delightful style. $5.00.

"John Keats"—by far the greatest biography of the famous poet, written by a fellow poet in her most beautiful manner. One book containing the two original volumes. $5.00.

. . . Horne's, Main Floor . . .

For Gifts or Prizes . . .

Leather Bridge Sets, $3.50

Of beautiful ecrase leather . . . in rose, green, brown, blue, and orchid . . . containing two decks of cards with tinted edges . . . and a score pad.

Bridge Sets with two decks of gilt-edged cards, score pad, and pencil . . . in tan, rose, gray, lavender, and green. $5.00.

. . . Horne's, Stationery, Main Floor . . .

The New Gloves

Show Cuffs That Complete the Ensemble

Fashion has become so highly specialized this season that each costume will require its own glove.

These kid gloves show the many varied cuff styles that will be worn. The wide, elaborately trimmed cuff for plain sleeved coats and ensembles . . . the narrow simply trimmed cuff for gloves that go with frilly afternoon frocks.

A number of the new designs in fine imported gloves are shown . . . and there are many more to be seen in our Glove Section.

$2.95 to $5.00

. . . Horne's, Main Floor . . .

Stock Fun Production and Screen Drama and Romance in Theaters

"ABIE'S IRISH ROSE" IN BLOOM AGAIN AT PITT THEATER SEEMS PERENNIAL

By GEORGE SEIBEL

THERE is nothing left to say about "Abie's Irish Rose," the play that made Anne Nichols a millionaire and divided the world into two camps—the highbrows who sneer at the play and the lowbrows who laugh at it. The critic who knows how narrow is the line of demarcation between art and hokum finds himself now doing the one and again doing the other.

George Seibel

It is all very well to point out that the oldest jokes and most threadbare situations are used in this farcical comedy to get laughs and tears. Exactly the same is true of Shakespeare and Moliere.

"Macbeth" is melodrama, "Scapin" is farce. Anne Nichols is neither a Shakespeare nor a Moliere, but she has used the same emotions and conflicts to catch her audience. And she has caught them, as the echoes at the Pitt Theater last night again demonstrated.

Undoubtedly also she came along with her play at a time when a lesson in tolerance was sadly needed by a world filled with old and new hates. Race had been set against race, and religion against religion. "Abie's Irish Rose" has been compared with "Romeo and Juliet"—in fact, there was a big lawsuit on this point, with thousands of pages of expert testimony—but it can also be compared with Lessing's "Nathan the Wise." It is a great lesson in tolerance.

SAYS IT WITH LAUGHS

There is much exaggeration and horseplay in this comedy, and George Sharp's players do not underplay it. But the same thing may be said of "The Merry Wives of Windsor," of the "Comedy of Errors," of the "Taming of the Shrew." The great merit of the play is that Anne Nichols has something to say, and she says it with laughs.

The play is well constructed, though its architecture is about as sublime as that of a juvenile blockhouse. But it stands firm and foursquare on its foundation; it serves its purpose; it has a cellar and a roof; human beings dwell within it.

It's not a Parthenon, nor a Cathedral, but a pleasant bungalow. And the great majority of mankind find a bungalow better to live in than a Cathedral or a Parthenon. That explains the great success of this simple and sometimes silly farce-comedy.

It must have been played several hundred times in Pittsburgh, yet the performance last night at the Pitt drew as big and enthusiastic a crowd as ever.

SOME OF THE ORIGINALS

Several of the people in the cast were members of the original company, specially engaged for this production. Harold Shubert as Abie and Bernard Gorcey as Isaac Cohen are among these. Abie was played with much sincerity, which is all this part requires, and Cohen was played with as much exuberance as this part permits.

These men are familiar with their roles, having played them over and over. But the superb work of last night's performance was done by Mabel Kroman as Mrs. Cohen. She played as if she had been in "Abie's Irish Rose" since the morning stars sang together and had never played anything else but Mrs. Cohen.

Gus York put both humor and sentiment into the part of Solomon Levy, and Pauline MacLean was sweet and charming as Rose-Mary. Robert Fiske as the rabbi, James Flavin as the priest, Kenneth Daigneau as the Irish father, and Gloria de Luca as a flower girl filled the other roles acceptably. In fact, the performance was an excellent one from first to last—though it must have been uncomfortable for the highbrows who were ashamed to be seen laughing.

Enright Has Gunplay, Talk

Monte Blue does a miniature Lon Chaney on the Enright screen this week in the talkie, "Skin Deep." He plays a hardboiled, ugly gangster and displays a face befitting his role. And what a sight that face is! It is a sort of cross between Louis Wolheim at his best and Mr. Chaney at his worst. However, the real Monte Blue, plus a trick mustache, is in evidence during the closing sequences of the picture. But not until after a prison break, a motor accident and an operation by a plastic surgeon.

The story chiefly concerns two gangsters and the unfaithful wife of one of the gangsters. There is quite a bit of gun-play and grand double-crossing. Also there is some sentimental hokum brought in by Davey Lee, who, attired in nightclothes, toddles down stairs to say goodnight to his daddy, a district attorney, just as Gangster Blue is about to blow said daddy into tomorrow.

BETTY STOPS BULLET

Betty Compson is prominent in the cast as the unfaithful wife, fading out of the film near the final fadeout when she gets in the way of a bullet.

Dick Powell presents "Megaphonia" on the stage. And there are megaphones for everyone, electric-lighted megaphones held by Mr. Powell and members of his band. As usual Powell, ably assisted by his glittering megaphone, sings himself into a couple of encores. Entertainers include a comedian, specialty dancers, a mind reader with some idea of humor and, of course, the Enright Rockets. The week marks Jack Orner's debut at the organ.

Grand Screen Keeps Jolson

Al Jolson and his latest talk and song picture, "Say It With Songs," remains in the Grand, where the picture still is attracting good sized audiences although it is in its third week. Davey Lee, the kiddie who helped Jolson in "The Singing Fool," again has a prominent role with that star and the feminine lead is portrayed by Marian Nixon. Jolson fans are well treated vocally by their idol, who sings numerous songs in this talkie.

"MADAME X" DRAMATIC IN PENN

By CLARENCE E. GRUNDISH

Lionel Barrymore, actor, has become Lionel Barrymore, director. And can he direct? "Madame X," film in the Penn, answers the question—and in the affirmative. Though the production seeps with sobs and tragedy, it is highly dramatic. And it is a well conceived talkie.

A woman of many moods and much sorrow is this Madame X, from whom the picture is named. And an actress of many moods and capable of indicating much sorrow is Ruth Chatterton, who portrays her.

Madame X was a good woman once. But she had made a mistake, and a stern husband turns her into Parisian streets—away from her little son. She slips to the lowest depths. You meet her in dives in China, on tropical islands, in South America. The liquor bottle becomes her daily companion.

Many years pass. The shadows under her eyes deepen. She returns to Paris. Now comes some melodramatics. She kills a man—in an effort to keep her husband and her son, now grown to manhood, from knowing how low she has fallen. The gendarmes arrive—and then the court trial.

MR. HACKETT AGAIN

She refuses to reveal her identity. So they call her "Madame X." And here's where Mr. Barrymore, in the name of drama, lands a knockout punch. The young attorney, appointed by the court to defend her, is her son. She learns the fact. But the fadeout comes without the boy knowing that the woman, whom he defends so ardently and so tearfully, is his mother.

It is young Raymond Hackett again in the defense attorney role. And he has lost none of his moving powers of oratory since "The Trial of Mary Dugan." He sobs himself and has the jurors looking dampeyed, and there were weepy sounds in the section of the theater in which we sat.

SHE PAYS AND PAYS

Lewis Stone gives a commendable portrayal of the husband. He suffers and suffers and suffers. Though not half as much as the woman does. Which brings the remark that bared of its dramatic trimmings, "Madame X" is nothing but the old story of the woman who pays and pays and pays. Yet, handled by Mr. Barrymore's deft directorial hand, these "trimmings" result in a real photoplay.

From the tragedy of "Madame X" we pass to the stage and to not-so-much-of-anything, which comes under the title of "The Garden of Love." It is a mixture of song, dance and comedy, with the comedy funny enough, if you haven't seen the "gags" and heard the jokes before. Incidentally, Teddy Joyce isn't on the stage. He's in New York. But he'll be back Monday. However, Dick Leibert is there with his organ antics. As usual he gets "a big hand."

Restaurant Man Dies at Oil City

OIL CITY, Sept. 10.—Frank Edward Shaffer, 48, well-known restaurant man and owner of the Coffee Shop, died after a brief illness in Oil City Hospital. He was born in Clintonville in 1881.

Melodrama

Ruth Chatterton plays the title role in "Madame X," film version of the stage melodrama, on Penn screen.

Military

George O'Brien is a West Pointer in "Salute," feature photoplay of the Aldine program.

Musical Romance Opens Nixon Sept. 16

Opening Monday evening, September 16, the Nixon will present for one week a romantic musical comedy, "The Red Robe," starring Walter Woolf, with Desiree Tabor, Barry Lupino, C. Edwin Brandt, Betty Byron, Edith Scott, Manila Powers, John Goldsworthy, Ivan Arbuckle, Mark Smith and other players.

Army vs. Navy Aldine Film

"Salute," mixing college romance with student activities at Military and Naval Academies, West Point and Annapolis, is the feature of the program of photoplays in the Aldine. George O'Brien is likeable as a principal in the role of a West Point cadet but is secondary in the finale, in which William Janney, who is prominent in most of the action, shines as the hero who saves the Navy football team from defeat, by stopping the Army star, his brother, the role played by O'Brien. The game ends in a tie and it isn't as exciting as some screen football games have been although its realism is simulated through shots of a real Army-Navy game.

The picture is interesting. It appears to be accurate in its details and is up to the average in entertainment value. It is a talkie in which the voices register with pleasing clarity and the action includes comedy, developed principally from the manner in which students are hazed. Stepin Fetchit, that very tired Negro, helps with the laughs as the man in charge of the goat, mascot of the Navy. Helen Chandler is appealing as the girl who attracts attention of both brothers, resulting in the young naval student acquiring sufficient dogged determination to upset his heavier brother in the Army school.

Comedy and other entertainment is supplied by short sound films.

Walter Winchell on Broadway—Page 5

STANLEY HAS DETECTIVE THRILLER

Philo Vance is the detective nominated by S. S. Van Dine to take the place of Sherlock Holmes, and in three or four mystery tales he has made an enviable reputation for himself. This week he is engaged in solving the puzzling series of murders in the old Greene manston which stands beside the sullen and sinister Hudson—or maybe it's the East River. Anyway, it's sullen and sinister, as it flows through the Stanley Theater.

It requires a clever detective to unravel the mystery. The action is cut up into so many segments that it is almost like a picture puzzle to put it together. There are so many characters in the complex plot that the audience has to remain widely alert to know who has been murdered and who has done the murder.

Philo Vance wanders through this maze, impersonated by William Powell, and manages to be on hand with the solution when nearly everybody has been murdered. Outside of a few bits of good character work, the film is not outstanding in its merit—the story does not lend itself to such treatment very well.

BALLET MERITS PRAISE

The ballet and chorus work of the stage show, presided over by Brooke Johns with much zest, merits high praise. The girls are beautiful, they dance well, they have good voices, and they sing well. Besides that, they wear colorful costumes and the electrician rings the changes on the rainbow.

And there is a tenor, Arthur Neely, who furnishes a pleasant surprise by his fine solo work. Judging by the past few weeks, the talkie houses apparently find that a better class of music is in demand by their audiences.

SLAPSTICK LAUGHTER

As for comedy, the same old slapstick is relied upon to get the laughs. This week the funmakers are in Spanish costume and are quite diverting in their antics. A brace of dancers also indulge in graceful adagio contortions. But the high points of the show are undoubtedly the ballet work and the music furnished by David Broudy and others.

Stage Shows For Sheridan

The policy of vaudeville and feature pictures has been resumed in the Sheridan Square. Victor Graff acts as master of ceremonies in the current stage bill. He introduces songs as sung by Al Jolson, Eddie Cantor, John McCormack and others. Grace Smith and Four Buddies offer comedy, song and dance. The Four Pals, a comedy quartet, and Maxon and Woods complete the stage show. The talking screen feature is "Big News," a newspaper story, with Robert Armstrong. It is a picture of newspaper life. A complete new show will open tomorrow to run for three days, and another new show will open on Saturday.

Schumann-Heink Back From Germany

NEW YORK, Sept. 10.—(AP.)—Mme. Ernestine Schumann-Heink, who returned yesterday on the liner Deutschland from a three months' stay in Germany, reported that many small opera houses in Germany and Austria were being forced to close because of lack of funds. "What little money the middle class people have to spend on music they save for the big music festivals, like these at Salzburg and Vienna," she said.

Scientific

William Powell is a scientific detective in "The Greene Murder Case," screen feature of the Stanley bill.

STAGE ACTS, FILM IN HARRIS

This week marks the re-opening of stage vaudeville in the Harris, augmenting the usual feature photoplay. Charles Wilson, Keith vaudeville performer, acts in a master of ceremonies role. He introduces the various acts and puts across a lot of funny stuff himself. The Four Sirrilla Brothers present a melange of song, dance and music. The Three Little Cops, feminine performers, sing a bit and dance a lot. Other entertainers include Stanton and Dolores. A stage band is featured and all of the entertainers participate in the grand finale.

The screen feature is "Big News," a talking photoplay with a newspaper background. The story concerns a reporter's efforts to get the "low-down" on a band of liquor and narcotic dealers. Robert Armstrong has the reporter role. Others in the cast include Carol Lombard and Cupid Ainsworth. The picture has thrills and excitement. Short screen entertainment and an organlogue are on the bill.

'Hullo Paree' In Academy

The Academy burlesque for the week is "Hullo Paree," which has Mildred Franklin in the featured feminine role and Lee Hickman, tramp comedian, as the chief funster. Comedy skits and specialties, including singing and dancing by individuals and chorus, make up the action.

"Financial Wizard" Cleared of Fraud

MILWAUKEE, Wis., Sept. 10.—(AP.)—The Federal government's case charging use of the mails to defraud against Elmer S. Huckins, "financial wizard," whose business enterprise is reputed to pay 26 per cent dividends, was dismissed on the recommendation of District Attorney E. J. Koelzer, because of insufficient evidence.

Three Face Charges Of Booze Running

ST. CLAIRSVILLE, O., Sept. 10.—Charged with conspiracy to violate the prohibition law, Alfred Markiquitti, Americo Alexander and Alexandren Federiora were arrested here by a squad of Federal and state agents under Roy Schafer, deputy United States marshal. The trio is charged with running liquor into the Eastern Ohio mining district.

Freighters Crash, Proceed on Voyages

NEW YORK, Sept. 10.—(AP.)—The Radio Marine Corporation last night received a radiogram from the Belgian freighter Emile Francqui stating that it had collided with the Norwegian freighter Gunny about 200 miles southeast of Boston. Neither ship was seriously damaged and both were proceeding to their destinations.

B—*Worth model, plain in its lines but effective in its styling. The material is Trecara in a rich Cocoabean Brown with trimming of fine Beaver. $95.*

C—*Lelong inspired this model of English Green Cressa with elaborate trimming of Black Caracul. Semi-Princess molded lines. $95.*

THE THEME SONG of the coat mode this autumn is a tuneful melody of longer lines, Princess flares and a judicious use of furs that have a tendency to slenderize the figure, and frame the face with collars that roll gently or stand uprightly. Before choosing be sure to see the Jonasson collections.

—*Jonasson's, Third Floor*—

Skirt and Blouse Outfits $7.90

These dashing little tuck-in costumes are ideal for wear in classroom or office.

The covert cloth skirts are pleated all around and the tweeds are circular cut. Brown, wine, navy and oxford. Sizes 26 to 32. $5.95.

White Broadcloth Blouses which may be worn tuck-in or overblouse fashion. Club, Peter Pan or mannish collars. Sizes 34 to 40. $1.95.

—*Jonasson's, Main Floor*—

New 8-Button *Fabric Gloves*

Gloves as well as frocks take on longer lines. This unusually long slip-on has a single pearl button fastening at the wrist, which tends to hold it in position.

Scalloped top and comes in the new Sahara and Mexican tones. Sizes 5½ to 7. Price, $2.50.

—*Jonasson's, Main Floor*

Show Your Youthful Brow in These Hats at $10

Be sure of youthful chic by wearing a brow revealing style. There are many variations in these delightful felts, which achieve much smartness by clever fashioning of brims and accentuating the length of the sides. Colors to match your autumn outfits.

—*Jonasson's, Fourth Floor*—

REPORT CLEARS MINE OFFICER

George F. Lumb, secretary for industrial police, in a report made public today recommends that Gov. John S. Fisher dismiss a complaint against Policeman William Burns, accused of having beaten Mike Dudash, a discharged miner of the Consumers' Mining Company, at Harmarville last Aug. 18.

The Pittsburgh Branch of the American Civil Liberties Union asked the policeman be disciplined, alleging that he had beaten Dudash, cursed him and threatened him with a pistol without provocation.

Investigator Horace Buckbee reported to Lumb that Burns had struck Dudash with a blackjack, but had been struck and cursed first by Dudash, according to other miners and their wives.

Dudash, Buckbee reported, had been discharged by the company for suspected affiliation with the Industrial Workers of the World and had been warned to stay away from company property.

Weather Conditions.

The center of the Plains states low is now north of Lake Superior with considerably increased intensity. Lowest barometer reported is 29.42 inches, at White River. It produced light to moderately heavy rains over all the states east of the Mississippi River, but many localities are still suffering from the prolonged drouth.

High barometer covers the West, the high extending in the form of a ridge from British Columbia southeastward to the lower Mississippi Valley states. The high is attended by clear skies generally and cool weather. Light to heavy frost occurred in Western Iowa, Nebraska, Wyoming and Minnesota.

River Conditions.

There were light to moderately heavy rains over the watersheds, but not sufficient to start a rise in the rivers. Stage at Pittsburgh is 10.0 feet; Dam No. 2, 8.5; Dam No. 6, 7.6; Dam No. 9, 8.4, and Dam No. 12, 3.9. The dams are up.

MAKE VEGETABLE FOODS DELICIOUS

Few Things Are More Important Than Balanced Diet in Promoting Health

Cooking experts are using their ingenuity to develop delicious methods of preparing vegetables. A well-known expert furnishes us this recipe for *Polish Beets:*

Peel 12 small cooked beets and mince fine with a fork. Put in a saucepan and sprinkle with a tablespoon of sugar. Add a tablespoon of vinegar, 1 tablespoon of salt and pepper and heat. Melt 2 tablespoons of butter and blend with it 1 tablespoon of flour. Stir this into the mixture. Add ½ cup sour cream and heat.

Whatever recipe you are using and whatever vegetable you are cooking, try adding a dash of sugar for a new, enjoyable flavor. It is not the purpose of the sugar to make the vegetables taste sweet. Sugar brings out the delicate flavors of the foods and blends these with the seasonings used. Sugar is the master blender and the supreme condiment. It is the right hand of successful cookery.

Serve a varied, balanced diet. Serve at least two cooked vegetables daily. Serve at least two fruits daily. See that each member of your family drinks milk and eats milk desserts. Make meats appetizing by adding a dash of sugar while the meats are cooking. Use a dash of sugar to improve gravy, sauces and soups. Learn the art of serving colorful and satisfying desserts. A bit of sweet makes the meal complete. The Sugar Institute.

Boycott Planned by Arabs Against Jewish Trade

By DR. S. MARGOSHES,
Editor-in-Chief of The Day, Leading American-Jewish Newspaper, Now in Jerusalem.

TEL-AVIV, Sept. 9.—(Delayed.)—Tel-Aviv, the only all-Jewish city in Palestine, is in the grip of fear. This is not due to any threat of Arab disturbances. As a matter of fact, this city managed to retain comparative peace and quiet throughout because of its size (40,000 Jews) and strategic position near the port of Jaffa. But Tel-Aviv has since yesterday been excited by reports of an Arab meeting which took place last night in Jaffa.

At this meeting the Arab leaders proposed a program by means of which it will be possible for them to undermine the economic existence of the Jews. For the first time, Christian Arabs were also represented, and both factions took up the question of the boycott which the Jews have enforced against all Arab products. Tel-Aviv, like many other cities and colonies in Palestine, was a market for various products from the Arabs such as silk, eggs and vegetables. Now, however, the Jews refuse to have any dealings with the Arabs. They prefer to risk famine rather than to compromise with the enemy.

The following resolutions were passed at the above meeting to save the Arab from economic ruin:

Propose Bank

1. To apply to an Arab bank in Egypt to finance various commercial and industrial undertakings in Palestine in order to insure the Arab population of economic independence from the Jews.

2. To establish factories for the manufacture of necesary products. In order to pave the way for both of these projects, they will organize financial institutions to obviate the necessity of turning to Jewish banks for help.

3. To send an Arab delegation to America to raise funds among the Arab immigrants here. This delegation is to visit the most important cities in the United States, to form contacts with prominent Arab citizens of this country, and to spread general propaganda here for the Arabs in Palestine.

Whether the Arab can go very far in the realization of these plans remains a conjecture. I approached several people prominent in the financial world here as to their opinion on how the Arab boycott would affect the economic status of the Jews of Palestine, and whether the resolutions adopted at the Arab mass-meeting can carry any weight. From the replies I gathered that the Jewish busines leaders here remain unruffled about the Arab threats.

Jews Anxious

For the man in the street the air here is fraught with anxiety as a result of last night's meeting. The Jewish population comes to realize more and more that the Arab continues to nurse his hostility, and that it may, at the first opportunity, again lead to outbursts so sadly familiar to us.

Tel-Aviv has also been shaken somewhat lately by the incident when four Arabs attacked a Jewish household in the middle of the night. However, British police intervened in time and scared the four Arabs away.

I had the opportunity of speaking with acting Mayor Rokeach, of Tel-Aviv, about the effect of the recent disturbances on the future of this city, which is the crowning glory among the Jewish settlements here. Mayor Rokeach is of the opinion that Tel-Aviv is bound to grow extensively because of the increased immigration expected here.

It is interesting to note that last week, while the disturbances were still going on, a ship landed at Jaffa with 94 "chalutzim," (pioneers); it is of further interest to note that within a short time each of them found employment in some part of the country. It can be said with certainty that with the restoration of peace and normalcy there will come a general state of prosperity by which the country will flourish. This propitious state will provide all the incoming elements with employment and opportunity. As I have remarked once before, all this depends upon the aid that American Jewry will extend.

DELIGHTED BY QUICK RESULTS FROM KONJOLA

Electrician Says New Medicine Quickly Relieved Stomach Trouble and Brought New Health.

Thousands upon thousands of men and women who have had personal experience with the new and different medicine, Konjola, have told how surprised and delighted they were with the quick results it gave them in the relief

MR. H. M. MUZZY
(Photo by E. T. Kibbe Studio, E. Liberty)

of troubles of the stomach, liver, kidneys and bowels; rheumatism, neuritis and nervousness; or in transforming a weakened, run-down condition into one of new and glorious health.

Investigate Konjola's record of amazing results! Get full information about this modern medicine from one of the two Konjola Men in Pittsburgh. One is at the Dow drug store (formerly McCulloch's), Penn Avenue and Sixth Street, and the other at the Dow drug store (formerly McCulloch's), at Diamond and Smithfield Streets, this city. Learn what Konjola has done and is doing, as told by grateful Pittsburgh citizens. Read what Mr. H. M. Muzzy, electrician, who lives at 6727 Rowan Avenue, East End, this city, told a Konjola Man recently about his experience with this master medicine. Mr. Muzzy said:

"Konjola has placed me back on the road to health, and I feel that this medicine deserves more praise than I can give it. My stomach was badly disordered and caused me no end of distress. Nothing that I ate seemed to agree with me. There was always more or less gas on my stomach and a bad taste in my mouth. Food would sour on my stomach, and I was a prey to frequent dizzy headaches. I became very nervous and irritable, weak and rundown, and my condition was growing worse instead of better.

"But finally I found the medicine I needed, and it was Konjola. To say that I was delighed by the quick results this medicine gave me is putting it mildly! In just a few weeks' time all of those stomach troubles disappeared. Now I experience no sour stomach or gas formation. Dizzy headaches are things of the past. I can eat anything I like, and have a much better appetite. I do not have a bad taste in my mouth. Needless to say, since these troubles have been cleared away and I am eating heartily and digesting my food, I have taken on new strength and energy. I feel 100 per cent better generally. Konjola is rightly called a 'master medicine,' and I recommend it to anyone who suffers from stomach trouble."

Konjola contains no alcohol, no nerve-deadening drugs, no heart-depressing chemicals. It is pure and powerful medicine, every drop, and every drop works.

There is a Konjola Man at the Dow drug store (formerly McCulloch's), Penn Avenue and Sixth Street, and another at the Dow drug store (formerly McCulloch's), Diamond and Smithfeld Streets, Pittsburgh. There also is a Konjola Man at Dow's drug store, 5939 Penn Avenue, East Liberty. All are introducing and explaining the merits of this new and different medicine.

You, too, will like Tru-Lax

Helen Fried famous beauty in "Hello Daddy" SAYS:

"EVERY laxative I've ever tried is out of date, now that I've adopted Tru-Lax—the delicious chocolate candy laxative that is a delight to take, and so effective, yet gentle."

KAUFMANN'S . . . MAIN FLOOR

Winter Coats

for Larger Women

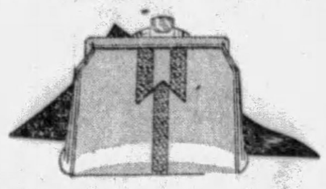
Are Slenderizing in Cut

98.50

This is the price that is most popular with women for a fine Winter coat. And these coats are fine! Intricate seaming in the back and at the hipline has been studied carefully to give a slenderizing effect. The furs are the fine furs. These . . . skunk, black fox, northern mink, caracul, marmink, civet cat, beaver. The coat sketched is black broadcloth with collar and deep cuffs of black fox. Note the new swirl way of putting fur on the sleeves. Sizes 38½ to 52½.

NEW ESCALATORS TO FOURTH FLOOR

SMART ACCESSORIES

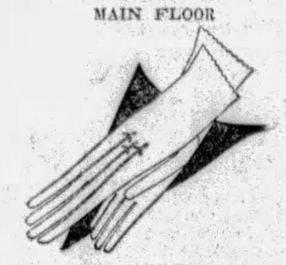


Match Your Shoes With

An Adoria Bag 7.50

A black or brown back-strap bag—just the size that is so convenient to carry, yet a bag that will hold all the things you can't do without. Trimmed with lizard and topped by a metal and stone clasp. A smart accessory to the Autumn ensemble.

MAIN FLOOR



Leatherette Gloves 1.00

Slip-on Leatherette gloves that look so much like the fashionable suedes you can hardly tell the difference. They are washable (and are so lovely after they're washed!) have pinked tops and spear backs. In white and cream.

MAIN FLOOR

Autumn Colors

In Adoria Shoes $10

The brown that you associate with turning leaves and ripening harvests is the brown that Fashion approves for Autumn. The shoes sketched are cut high and tie over the instep. The cut-out is trimmed with simulated lizard.

FIFTH FLOOR

The Highbrow Silhouette

Is Vastly Important for Autumn

7.50

The new silhouette is not a new way of wearing the hat . . . it's a new way that the hat is cut, to reveal the forehead. These new soleils, fur felts, vis-a-vis, and velvets are every one in the new mode. Low crowns that fit like a glove, sides that extend and drape to a hundred different angles, the back that droops and clings. The colors, too, are intriguing . . . Arab brown, beige, Vintage red, Evergreen, navy, dahlia, black. Large and small head-sizes.

NEW ESCALATORS TO FIFTH FLOOR

Can You Call

The New Hosiery Shades *By Name?*

Not yet, perhaps, but you'll certainly want to. And, what is more important, you'll want to know for just what color each hosiery shade is designed.

For Daytime—the "Reynard Beige" shades—varying in tone, and suitable to wear with dark brown, dark blue, vintage red and black.

For Evening—Sunbasque—to wear with white or pastel-colored frocks.

Caracul Beige Tan — to wear with brighter colors—the reds and greens.

Ciro—for the fair skinned woman who wears black, white, silver, Lanvin pink or orchid. In Kaufmann's UNO Hose—1.65 to 2.00.

KAUFMANN'S . . . MAIN FLOOR

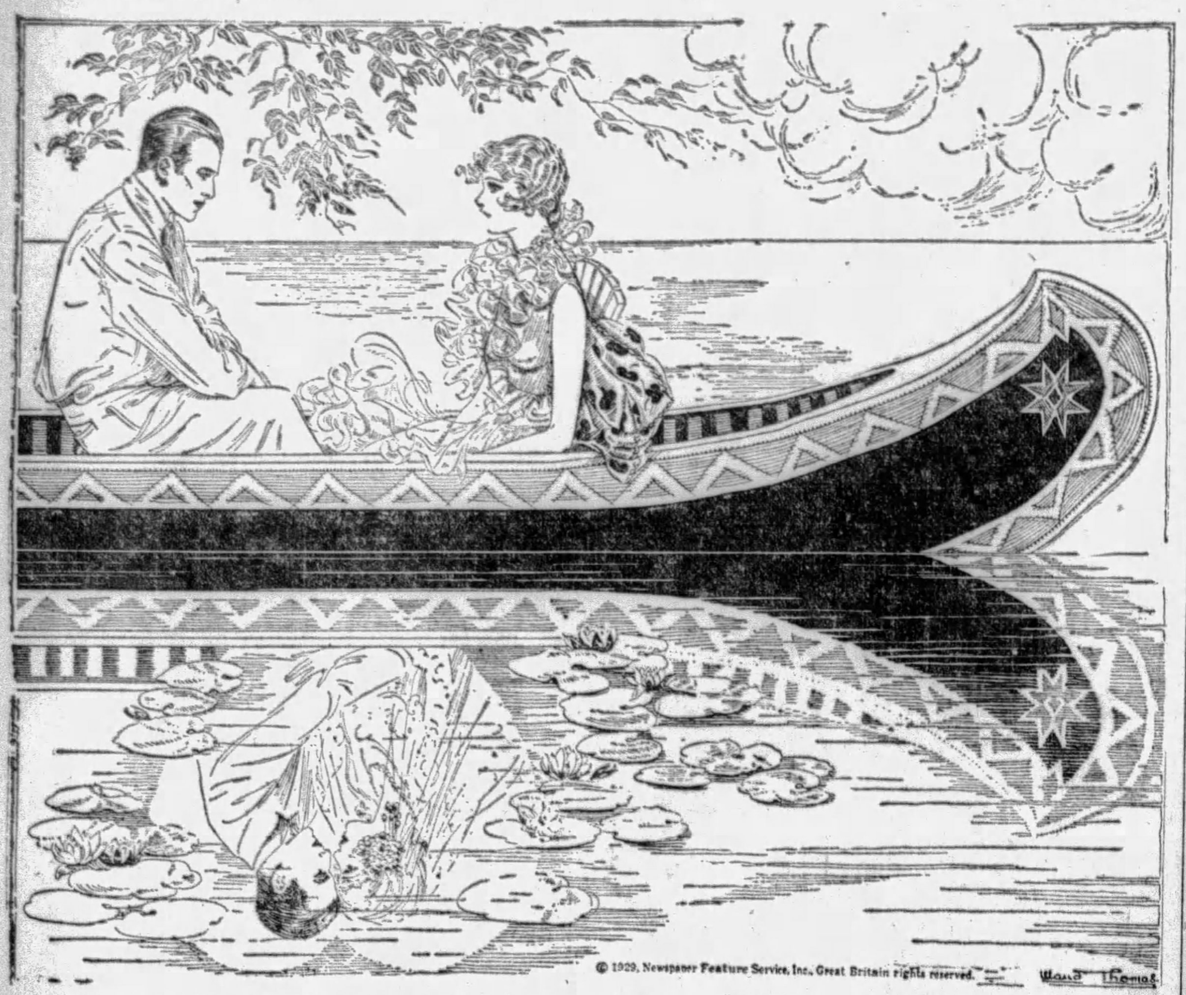
Folding Hangars for Airplanes

THE latest aviation novelty is a hangar you can carry in your plane's cockpit and set up wherever you land. It provides complete shelter for an airplane, besides leaving adequate space for working.

Reflections

By Maud Thomas



© 1929, Newspaper Feature Service, Inc. Great Britain rights reserved. — Maud Thomas

LOVELY September days, when it's neither Summer nor yet Fall—but each day has a glory peculiarly its own. And in the warm friendliness of the early Fall sun, these two float idly down the stream, lothe to leave the beauty with which they are surrounded, and choked to silence by the grip of their emotions.

But all Nature is in a friendly mood, and she decides that, with Dan Cupid's help, these two shall know their fate. So in the clear lake waters she shows them a picture of what is to be—a glorified reflection of their happiness. Instead of appearing as they are, there floats the face of the lovely bride. And seeing in the reflection on the water the picturization of his dreams, he takes courage—and then! Well you can guess the rest! For the reflection becomes a realization and two more start on the Path o'Dreams to the Land of Happiness.

Correct Manners

By MRS. CORNELIUS BEECKMAN

Gray for Mourning

DEAR MRS. BEECKMAN:

May a widow of three weeks wear gray for mourning instead of black? She is very nervous and black depresses her very much. Her husband died very suddenly after an illness of only three hours. If so, please tell me what material to use, whether the veil should be all gray or gray bordered with black, of what material, and so forth. If it will not be suitable, please let me know.

B. C. G.

TO ME it is the way of nonsense for a woman, under these circumstances, to wear mourning. Surely at no time more than now does she more need whatever brightness and comfort she can get out of non-black, and if she finds this comfort in gray, she should, by all means, wear it. It would be better for her not to wear gray satin or any other material that has a lustre. Nor should she wear gray and black, since this is too obviously trying for a substitute. She would not wear a veil, either. In the house she should wear all white, and in summer she should wear all white. This is, as you know, as "deep" mourning as all black. Then, at other times, she would wear gray, lightweight gray flat crepe with a matching hat and other accessories.

Announcing the New Baby

DEAR MRS. BEECKMAN:

Will you kindly tell me the proper thing to do when one receives an announcement of a new baby? In this case, the announcement was addressed to my husband, as the father is a business associate in New York with whom I am not acquainted. Neither of us is acquainted with the mother of the baby.

The announcement was in the form of a visiting card with the baby card, much smaller, attached with a white ribbon.

Would it be correct to send a gift? If so, should my husband or both of us send it? Or should we just send a congratulatory note?

L.

IN this case, I think that it would be best just to send a note of congratulation. The announcement should, of course, have been addressed both to you and your husband, in spite of the fact that the father of the baby does not know you, and in spite of the fact, too, that neither you nor your husband knows the mother of the baby. Such formal announcements should always be sent to "Mr. and Mrs. ——." Such an announcement, under these conditions, which are casual, would not mean a gift.

Meditations of a Wife

By HELEN ROWLAND

These Modern Lovers

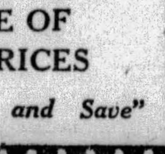
A KISS had more kick in the days when a man had to be as stealthy about taking it and found it as hard to get as a drink is now.

* * *

No man was ever "vamped" or "stolen" who wasn't subconsciously hoping to be.

* * *

Many a girl secretly longs to wear enough clothes to keep her knees and her shoulder-blades warm, but modestly refrains from doing so, for fear of attracting too much attention.



HELEN ROWLAND

* * *

Nowadays there are two kinds of lovers; the sentimental acrobat, who leaps lightly from one love affair to another, and the clever juggler, who manages to keep several affairs going at the same time.

* * *

This is a new heaven and a new earth—in which failure or bereavement doesn't crush a woman, age doesn't wither her, marriage doesn't cramp her, love doesn't vanquish her, and spinstership doesn't frighten her.

* * *

When a man starts telling a girl the story of his "past" he always sprinkles it with a little benzoate of soda and colors it up with a lot of imaginary romance.

* * *

No married woman is ever quite sure that she might not have "done better;" but most men feel that they would probably have done "the same fool thing" anyway.

* * *

A "great lover" is one who has no fear of getting into deep water, because he knows that he can manage to swim out somehow, no matter how much the girl may rock the boat.

* * *

Love is what starts you off for the Rainbow's End—and lands you at the kitchen sink.

Love's Awakening

A Continuation of Love's Embers

By ADELE GARRISON

Madge Reveals Noel's Secret to the Others

CHARACTERISTICALLY, it was Lilian who relieved the emotional tension of the colloquy following Noel's announcement that he would not attempt to see Mary while Prince Georges was confined to the hospital. With a little smile she leaned forward and looked at the boy.

"We've settled everybody's abiding place except yours, Noel," she said. "Don't you think you'd better move into the hotel, too, when we all leave Long Island?"

"His father probably will have something to say about that," her husband interrupted before Noel could answer.

The boy's face flushed and he looked at me appealingly. I took a sudden resolution. Surely there was no better time than now to tell the Underwoods of the important conversation concerning Noel's future which he and I had held in the inn just before Mary's entrance with the news of the shooting of Prince Georges.

"You gave me permission to tell these good friends," I said, looking directly at him. "How about doing it now?"

He gave a little shiver, then straightened himself resolutely in his chair.

"I'm willing," he said quietly, and I turned to the Underwoods, who were listening attentively.

"In the first place," I said, "we'll speak of a matter cruelly embarrassing to Noel, but which must be understood by you. Because of Princess Olina's insistence—she has the ideas of her rank that her wishes are commands—I'll tell you that I believe Mary's engagement to Prince Georges is soley the result of pique at Noel's betrothal. For the present, especially on account of this accident, these betrothals must go on. But I think all of us are hoping and expecting that these royal young visitors will realize of themselves that their romances are simply illusions with no real background of affection or comradeship behind them."

As I paused, Lillian and Harry nodded emphatically, and Noel's eyes, wide in his scarlet embarrased face, brightened perceptibly.

"When that time comes, however," I went on, "Noel is going to face something very unpleasant in his father's anger, no matter who is at fault for the breaking off of his betrothal to Princess Olina. As you know, his father controls all of his patrimony save a pittance. But I think Noel has in his possession a weapon with which he can carve out financial independence and artistic fame for himself."

"Oh, no, Mrs. Graham," Noel protested. "You are too kind, too enthusiastic."

Lillian rose and crossed swiftly to the boy and put her hands kindly but compellingly on his shoulders.

"Don't you dare speak again until Mrs. Graham has finished," she said with a little laugh. "We'll listen to all your apologies after. Just now we want to hear this story."

"There isn't much more of it," I said, "and I'll preface it with an introduction. Mrs. Underwood—also Mister . . ." I made a moue at Harry—"may I present Mr. Boris Raminoff, a young composer of whom you may have heard."

Both the Underwoods looked in astonishment at Noel for an instant, then Harr struck his fist against his knee.

"By the great horned toad of Arizona," he said, "that takes the cake, also the pie. Boris Raminoff. Why! you petrified mule, why didn't you spill that before?"

Noel shrugged his shoulders.

"What would have been the use?" he asked. "It's a nice name, and its created some comment, very pleasing to me. But its money value is practically nothing."

"Of course, it is, with you handling it," Mr. Underwood retorted. "But what couldn't be made of it with the proper handling. My boy, do you realize that there sits before you a man who once was on the very top rung of the press-agent ladder, a man who knew all the tricks that ever were played, and then a few more. And by George, I haven't forgotten the old schemes. Just let me have my hands on you for a few months, and I'll show you what I can do for you."

He stopped, and looked shrewdly over at me.

"There's something more, isn't there?" he asked. "Come across, sister, what's on your mind. This boy's too modest to dish the beans properly. Let's have the rest of the story."

(Copyright, 1929, Newspaper Feature Service, Inc.)

Tomorrow's Horoscope

Wednesday, September 11

THE planetary positions for this day point to much activity with much excitement and turmoil, largely of a disquieting nature. There may be stubborn obstructions to the most energetic endeavor, with postponements and disappointments. The personal affairs may likewise be overshadowed by depressing circumstances, or possibly a sorrow or bereavement.

Those whose birthday it is may expect a year of much activity, but of a rather undesirable character. There will be obstacles and disappointments, and there is also augury of personal sorrow or loss.

A child born on this day may be endowed with a degree of enterprise and initiative and will need that and indomitable will to push through to success over thwarting conditions in life.

White Velvet Jacket

A striking fashion sponsored by a Parisian stylist at the races was a short jacket of white velvet worn over an extremely long black chiffon dress.

How to Keep Well

By DR. ROYAL S. COPELAND

Man's Best Diet Is Plainly Cooked Food

WHAT a man eats and the way he digests it determine his happiness. To provide himself with food was his problem from the beginning of time.

If there is one event in human history that can be said to mark the beginning of civilization it was the discovery of fire. On the facade of the Union Station in Washington are inscribed these words:

"Fire, greatest of discoverers, enabling man to live in various climates, use many foods and compel the forces of nature to do his work."

DR. COPELAND

Before the discovery of fire man consumed raw flesh, he gnawed at the roots of trees and chewed the tender twigs. His teeth did for him much of the work that is now accomplished by cooking.

Whether the food we take comes from the animal or the vegetable world much of it is dense, fibrous and indigestible. By the mixture of the various digestive fluids with the many kinds of food most of the valuable portions are prepared for absorption by the body. There is a certain value in raw foods but cooking releases elements that would otherwise go through the body unused.

The fact is, that proper cooking adds tremendously to the food value of the things we eat; the opposite of this is true, too, that improper cooking takes from the value of food stuffs. Indeed, improper cooking has much to do with the digestive ills of mankind.

In many instances it is what we add to foods in the cooking process that brings about their destruction. In our desire to add "flavor" to the food all sorts of concoctions have been advised. Fats, peppers, spices and other condiments have been added in the preparation of the dish. Some of the combinations are impossible of digestion. The organs rebel at what is offered.

Simplicity in the preparation of foods is of the greatest importance to the average digestion. There are persons who can eat anything that does not bite them first. The average person, however, thrives best on plain food.

I have no objection to the wonful dishes prepared by my friends who pride themselves on their good cooking. But as a general rule unless these exotic dishes are prepared with extraordinary care and skill, it is better to confine the eating to simple things.

Answers to Health Queries

H. M. Q.—If I eat when I am nervous I get indigestion. How can I remedy this?

A.—Nervousness affects the digestion. Therefore, you must remove the cause before the trouble can be cleared. Try to build up the general health and this will benefit the entire nervous system.

* * *

W. O. Q.—What can I do for nasal catarrh?

A.—This condition requires special attention.

* * *

M. K. Q.—Will the use of the violet ray prove harmful to the kidneys?

A.—No.

* * *

F. Q.—What do you advise for blackheads?

A.—Correct the diet by cutting down on sugar, starches and coffee. Eat simple food.

Off With Corns In 3 Minutes

Painless, Easy, No Irritation

Shur-Off, the marvelous new corn remedy, will remove tough, old corns and callouses in only 3 minutes—without soaking, without waiting. It stops pain instantly. And it positively will not harm or irritate healthy skin.

Simple as A B C to use. Just apply Shur-Off to the corn; keep it wet for two minutes. Then start peeling the corn or callous right off—root and all. Anyone can do it easily.

All druggists sell and recommend Shur-Off. Get a 50-cent bottle at Mayflower Drug Stores or at any other good druggist, use it tonight, and enjoy the ease and comfort of corn-free feet.

Dempsey and Corbett Vie On Radio Bill Tonight

By DARRELL V. MARTIN, Sun-Telegraph Radio Editor.

TWO pugilistic kings will face each other in the WEAF studios tonight—but not for combats. Jack Dempsey and James J. Corbett have been booked for the Keith-Orpheum hour at 10:30 p. m. which will be heard in Pittsburgh over WCAE.

After a six-month absence from broadcasting studios, due to an accident in which he broke his leg, Rudy Wiedoeft, saxophonist, will return to the air tonight at 10:30 o'clock, KDKA, to present two new saxophone compositions, "Butter Sweet" and "Valse Pamela."

Howard Barlow and the United Symphony Orchestra will give Debussy's "Golliwog's Cakewalk," written for the composer's little daughter, Claude. Chabrier's "Espagna" and selections from the "Merry Widow" will be heard at this time.

An extra attractive program has been arranged by the Sponsor of the Sacred Song period, KDKA at 7:15. Hymns will include "Love Found a Way," "I Need Thee Every Hour" and "My Faith Looks Up to Thee."

10 BEST BETS

By RADIO RALPH.

7:00 WCAE—F. Trubee Davison, assistant secretary of war.
7:15 KDKA—Sacred Songs.
7:30 WJAS—Paul Specht's Orchestra.
8:00 KDKA—Purol Band.
8:30 WJAS—Aviation Story.
9:00 WCAE—Eveready Hour.
9:30 KDKA—Dutch Minstrels
10:00 WCAE—Clicquot Eskimos.
10:30 WCAE—Keith-Orpheum: Jack Dempsey and James J. Corbett.
11:00 WJAS—Jesse Crawford, organ.

We Now Present

HOWDY, FOLKS! Let us first thank Harold Dietrich, Sun-Tele automobile editor, for the careful attention he gave radio while ye ed spent his vacation in the country.

BEING A city-bred boy, we saw many strange things but nothing struck us so funny as the political sign we spied on an expensive nickel-plated automobile at the Ligionier Fair. The sign read: "J. .....R. .....for Poor Director of Westmoreland County."

MURDER! Don Bestor and his Band took the KDKA staff for a treble clef in the long heralded golf match last Sunday on the Pup's Foot course, Edgewood. Miller, Baxter, McCormick and Bestor all had scores under 100 for the band while Spencer turned in a 94 for the KDKA crew.

WALTER G. MEYER, who announces Don Bestor every night from the William Penn, did his best to defeat the popular maestro but his 103 count was of little importance attached to the century and a half marks recorded by Lloyd Thomas, Glenn Riggs, Louis Kaufman Petrisco and Lewis.

P. A. BOYD, publicity engineer for KDKA, was lost for half an hour going out. Some of the boys finally located him mumbling funny things to a little white ball somewhere near the Wilkinsburg borough line. It was said that Mr. Boyd mistook the Graham football field for a sand trap and hooked a dirty drive in that direction.

FRANCIS—the boy who croons so beautifully—isn't so hot at golluf. His 119 was the high score for Bestor's Band. We might add that Dieckmann, Stergardt, Davis were instrumental in the victory. It's a great band and a great golf team, but——.

WE HEAR that the KDKA boys have rented a country club course and will practice this Sunday—if the scores don't improve the radio announcers will challenge Don and his men to a football game for charity.

WE FOUND things serene at WCAE, silent at WJAS and sizzling at KQV, where Pittsburgh's fourth station soon will have a very up to date studio.

ADIEU!

NEVER EXPECTED TO WORK AGAIN

Well As Ever — Owes It All to World's Tonic

"When I went home from my work in the mill too sick to care, it was the result of a long series of troubles after having the flu. I never expected to go back to work," remarked Mr. Alfred Platt, employed at the big mill in Farrell, Pa. "For months I had been getting weaker, and none of the many medicines I tried gave me relief. I appeared to have a general breakdown. My stomach caused me the most trouble. No matter how I dieted or what I took, food did not agree with me. My stomach was sour all the time, and it formed gas that swelled me up and distressed me greatly.

"This affected my liver, which was sluggish most of the time. I had severe headaches and bilious spells. I would get so dizzy I feared to move around, as I was afraid I might fall into the hot steel and get burned or perhaps lose my life. My breath was bad, and I belched gas after every meal. Altogether I was very miserable and was losing weight. One of my buddies, who brought me home from the mill, urged me to try World's Tonic, the new medicine that he said was gathered from different parts of the world. Because I did not know what else to do, I let him have a bottle sent up from the drug store. If anybody had told me all it would do for me I would not have believed him.

"My headaches quit, my liver woke up to its job, and after a couple of weeks my stomach did its work again, now my bowels move regular three times every day. I slept well, and soon I began to gain weight. In just five weeks I felt as well as I ever did, and I went back to the job. Since then I have felt fine, and I owe it all to World's Tonic, the most wonderful medicine I have ever ever heard of."

World's Tonic can be obtained of Dow's, formerly McCulloch's, also May's and Mayflower, or of any other first class drug store. (A-92)

WOOD STREET AT SIXTH AVENUE ATLANTIC 4600

FIRST PITTSBURGH SHOWING

HEIGH-HO....

Finds Immediate Favor in Youthful Eyes

The New Line of 100%

BEMBERG UNDERTHINGS

Delightful new undergarments in accord with every feminine wish for underthings that are dainty, trim and durable. McCreery's presentation includes gowns, bloomers, "briefs," bandeaux, vests, suits and a bandeau-pantie-vest combination—all fashioned of *Bemberg*—a fine important new silky fabric—important because of its enduring loveliness, and its wear-resisting quality. For wear under sports and dress garments—for Fashion's moulded contour, matrons and the younger set will adore these easily-laundered Heigh-Ho "undies" that assure utter comfort—at a moderate cost.

Above—Dainty V-neck gown, with two-toned satin ribbon bow. Pink only. Sizes 14, 16, 18.

$3.00

Below—Yoke front bloomer—elastic at back. Full cut and reinforced. Pink and adoree. Sizes 4 to 7.

$1.75

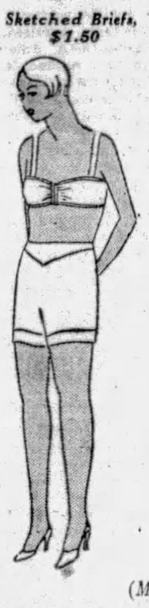
Below—Bandeau with adjustable center draw ribbon that cups the bust. Pink and adoree. Sizes 30 to 38.

75c

Sketched Briefs, $1.50

Above — Bodice Vest with picot straps and bodice band. In pink and adoree. Sizes 32 to 42.

$1.25



Above — Regulation Bloomer, full cut, tailored, strongly reinforced. Pink and adoree. Sizes 4 to 7.

$1.75

Below—"Vanity-suit," step-in Chemise, smartly tailored. Self fabric shoulder straps with picot trim. Fitted crotch.

$2.00

At Right—"One-sall," combining bandeau, pantie and vest. Snug pantie. Draw ribbon bandeau. Closes on left. Sizes 32 to 38.

$3.00

EXTRA SIZES in Heigh-Ho garments available in the majority of styles at slight additional cost.

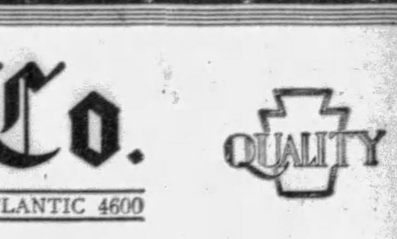
(McCreery's—Fourth Floor)

McCreery's Sponsor the Paris Note of

Black Accessories

"Black accessories are very smart, especially with the black afternoon costume—pre-eminent in recent Paris openings," reads an authentic fashion report.

McCreery's keeps pace with Fashion and present an infinite variety of black accessories—the first complete Pittsburgh showing—black millinery, shoes, bags, gloves, jewelry, belts and hosiery—stressing, also, the effective black and white alliance in scarfs, umbrellas, boutonnieres and handkerchiefs.



Jewelry stresses the fashion significance of black. Spanish Jet* jewelry in choker and pendant lengths—rich and glistening. Also a fine McCreery assemblage of Spanish Steel jewelry for the velvet frocks. Matching earrings.

Jet Pendant Sketched, $4.95*
Jet Earrings Sketched, $1.00*
Other Black Jewelry, $1.95 and $3.95
*Simulated

(Street Floor)

"Black gloves are another new note," says Vogue. Paris openings agree. McCreery's is in step with Fashion and offers slip-ons and longer lengths to wear wrinkled around the wrist—also cuffed styles. The sketched black kid slip-ons with pinked top . . .

$3.95

Others $2.95 to $6.50
(Street Floor)

For formal afternoon and evening wear are McCreery's black hand bags of suede. The Paris copied suede model sketched—using an overlapping button motif—approves the important marcasite trim.

$4.95

Others $2.95 to $7.50
(Street Floor)

PATRICIA PITT'S SPRIGHTLY COMMENT ON PITTSBURGH'S SOCIETY HAPPENINGS

W. M. Day to Marry in Virginia

SEPTEMBER hasn't done much, yet, to fulfill all her promises of social activity. The month is still young, though, and we can surely look forward to something interesting within a few days. Perhaps we were over-optimistic during the mid-summer drouth and expected the first day of September to bring us, overnight, into the midst of the "season."

Saturday's horse show will do a great deal, naturally, to start the ball rolling. Folks who have been at widely separated summer resorts for the last couple of months will hold a reunion then and while their interest will center largely on matters equine, perhaps there will be a thought or two directed toward plans for the coming winter.

There is to be an interesting wedding on Saturday, too, several of them in fact, but one which I am sure you haven't heard about. This latest nuptial event announced is the marriage of Elizabeth Hartman, daughter of Mrs. James H. Hartman, of Charlottesville, Va., and William M. Day, of New York, son of Dr. and Mrs. Frederick B. Utley, of St. James street. This engagement was announced late last month, you remember. The ceremony is to be performed at noon on Saturday in the Episcopal Church of Charlottesville, but I can't tell you yet who the attendants are to be.

* * *

AS I said, there are several other important weddings scheduled for Saturday and, of course, the week is filled with parties for the brides. Rebekah Law Brown, daughter of the William Kennedy Browns, of Sewickley, who will marry William Woodbridge Upham, was guest of honor yesterday at a luncheon which Elizabeth Fleming Hays, daughter of Mr. and Mrs. Gilbert A. Hays, of Academy avenue, Sewickley, gave yesterday in her home. Last Thursday, Sara Woods, daughter of Mr. and Mrs. Thomas Woods, of Broad street, Sewickley, entertained at luncheon in the Keystone Athletic Club and later the guests were taken to the theater. And on Friday, Grace Clarke, daughter of the Charles M. Clarkes, of Grove street, Sewickley, gave a shower for Rebekah.

* * *

SARA LOUISE GWINNER, daughter of the Edward William Gwinners, of Fifth avenue, who is to be married to Frederick Eaton Crispin, of New York, on September 18, will be guest of honor at a dinner which the Junior Gordon Fishers are to give Saturday in the Longue Vue Country Club. Mr. and Mrs. Henry C. Fownes, II., will give a tea on Sunday afternoon for Sara and the rehearsal dinner will be given next Tuesday night in the University Club by Mr. and Mrs. Frederick Gwinner, III., who are arriving home from Europe this week. On the morning of the wedding, the John H. Follansbees will give a breakfast in their home for the bridal party and a few other guests.

* * *

THE marriage of Miss Catherine Booth, niece of Mr. and Mrs. Oscar Bellstein, of North avenue, Emsworth, and Victor H. Guy, of Ben Avon Heights and Salem, O., was solemnized yesterday at 1:30 o'clock in the Bellstein home by the Rev. W. Owen Pratt. The bride wore eggshell chiffon with a hat to match, while her matron of honor, Mrs. John Clark, of Bellevue, appeared in blue chiffon with a blue picture hat. Russell Arnold, of Akron, O., was best man. A reception for the immediate families and a few friends followed the ceremony, and later Mr. and Mrs. Guy left for a motor trip to Canada.

* * *

MR. AND MRS. CRESSON E. SMITH, of Fifth avenue, New York, have announced the marriage of their daughter, Miss Grace Avis Smith, and Richard H. Lange, son of Mrs. Margaret P. Lange, of Sheridan avenue, which was solemnized September 2 in Philadelphia. Mr. and Mrs. Lane will make their home in the Cathedral Mansions.

* * *

MISS MARY LOUISE WERNER, daughter of Mrs. Mary C. Werner, of the East End, has chosen October 2 as the date for her marriage to Lawrence Hague Baker, son of Mr. and Mrs. Walter H. Baker, of Morningside avenue. The service will be read that afternoon at 5:30 o'clock in St. Andrew's Episcopal Church. Mrs. Walter E. Werner, sister-in-law of the bride, will be matron of honor and the bridesmaids will be Miss Helen Domhoff and Miss Eleanor Barclay. Mary Jane Werner, a niece, will be flower girl. Walter E. Werner is to be best man and the ushers will include Lee Green, of Chester, Pa.; Curtis Cyphers, John Graham and Harold Reel. A reception in the home of Mr. and Mrs. Walter E. Werner will follow the ceremony.

* * *

MONDAY, September 23, is the date chosen by Miss Dorothy Hilda Wallace, daughter of Mr. and Mrs. William Francis Wallace, of Thomas boulevard, for her marriage to Thomas Joseph Feeney, son of the late Mr. and Mrs. Michael John Feeney, of Lytton avenue, Schenley Farms. The ceremony will be performed at 10 o'clock in Holy Rosary Catholic Church by the Rev. John Joyce. Miss Catherine Ellen Wallace will be her sister's maid of honor and her niece, Mary Elizabeth Rice, will be the junior bridesmaid. Another niece, Ann Louise Rice, is to be flower girl. Edward A. Feeney will be his brother's best man and the ushers will include John M. Feeney, Maurice F. Wallace, William H. Landen, of Springfield, Mass., and Lyman C. Feeney. A reception in the Wallace home will follow the ceremony.

* * *

TONIGHT at 7:30 o'clock, in the First Unitarian Church, the marriage of Miss Genevieve Webster, daughter of Mr. and Mrs. J. E. Webster, of North Negley avenue, and John Shipman Osler, of Pittsburgh and Detroit, son of Mr. and Mrs. George Osler, of Mellon street, will be solemnized by the Rev. Frank E. Smith. The bride, who will be given in marriage by her father, will wear white satin made on princess lines, with a tulle train set into the skirt with gold embroidery. Her tulle veil will be held with a cap of duchess lace belonging to her grandmother, and she will carry a shower of white roses and lilies of the valley. Miss Betty Webster will be her sister's maid of honor, appearing in orchid tulle with an uneven hem line made of deeper orchid tulle, and will carry lavendar asters and yellow roses. Another sister, Miss Marguerite Webster, as the first bridesmaid, will wear green moire made with an uneven hem line of dark green moire, while the bridesmaids, Miss Mary McConahey, Miss Eleanor Campbell, Miss Sarah Hannan, Miss Betty Matter, Miss Melva Powell and Miss Florence Storer, will wear similarly made frocks in yellow moire and tulle. Their flowers will be yellow and orange roses, marigold and asters and blue larkspur. Robert Young, of Bellevue, is to be best man and the ushers will include George Gould Osler, brother of the bridegroom; his cousin, Francis Shipman; Vernon Mollenaur, George Beecher, Frank Carsten, of Brownsville; Ray Baker, of East Orange, N. J.; William Lamb and Frederick Close, of this city. A dinner in the Stanton Heights Golf Club will follow the ceremony with covers laid for 26 at the bridal table. Mrs. Webster will wear wood violet lace while Mrs. Osler will appear in white romaine crepe and black velvet. Mr. and Mrs. Osler will take an eastern motor trip and after October 1 will be at home in Detroit.

* * *

HIGHLAND CHAPTER, No. 182, O. E. S., will hold a corn roast tonight at 6 o'clock in the East End O. E. S. Temple. Mrs. Lucille Weaver and Mrs. Louise Herron are in charge.

* * *

THE marriage of Miss Helen Elizabeth Shirey, daughter of Mrs. Pamelia Jane Shirey, of Avalon, and William Adam Urling, son of Mr. and Mrs. John H. Urling, of Mt. Nebo, was solemnized Saturday afternoon in the Shirey home. Miss Margaret M. Urling, sister of the bridegroom, was maid of honor and Theodore L. Hoffman, best man.

Cousin of Roosevelt Dies

NEW YORK, Sept. 10.—(AP.)—Robert B. Roosevelt, a cousin of the late President Theodore Roosevelt, died of heart disease yesterday at his summer home, Sayville, L. I., after an illness of six months. He was 63 years old.

Federation To Vote on New Post

TWO important recommendations made in the report of Mrs. John A. Frick, president of the State Federation of Pennsylvania Women, at last year's convention will come up for action this year when the organization meets in Erie October 14-18. The creation of the office of second vice president is one of these two, Mrs. Frick having made this recommendation in order that another elected member might be added to the executive board which was decreased when the convention last year voted to elect five instead of 10 directors. The second recommendation, and perhaps the most important, concerns the change in date for the annual convention from fall until spring. More than half of the state federations in the country have already made such a change and other reasons are advanced to show that the change would be advantageous. For one thing, the fiscal year of the State could then be made to conform to that of the General Federation.

* * *

THE Stephen Foster benefit garden party which is to be held at the home of Mrs. George Swan, Inverness street, on Tuesday, will serve as the opening of the Tuesday Musical Club Choral season. The Choral has pledged $5,000 to the memorial fund and will hold monthly benefits during the season to raise the amount. The members have divided into groups and the hostesses for Thursday's event are from Squirrel Hill and include Mrs. Swan, Mrs. S. H. Nichols, Mrs. F. D. Newbury, Mrs. L. R. Titsworth, Mrs. Carl G. Ross and Miss Helen Bigge. The Stephen Foster Singers, Miss Esther Edmundson, Mrs. Lewis A. Young, Miss Virginia Kendrick and Miss Anne Woestehoff, with Martha Meyers Murdock at the piano, will sing in costume. Mrs. Caroline Himelblau and Miss Helen Pfordt Bigge, also in costume, will contribute solo numbers, and Mrs. O. B. Austin and Mrs. Nichols, attired as gypsies, will tell fortunes. The affair will also be something in the nature of a welcome for the returned travelers in the club. Mrs. Arthur B. Siviter, the president, is home from a Canadian trip and her predecessor in office, Mrs. Will Earhart, from a two-month European tour.

* * *

A MEETING in the garden of Mrs. Graham Bright's home tomorrow will open the season for the Woman's Club of Bryn Mawr Farms. It is to be a stunt day with Mrs. E. N. Newill, Mrs. P. E. Wakefield, Mrs. O. V. Stewart, Mrs. J. Osborne, Mrs. P. M. Hengstenberg and Mrs. W. A. Cassidy assisting the hostess. Speakers at subsequent meetings will include Dr. L. R. McCloskey, who will speak concerning the Pennsylvania Legislature; R. L. Williams, associate secretary of the Y. M. C. A., whose topic will be "Character Building;" Miss May Scott, who will tell of "Christmas in Other Lands;" Prof. H. K. Kirk-Patrick, of Carnegie Institute of Technology, whose talk will be of India; Mrs. A. L. Gettig, with "Colonial Days" as her subject, and Mrs. W. Riley Alter, talking on "The American Home;" Mrs. Chester F. Johnston with "The Seven Ages of Woman" as her topic, and Judge Robert M. Ewing, who will tell of historic places and events in Western Pennsylvania. The tenth anniversary celebration of the club on June 13, will close its season.

* * *

THE Sarah Sloan Scholarship Club which doubled the amount of its scholarship awards last year over that of the first year, intends to double again this season. Toward this end, the club will have a benefit bridge tea in Mrs. David I. McCahill's home, Warwick terrace, on September 26. Only sufficient funds were in the treasury this summer to meet one-half the applications received. One boy who had been given a scholarship of $350 has, by way of appreciation, made a gift of $150 to the club.

* * *

ALTHOUGH the club year does not open formally until October 4, the horticultural committee of the Crafton Woman's Club will have its annual flower show Friday afternoon and evening in the Auditorium Building, Noble and Bradford avenues. At the same time and place the committee for the blind will have its annual sale of articles made by the blind. Invitations, unique in that they are written in Braille, have been sent out for the sale. Members of this committee will serve as hostesses at the home exposition in the South Side Market House September 20.

* * *

THE Kaednege Society will resume its monthly meetings in the East Liberty Presbyterian Church on Thursday at 10 o'clock. The committee in charge includes Mrs. C. Blume, Mrs. Thomas P. Fleeson, Mrs. H. W. Fulton, Mrs. J. P. Lafferty, Mrs. Charles Morgan, Mrs. Harry Nuttle, Mrs. Thomas Patterson, Mrs. U. J. L. Pepople and Mrs. L. V. Sattele.

* * *

PREPARATORY to the opening of the season, the Woman's City Club will have a governor's meeting this evening. Mrs. Henry Clay McEldowney, president, has appointed these chairmen for the year: General activities, Mrs. George S. Baton; program, Mrs. Cooke Bausman; music, Miss Winifred Perry; hospitality, Mrs. Biddle Arthurs; evening entertainments, Miss Lucetta Burns; special features, Mrs. Ambrose N. Diehl; librarian, Miss Suzanne Beatty; house, Mrs. E. V. Babcock; bulletin, Miss Vanda E. Kerst; finance, Miss Grace Berkebile.

* * *

MRS. ANNA PACYNA and Mrs. F. T. Sladden will be hostesses to the Dormont and Mt. Lebanon League of Women Voters at their candidates' meeting tomorrow afternoon in Lebanon Hall, Washington avenue. Mrs. R. L. Ehmann, chairman, will preside.

* * *

CARNEGIE YOUNG WOMEN'S CHRISTIAN ASSOCIATION will present the romantic comedy, "Smilin' Through," on Friday evening in Carnegie Music Hall, Carnegie. The play is being coached by William Craig and Dorothy Mulvey, Mrs. Byron King, Jr., acting as critic. In the cast are William Craig, William Coates, Jane Haller, Margaret Mansfield, William Woodall, Raymond Worley, Verna Holland, Donald Glossner, Dorothy Mulvey, Ralph Burris, Sue Booth, Ruth Doudna, Josephine Wishart, Henry Kane and Robert Beedling.

* * *

A BAKE sale will be held at 132 Brownsville road, Mt. Oliver, on Saturday by the social committee of Theodore Rebekah Lodge, No. 208.

TWO VARIATIONS OF NEW SILHOUETTE

Sketched in Paris

Paris Bureau, Pittsburgh Sun-Telegraph

PARIS, Sept. 9.—"There are two sides to the story of many of the delightful dresses shown during the recent openings."

Vionnet and Jenny are two of the couturieres who have used both the lustrous and the dull surface of satin crepe for clothes designed for day as well as for the glamorous hours after dark.

* * *

THE shiny surface of satin certainly seems to give that somewhat hard look that really has no place in the new softly feminine styles that are now in vogue. But when combined with the dull crepe side, crepe satin becomes the ideal medium for the woman who seeks the expression of grace and dignity in her clothes.

* * *

IN evening clothes there is a wide diversity of line. But although there may be many variations of the evening silhouette, all designers agree that the skirt shall be extremely long, either at the sides or back or both, and that the line at the hips and bodice shall be narrow or snug.

A picturesque example of the new and prevailing silhouette is to be found in the frock shown at the left. It is one of the successes of Jenny's new collection.

* * *

THE illustration shows this satin evening frock in its black and white interpretation, but Madame Jenny made the original in almond green with side panels of dull rose beige — a really lovely combination. The lustrous side of the crepe satin makes the cape-like bertha and skirt flounce, while the dull or crepe side is used for the body of the frock. The line of the decolletage is very becoming, as it is rounded in front with deep "V" at the back.

* * *

LUCIEN LELONG has just presented his winter collection, and we hasten to send you a sketch of one of the most softly alluring evening ensembles yet shown.

Soft white mousseline-de-soie makes the delicate frock, the skirt looped up at front and back, but trailing to the floor at the sides. The snug hipe line is achieved by row upon row of tiny shirrings, and the bodice is simple and straight of silhouette, with a slight suggestion of blousing at the waistline.

Completing the model is a clever little packet of black chiffon velvet with three-quarter length sleeves cuffed in ermine.

* * *

PRACTICAL as well as picturesque are these new short or three-quarter coats that are part of the design of so many of the evening colthes destined to add beauty and color to the functions to be given this winter. And the woman that suffers from colds and chills will give thanks that, for once, fashion and comfort go hand in hand.

(Copyright, 1929, King Features Syn., Inc.)

JENNY designed this evening frock in almond green satin crepe, with side panels of dull rose beige. Black and white interpretation pictured above.

LELONG'S Winter collection offered this evening frock in mousseline-de-soie. The jacket is of frock chiffon velvet with sleeves cuffed in ermine.

SHREDDED WHEAT

With all the bran of the whole wheat

So easy to give children a warm, nourishing breakfast. All the food elements their growing bodies need, in such a delicious, digestible form. Saves mother a lot of work and worry.

To Avoid Grease Film on China or Glassware

Simple New Way Does Wonders and Is Kind to Pretty Hands—*Use Any Kind of Soap*

Even the most inexpensive table china and glassware can be made to look far better than its price in a simple way. It can be given the brilliancy and sparkle of the most costly kinds; and glassware particularly is judged by its sparkle.

Simply add one teaspoonful of the cleansing preparation called CLIMALENE to your water. Use the same soap you ordinarily do, but use only ONE-FOURTH the usual quantity. Wash as usual.

This preparation is a grease dissolvent, while soap is, strictly speaking, a grease. Thus it gives shine and sparkle, while soap often leaves a greasy film that's hard to get rid of even with the most careful drying.

Most hotels use this method to make glass and china gleam. Housewives like it not only for this reason, but because it acts to soften and whiten skin fabric of the ha.

Results are surprising. Try it. Get at any grocery store in 10c or 25c package. Just ask your grocer for CLIMALENE.

TEST OF AUTOS BEGINS OCT. 1

Official notices from the State Motor Vehicle Department are being mailed to motorists throughout the state, calling attention that all motorists must have their machines inspected between October 1 and November 15. During the inspection, which is authorized by provisions of the new motor code, a state-wide "Save a Life" campaign will be observed.

John J. Hall of the state department visited Pittsburgh yesterday in the interests of the campaign and received the pledge of C. H. Roth, secretary of the Pittsburgh Motor Club, that the club would aid in carrying on the drive here. The motor club is helping Mr. Hall to schedule a series of meetings with service clubs, street and neighborhood associations and fraternal bodies, before which he will speak.

CO-ED RETRIED IN HOLDUP

NEW BRAUNFELS, Tex., Sept. 10.—(AP.)—For the third time since a day in 1926, when a girl held up employes of the Farmer's National Bank, of Buda, Tex., and escaped in a motor car with $1,000, Mrs. Rebecca Bradley Rogers, former University of Texas student, yesterday went to trial on a charge of robbery with firearms.

Convicted by a jury at LaGrange, Tex., and sentenced to 14 years' imprisonment, Mrs. Rogers won a reversal of the verdict on appeal. A second trial was ordered at LaGrange and after failure to obtain a jury, the case was transferred here.

Five Divorces in 20 Minutes, Reno Mark

RENO, Sept. 10.—(AP.)—Five divorce decrees in 20 minutes was the record made by Mayor E. E. Roberts in his capacity as attorney here yesterday.

A Welcome to

david

Pittsburgh's New Shop Which Has Just Opened in the William Penn Hotel.

Another notable example of the Boggs & Buhl Decorating Department—a pine paneled room, designed and completely furnished by this store.

BOGGS & BUHL

"Lux is safe . . . we use Lux for everything of baby's"

famous Maternity Center tells mothers . . .

"SMALL GARMENTS *can be kept soft and fluffy through hundreds of washings, and babies comfortable, if Lux is used," says the famous Maternity Center.*

"LIKE most young mothers, I want to give my precious baby the very best care.

"At the famous Maternity Center in New York they told me how important it was to choose the safest, *purest* soap in washing baby's things. At the Center Lux is used for *everything* — clothes, diapers, blankets, bottles—even toys!

"For these experts say that many soaps contain alkali that will irritate a baby's skin—chafe and inflame. Lux has *no harmful alkali*—is absolutely safe.

"Then with Lux, there's *no rubbing* to mat wool fibres, leaving shirts and bands harsh and shrunken. Another reason for using Lux is that it is a truly sanitary form of soap because, unlike cake soap, the same Lux is never used twice."

Try Lux FREE

Try this marvelous Lux care for *your* baby's things at our expense. Just send us your name and address. By return mail you will receive a full-size package of Lux free. Write today to Lever Bros. Co., Dept. Z-30 Cambridge, Mass.

Practical Travelers—

Travel Crepe Dresses

Shown (left) in Models for Fall

$25

Travel crepes are pure silk of a somewhat heavier weave than ordinary silk crepes. They wear well. Their printed patterns also seem to have been designed so as not to show dirt and wrinkles. There are tweed-like designs and spreckled novelties. In shades of blue, gray, green, tan, and brown.

One and Two-Piece Models

Models for misses and women (sizes 16 to 44) in lovely models. Many feature the deep V neckline with vestee. Some of the skirts are bordered.

Canton Crepe Afternoon Dresses

Shown Right $25

This is one of the very new frocks for afternoon wear — and a splendid one for travelers. The collars and cuffs are of beige georgette. Buttons are arranged at close intervals down the back of the waist, and the bolero is affected. Model illustrated is in brown and black; misses' sizes.

Other models, in black, brown and Independence blue; sizes 14 to 40.

From the "Little Milliners"—

Paris Hats

$18.50

Out of one milliner's shop into another's . . . and out again. Our buyer of millinery had a busy time choosing the loveliest models that the "Little Milliners" of Paris were offering.

Many of the hats she chose are here; others are arriving. They feature the best Parisian styles —exposed forehead . . . hair line . . . side width . . . side lengths.

The model illustrated is of black felt with shirring across the front and rippling the back.

Two New Fall Pumps

$10

This pump (top) is a narrow one-strap model with buckle at the side. In blue or dull kid with side insert of lizard. Spike heel and high-fitting arch. $10.

The model illustrated below is of black or Java brown suede with lizard straps and vamp trimming. Spike heel. $10.

Drastic After-August Sale

Furniture Clearing!

½ Price

—some even less—other lots ⅓ off

The great August Sale was in one way "too successful"—it played havoc with the furniture stock—left odd suites and pieces here and there in lines that we cannot or do not choose to re-order—and disclosed others that did not sell with the alacrity of the more popular suites. Now to straighten all this out—to get stock ship-shape for fall—with carloads of new furniture en route—tomorrow the clear-away—thousands of dollars' worth of every description on a half price basis—and a few less.

BUCS-ROBINS PLAY FINALE

SPORT COMMENT
by JAMES J. LONG

Regan Outshines Mates. *Shifting in Outfield.*
Robbie Expects to Stay. *Brame Adds Another.*
Wright on First Base. *Chocolate's Proposal.*

BROOKLINE BOY ALONE SURE OF JOB

ON TOP of several other tributes that have been paid to Bill Regan, the Brookline boy, for his splendid all-around work as the regular second baseman of the Boston Americans this season, a report comes from the Hub that he is the only member of the Red Sox infield who will be retained for next year. A new inner wall of defense is to be constructed around Bill, who is looked upon as the only player in that department of the club measuring up to the standards set by the management in its plans to put together a winning team.

Bill Regan

All of the other infielders are to go, it is said, which would appear to indicate the dismissal of First Baseman Bill Todt, Hal Rhyne, Bill Narlesky, Bob Reeves, Grant Gillis, Jerry Standaert, Bill Barrett and Walter Gerber. The fact that the report includes Narlesky is rather surprising, as he has been rated as a valuable pick-up.

Regan has been out of the lineup again recently on account of an injury, but even though inactive at present he is said to have sewed up his job for 1930, whereas all of his infield mates have failed.

BILL'S showing this summer has been all the more creditable in view of injuries, a family bereavement and other misfortunes that probably kept him from playing as brilliantly as he would have performed otherwise. In spite of all that, however, Regan has boosted his average of a year to the healthy extent of 21 points.

Last season the Brookline citizen turned in a hitting mark of .264, but his figures for the present campaign are .285. Narlesky is just one point ahead of him, largely due to the fact that Regan has been at bat 71 times more than the team-mate named. The only other members of the club, apart from batterymen, who have better averages than Regan are Bigelow, Scarritt, Rothrock and Williams.

WILBERT ROBINSON does not share the widespread belief that he is serving his last year as manager of the Brooklyn ball club, which makes its final Pittsburgh appearance of 1929 at Forbes Field today.

Glenn Wright

Though his three-year contract expires this fall, and the Steve McKeever faction among the owners is known to oppose his retention, Robbie is quietly confident of staying right on the same old job, though just how the Gilleaudeau faction can give him a new contract without the consent of the McKeever side is something that he does not attempt to explain.

THE leader of the Robins is going ahead with his plans for the 1929 season, and one of his aims is to make a first baseman of Glenn Wright, former Pirate shortstop, who has been out of the game practically all season with an injured throwing arm. Robbie believes that even if Wright does not fully recover his old pegging power he will be able to throw well enough to hold down the post at the initial sack. "When we return home after the present Western trip they'll take the harness off Wright's arm," said the pudgy pilot, "and we shall see what we shall see. Wright has the build and the ability on ground balls to make a fine first baseman, and his hitting power is unquestioned. He's a right-hand hitter and we need someone to sock those left-hand pitchers."

IF WRIGHT comes through as a first sacker, Del Bissonette probably will be placed on the block, as Robbie is of the opinion that the Flatbush outfit, as now made up, has too many left-hand hitters in its batting order. Several other players in addition to Bissonette, it is said, are now making their last trip at the expense of the Brooklyn club.

One report has it that among the players missing from the Robin training camp next spring will be Max Carey, former Pirate captain; Dave Bancroft, Butch Henline and Rube Bressler. A wild rumor has been circulated on the side to the effect that Carey may come here to manage the Pirates, but as far as that particular job is concerned, it may be stated very safely that Carey has no more chance than Socko.

WHICH of the three outfield positions on a baseball team is the hardest to play? Harry Heilmann, Detroit veteran, says they are all about the same, though there are exceptions, of course, in a park where there is a sunfield that is particularly bad.

Harry Heilmann

The Tiger slugger also declares that outfielders nowadays do not shift on the catcher's signals for certain pitches.

"IN THIS day of the lively ball, what use is there to shift around for a fast ball or a curve?" Heilmann asks. "The only thing that an outfielder can do is to play back and trust in fate. Of course, there are certain batters whom you can play. For instance, we go to the foul line for Ruth and Goslin and move away from it for Gehrig. We play in close for a line hitter like Jamieson, Bishop or Durocher. You have to play those fellows short because when they hit you have to be on it or it will go through you for plenty.

"RUTH is a pull hitter, and so is Goslin. You can figure fairly well how to play them if the ball is not knocked out of the lot. Gehrig is not a pull hitter. You never can tell where he is going to hit. Simmons and Foxx are straightaway hitters, but they hit so hard that you can't get them even if you are right in the alley.

"Two of he toughest batters in the American League to handle are Joe Judge and Joe Sewell. You can't guess either of them. They won't hit bad balls, and when either hits a good one you never know where it is going."

ERVIN BRAME did the unusual yesterday by failing to get a hit in a game pitched by himself. The failure, by the way, caused him to tumble out of the .300 class and took away from him, temporarily at least, the distinction of being the only Pirate pitcher holding a place in the select batting circle.

But Brame did what he had been sent in to do chiefly, and that was to win his game. That makes 14 victories for him against nine defeats. He has won six of his last nine engagements. Ervin is not only finishing the season at a winning clip but he is making a bid for the honor of working in more games than any other Pittsburgh pitcher this season. Yesterday's game was his thirty-third. Only

(Continued on Page Twenty.)

OAKMONT STAR LEADS FIELD WITH 89

By VERN SWARTSFAGER.

The medalist honors in the qualifying round of the women's Western Pennsylvania golf championship, being staged over the beautiful links of the Oakmont Country Club, went to the modest, dark-haired pride of the home club Miss Betty Abernathy, who scored an 89 yesterday to lead a large and strong field in the 18-hole medal play round.

Of equal importance was the fact that Miss Anjeanette Hunter, of the Stanton Heights Golf Club, who is defending her championship, scored a 99 to barely make the grade in the first flight.

This morning's first round of match play finds Miss Abernethy matched against a club-mate of years' more experience, Mrs. J. Raymond Price, first holder of the West Penn gonfalon, and the pair are making a merry battle of it.

MISS ROSEBURGH QUALIFIES

Miss Emily Roseburgh, of Oakmont, is pitted against Mrs. J. M. Irwin, of Edgewood; and Mrs. Frank Campbell is playing her club-mate, Miss Hunter.

Mrs. L. G. Riley, of the Edgewood Country Club, former city champion, who was second in the qualifying round with a 90, is matching strokes with Mrs. J. A. Ellen, of the Pittsburgh Field Club.

Mrs. J. Bernd Rose, undefeated champion (for she did not defend her title last year after winning it in 1927) is playing against Miss Lois Hollander, of the Westmoreland Country Club. Mrs. Rose scored a 91 to rate third in the qualifying test.

Mrs. Gordon Fisher of Fox Chapel, and Mrs. D. A. Garber of Stanton Heights, are idle for the first round, having drawn byes.

Denny St. Clair, of Kiski, West Penn Junior champion, came through to cop top honors in the state championship of the Sons of the American Revolution, at the Pittsburgh Field Club. Denny's fine medal score of 77 gave him the low gross honors for the day, although his handicap of three placed him well up in the net division. Robert A. Lyne, of Oakmont, was second in the gross scoring with a 78.

COGGSWELL VICTOR

W. H. Coggswell, of Hannastown, turned in the best net score to win the prize in that event, scoring 81-10-71, which gave him the John L. Walker cup. J. Howard Johnson won a special prize for players handicapped between 11 and 20, with 88-16-72 and Dr. C. G. Hughes and Dr. J. G. Garvin tied for the prize among those handicapped between 21 and 30 with gross scores of 101. Col. Franklin Blackstone won a prize with his net 71 and Col. Weaver H. Rogers took another with his net 75. Larry Riddle and his son, J. A. Riddle, were victors in the fathers and sons contest, the former scoring 89-17-72 and the latter 127-30-97.

St. Clair won the putting contest, with 25; R. L. Hambleton copped the driving event with a yardage of 303, and Capt. Warren J. Clear, of Washington, won the low gross for out-of-town entries with an 87. Col. A. N. Holcomb of Washington, was second.

MRS. CURRY MEDALIST

Mrs. Margaret Curry, city champion, led the qualifying field in the Women's Schenley Park Golf championship with a splendid 40-41-81, while Mrs. Arthur Josephson was runner-up with 43-42-85.

Mrs. Josephson is playing Mrs. Carver; Miss Edith Clarke is battling Mrs. Briggs, Mrs. Blair is pitted against Miss Jesse Gould, defending champion, and Mrs. Stephenson is meeting Mrs. Curry in today's first round matches.

The Philadelphia Company is holding a tournament at the St. Clair Country Club today.

Yesterday's results of the Women's West Penn Championship at Oakmont:

QUALIFIERS

Betty Abernathy, Oakmont	43	46—	89
Mrs. L. G. Riley, Edgewood	43	47—	90
Mrs. J. B. Rose, Allegheny	47	44—	91
Mrs. Frank Campbell, Stanton	51	44—	95
Mrs. D. A. Garber, Stanton	48	48—	96

Losing pitcher—A. Moore.
Time of game—1:53.
Umpires—Klem, Stark and Hart.

By CHARLES J. DOYLE.

After today, the Pirates will be washed up with the Robins, the final clash of the season between the teams being set for this afternoon. A 9-7 home victory yesterday made it 12 triumphs as against nine setbacks for the Buccos in the 21 games played. In the event of rain this afternoon the last contest will go by the boards entirely.

Jess Petty, who drew his paychecks from the Brooklyn nine last season, will try today to make his former mates walk the plank. Just a few days back, the Silver Fox was able to set down his oldtime buddies in a masterly manner.

CLARK OPPOSES BUCS

For opposition today, Jess is likely to draw Watson Clark, another clever thrower of lefthand slants.

The McGraw circus will be in town tomorrow with a lot of features although the Broadway production seems to have lost a lot of its "kick." A New York team in Pittsburgh, however, is one of the high spots of the diamond sport hereabouts, and the fact that two games are set for the morrow ads much flavor to the occasion. The first contest will begin at 1:45.

Another reason why the series with the Giants will be interesting lies in the desire of the Polo Grounders to overhaul the second-place Pirates. The New York and Pittsburgh athletes are resigned to the loss of the flag, but the Giants are not ready to concede the Buccos second money.

Winning two games over the forlorn Reds yesterday the Giants reduced the Bucco advantage to five and one-half games. The gap still is a severe one to bridge, but the four games here will give the invaders the opportunity they desire. The Buccos naturally will be on the alert to protect their property.

MOSOLF SPECTACULAR

Ervin Brame pulled a game out yesterday largely on account of the spectacular debut of James Mosolf, Wichita swatter, who made his Pirate debut with a game-saving single in the seventh inning. Both Brame and Johnny Morrison, who started against the Pirates, were batted freely. Brame nevertheless, stayed on Fogarty Knoll throughout the storm and after Mosolf had put the club in the game the Pirates enjoyed a big inning that salted away the fight.

The Pirates were trailing by a run as the home half of the seventh started. Comorosky beat out a tap and he moved ahead on Hemsley's sacrifice. Sheely walked and Manager Ens called on the impressive Western League who swings from the left side.

Mosolf's pretty swing connected for a fine hit to right, scoring Commy and sending Sheely to third. Earl was caught at the plate a moment later on Brame's drive to Bissonette, but Bartell singled, to score Mosolf, who narrowly missed being tagged out after he had fallen in tearing up the line from third. He scrambled over just in time to put the Buccos ahead. L. Waner walked and A. Moore, who had relieved Morrison, was yanked in favor of McWeeney. Doug was wild enough to uncork a wild pitch with the bases packed that gave the Pirates two safety runs. The Robins threatened in the ninth, but Sparky Adams, replacing Clark in the shortfield, turned in a sensational stop to end the battle.

Today's Lineup

ROBINS	PIRATES
Moore, 2b.	Bartell, 2b.
Frederick, cf.	L. Waner, cf.
Herman, rf.	P. Waner, rf.
Bressler, lf.	Traynor, 3b.
Bissonette, 1b.	Comorosky, lf.
Gilbert, 3b.	Hemsley, c.
Bancroft, ss.	Sheely, 1b.
Picinich, c.	Clarke, ss.
Clark, p.	Petty, p.

WORLD SERIES TO OPEN ON OCTOBER 8

CHICAGO, Sept. 10.—(AP.)—The first game of the world series will be played October 8 in the city winning the National League pennant, it was announced today at the office of Kenesaw Mountain Landis, commissioner.

The date for the baseball classic, prices of admission and other details were agreed on today at a meeting presided over by Landis.

Others in attendance were E. S. Barnard, president of the American League; John A. Heydler, president of the National League, and officials of the Athletics and Cubs, which appeared to have the pennants cinched. William Wrigley, Jr., owner of the Cubs, and William L. Veeck, president of the team, were the representatives of the Cubs. Thomas Shibe, president of the Athletics, and Robert Shroeder, secretary, represented the Philadelphia team.

SERIES SCHEDULED

Granting that the Cubs and Athletics are the pennant winners, the world series schedule will read as follows:

October 8, at Chicago.
October 9, at Chicago.
October 10, traveling.
October 11, at Philadelphia.
October 12, at Philadelphia.
October 13, open (Sunday).
October 14, at Philadelphia.
October 15, traveling.
October 16, at Chicago.
October 17, at Chicago.

It was agreed to charge $6.50 for box seats, $5.50 for reserved grand stand seats and $1 for bleacher seats. These prices will prevail at both Chicago and Philadelphia. In event of rain causing postponement, the game will be played the next day, regardless of schedule.

CUBS A'S REPRESENTED

Although Commissioner Landis invited five other clubs in both leagues still having a mathematical chance of winning, only the representatives of the Athletics and Cubs appeared.

All games both at Philadelphia and Chicago, will start at 1:30 p. m.

The open day in the schedule was because of prohibition of Sunday baseball in Pennsylvania.

CIRCUIT RACES TODAY

AURORA, Ill., Sept. 10.—(AP.)—The opening day's program of the Grand Circuit harness racing meet here was postponed on account of rain. The three events scheduled for yesterday will be run off today.

MEDALIST AT OAKMONT

LOCAL WALTONS ARE VICTORS

WAYNESBURG, Pa., Sept. 10.—Yesterday afternoon was devoted to a program of sport events by the members of the Izaak Walton League of America, who are attending the Pennsylvania district convention here. Because of rain, the field trials as well as the trapshooting events were greatly retarded and the number of entries were lessened. The field trials will be finished today, as well as the trapshooting, rifle and revolver matches.

The events were in charge of C. W. Ward, president of the Pittsburgh Chapter. J. C. Baxendell, of Pittsburgh, won the majority of the events. He was first in five-eights ounce distance event; one-half ounce accuracy bait event; wet fly accuracy event; dry known distance even one-half ounce distance event.

Winners of other events were: Five-eights ounce accuracy bait, D. S. Leet, Pittsburgh dry fly, unknown distance, Rev. H. L. Gaston, Jollytown, Pa.; distance fly, J. A. Beck, Pittsburgh.

C. W. Ward, Pittsburgh, finished second in the five-eights ounce accuracy bait event; and in the dry fly known distance event W. R. Oliver, Pittsburgh, was second in the five-eights distance bait, one-half ounce accuracy bait, wet fly accuracy, dry fly unknown distance, distance fly and one-half ounce distance.

RAJAH HOLDS EDGE OVER TRAYNOR

The Pittsburgh Sun-Telegraph has contended that if the major leagues continued the practice of naming the most valuable player each season, the choice should be made by the men and boys of the diamond, and not by the newspapermen.

Yesterday a hot discussion arose in the Brooklyn dugout as to who is the most valuable player in the league this season. Rogers Hornsby and Pie Traynor were ranking favorites in the talk, but when Rube Bressler took the floor he made a big impression with his discourse —which favored Rogers Hornsby for the honor.

GOOD ARGUMENT

Bressler realizes that Traynor and several other topliners are having great seasons, but he thinks there is no player in the game who has accomplished as much as The Rajah in the present race. Said Rube, in part:

"Value to his club is supposed to be the influencing factor in settling a question of this kind and surely there are many considerations as to how to arrive at the degree of value. Well, in the first place, the Cubs of one year ago were the same as they were today, except at second base. Leo Hartnett, however, was then one of the best catchers in the game.

"Hartnett has been unable to do anything this year, yet the same ball club, a side from Hornsby, is something like 13 games in front of the pack. Where was the team one year ago. It was not in first place. What player would you credit for this transformation. Now all that goes for his team-play assets. Consider, too, what he acutually accomplished in person."

ROGERS CAREFREE

"Hornsby has scored many more than 100 tallies and he has driven in many more than 100. He is among the leaders in the league as computed from an average standpoint. Yet when a game ends you cannot tell from Rog's action in the clubhouse whether he has been up five times for no hits or five for five. He has a nonchalance that spreads itself among other players who are prone to get too tight in their work, while at the same time he fights hard to win every game. If he isn't the outstanding player in the game, I don't know where you will find him. He's one of the smartest fellows in the game, too —don't forget that. Rog knows his baseball."

Photo by Pittsburgh Sun-Telegraph.

BETTY ABERNETHY

Miss Abernethy scored an 89 yesterday to set the pace in the qualifying round of the Women's Western Pennsylvania golf championship over her home links, Oakmont.

Immaculate Heart Trips Iroquois, 5-3

Immaculate Heart defeated Iroquois, 5 to 3, in the Inter-League elimination series at Mellon Field last evening. The winners staged a three-run rally in the seventh innings that put the game on ice.

The Homestead Grays set down the Warden Mine nine, 11 to 2, at West Newton. The Grays scored in each of the five innings played.

The J. G. Stephens club neared the Major League championship when it defeated the Whittaker Club, 8 to 4, last evening.

Civics and Smilers In Deciding Battle

The final game of the post-season series for the championship of the City league will be played this evening at the Salt Works grounds.

After each team winning one of the three-game series, both the North Side Civics and the Pleasant Valley Smilers are ready for this game which carries the City League title.

Managers Rooney and Dunsky probably rely upon Heidler and Jacoby. It was Jacoby's wonderful work that tied up the series. He hit a home run, after holding the Civics throughout the game.

North Side fans, looking for a real battle, will be on hand. The game will be called at 6:15 o'clock.

CHESS TILT ADJOURNED

WEISBADEN, Germany, Sept. 10.—(AP.)—The third game of the world chess championship match between Dr. Alexander Alekhine, of Paris, and E. Bogoljubon, of Triberg, was adjourned after 40 moves Dr. Alekhine won the first game in defense of his title and the second was a draw.

RANKING STARS PRESSED IN NATIONAL SINGLES

Any Girl's Best Friend Is Named Jack

★ SUN-TELEGRAPH ★ SPORTS ★

TUESDAY, SEPTEMBER 10, 1929 NINETEEN

MERCUR WINS AFTER BATTLE WITH IOWAN

FOREST HILLS, N. Y., Sept. 10.—(AP.)—While Big Bill Tilden casually looked on from a seat in the officials' stand, two of his leading rivals for the National tennis singles crown here extended to the limit in second round matches yesterday afternoon by the country's fourteenth and fifteenth ranking players.

Big Bill was among the 10,000 spectators who saw Fritz Mercur nose out Harris Coggeshall, of Des Moines, Iowa, No. 14 in the National rating list, in five hard sets, 7-5, 7-5, 2-6, 5-7, 7-5, and then saw J. Gilbert Hall, of South Orange, N. J., ranked No. 15, give George Lott stroke for stroke and ace for ace.

UNFINISHED TILT

Lott, young Chicago internationalist, who is looked upon as the man Tilden will have to beat to win this title for the seventh time, eventually captured the first set from Hall, but only by the close and attenuated scores of 10-8. The two were even at one-all in the second set when a drenching rain dispersed the gallery and terminated play.

England's foremost contenders advanced more easily, Henry Austin subduing Herbert L. Bowman, of New York, 6-2, 6-3, 6-0, and Ted Avory, Cambridge University player, eliminating Ed Burns, another New Yorker, 7-5, 6-2, 6-4.

In something of an upset, David N. Jones, of Columbia University, overcame Phil Neer, San Francisco, holder of the Intercollegiate championship eight years ago, at 15-13, 6-1, 8-6. Wilmer Allison and Berkeley Bell, the Texans, and Julius Seligson, of Lehigh University, were among the second-round winners. Allison downed one of the Southern contenders, Ted Burwell, of Charlotte, N. C., 6-0, 6-2, 6-4; Bell defeated Bruce Barnes, a fellow student at the University of Texas, for the third time in four meetings this year, 6-2, 6-3, 4-6, 6-3; and Seligson overwhelmed L. H. Wiley, Hartford, Conn., 6-1, 6-1, 6-1.

LOTT BEATS HALL

George M. Lott, Jr., Chicago, defeated J. Gilbert Hall, South Orange, N. J., this morning in a third-round match adjourned from yesterday. The scores were 12-190, 6-3, 6-2. When rain interrupted play yesterday Lott had won the first set, with the second standing at game all.

Completing the third-round bracket, Edward W. Feibleman, former Harvard star, defeated Dr. George King, New York, 6-3, 6-4, 3-6, 10-8 in another match that yesterday's shower interrupted. Dr. King led at 5-2 in the fourth set when play was halted, but Feibleman overhauled him today to win the match without recourse to a fifth set.

The program of third-round matches today:

1 p. m.—Bunny Austin, England, vs. Harold Macguffin, Philadelphia.

2 p. m.—John Doeg, Santa Monica, Cal., vs. William B. Wood, Jr., Boston.

3 p. m.—William T. Tilden, 2nd., Philadelphia, vs. Frank Shields, New York.

4:30 p. m.—Wilmer Allison, Fort Worth, Texas, vs. winner of Lott-Hall match.

Henry H. Bassford, Scarsdade, N. Y., began defense of his National veterans' championship, competition for men more than 45 years of age, by defeating G. A. Boyce, New York, 6-1, 6-1.

J. B. Adoue, Jr., Dallas, Tex., defeated John Morgan, New Yorker, 6-2, 6-3.

POSTAGE DUE IS VICTOR

A capacity crowd, augmented by ladies' night, marked the opening of the fourth week of greyhound racing at the Bridgeville Speedway last night. Thrilling finishes marked the competition itself, with Postage Due copping the fifth race by five lengths over Fells Chief, who ranked second, and Golden Yale, third.

Klip Quick, noted for his hurdling, easily won the eighth event, with Solo Mio second and Ocean Blow, third.

Last night's results and tonight's entries follow:

RESULTS

First race—Won by Broadland Cruiser; second, Alliance Meadows; third, Patsy McGrew.

Second race—Won by Otto; second, The Raven; third, Nelridge.

Third race—Won by Gaulston Glenna; second, Raincheck; third, Broad Education.

Fourth race—Won by Meddlesome Belle; second, Hickey Freeman; third, Fawn Boy.

Fifth race—Won by Postage Due; second, Fells Chief; third, Golden Yale.

Sixth race—Won by Lucky McGrew; second, Son of a Gun; third, Tompey.

Seventh race—Won by Regret; second, Mr. Hopewell; third, Lightning Bryce.

Eighth race—Won by Klip Quick; second, Sol Mio; third, Ocean Blow.

ENTRIES

First race, 3-16 mile—Dr. Harkness, John Freecern, Red Lightning, Wishing Maid, Sandy Meadows, Rio Rampart, Shamrock Queen and Tormentor.

Second race, 3-16 mile—Dan Freecern, Black Ruler, Prairie Wonder, Mickey Walker, White Checkers, Virginia Lou, Anthracite and Lawslick.

Third race, futurity—Spooky Meadows, Dick Freecern, Little Nell, Harmonious Officer, Forrest B., Bad News, Highfield, and Dashaway.

Fourth race, 5-16 mile—Running Fox, Gilt Edge, Midnight Hawke, Sporting Dude, L. C., Don Way Don, Coppy Tam and Ned Hopewell.

Fifth race, futurity—Busy D., Desert Rat, Master Spark Plug, Gaulston Glenna, Miss Canada, Flossie Hopewell, Miss Rexie and Golden Hare.

Sixth race, 3-16 mile—Hilton, Louis Ridge, Jazzy Skipper, Temple Belle, Speed Line, Kelstrand, Romance and Klondyke.

Seventh race, 5-16 mile, Charles Harthmuth Cup—Great Event, Czar Hopewell, Graven Image, Hilarious, Gold Dollar, Winnie Win, Colonel Chord and Smutty Face.

Eighth race, futurity hurdle—Mexia Gusher, Sans Sandy, McNatt, Sharps Gift, Bee, Flaming Mamie, Impertinent Sport and Whiskaway.

Pitcher Pruett Bought by Giants

NEW YORK, Sept. 10.—(AP.)—The New York Giants today announced the purchase of the contract of Herbert Pruett, lefthanded pitcher, from Newark of the International League. Pruett formerly pitched for St. Louis in the American League and Philadelphia in the National. He became noted early in his career with the Browns as a nemesis of Babe Ruth.

SELMA, Ala., Sept. 10.—(AP.)—Sale of Parker Perry, outfielder, to the Shreveport Club of the Texas League, was announced today by officials of the Selma Clover Leafs. Perry led the Southeastern League in hitting during the past season with an average of .365. In addition he led in home runs with 13 four-base clouts to his credit.

KEN STRONG A PRO

NEW YORK, Sept. 9.—Ken Strong, All-America back last season with New York University, has signed a contract to play professional football this season with the Stapleton Club, coached by Doug Wycoff, former Georgia Tech star. He will receive $5,000 for the season.

BUY HURLER

NEW YORK, Sept. 10.—(AP.)—The outright purchase of Pitcher Joseph Visotski from the Wilkes-Barre club of the New York-Pennsylvania League was announced today by the Giants.

GOLF AS CHAMPIONS PLAY IT

In general what is the proper method of approaching the green when the distance is not great?

Answered by
JOCK HUTCHISON

Former British Open Champion and Internationally Known Golf Professional.

The proper method of approaching differs with the individual.

Usually the pitch-and-run is used, meaning that the player uses a mid-iron, pitches the ball with a fairly low trajectory two-thirds of the distance, making the ball roll the other third. That is the easy and safe method, but there are a few like myself who prefer pitching the ball all the distance with a backspin. It's a better looking shot, but not always as effective as the pitch and run.

MAXIE AND K. O. TO DO STUFF TONIGHT

Maxie Rosenbloom and K. O. Brown, rival light-heavyweights of New York, will meet in the Meyers Bowl, North Braddock, tonight—weather permitting. They were scheduled to box last night, but rain prevented, although it failed to deluge the Pittsburgh district as it did Braddock.

The boxers on the card scaled yesterday afternoon and will not have to weigh again today. Rosenbloom weighed 170¼ pounds and Brown 175. Leo P. Flynn, manager of Brown, is here with him, while Frank Bachman, manager of Rosenbloom, will handle the latter.

Two changes have been made in the preliminary card because of injuries to Cleveland principals originally signed. Bob Moody, Negro heavyweight of Cleveland, and formerly of Freeport, had his vision impaired in a bout last week with K. O. Clemmons and Frank Florian suffered a stoved thumb.

Don Juan Jones, of Ambridge, a Mexican, will take the place of Florian against Young Jack Dempsey, of Conneaut, O., in the eight-round semi-final, while Ken Harley, of Wilmerding, will sub for Moody against George Panka, of Homestead, in the second bout. Elmo the Mighty, of New Castle, will meet Jack DeNino, of Clairton, in the opener.

Jones yesterday weighed 177 pounds and Dempsey 182¾; Panka 199 and Harley 194, and Elmo the Mighty 170½ and DeNino 172.

Rumor has Jackie Rodgers, local Negro bantamweight boxer, and his manager, Johnny Deutsch, at the parting of the ways.

Johnny Smackey, of Canonsburg, and Young Torsie, of Canton, have been matched to box the second six-round preliminary at McKeesport next Thursday night. California Joe Gans boxes Ray Newton and Chuck Doris meets Pedlar Palmer in the two 10-round feature numbers.

JIMMY REED BUSY

Jimmy Reed, of Columbus, and formerly of Erie, who recently boxed at the Meyers Bowl, meets Jimmy Hackley at Indianapolis tomorrow night and Eddie Reed at Erie two nights later.

Midget Mike O'Dowd and Eddie Shea likely will meet in Columbus, September 27.

Maxie Rosenbloom will leave following his fight with K O. Brown tonight for New York to fill a return engagement with Leo (One-Punch) Williams at the Canarsie (L. I.) Stadium Friday night. He also has a match pending at Toronto next Monday night, and, on September 23, he meets Cuban Bobby Brown for the fifth time, at Newark, N. J. He recently fought three fights in five days, against Tiger Payne at Coney Island, Harry Martone at Bayonne, N. J., and Cuban Bobby Brown at Franklin, N. H. The Martone and Brown bouts were fought on successive nights. That's the sort of a schedule the late Harry Greb used to follow.

JONES TO BOX COURTNEY

Billy Jones, local Negro light-heavyweight, who fights out of Philadelphia, boxes George Courtney, of New York, in the main bout of a show at the stadium in Philadelphia, September 24.

Ruby Goldstein boxes Freddie Mueller, of Buffalo, in the main bout of a show at the Queensboro stadium, New York, tonight. In two other 10-rounders on the card, Canada Lee boxes Arturo Sheckles and Emil Rossi faces Eddie Elkins. Art De Champlain, formerly of Johnstown, meets Sammy Tisch in the windup of another New York show. George Boychan and Jimmy Clay box a 10-rounder in Columbus, Ohio.

HAGERSTOWN WINS

HAGERSTOWN, Md., Sept. 10.—(AP.)—Hagerstown defeated Martinsburg 5 to 1, in the first game of the play-off series for the full season Blue Ridge League title yesterday. Wertman, of the Hubs, held Martinsburg to five hits and fanned nine batters. The score:

		R	H	E
Martinsburg	..000 001 000	1	5	4
Hagerstown	..030 020 00*	5	4	2

Batteries: Jones, Cramer and Woodring; Wertman and Lesko.

FLYNN PICKS LOUGHRAN TO BEAT GOB

By HARRY KECK,
Sports Editor

"Tommy Loughran is a sure bet to beat Jack Sharkey in their elimination bout for the so-called heavyweight championship of the world, in New York, September 26."

The speaker is Leo P. Flynn, of New York, veteran manager of boxers and former matchmaker for Tex Rickard in the old Madison Square Garden. He is in Pittsburgh with K. O. Brown, the Negro light-heavyweight, who meets Maxie Rosenbloom at the Meyers Bowl, North Braddock, tonight in a bout postponed from last night on account of rain.

"I'll tell you why Sharkey can't beat Loughran," the silver-haired fox of the ring game, who managed and seconded Jack Dempsey in the latter's last two fights, with Jack Sharkey and Gene Tunney, continued. "He's too fast and too good a boxer and he'll simply stab Sharkey off balance continually and hit him where and when he pleases and seldom will be hit in return. It will be a battle between Loughran's left jab and Sharkey's weaving style and his best bet, a left hook.

CAN'T SEE SHARKEY

"Aside from these differences in their style, I don't think Sharkey is much of a fighter. I said that before he fought Dempsey and I repeat it now. He has the makings of a good fighter, but he'll never amount to much until he gets a manager who can dominate him and keep him under control. He's too strong-headed for the men who have been handling him and have bowed to his will in all matters. What Jack needs is a man behind him who will TELL HIM what to do, and make him do it."

And then Leo, the Fox, who later in the day went out to Schenley Park and played a round of golf, a sport at which he is more or less of a shark, went on to point out a feature in Loughran's boxing that probably has been noted by few close followers of the sport. It is the manner in which Tommy employs his left jab. He holds the fist before him, shoulder-high and with the elbow down and crooked, and uses the tip of the glove as a sort of gun-sight or range-finder. By holding the arm with the elbow facing the floor of the ring, instead of sideways, he can biff his opponents in the face or push them off balance with a hinge-like movement of the arm, which is not tiring and is very effective. According to Flynn, he does this better than any other boxer he ever has seen with the exception of Jim Corbett. In pictures accompanying this story, Flynn illustrates the point.

Loughran's perfect left jab nimbleness of brain and speed afoot will prove entirely too much for Sharkey, Flynn believes. Sharkey prides himself on the fact that he himself is a fair sort of a boxer. It is one of Leo's ideas that when Jack tries to match Loughran's boxing he will find himself badly outclassed, and then, as in other bouts, will lose his head and turn in and slug, and his slugging attempts will render him an even easier foe for Loughran's skillful boxing.

BOOSTS CAMPOLO

Flynn is a strong plugger for Vittorio Campolo, the Argentine giant.

"He is a great prospect," Leo says. "He is a murderous body puncher and can whale away to the head with his right fist. If anybody ever teaches him what his left hand is for, to go along with his height and reach—sweet papa! What a fighter he'll be!"

Leo isn't exactly enthusiastic about Max Schmeling, the German heavyweight.

"They fed him a washed-up and badly battered Paulino," he said "and, after the first six rounds, he had very little opposition yet he couldn't stop the Basque in 15 rounds. That's not such great hitting."

This is Leo's first trip here with a boxer in about 10 years. Back in the old days, before he became too busy in New York, he campaigned around the country regularly with his boxers, who have included Bill Brennan, Kid Norfolk, Dave Shade, Bob Lawson and other good ones, but in recent years he has had to let associates make the trips with his men. Now, however, he is going back over the old ground again whenever the opportunity offers and is getting a new kick out of visiting the provinces, as the inland cities are regarded by the New York fight men. He has a high regard for his new star, Brown, who recently knocked out Osk Till, and predicts that he will add the wily Rosenbloom to his string of victims tonight.

GRAYS PLAY GUNNERS

Having won their last three games with comparative ease and during which they have had only two runs scored against them, the Homestead Grays look for tougher opposition this evening when they invade Canonsburg for the last time this season to battle the Gunners. Tomorrow the Grays invade Ford City, on Thursday they resume their independent championship series with Homewood.

Football Rules

Proper Decisions on Knotty Problems of the Game

PLAY NO. 8.

Poe, of Michigan, charges through the line after Lloyd, of the Navy, has thrown a forward pass and is standing behind his own line of scrimmage. The passer is tackled and held down by Poe. What is the correct ruling?

ANSWER.

Navy is awarded a penalty of five yards on the play, the referee ruling that it was a case of holding on defense. Offensive holding is penalized 15 yards.

LEO P. FLYNN ANALYZES BIG FIGHT

PHOTOS BY PITTSBURGH SUN-TELEGRAPH

THIS IS LOUGHRAN— —AND THIS IS SHARKEY.

Leo P. Flynn, of New York, famous veteran manager of boxers, who handled Jack Dempsey in the latter's last two fights, the one with Jack Sharkey and the second meeting with Gene Tunney, at Chicago, is a visitor in Pittsburgh today to second a boxer here for the first time in 10 years, and while here he gives it as his opinion that Tommy Loughran resigned light-heavyweight champion, is a cinch to beat Jack Sharkey in their battle in New York, September 26. Above he illustrates the two best punches of the big fellows, Loughran's straight left, which he hold shoulder-high, and Sharkey's left hook from a weaving stance.

CLUB PROGRAM ANNOUNCED

The complete program of athletic events and exercise hours for members of the Keystone Athletic Club has been arranged by Harry Hainsworth, athletic director at the downtown organization.

The daily schedule of athletic activities follows:

Monday, 9:30 to 11:30, women's swim class; 11:30 to 12:20, men's volley ball; 12:20, men's health drill; 12:45, men's volley ball; 4:45 to 5:15, men's volley ball, 5:20, men's health drill; 5:45, men's volley ball.

Tuesday, 9:30 to 10:30, women's gym class; 10:30 to 11:30, women's swim; 11:30 to 12:20, men's volley ball; 12:20, men's health drill; 12:45, men's basketball; 3:30 to 4:30, boys' swim; 4:45 to 5:15, men's volley ball; 5:20, men's health drill; 5:45, men's basketball; 8 to 10, family night in the swimming pool.

Wednesday, 11:30 to 12:20, men's volley ball; 12:20, men's health drill; 12:45, men's volley ball; 4:45 to 5:15, men's volley ball; 5:20, men's health drill; 5:45, men's volley ball.

Thursday, 9:30 to 10:30, women's gym class; 10 to 11:30, women's swim; 11:30 to 12:20, men's volley-ball; 12:20, men's health drill; 12:45, men's basketball; 3:30 to 4:30, girls' swim; 4:45 to 5:15, men's volley ball; 5:20, men's health drill; 5:45 men's basketball; 8 to 10, couples' night in the swimming pool.

Friday, 9:30 to 11:30, women's swim class; 11:30 to 12:20, men's volley ball; 12:20, men's health drill; 12:45, men's volley ball; 4:45 to 5:15, men's volley ball; 5:20, men's health drill; 5:45, men's volley ball.

Saturday, 9:30 to 10:30, girl's swim class, 9:30 to 11:30, boys' gym and swim; 12 to 2, men's volley ball; 2 to 4 men's basketball.

Sunday the athletic department, occupying the fifth, sixth, seventh and eighth floors of the 20-story K. A. C. building, is open from 10 a. m. to 5:30 p. m. with a family swimming period in the pool from 3:30 to 5:30.

Director Hainsworth also has announced that the handball and squash racquet courts will be open from 9 a. m. to 9 p. m. The K. A. C. swimming pool is open for men at all hours except those set aside for women and girls. A complete Turkish bath service under the direction of Robert Burns is provided from 9 a. m. to 9 p. m. daily. Sundays, 10 a. m. to 4 p. m. with ladies' days each Tuesday and Thursday morning from 9 a. m. to noon.

Duke Starts Work For Pitt Battle

DURHAM, N. C. Sept. 10.—Duke University Blue Devils started pointing for the Pitt game, October 5, yesterday, the first day of practice. Head Coach Jimmy De Hart gave the men new plays to be used against Pitt. A full squad formed three teams working under a hot sun.

BUCS PURCHASE STAR CATCHER

Catcher Alfred Bool, a member of the Baltimore Orioles in the International League, stamped by scouts as one of the most promising receivers in minor league ranks this season, has been purchased by the Pittsburgh Pirates for a large cash consideration and two players, according to an announcement this morning by Sam Dreyfuss, treasurer of the local club.

In exchange for Bool, who will report to the Pirates next spring, the Corsairs have released Jim Stroner outright to the Orioles and will turn over another player at a later date. Stroner, a third baseman, was farmed out to the Orioles earlier in the season.

Bool has enjoyed a wonderful season with the Orioles this year, appearing in 122 games and compiling a batting average of .331. He has made 30 doubles, five triples and 25 home runs, driving in 102 runs.

The new receiver bats and throws right-handed, is 27 years of age, stands 5 feet 11 inches and is a native of Lincoln, Neb. He first gained recognition as a member of the Quincy Three-Eye League club in 1925, being signed at the finish of the season by Oakland, of the Pacific Coast League. He stayed with Oakland during the seasons of 1926 and 1927. In 1928 he was with Nashville, of the Southern Association, going from there to Baltimore.

MILLER COPS

CINCINNATI, Sept. 10.—(AP.)—Freddie Miller, Cincinnati, defeated Mike O'Dowd, Columbus, in a 10-round bout here last night for the featherweight championship of Ohio.

CHARLEROI GUVS NEAR M. A. CROWN

WHEELING, W. Va., Sept. 10.—(AP.)—Wild throwing and poor pitching sent Wheeling's pennant hopes glimmering here yesterday as Charleroi gained its third victory, 9-8, in the Middle Atlantic League championship play-off. One more win will give the title to the Governors.

The series standing: Charleroi 3, Wheeling 1.

Going into the ninth inning with a one-run lead, Ferner weakened and issued three bases on balls and uncorked a wild pitch. This was coupled by two errors and a single to give the Governors three runs. With the tieing run already in, Lowell threw wild to third after taking a throw-in from the outfield, and Phillips came home with the deciding counter.

The teams go to Charleroi today for the fifth game. Charleroi can end the play-off with a victory, while if Wheeling wins, the clubs come back to Wheeling for the sixth engagement. The score:

CUBS NEED ONLY EIGHT MORE VICTORIES

GIANTS TAKE PAIR FROM REDS

Associated Press.

Joe McCarthy's Chicago Cubs set forth today in quest of eight more victories, all they need to clinch the 1929 National League pennant.

Thirteen games ahead of the second place Pittsburgh Pirates and with only 19 more contests to play, the Cubs were hoping to clinch the pennant within the next two weeks or less.

As the situation stood today the Cubs, by winning eight of their remaining games, would wind up with a record of 98 victories and 54 defeats. Pittsburgh, by winning all of its remaining games would finish with 98 victories and 56 defeats, the difference being that two Chicago games with St. Louis have been washed permanently off the schedule. Every Pittsburgh defeat from now on, of course, will make the Cubs already easy task that much easier.

The two leaders each chalked up victories yesterday, the Cubs nosing out Boston, 4 to 3, and Pittsburgh outslugging Brooklyn, 9 to 7.

WILSON HITS 37TH

Percy Lee Jones appeared to have the Cubs stopped, 2-0, until the seventh when Hack Wilson hit his thirty-seventh homer with one on to tie the score.

The New York Giants took two from Cincinnati, 6-to-4 and 10-to-4, in five innings. The Giants concentrated their attack on Adolph Luque in the second inning of the first game for four runs and then added two more off Ken Ash in the ninth. Hubbell held the Reds in check most of the way. McGraw's hopefuls slugged Kolp and Rixey for 12 hits in the abbreviated nightcap and Fitzsimmons had little trouble coasting in to victory.

The Phils bunched hits to down St. Louis, 9-to-3. Sweetland had only one bad inning, the second, when the Cards scored all their runs.

BROWNS BEATEN

Danny Mac Fayden outpitched Jack Ogden and the Boston Red Sox beat the St. Louis Browns, 6-3. The game was scheduled as the first part of a double header, but rain forced postponement of the second game. Mac Fayden gave up only seven hits and was never in danger after the Sox gave him a 3-2 lead in the sixth.

In the only other American League game of the day, Young Ed Walsh gave Washington only six hits and Chicago beat the Senators, 6-4. A three-run White Sox rally in the seventh sent Sad Sam Jones to the showers.

DUKE VETERANS PRESSED

Head Coach Elmer Layden, of Duquesne University, has just as much as declared that a number of his veteran players who may have felt their 1929 berth as first-string men rather secure are in for a surprise. In fact, the next two weeks are going to be given over to a battle for positions which may see a few new hands in strange places, and a few old hands in stranger ones.

Layden declares that there are included in the 77 men remaining after last Saturday's cut, candidates with more than a little promise who are going to keep his 1928 holdovers on their toes if they want to retain their old jobs. The new men have every opportunity to make a place for themselves on coming Duke varsities, and as members of the 1929 squad, reap the benefits of playing adversaries of a caliber never met by Duquesne teams before, as well as performing to the sort of audience which Forbes Field will hold.

It is admitted that West Virginia is probably the toughest nut the Dukes will have to crack, if they do crack it, which will depend entirely on the sort of aggregation turned out on the Bluff this year. Haskell Indians, to be played here at Forbes Field, are not going to prove a soft snap either, nor will Geneva, Loyola University of Chicago or the Catholic University gridders to be met at Washington, D. C.

Maryland Revokes Williams' License

BALTIMORE, Sept. 10.—(AP.)—The Maryland State Athletic Commission decided yesterday to revoke the license of Kid Williams because it feels the veteran fighter has reached the end of the fight trail in Maryland and there is danger of his suffering serious injury if allowed to continue. Williams was bantamweight champion of the world in 1914-15. He is about 40.

KAPLAN WINS

BALTIMORE, Sept. 10.—(AP.)—Louis (Kid) Kaplan scored a technical knockout over Henri De Wancker, of France, in the seventh round here last night.

PASSING DRILLS ON SLATE FOR PANTHERS

CAMP HAMILTON, WINDBER, Pa., Sept. 10.—Beginning today, the Pitt Panthers will devote more time to passing than they have so far this year. Dr. Sutherland announced yesterday that weather permitting, he would hold scrimmage every afternoon from now on and that the morning signal drill would be featured by more intensive passing. With a number of good passers on the squad the Pitt coach isn't going to waste any chances to develop a diversified attack. The morning drills will consist of loosening-up exercises, sprints, signal drills and kicking practice. The fight for the quarterback job is going to be a merry one judging by the way Sutherland has his kickers working.

KICKERS AT WORK

There are usually five punters working out after signal drill every morning. While no kicking for distance has been allowed thus far, all five, Edwards, who did the bulk of the punting last year, Baker, Uansa, Parkinson and Rooney, have all been kicking nicely.

Today several new plays will be given the team. A scrimmage is on the books for this afternoon. The weather has been good and Jock isn't wasting any time getting his team ready for the opening game.

SCRIMMAGE HELD

A varsity team composed of Collins and Donchess, ends; McMurdo and Tully, tackles; Dimeolo and Montgomery, guards; Daugherty, center; Baker, quarter; Uansa and Murphy, halves; and Parkinson, fullback, lined up against a team composed of Watt and Schultz, ends; Babic and Walton, tackles; Milligan and Yentch, guards; Heller, center; Ross, quarter; Alpert and Smith, halves; and Luch, fullback.

Parkinson took the ball over from the 12-yard line after a stubbornly-contested march down the field. The whole squad got into the scrimmage at different times.

TARTANS SLACKEN PACE

The Carnegie Tech gridders, who were put through an hour of stiff scrimmage yesterday, were to go through a somewhat less strenuous practice session today. Although the Tartans stood up well under the severe test and none suffered injury, Coaches Waddell and Steffen ordered a slight let down in the second workout of the second week of the training grind.

Murray Armentrout, star end for the plebes last season, was at halfback on the varsity yesterday, and his brilliant backfield play was the highlight of the scrimmage. Indications are that the versatile performer will become a backfield fixture.

Kusic Is Victor Over Hernandez

NEW CASTLE, Pa., Sept. 10.—Johnny Kusic, Youngstown junior lightweight, won in 10 rounds from Jack Hernandez, of Cuba, at Jolly Bowl last night. Kusic floored Hernandez for a long count in the first round, but Hernandez came back in the next three rounds and had the better of Kusic. From the fifth round on, the battle was Kusic's, although Hernandez showed flashes of real ability in spite of a badly damaged left eye. Hernandez was floored for a short count in the seventh.

Mickey Solmen, New Castle, won the decision over Chuck Zelnack, McKeesport, in the six round semi-final. Nick Martin, Cleveland, won by a technical knockout from Joe Midway, New Castle, in the sixth round.

Long's Sport Comment

(Continued from Page Eighteen.)

Steve Swetonic, who has pitched in 35 contests, though starting only 12, is ahead of him. Petty has pitched in 32, Kremer in 30 and Grimes in 29.

KID CHOCOLATE has returned to his home in Havana, but he will be back in the United States in five or six weeks and says he will take steps at once to straighten out the Al Singer dispute by giving the latter another match. "And Chocolate will let Singer come in at catchweights this time," said Luis Gutierrez, the Negro's manager. "What is more, we'll be glad to let George Kelly, who voted for Singer in the recent bout, sit in as one of the judges, and to have a second judge and a referee other than Charles F. Mathieson and Lou Magnolia, who voted for Chocolate.

Kid Chocolate.

"CHOCOLATE has tried to prove himself worthy of the splendid treatment given to him by the boxing fans of this country. He has never been accused of a foul and he has never claimed one. In the Bushy Graham bout it was the referee who disqualified Graham for fouling. There was no plea from Chocolate.

"The Kid never has asked for a guarantee. He took $40 for his first fight, and received $44,000 for his latest one. He boxed for $666 at a charity show that drew $33,000. He went back to the club that gave him his first fight for $40 and signed a blank contract to box again there to show his gratitude."

At Anderson, Ind.—Norman Brown defeated Shifty Dando, 10 rounds.

At Louisville — Cecil Payne defeated Billy Shaw, 10 rounds; Al DeRose and Willie Cecil drew, 8 rounds; Bip Luntzel defeated Howard Webb, 6 rounds.

At New York — Georgie Levine-Floyd Hybert fight, postponed until tonight.

At Atlantic City—Al Conway defeated Gene Gaffner, 8 rounds; Andy Smutly defeated Jack Taylor, 8 rounds.

Mrs. J. L. Powell	61	58	—119
Mrs. Fred Ftisz	60	60	—120
Mrs. R. B. Lattimer	65	60	—125

Employes of the Travelers' Insurance Company are holding a one-day golf tournament at the Edgewood Country Club today.

The third Pennsylvania Golf Association handicap tourney of the season will be played over the Field Club course tomorrow.

Grimm to Return To Action Soon

CHICAGO, Sept. 10. — (AP.) — Charley Grimm, Cub first baseman and captain, will be ready for duty again within two weeks. The cast has been removed from his left hand, a small bone of which was fractured nearly three weeks ago, and his doctor reported the break had mended perfectly.

INDEPENDENT GRID OPENER SUNDAY

By TOM BIRKS

The opening game of the 1929 independent gridiron season will be flashed at Rainbow Gardens, McKeesport, on Sunday, when the Pleasant Valley Smilers hook up with Fred Iverson's Olympics.

While most of the clubs will not get started until one week later, the Olympics, listening to public opinion, will start their drive in search of the title now held by West View, against the North Siders.

DUNSKY SET

Manager Dunsky did not side-step the game when it was offered to him, feeling that Coach Rickardson's proteges might upset the dope and beat the highly touted aggregation banded by the McKeesport magnate.

The Olympics held a workout on Sunday and Billy Sullivan seemed to be perfectly satisfied with the showing of the new men, and the makeup of the squad in general. The game which will be handled by competent officials will be called at 3 o'clock.

The Port Vue Quakers held a meeting last evening regarding their makeup for the coming season. It seems that Dash Kline will not be coaching the outfit, and that Ed Minnick, who has had much football experience, having managed the Champion Duquesne Lafayettes, will take his job. Mike Rogan feels that Port Vue will have a wonderful club, and should be far better than last year's aggregation. Controlla, the big lineman was supposed to be headed for other parts, but last-minute information indicates he will again be wearing the Black and Yellow.

BATCHA RETURNS

Manager Jack Mier, of the Monnessen Olympics, announces that Batcha, classy fullback, who was hurt in the opening game last year against the McKeesport Olympics will be back in the lineup this season, Mortak will be lost, having entered Bellefonte Academy, Veneri, the lineman, will be out, having entered Duquesne University.

Monnessen fans are enthusiastic over Batcha. Mortak is a wonderful player, but Batcha will fill his shoes, and it is certain that some of the opposing linemen are going to find it tough getting the big full back in action.

World Series Games To Be Broadcast

NEW YORK, Sept. 10.—(AP.)—Play-by-play descriptions of the World Series games, probably between the Philadelphia Americans and Chicago Nationals, will be broadcast by the National Broadcasting Company, it was announced today. The broadcast will be through coast-to-coast network of stations connected with the N. B. C. Graham McNamee will be at the microphone.

Young Terry Stops De Marco in Seventh

TRENTON, Sept. 10.—(AP.)—Young Terry, Trenton welterweight, belted his way to a knockout victory here last night over Cuddy De Marco, of Pittsburgh. The contest ended in the seventh round when the Smoky City fighter was reeling about the ring from a spraying of punches. He had taken four nine counts in previous rounds and was waved to his corner by the referee. De Marco weighed 148; Terry 146.

DUTCH MASTERS

REG. U.S. PAT. OFF.

fine as any imported cigar

SMOKE TALKS *by the* DUTCH MASTERS

Good cigars have a very definite place in the list of social amenities. For example. How may one gentleman more gracefully express to another his appreciation for a favor done or a courtesy extended, than by the gift of a box of good cigars?

* * *

Mildness alone could never have made Dutch Masters one of America's most popular cigars. But it is mildness, which enables you to enjoy to the full, the richness and fragrance which are responsible for Dutch Masters' immense popularity.

Man Sent to Mayview by Wife Freed

SIDE WALKS of PITTSBURGH

by HAVEY J. BOYLE

AS everyone knows, there are agencies in Pittsburgh which cause to be delivered on the steamer carrying a friend to Europe a basket of fruit, a box of candy, or greeting cards wishing bon voyage. Usually these are delivered soon after the steamer moves away from the pier. Now a new wrinkle has been developed and is meeting with great favor. In spite of prohibition, as someone has nicknamed it, in Pittsburgh you can order a bottle of champagne and have it delivered to your friend on a boat. The first day out your friend sits down to dinner and the waiter brings

Havey J. Boyle.

in a silver basket, packed with ice, and in the center is a bottle covered with a napkin. He opens the bottle and hands you a card which reads: "Have one on me, you lucky stiff."

The banks and steamship agencies around town will be glad to tell you how to send your friend at sea a drink, even if the idea seems to suggest carrying coals to Newcastle or tossing apples into an orchard.

* * *

Burton Marsh, traffic engineer, whose name was flatteringly mentioned here recently, modestly writes in: "I wish to thank you for your kind and helpful statement. . . . to my mind, the Better Traffic Committee, made up of 30 public-spirited citizens of Pittsburgh, deserves the major credit for whatever the traffic bureau has accomplished."

Incidentally, Mr. Marsh adds that Pittsburgh is to have new "Stop" signs with a tremendous punch. They will be Neon lights. Six are to be installed this year in Bigelow boulevard, Baum boulevard, Chateau street, Friendship, Wilkins and Murray avenues.

* * *

THE major plank in this column's traffic platform is to have the Liberty tubes better lighted, better policed and made less noisy.

* * *

Quite a few barbers in Pittsburgh are getting their books off the top of the shaving mug rack to brush up preparatory to attending night school when this division of education resumes in Pittsburgh. Some of them take elementary chemistry, along with studies of scalp treatment, the study of hair and a touch of hygiene.

A few years ago a few barbers petitioned Supt. William Davidson, of the Pittsburgh public schools, to open a new kind of barber college and Mr. Davidson willingly obliged.

How much pressure the scalp and skin will stand and generally what is best for the customer is gone into thoroughly by the barbers attending the night classes.

* * *

THE other kind of barber school still flourishes here, the kind where you pick up the trade in some six or eight weeks. This is frowned on by the boys who started out at about 50 cents a week and put in a few years mastering the craft, but the barber colleges seem to thrive in spite of intra-trade objections.

The barber college is the place where you can get your overhauling done free or at a very small price, but there is no

guarantee that at the finish you're going to look like John Gilbert.

In Penn avenue you will find the oldest and best established school. After graduation, barbers pick up one-day and two-day jobs in various places and at last reach that stage of perfection where they can make the hurdles in the ritzier places.

* * *

Pittsburgh boasted a few years a downtown ladies' barber shop—that is, all the barbers were ladies. Those were the days when you never found a whisker on this old face.

KLINE WILLING TO CONFER ON STRIKE

Federal and State Officials Visit Mayor in Attempt To Solve Labor Walkout

Federal and state officials today called upon Mayor Charles H. Kline in an effort to settle the week-old strike that has tied up numerous city construction projects and thrown about 200 men out of work.

The visiting officials are William Robinett, commissioner of conciliation of the U. S. department of labor, and William Broad, of the bureau of industrial relations, state department of labor and industry.

KLINE FOR PARLEY

Mayor Kline declared he told the visitors he would be pleased to discuss the grieveances of the strikers with representatives of the labor unions. Robinett and Broad left to try to arrange a conference with all interested persons.

Labor union representatives have said the strike was called because a contractor working on the East Park bath house and swimming pool employed non-union labor.

MAYOR CITES LAW

Mayor Kline said his attention had been called to that complaint and that he had informed labor union officials that law forbids the city from restricting contractors to the employment of labor of any particular classification.

Other projects standing idle besides the East Park pool are a band stand in West Park, plumbing work in Magee playgrounds, the main kitchen and cafeteria at the City Home and Hospital at Mayview, fire engine houses on Spring Hill and Northumberland street, and the East End combination police and fire station at Broad street and Euclid avenue.

S.A.R. MEMBERS JOIN DRIVE FOR LOWER TAXES

Sign Petitions During Golf Tournament for Slash in Levy on Wage Earners

Members of the Pennsylvania Society, Sons of the American Revolution, have joined in the campaign for the reduction of the Federal tax on earned incomes.

Informally but none the less earnestly, descendants of revolutionary sires signed petitions to Congress for the downward revision of the tax at a golf tournament held yesterday at the Pittsburgh Field Club.

PATRIOTISM FIRST

Patriotism is given precedence over sport by the Pennsylvania Society and the Pittsburgh Sun-Telegraph petitions were signed on the links before the players teed off.

"Taxation, a momentous question in America in 1775, still is a subject that must be wisely handled," said Col. Weaver H. Rogers, president of the society. "People pay their taxes cheerfully when they consider the levy just and necessary, but the present system of taxing earned incomes has met repeated objection by our financiers, economists and tax experts. Revision downward of the tax assessed on the incomes of professional men and women, salaried persons and wage earners is a popular measure and this campaign should meet no opposition."

PRINTERS TO REPORT

Col. Franklin Blackstone, chairman of the Pittsburgh Credit Men's division in the Pittsburgh Sun-Telegraph canvass, and a contender in the golf tournament, held up the first foursome while its members put their signatures on the petitions. The signers were Col. Blackstone, John D. St. Clair, Stanley L. Hern and Dr. C. G. Hughes.

Pittsburgh printers at a meeting tomorrow will make their first report of their canvass to Chairman Robert L. Forsythe, Jr. The committee has circulated petitions through nearly all the printing houses in Pittsburgh and an effort will be made to obtain 100 per cent of the signatures of all who are eligible to sign. In the meantime the house-to-house canvass has been started in various sections of the city and suburbs, and new workers are being added daily to the volunteers who have enlisted to carry on the campaign.

MEETING FISH SPECIMENS AT AQUARIUM SHOW

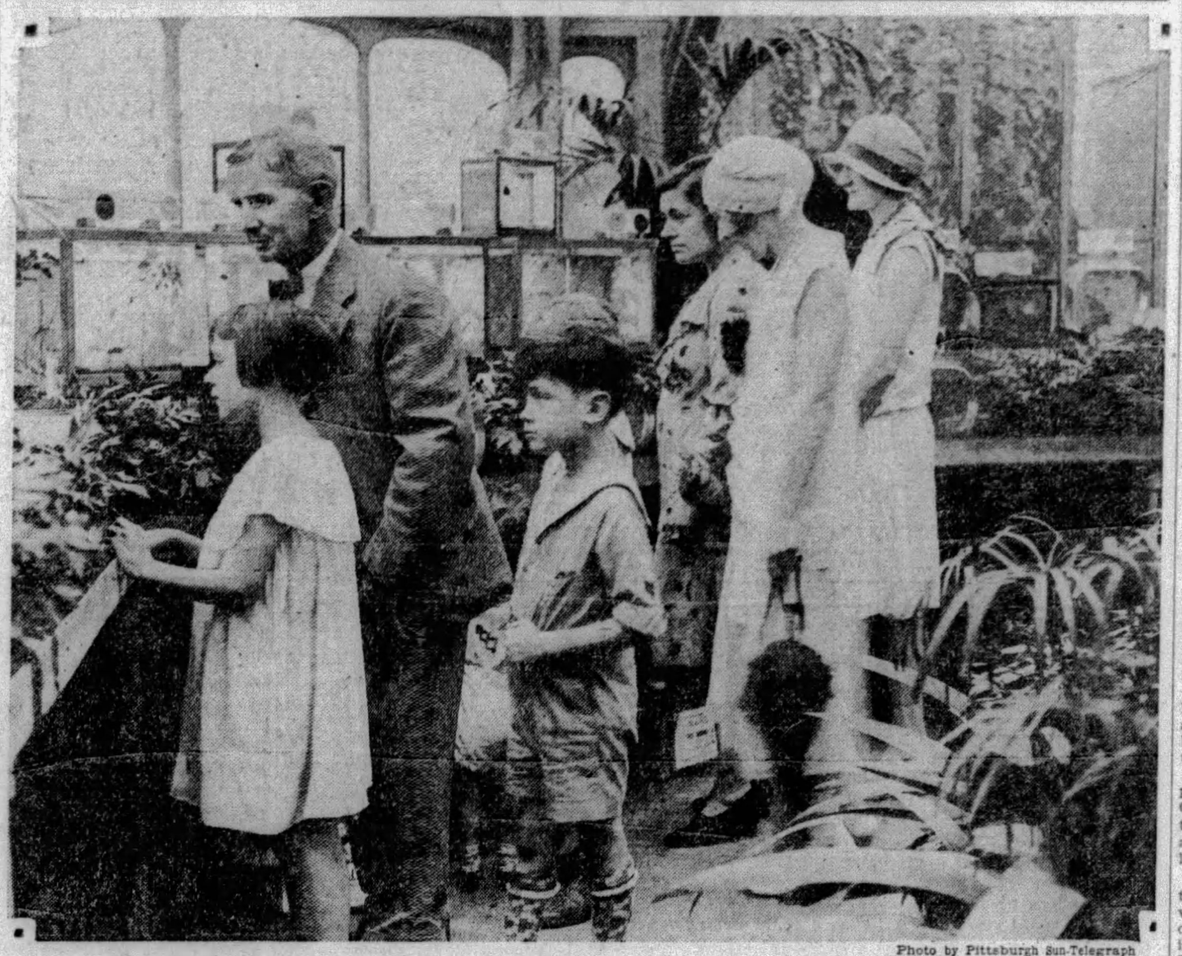

Photo by Pittsburgh Sun-Telegraph

VISITORS VIEWING TROPICAL DISPLAY AT AQUARISTS' SHOW IN PHIPPS CONSERVATORY

COURT ACTS ON SANITY REPORT

Judge Reid Finds Baldwin Township Resident Held Illegally After Tests

Judge Ambrose B. Reid of Common Pleas Court has ordered the release of John J. Himber, Brownsville road, Baldwin Township, from Mayview. Himber recently brought habeas corpus proceedings to obtain his freedom on the ground of illegal detention.

Himber testified on August 22 that his wife, Virginia Himber, has a divorce action pending against him; that he has $10,000 in bank and that his wife was instrumental in having him sent to Mayview. He claims to have been taken out of his home July 26 by four policemen, lodged in the South Side Police Station and later sent to Morals Court. He admitted drinking the night of his arrest.

When the wife endeavored to have a guardian appointed for him, a Mayview physician testified Himber able to manage his own estate.

At a hearing on August 28, two physicians from Mayview testified. One said it had been determined by the staff that Himber had delusions and the other said he did not believe Himber was fit to be at large.

Judge Reid ordered Himber sent to St. Francis Hospital for observation and after hearing the report of a physician there, released him in charge of his brother, Leo A. Himber. The order of the court is that Himber is not to drink or reside with his wife. Attorney Howard J. Devlin is his counsel.

Albacker Sentenced To Jail in Rum Case

"Happy" Albacker, man-about-town and former proprietor of a club at 133 Fourth avenue, pleaded guilty to violating the liquor laws and was sentenced to serve two months in jail by Judge F. P. Schoonmaker in Federal court today.

Albacker's bail was ordered forfeited several weeks ago. He was arrested Saturday at his father's funeral.

Gasoline Causes Fire in 2 Homes

SHARON, Pa., Sept. 10.—Use of gasoline for cleaning purposes caused fires in the homes of F. E. Norris, and J. C. Hynd, police reported.

LIQUOR RAIDERS ARREST 14

Fourteen persons were arrested, two liquor-laden automobiles seized and nine raids conducted by prohibition agents yesterday.

Lawrence Maley, 22, of 2917 Fernwald street, and William Maley, 17, of 7140 Mt. Vernon street, were arrested, according to the agents, when 50 gallons of alcohol was found in an automobile in which they were riding at Penn and Dallas avenues. The machine also was seized.

An automobile containing 25 gallons of moonshine was seized and William G. Houseberg, 43, of 2832 Center avenue, arrested after the agents observed the car at Franks-town and Sandy Creek roads, Penn Township, they said.

Other places raided and arrests made agents said were:

Store, at 7313 Tioga street, Dominick Prunte; building at 112 Maddock place, Joseph Cramer; store, at 2616 Carson street, Frank Korolewski; restaurant, at 2630 Carson street, Paul Heffron and Joseph Rich; dwelling, at 300 Catherine street, no arrests; saloon at Joseph and Custer streets, Baldwin Township, Michael Gardill; club, second floor, at 4701 Liberty avenue, William Contestabile, and hotel at 7217 Homewood avenue, Michael Juliano, Mrs. Lora Centoranal and Frank Lopresto.

Liquor law violations were discovered in each, according to the raiders.

AVALON NAMES PRINCIPAL

Harold Evans, physics instructor in Avalon High School, has been named principal to succeed Carl D. Morneweck, who went to Perry High School at the beginning of the fall term as chemistry teacher.

Mr. Evans went to Avalon schools three years ago, from Marietta, O.

Total enrollment of Avalon schools this year is 1,037, a five per cent increase over last year and the largest on record, according to S. Todd Perley, supervising principal. The high school has 473 students and the grades 564.

Lowell Man Seeks Three Cousins Here

City Clerk Robert Clark has received a letter from John J. Gardner, of 735 Bridge street, Lowell, Mass., asking for information regarding his cousins, John, Michael and Mary Gardner, whose last known address was in Pittsburgh.

Plea for Overseers Comes Before Martin

Judge Richard W. Martin, who is sitting in the assignment room of Common Pleas Court, has fixed Thursday next as the time for hearing reasons for the appointment of overseers in the First, Second, Third and Fifth districts of Scott Township. Petitions asking for their appointment were presented yester-

Wife Considered Him 'Too Good;' Left, He Says

His wife told him he was too good for her, so she left him to live with a man she thought more of, Frank Hrabak, 1166 Ridge avenue, North Braddock, testified yesterday before Judge Richard W. Martin in seeking a divorce from Dora H. Hrabak. The libellant told the court his wife was "living with the one she loves" in Wilkins Township. The respondent threw dishes, books and other things at him, and sold the furniture with the exception of a bedroom suit and matress. Hrabak told the court he was afraid of her. He charged her with cruel and barbarous treatment.

UNIONS FAVOR PAY VOTE

The police and firemen's referendum for increased pay that is to be submitted to voters at the primary next Tuesday has been indorsed by virtually all the labor unions of the Pittsburgh district, according to Edward L. Carlin, secretary of the police and firemen's welfare committee.

Carlin declared the referendum is the first to be submitted in Pennsylvania for a pay increase.

Organizations that have submitted indorsements include the Pennsylvania Federation of Labor, Pittsburgh Central Trades Council, Pittsburgh Stereotypers Union No. 56, Pittsburgh Newspaper Printing Pressmen's Union No. 9, Pittsburgh Printing Pressmen's and Assistants Union No. 64, Pittsburgh Slate and Tile Roofers Local No. 3, Composition Roofers Local No. 37, Lodges Nos. 52, 491 and 216, International Association of Machinists, Pattern Makers Protective and Beneficial Association, International Brotherhood of Teamsters, Chauffeurs, Stablemen and Helpers, Cement Finishers Local No. 526, International Brotherhood of Electrical Workers Local No. 6, Local Federation No. 10 Baltimore and Ohio Railroad, Metal Lathers Local No. 33, City Laborers Local No. 746, International Alliance of Bill Posters, and the National Federation of Post Office Clerks Local No. 81.

VENICE CHARMS FLAG WINNERS

By FLOYD E. WILLIAMSON

(Escort of the American Flag champions going around the world as guests of the Hearst newspapers.)

Special Cable Dispatch.

VENICE, Sept. 10.—The brilliant pageantry of the historic gondola regatta on the Grand Canal last night and Sunday amazed and delighted the American Flag champions winners of the flag contest of the United States Flag Association, sponsored by the Hearst newspapers.

The Americans witnessed the picturesque sight from a balcony of the palace, overlooking the water.

The race of the gondoliers was preceded by a brilliant procession. This was headed by the Prince of Udin with a guard of gondolas in the style of medieval days, propelled by boatmen in red, yellow, green and blue costumes of that period.

All Venice was in holiday mood, and at no time could the four young American Flag champions have found more of the music and gaiety for which the city is famous.

Sunday morning the champions were taken for a tour of the city's historic spots by Henry Gambier, lecturer of the University of Padua. They saw St. Marie's "the golden church," and then the representatives of the world's greatest republic visited the place of the Doges where lived the rulers of the Venetian republic. Last night they dined at tables under the sky and later entrained for Vienna.

JURY'S VERDICT DEFIES JUDGE

A jury that had been instructed by Judge Josiah Cohen, in Criminal Court today, to return a verdict of "not guilty" in the case of Elmer Meeder, of Broadway avenue, Beechview, was severely reprimanded when it failed to obey instructions.

When Attorney R. R. McWhinney, defense counsel, asked the court to instruct for a "not guilty" verdict, Judge Cohen acceeded, on the grounds that the prosecutor had not presented a clear case. The jury, composed of 10 women and two men, were out but a few minutes when they returned a verdict of guilty. Judge Cohen reprimanded them and ordered a verdict as per his instructions.

Meeder, who is an automobile dealer at Beechview, was charged by Clara Clark, of Tryella street, with fraudulent conversion. On May 7, 1928, she avers, she purchased an automobile from the defendant and signed a note for monthly payments. Under the arrangement, she testified, Meeder was to pay the $250 financing charges.

This he failed to do, she testified. Meredith Reid, assistant district attorney, was prosecutor in the case.

Overheated Motor Causes Small Fire

Fire caused by an overheated motor on the eighth floor of Frick and Lindsay Company, Sandusky and Robinson streets, North Side, early today caused damage estimated by firemen at $100.

Factories Rally to Aid Air Marking Drive

By MAX HENRICI.

Gratifying progress is reported today in the air-marking of the Pittsburgh district.

The Pittsburgh Sun-Telegraph's campaign to get every town in Western Pennsylvania adequately marked with signs to let aviators know where they are, and where the nearest airport is, has already achieved notable results. But there is much work yet to be done.

FACTORIES OFFER AID

L. R. Robinson, sales manager of the Robinson Ventilating Company, writes: "Our company has a plant at Harmony, Pa., on which could be painted the name of the town. Please advise us what size letters would be recommended. We shall be glad to co-operate with the proper authorities in this matter."

As a general rule the letters should be from 10 to 20 feet high. Yellow letters on a black background are recommended. Government specifications as to air markers can be obtained, together with any other information on the subject that may be desired, from the Pittsburgh Aviation Industries Corporation, Oliver Building, Pittsburgh.

D. J. Thornton, of East McKeesport, reports that the alert and progressive No. 2 Fire Company of that borough plans to air-mark the roof of its new building.

D. H. Donaldson, treasurer of the Hardy & Rankin Company, Canonsburg, reports that his company had painted last year on one of its warehouse roofs in 10-foot letters the name CANONSBURG, and has received in recognition a certificate of distinguished service to aviation awarded by the Daniel Guggenheim Fund for the Promotion of Aeronautics.

CERTIFICATES AWARDED

These certificates, awarded for air-marks complying with the Department of Commerce recommendations, are now being signed by Col. Charles A. Lindbergh, and are a trophy that any firm, town, club or other organization might be glad to win.

The Pittsburgh Sun-Telegraph has received the following letter from Alfred Heimburger, president of the Oakmont Aero Club:

"Due to your initiative in suggesting the marking of suitable buildings and locations, for the identification of towns by aviators, our club is sending your paper a vote of thanks. We have sent letters of recommendation on the subject to the various industrial plants in this community.

"The roof of the Heimburger Automotive Service at Tenth street in Oakmont is now marked with 12-foot letters easily distinguishable from the air, with an arrow pointing to Rodgers Field."

KEEPING AVIATORS' GUIDE CLEAN

Photo by Pittsburgh Sun-Telegraph

TONY BALDUS SWEEPING AIR-GUIDE PAINTED ON ROOF OF SPRINGDALE STORE

Christ Baldus, storekeeper, 800 Pittsburgh street, Springdale, is helping see to it that aviators will know where they are. On his roof he's had painted a 90x10 sign.

Youth Leaves Today For Military School

Benjamin C. Jaffe, of 5670 Phillips avenue, will leave today for Staunton, Va., to attend Staunton Military Academy. This will be the second enrollment for the student. In addition to learning the science of military tactics, Jaffe will display his prowess as an athlete. He is taking up the academic course.

Fairmont Man, Hurt In Dive, Succumbs

Paul Woody, 23, of Fairmont, W. Va., died in Allegheny General Hospital last night from a broken neck suffered Sunday when he struck a rock when he dived into the Tygart River near Fairmont. He was brought to Pittsburgh Monday.

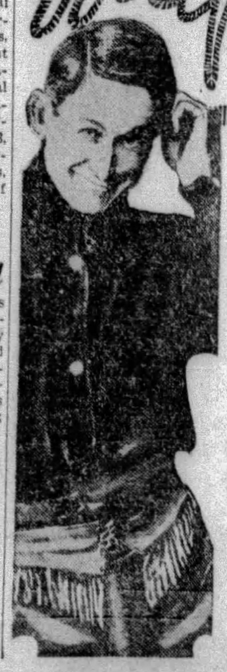
Smoke Elimination Mt. Lebanon Topic

Smoke elimination and fuel conservation will be discussed tonight by two engineers, who will address members of the Community Association of Mt. Lebanon at a meeting in the Lincoln School, Beverly road. This is the first move that the organization has taken toward the elimination of smoke.

Art College Dean Named at Duquesne

Appointment of the Rev. Stephen J. Bryan, head of the ancient language department of Duquesne University, as dean of the college of arts, was announced yesterday by the Rev. M. A. Hehir, president. He succeeds the Rev. James F. Carroll, who becomes vice president, after eight years as dean.

Will Rogers Says



SANTA MONICA, Cal., Sept. 10.—Mr. Hoover and Ramsey MacDonald are both peace-loving, tax-saving conscientious men, but since 1922 we have read nothing but, "You limit your battleships to so many, and we'll limit our cruisers to so and so.

"You have this much tonnage under ten thousand we will agree to our over nine thousand." And both are still building and still arguing.

If both nations was absolutely on the level with this, they would agree on a grand total of armament that each one could have whether it was in battleships or battleaxes, cruisers or cuspidors, pistols or paper wads, shot guns or sling shots, submarines or subways, aeroplanes or airdales.

But when it was all added up it should weigh the same, then that will make the next war a tie and will guarantee that we fight another one, Oh hum.

Yours,
WILL.

TWO WOMEN CANDIDATES FEATURE BELLEVUE CAMPAIGN

ONE SEEKS JOB AS JUSTICE OF PEACE

Another Running for Place On Schoolboard; Election Attracts Much Interest

With two women among those seeking office, Bellevue's most spirited political campaign in years is drawing to a close.

Mrs. Margaret H. Bowers aspires to be justice of the peace. Arrayed against her are three male candidates for the Republican nomination at the primaries, next Tuesday. They are Elmer T. Greiner, recently named to the office by Governor John S. Fisher, Frank Pascale and Wallace L. Baker.

The other woman candidate, Mrs. Belle M. Johnston, seeks election to the borough school board. She formerly was president of that body.

SIX MEN IN RACE

Six men, including two present members, George W. Judd, president, and James H. Campbell, treasurer, are candidates for the three places to be filled. The others are R. D. Jenkinson, S. Frank McKee, C. W. Zehnder and M. C. Schneider.

A three cornered contest is on for tax collector, the prize plum. J. O. Bower, incumbent, is opposed by A. D. Kirkland and John McKissock, Jr.

William J. Longmore, veteran burgess, is running for renomination, with John Nixon as his opponent.

HEATED COUNCIL RACE

A lively race for two seats in council from the First Ward is being run by Charles A. Young and Harry B. Parker, incumbents, against Samuel B. Rheam. Other councilmen seeking renomination, Joseph H. Caughey and Walter F. Cooley, Second Ward, and John H. Bragdon, Third Ward, have no opposition.

GLENSHAW FAIR OPENS FRIDAY

The annual fair of the Glenshaw unit, National Farm and Garden Association, will be held in the Glenshaw Public School auditorium next Friday. There will be exhibits of flowers, vegetables and poultry.

The Ross Township Unit, Women's Farm and Garden Association, is arranging for their fair to be held in the American Legion hall at Perrysville September 28. Products of housewives' arts, farms and gardens will be on display.

McKeesport Mill Workman Injured

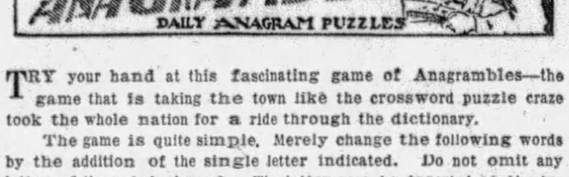
Caught in a gas compressing machine, Bert Tyman, 61, of 1824 Butler street, McKeesport, suffered a crushed pelvis, left hand and left foot in the plant of the McKeesport Tin Plate Company today, police reported. He was taken to the McKeesport Hospital.

WOMEN VOTERS IN PARADE TO URGE TAX PAYMENT

Photo by Pittsburgh Sun-Telegraph

WOMEN VOTERS LEAVING FOR PARADE TO URGE VOTERS TO SECURE COUNTY TAX RECEIPTS

Some of the members of the Joint Citizenship Campaign committee as they left Carnegie Library, East Liberty, for a parade through the East Liberty district and to the courthouse to pay taxes to make them eligible to vote.



TRY your hand at this fascinating game of Anagrambles—the game that is taking the town like the crossword puzzle craze took the whole nation for a ride through the dictionary.

The game is quite simple. Merely change the following words by the addition of the single letter indicated. Do not omit any letter of the original word. The letter may be inserted at the beginning of the word, anywhere within the word, or at the end. Thus, the word "pate," by the addition of the letter "l" becomes either "pleat" or "plate." The word "drag" may be changed to either "grade" or "raged" by the addition of the letter "e."

The original word must be changed in meaning by the commentary letter. To change "mine" by adding "d," to form "mined," would be incorrect. Rearrange the letters of your word to change its meaning, not its tense or number. Take a pencil now and write in your newly formed word in the spaces provided.

(1) MEANS..... (1) .....
(Unscramble it with A)

(2) STORE..... (2) .....
(Unscramble it with C)

(3) THRONE..... (3) .....

EX-CONVICT TO BE SPEAKER

Thomas N. Carter, former convict, at present an evangelist and prison worker, noted as the founder of the Prison Evangelistic Association, will speak at the Christian and Missionary Alliance Church, 809 Arch street, North Side, Wednesday evening at 7:30 o'clock.

Mr. Carter, scion of an aristocratic southern family, served sentences in five penal and semi-penal institutions. Since the beginning of his evangelistic work, he has spoken in more than 200 churches in New York state, in various other religious institutions throughout the country, and in scores of penal and semi-penal institutions.

He has chosen as his subject, "From Prison Cell to Pulpit," the Rev. R. F. C. Schwedler, pastor of the North Side church said. A large crowd is expected to hear his stories of experiences among inmates of penal institutions.

Missionary Circles Plan Joint Meeting

The Foreign and Home Missionary Societies, Bellevue Methodist Episcopal Church, will hold their annual joint meeting, at 2 p. m. Thursday in the home of Mrs. William B. Rodgers, West Riverview avenue, Bellevue. Mrs. S. L. Hosack will preside, assisted by Mrs. W. R. Murphy. Mrs. John B. Magee will lead devotional services. Miss Mary Long will sing. Miss Bertha Ramsey, missionary, of Rhodesia, Africa, will speak.

STORE LEADERS IN CONVENTION

Papers on various phases of industrial store merchandising will be read at today's sessions of the third annual convention of the National Association of Industrial Retail Store Executives which opened in the William Penn Hotel yesterday and closes tomorrow night. An election of officers will be held tomorrow, after which a city for next year's convention will be selected.

The 200 delegates were welcomed to the city yesterday by James Rae, president of the Chamber of Commerce. At the afternoon session it was brought out that the stores in the association are the outlet for $1,250,000,000 worth of merchandise yearly.

LEGION POST END FAIR

The tenth annual street bazar of Observatory Post No. 81, American Legion, at Perrysville and Marshall avenues, North Side, will be concluded tonight.

The windup was postponed from Saturday night because of rain. At a drum and bugle corps contest, Tarentum Post took first prize, Vandergrift second and McKeesport third, representatives of the Observatory Post announced.

Eastern Stars Plan Elfinwild Corn Roast

The Norwood Herrington Chapter, No. 356, Eastern Star, will hold a corn roast Thursday at the home of Mrs. Blanche McCance, in Elfinwild. Committee chairmen aiding include Mrs. Elizabeth McPherson, Mrs. Mildred Springer, Mrs. Oliver Lewis and Mrs. Marlenne Long. Mrs. Margaret Keller is worthy matron.

Progressive Club Plans Card Party

A euchre, 500, old maid and bridge party will be given by the First Ward Progressive Club in its rooms, 1721 Boulevard of the Allies, Thursday evening. Patrick Barry has been appointed chairman of the evening.

Seek Fund

CELIA R. STERN

PLAN AID FOR ARAB VICTIMS

To obtain funds for the alleviation of the suffering among Palestinians who were the victims of the Arab outrages, the Junior Hadassah of Pittsburgh will hold a benefit performance at the Pitt Theater, Tuesday evening, September 17.

At that time, Frances Starr will be presented in the drama, "The Constant Wife."

Members of the committee are: Sarah Greenberg Gladstone, chairman; Dora Tex Eisenstat, Celia R. Stern, 5501 Avondale place; Mrs. Maurice L. Lyon, Myrtle Marcus, Goldie Snyder and Lena Friedman.

Glenshaw Church To Hold Corn Roast

The Glenshaw Community Presbyterian Church will hold its annual corn supper next Saturday night, in the church rooms.

HIT BY AUTO, $10,000 ASKED

Robert R. Patterson, of Bellevue, has filed a suit for $10,000 damages against Verna B. Fogel, 572 Adams street, Rochester, Pa., for personal injuries received when he was struck by the defendants automobile, after alighting from a street car of the Pittsburgh Railways Company.

The accident occurred September 27 last at North Euclid and Lincoln avenues, Bellevue. Patterson said he had left the street car and had started for the curb when the Fogel car came along and ran him down injuring his legs. His counsel is William A. Walker.

NO DALZELL WILL LEFT

Miss Virginia C. Dalzell who died recently at her home, Schenley Apartments, left an estate valued at $775,000 without a will, it was revealed yesterday, when letters of administration were taken out in the office of Joseph N. Mackrell, register of wills.

Mrs. Sue D. D. Jones, a sister of the deceased, was made administrator and filed a bond of $1,500,000, or double the amount of the estate. The temporary appraisement shows that Miss Dalzell left personal property valued at $750,000 and realty valued at $25,000.

U. S. Gives Aviation Equipment to Pitt

The War Department Air Corps of the United States government has given the school of engineering of the University of Pittsburgh, for instructional purposes in aviation and aeronautical engineering, valuable equipment. It includes Liberty airplane engines, wing airplanes with frames, propellers, batteries, generators, magnetos and a variety of instruments, including altometors and compasses. The university is giving courses in aviation and aeronautical engineering in co-operation with the Pittsburgh Aviation Industries Corporation.

SPORTSMEN DEMAND STREAM POLLUTION BE PREVENTED

IZAAK WALTONS GIVEN IDEAS ON CONSERVATION

State President Tells of Strides Made by Germany As League Meet Opens

WAYNESBURG, Pa., Sept. 10.—Sportsmen and nature lovers gathered here for the annual state convention of the Izaak Walton League declared today the most important thing Pennsylvania can do to conserve its natural resources is to stop contamination of the streams.

Industrial Germany has solved the stream pollution problem, Dr. William H. Moore, state president, told the delegates. He asserted that on a recent trip to Europe he saw brown trout caught in the Rhine close to big manufacturing centers.

CAN BE PURIFIED

Pennsylvania's streams can be purified, too, Grover C. Ladner, state chairman of the legislative committee reported. He is special counsel for the City of Philadelphia in a campaign to clean the Schuylkill River.

At the league's banquet last night Dr. Henry Baldwin Ward, of Chicago, national president, spoke of the wonderful potential natural resources of Pennsylvania, and urged that their conservation be entrusted to men not subject to political influence.

GAME PRECIOUS

The state's resources of living things—its forests and fish and game—should be regarded, Dr. Ward said, as more precious than its mineral resources, because development of the minerals means their exhaustion whereas living things, if properly developed, increase and multiply.

Let commercial greed be suppressed, he said; let destruction of the purity of the waters be ended, and the streams will be replenished with fish and become once more an important source of food and wholesome recreation.

Pollution of the Great Lakes and other conservation problems of interest to many states were considered at a regional conference attended by representatives from Pennsylvania, Ohio, New York, New Jersey, Maryland, Virginia and West Virginia.

REFUGE PROPOSED

It was urged that the lake to be formed by damming the outlet of Pymatuning Swamp be made a Federal migratory bird refuge, and the League is expected to pass a resolution calling on Congress to act on the matter.

Field sports in great variety are occupying the attention of the delegates today. Field trials are being held for bird dogs, coon dogs, fox hounds and beagles. Trapshooting, rifle and revolver contests, bait and fly casting tests are also being held.

Policeman Nabs Two Fleeing Holdup

No movie policeman appeared on the scene more opportunely than Patrolman Howard Ruffner, following the holdup of a fruit store of George Tonchich, 2331 Preble avenue.

The patrolman caught two men running from the store late yesterday and recovered $343 they had stolen from the cash register, he testified today in North Side Police Court.

The defendants, John Conley, 3233 Bainton avenue, and Tony Losetti, Brunots Island, were held for court. Mrs. Sophia Tonchich, wife of the proprietor, identified Conley as the man who felled her with a blow on the jaw as she turned to catch them rifling the register.

KLINE TO GREET GOODRICH FLEET

Reception Arranged for Cavalcade Expected to Reach Here Tomorrow

Mayor Charles H. Kline will informally welcome the Goodrich Silver Fleet of 15 cars upon its arrival at the Point Bridge at 5 o'clock tomorrow afternoon.

The fleet, under the command of H. R. Schaeffer, will have completed 24,000 miles of its 32,000-mile cross country tour that ends in New York City in November. It will remain in Pittsburgh until 7:30 a. m. Friday.

J. A. Hoban

Eighty thousand persons are expected to view it before completing the route. J. A. Hoban, local branch manager of the B. F. Goodrich Rubber Company, has arranged a program to present the fleet in every part of the city during its stay.

Following its arrival tomorrow, the fleet will parade from the Boulevard of the Allies to Smithfield street, to Oliver avenue, to the East End and the Hotel Schenley. During the evening, the individual cars will be exhibited by local representatives in their salesrooms.

A tour of the city will be made on Wednesday, with a downtown exhibit in front of the City-County building from 10:30 to 11:30, when Mayor Kline will formally welcome the fleet to the city.

P. J. Kelly

The group will be entertained by the Advertising Club of Pittsburgh tomorrow night at a dinner in the William Penn Hotel. The speakers will be P. J. Kelly, advertising manager of the Goodrich company, and Lieut. Schaeffer.

PITT STUDENTS TAKE DEADLY GAS TESTS

Six Boys Enact 'Guinea Pig' Roles to Assist Science In Carbon Monoxide Study

Six students of the University of Pittsburgh can qualify anytime to be police in the Liberty or Holland tubes. All they need are the uniforms, motorcycles and badges, for their experience, with a few minor exceptions, has been complete.

They are the half dozen youths who, to earn a little additional money and to aid science, played "guinea pig" at the Bureau of Mines, Pittsburgh station, for 60 days. There, in an especially outfitted "sun-parlor," they withstood exposure to the deadly carbon monoxide gas for daily periods ranging from four to seven hours.

AID TO SCIENCE

As a result, science and the rest of the world knows just how long the police patrolling these two traffic tunnels can withstand the gasses from auto exhausts.

The students who took the tests are J. R. MacDonald, J. A. MacDonald, John Bryson, W. L. Anderson, Gale Walker and R. M. Smith.

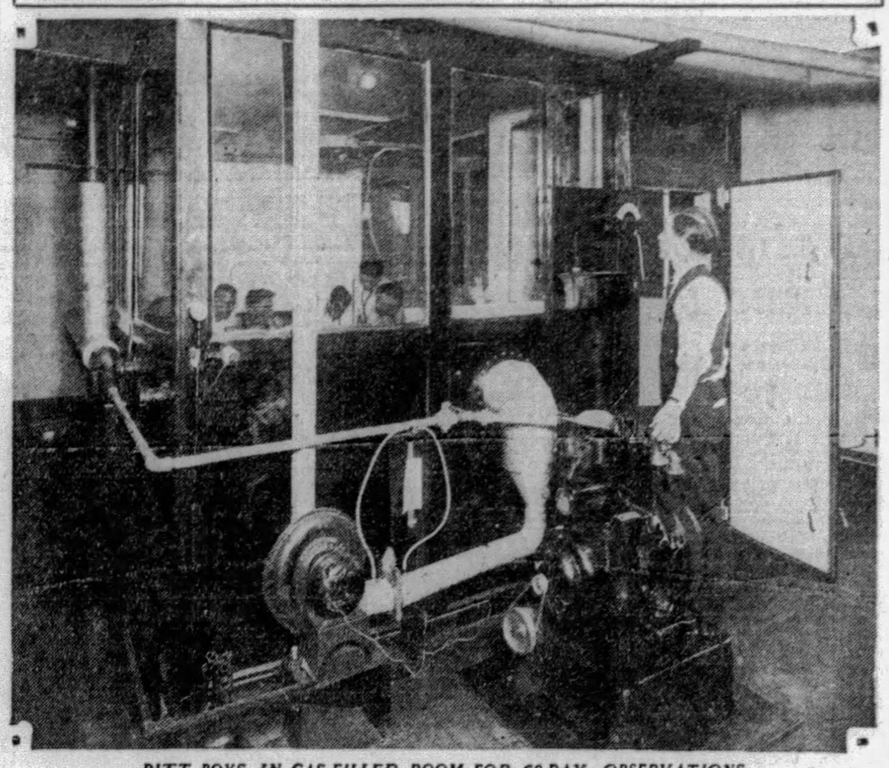
With carbon monoxide fumes from automobiles exacting a heavy toll of lives, William P. Yant, supervising chemist of the Pittsburgh station, Bureau of Mines, started tests several years ago to discover how much of the gas was harmful, and the varying degrees of injury it caused the human exposed to it. He enlisted the aid of R. R. Sayers, chief surgeon of the Bureau; Edward Levy, physiologist; W. B. Fulton, assistant; G. E. Weigand, sleep chemist at the Mellon Institute, and a number of others. The chamber was constructed and the controls fixed.

FINDINGS ANNOUNCED

The table showing that the tubes should have less than two parts carbon monoxide to 10,000 parts air to make the work safe for men in the tubes was announced by the U. S. Public Health Service.

Both the Liberty tubes, through Pittsburgh's South Hills, and the Holland tubes, in New York, keep the air below the danger point by means of special pumps, according to Yant. Their police suffer principally from dizziness caused by watching the automobiles pass by.

YOUTHS AS EXPERIMENTAL SUBJECTS



PITT BOYS IN GAS-FILLED ROOM FOR 60-DAY OBSERVATIONS

Six Pitt students living in a "glass-house" while they were exposed for 60 days to carbon dioxide. Scientists peered through the glass and watched reactions.

MALONE ALLIES RELEASED AT HEARING

Two Arrested for Displaying Banner Ordered Torn Down by City Patrolman

John L. Pernich, 29, of 2512 Carson street, and Edward Best, 27, of 53 South Twenty-third street, were bemoaning the fact today that they were taken to task and placed under arrest, they say, for displaying a "Malone for Mayor" sign over the street at Lincoln place, while a "Kline for Mayor" banner was allowed to stand.

Both were taken into custody on charges of violating a city ordinance after Patrolman Herbert Lynn, of the South Side station, they said, informed both he had orders to tear down the Malone sign and to place them under arrest.

In South Side police court today both were discharged.

Best said Lynn approached them after the banner had been erected and ordered them to remove it. When they refused, they said, Lynn called the patrol wagon, and an officer arrested them.

Minister, Run-Down in Health, Gains 10 Pounds in 5 Weeks

Build up Weight Quick with New IRONIZED YEAST—*or Trial Costs Nothing*

Dr. W. H. Taylor

"After a 7 weeks' revival campaign I was entirely rundown and had lost flesh so rapidly I became excited about my condition. I saw your advertisement of IRONIZED YEAST and decided to give it a 3 weeks' trial. After 2 weeks I found strength returning, tired feeling gone. In 3 weeks I had gained 7 lbs. and was myself again. In 2 weeks more I had gained 10 lbs. and was my normal weight."—Rev. W. H. Taylor, D. D., Harrisburg, Pa.

Imagine just 3 weeks to change from a "skinny," tired person to a strong, well-filled-out man or woman that everybody admires. Thousands tell how ugly hollows in face and neck vanish. "Broomstick" limbs become round and chubby. Tired feeling goes. Blemished skin clears like magic.

IRONIZED YEAST is *two tonics in one.* Weight-building YEAST and 2 kinds of blood-enriching IRON. We concentrate it so that 12 SACKS of raw, live YEAST make only 1 SACK of the concentrate which goes into IRONIZED YEAST. You can easily see why each small tablet of this new IRONIZED YEAST gives you such quick, EXTRA, weight-building results through this 12-to-1 concentration.

Only when Yeast is *Ironized* is it most effective; for blood-enriching Iron is needed to bring out the weight-building, strengthening values of Yeast. Pleasant tablets. No "yeasty" taste. No gas or bloating.

Try It on "Money-Back" Offer

Get IRONIZED YEAST today from any druggist. If not absolutely delighted with the weight and health benefits gained, the small amount you pay for the first bottle will be promptly refunded by your own druggist or the manufacturer.

Photos of two different men show why "skinny," sickly weaklings cannot compete with husky, well-built, "peppy" men in business or social life.

Amazing Numbers of Pennsylvanians Write Letters Like These: What IRONIZED YEAST has done for all these folks it should certainly do for you. Take advantage of our generous trial offer. If not delighted, get your money back.

Gains 10 Lbs. in 1 Month; Clears Skin.
"Had big blotches all over. Even doctor's prescription didn't help me. But after taking 1 bottle of IRONIZED YEAST, blotches began to disappear. In a month I gained 10 lbs.; felt full of pep and energy. Several weak, rundown friends tried it and they all think it wonderful."—Mary Hader, Pittsburgh, Pa.

Gains 11 Lbs. More Pep
Gained 11 lbs. taking IRONIZED YEAST. Have more pep and vitality than I've had for years."—Mrs. J. L. Reed, Mt. Union, Pa.

Gains 10 Lbs.; New Pep
"Was rundown; lost strength, weight and appetite. Tried IRONIZED YEAST. Gained 10 lbs. Now full of pep."—Charles Vorel, Loyalhanna, Pa.

Gains 8 Lbs.; Clears Skin
"Gained 8 lbs. in 3 weeks taking IRONIZED YEAST. Sleep better; much stronger; appetite is better. Pimples and blackheads gone."—Mary Borcha, Wa'l. Pa.

Mother Gains 12 Lbs. in 1 Month
"Was in bad shape after had 4th baby, but IRONIZED YEAST made me feel better. Gained 12 lbs. in a month. Yellow color gone."—Mrs. Mary Kasunic, So. Allentown, Pa.

Gains 10 Lbs. After Other Methods Fail.
"Tried many methods without results, but IRONIZED YEAST added 10 lbs. Got good appetite. Cleared skin of blotches."—Beatrice Gooch, Daisytown, Pa.

ENGINE HOUSE DEDICATED

City officials and civic leaders last night took part in the joint dedication of the new home of Engine Company No. 53, and the war memorial in front of the building at Walz and Damas streets, North Side.

The dedication was preceded by a parade led by the Veterans of Foreign Wars and the American Legion. It was followed by a reception and dance given by the Workingman's Beneficial Union in their hall on Rescue street, residents of the Spring Hill district being guests.

Speakers at the dedication ceremony were Mayor Charles H. Kline, County Controller Robert G. Woodside, the Rev. W. F. Mertz, pastor of St. Ambrose Catholic Church; the Rev. R. F. Steininger, pastor of the Mt. Olivet Lutheran Church, Spring Hill; Director of Public Safety James M. Clark and Fire Chief Richard L. Smith. They were introduced by H. J. Schellhaas, chairman of the dedication committee.

Bible Class Holds Meeting at Avalon

The Rebecca's Eighteen Sunday School class of Trinity Lutheran Church, Avalon, met last night in the home of Mrs. Florence Hagy, Parkview avenue, North Avalon. Mrs. G. B. Tejan is the teacher.

England's Premier Passenger Port

SOUTHAMPTON is a comparatively small seaport, with only four miles of quay, compared with 30 miles in London and 37 miles in Liverpool; yet it is the premier passenger port of Britain.

A Substitute for Coal

A HUNDRED thousand tons of mud fuel have been ordered by an electricity works on the Rhine. A German company has discovered how to make the mud in the bed of the River Emscher into a useful substitute for coal.

LITTLE CAESAR By W. R. Burnett

(Continued from Yesterday.)

Blondy Belle Tells Rico That Little Arnie Is Cheating Him

WHAT HAS GONE BEFORE

In a hold-up of the Casa Alvarado, Capt. Courtney, of the Chicago detective force, is shot and killed by Rico, gang lieutenant. Sam Vettori, leader of the gang, fearing for his neck, berates Rico for the "gunplay." Rico promptly usurps Sam's position with the approval of the gangsters. In the uproar that follows the murder, the gangsters keep in hiding and Tony Passa, ex-choir boy, loses his nerve and leaves to inform his parish priest. He is killed on the church steps by Rico's bullets. Rico, with Vettori, Otero and others of the gang, visit Tony's home to view the body. Detective Flaherty arrives and questions Rico, who is defiant. Sam Vettori resents Rico's rise to power, but he must now bow to his wishes. The gang gives a banquet for Rico. The "Big Boy," political power, attends, but Joe Massara, dude member of the gang, who took part in the hold-up, fails to come. Rico resents his absence. Rico, in sight as a powerful Little Italy gang chief, takes Blondy Belle away from Little Arnie and also levies tribute on Arnie's gambling house.

NOW GO ON WITH THE STORY.

CHAPTER XVI.

THE sound of the pianola woke Rico. He sat up and looked at his wrist watch. It was 2 o'clock in the afternoon. He had slept 12 hours.

Rico lived at a tension. His nervous system was geared up to such a pitch that he was never sleepy, never felt the desire to relax, was always keenly alive. He did not average over five hours sleep a night and as soon as he opened his eyes he was awake. When he sat in a chair he never thrust out his feet and lolled, but sat rigid and alert. He walked, ate, took his pleasures in the same manner. What distinguished him from his associates was his inability to live in the present. He was like a man on a long train journey to a promised land. To him the present was but a dingy way-station; he had his eyes on the end of the journey. This is the mental attitude of a man destined for success. But the resultant tension had its drawbacks. He was subject to periodic slumps. His energy would suddenly disappear; he would lose interest in everything and for several days would sleep 12 to 15 hours at a stretch. This was a dangerous weakness, and Rico was aware of it and feared it.

Rico leapt out of bed and hastily put on his clothes.

"Twelve hours, boy," he said to his reflection in the mirror, as he stood combing his hair, "that'll never do."

He had been seeing too much of Blondy Belle; that was the trouble. Rico had very little to do with women. He regarded them with a sort of contempt; they seemed so silly, reckless and purposeless, also mendacious and extremely undependable. Not that Rico trusted men, far from it. He was temperamentally suspicious. But in the course of his life he had discovered a few men he could trust, but no women. What he feared most in women, though, was not their treachery, that could be guarded against, but their ability to relax a man, to make him soft and slack, like Joe Massara. Rico had never been deeply involved with a woman. Incapable of tender sentiments, he had escaped the commoner kind of pitfalls. He was given to short affairs after which he looked at women impersonally for a while, as one looks at inanimate objects. At times he would be attracted by the sight of some particular woman. This had been the case with Blondy Belle. She exactly suited Rico's tastes; she fascinated him, and for that very reason he was on guard against her.

"Yeah," he said, "I got to lay off Blondy for a while."

She wanted him to come and live near her, but he refused. The offer tickled his vanity, though, for Pepi or Joe Sansome would have jumped at the chance. But not Rico. He fought shy of any kind of ties. A slight relaxing of this principle and you are tangled up before you know it. The strong travel light.

He went into the living room. Blondy was pedaling the pianola and singing loudly. The room was in disorder. Stockings hung from the backs of chairs, a dress was suspended from the chandelier on a coat-hanger, and there was a pile of clothes in the middle of the room.

Blondy turned around and smiled at him, pedaling the piano at the same time.

"What the hell kind of a piece is that?" asked Rico.

"That's an Eyetalian piece," said Blondy. "Ain't it swell?"

"No," said Rico. "I like jazz better."

Blondy stopped the pianola and back-pedaled the roll.

"I got it yesterday because I thought you'd like it," she said.

"Hell, quit kidding," said Rico.

"I sure did. It's from an Opera."

"Yeah? Say what's wrong with you?"

Blondy looked at him. She had pretensions. Ten years ago she had been a lady's maid and she felt that she was somewhat cultured. One summer she had even made Little Arnie take her to Ravinia Park to hear the Opera. The soprano impressed her by her loud singing; the tenor by his beautiful legs.

"You'd think I was a regular wop to hear you talk," said Rico; "say, I was born in Youngstown and I can't even speak the lingo."

"Well, I guess I wasn't born in the old country either," said Blondy.

She put a new roll on the pianola and Rico sat smoking, while she played it. Rico had no ear for music; he couldn't even whistle, or distinguish one tune from another. But he liked rhythm. There was something straightforward and primitive about jazz rhythms that impressed him.

"That's a good one," he said, when the roll was played through.

"Want to hear some more?"

"No," said Rico, "I got to go."

He rose and went over to the closet for his overcoat, but Blondy said:

"Listen, Rico, I want to see you a minute before you go."

"What about?"

"About Little Arnie."

Rico stared at her.

"What's the idea? To hell with Little Arnie. As long as he's straight with me I ain't got no interest in him at all."

"He ain't straight with anybody."

Rico just looked at her.

Little Arnie had played his hand badly. At first he hadn't minded losing Blondy Belle in the least; she cost him a good deal of money and she bored and irritated him. But he had been kidded unmercifully. As he had no sense of humor whatever and was very touchy in a personal matter, this eventually angered him. In revenge, he talked. He told all who would listen that Blondy Belle was a liar and a crook. Killer Pepi was one of the auditors and he immediately repeated Little Arnie's assertions to his woman, Blue Jay, who ran at once to Blondy Belle. Yes, Little Arnie, who was fifty per cent fool, had played his hand badly.

Blondy lit a cigarette and lay down on the davenport.

"Come over here and sit down," she said; "I'll give you an earful."

"I ain't got no time," said Rico.

Blondy blew out a cloud of smoke.

"Arnie's double-crossing you right now!" said Blondy.

"What you got on your mind?" said Rico; "spill it."

"All right," said Blondy. "Arnie's giving you a split on the house, ain't he? What's the split?"

"Thirty per cent."

"How do you know you're getting thirty?"

"I look at the books."

Blondy laughed.

"Them books is crooked."

"Straight dope?" asked Rico, his face hardening.

"Sure," said Blondy, "I wasn't going to say nothing. It wasn't none of my business, but Arnie's been peddling a lot of loose talk about me and I don't take that."

"All right," said Rico, "now you know so damn much, how we gonna prove it?"

"It's a cinch," said Blondy; "hand Arnie's boy, Joe Peeper, some dough and he'll spill the news. Joe hates Arnie."

"Good!" said Rico, banging the table with his fist; "I'll run Arnie out of town and declare you in, Blondy. You got brains."

Blondy looked at him.

"You stick to me, boy, and we'll own the town."

"Don't get swelled up," said Rico, "just because you happened to be in the know."

That's what she liked about Rico. He was hard to impress.

"Hell of a lot of thanks I get for it," said Blondy.

"Don't worry about that," said Rico, his head buzzing with projects, "you'll get something better than thanks."

Rico went to the closet and got his coat and hat.

"Wait a minute, big boy," said Blondy, "you ain't heard it all. Listen, that joint of Arnie's is worth plenty of dough. He ain't gonna give it up without a battle."

"Hell," said Rico, "he's yellow."

"Sure he is. But he's tricky, Rico, if you can't work the Joe Peeper stunt, here's a lever. Remember Limpy John?"

"Sure," said Rico, "they bumped him off."

"Who did?"

"The cops."

"They thought they did. Arnie bumped him off."

Rico grinned.

"I got you."

Rico put on his overcoat.

"Be round tonight?" asked Blondy.

"No, I got business."

"Monkey business."

"No, I got to go cross town. I'll give you a ring tomorrow."

When Rico had gone, Blondy played a couple of rolls on the pianola, then she drank half a pint of liquor and went to bed.

PETTING PATTY — The Flatterer — By Macharner

EASY By Beatrice BURTON

(Continued from Yesterday.)

Ann Marie Is Startled by Mysterious Noise on The Stairway

WHAT HAS GONE BEFORE

Ann Marie Macy is the "easy" type of girl who is continually imposed upon. Young and pretty, she dreams of a future as an artist, saving from her earnings by painting cards and working in her father's bookstore, but, as her selfish, flapper sisters, Alice and Jeanie, borrow her dresses for their own ends, so her brother, Howard, borrows her savings. The art course plan is shelved when Ann Marie uses the money in extricating Howard from an entangling alliance with Leota Ingram, the town's bad girl. Even her mother's pendant is pawned to pay Howard's fare to the West when he loses his bank job. Neal Forsythe, dashing Don Juan, visiting the wealthy Lawlers, wins Ann Marie's heart. Mrs. Lawler forbids her son to further accompany the Macy girls, calling them "night-time friends." Alice evens accounts by getting herself engaged to John Lawler. To celebrate, Johnny, Alice, Ann Marie, Neal, Jeanie and Brookie have a party at a roadhouse. Neal proposes to Ann Marie. Ann Marie goes on a Dutch-treat party with Neal, who forgets to return her change. Instead he steals a coffee pot for her from the roadhouse.

NOW GO ON WITH THE STORY.

CHAPTER XXII.

ANN MARIE was so surprised that she let the coffee pot fall.

"You didn't—you didn't take this thing off the table?" she gasped when Neal put it back into her hands and started the car.

"You bet your life I did!" he said with a laugh. "You know now how much I love you, don't you—when I steal for you!"

The car shot out of the courtyard, and on to the wide, wet road that led back to town.

"There! Now, if they miss it, it won't do them any good!" Neal said, and laughed again, "because we're gone, Baby! We're gone!"

Ann Marie did not laugh. She didn't say a word.

She just sat and stared down at the little coffee pot gleaming brightly in the glow from the dashlight. . . So he was a thief, this man who had seemed like a god to her, almost! A petty thief, pilfering from a restaurant. . . .

"I wish you hadn't taken it," she said at last. "It wasn't a—a very honest thing to do, was it?"

She was as honest as the day, herself. So honest that she couldn't help saying what she thought now.

"I don't believe I want it, Neal. Let's take it back."

He shook his head, laughing at her, and drew her close against him with his free arm.

"Don't be a little idiot, Ann Marie," he said to her, smoothing her arm as he talked. "It's not stealing to take a little cheap German silver thing like that out of a restaurant. Why, people who run places like that expect to lose a certain amount of the silver and napkins they put on the table. . .That's why they charge so much for their second-rate food. Don't you know that, honey? . . . People are always taking things like that little pot with them as souvenirs. It's not thieving."

Ann Marie said nothing.

"You make me feel pretty rotten, talking to me like that," he went on. "I took the thing for you, because you liked it. . . . Men have always stolen, begged and borrowed things for the women they love—from the beginning of the world, honey. Don't strain away from me like that."

He stopped the car at the side of the dark road and pulled Ann Marie into his lap. And once more he kissed her as if he couldn't kiss her enough.

"Maybe I am a fool," sighed Ann Marie, "but it did shock me to know you'd taken that little pot—I didn't know it was all right to do it—"

"It's not all right," Neal murmured. "But it's not out-and-out stealing, Ann Marie. And everybody does it."

* * *

Ann Marie spent the next morning going from house to house, taking orders for hand-painted Valentines, hand-painted bridge tallies, hand-painted pin cushions, hand-painted anythings.

She got 13 orders, and went back to the brown house full of hope and happiness and pep. "Every order I fill, every dollar I make brings me nearer to Neal," she told herself as she went to work at the wobbly old card table in her bedroom.

By Wednesday she had the 13 orders filled and delivered. Everybody paid her—which was a miracle, nothing less.

On Thursday morning she put $30 into the bank, paid her father the five she owed him and used the rest for a new box of paints.

The thought of Leota Ingram and the money she had promised to send her worried her a little.

"I'll send her some at the end of the week," she promised herself. "Enough to keep her quiet."

She looked at the address Leota had given her—Neal's address.

"If Leota calls there for her mail Neal's bound to see her as soon as he goes back to New York," she thought, and that worried her too.

For Neal was going home in a few days, he said.

"Why don't we announce our engagement in the paper before you go?" she asked him on Saturday night when they were sitting in front of the fire in the Front Parlor. "I'd feel more sure of you—I know I'll feel as if I've lost you as soon as you go away."

Neal shook his head, smiling. "No fear of you losing me, silly child," he said.

Then his face became solemn, and he stared thoughtfully down at the red coals that glowed in the grate.

"Johnny's mother is taking it pretty hard because he's engaged to Alice. You know that yourself, or I wouldn't speak of it, of course," he said. "And it would make her awfully sore at me if she knew how things are between you and me. . . . The name 'Macy' is poison to her since your brother and Florence split up."

Ann Marie nodded slowly. She knew that Mrs. Lawler's good will meant a great deal to Neal just then. For she had promised to lend him some money to keep him afloat for a few more months in New York. He had told her about it a day or two before.

"I suppose you're right," she answered. But she couldn't keep her disappointment out of her voice. "It's too bad, though. I'd like to have everybody know that I belong to you. I'd shout it from the housetops if I had my way, I'm so proud of it."

"But we know that you belong to me, don't we?" Neal said, getting up from the sofa where they were sitting.

That was on Saturday night.

On Sunday afternoon, about 4 o'clock, the Lawlers' big black town car drove up in front of the house and stopped.

Ann Marie saw it from the window of her bedroom where she was breaking the Sabbath by working on Mrs. Lawler's luncheon cards.

She jumped up from the table and rushed into Alice's room.

Alice was flat on her back on the bed, with her head hanging over the edge of it, doing her facial exercises.

"Get up and put on a dress!" Ann Marie told her in a breathless whisper. "The Lawlers' car just drove up!"

"Who's in it?" asked Alice, sitting bolt upright.

She ran, in her princess slip and stockinged feet, to the window and looked out.

"Oh, my aunt Sarah! It's Johnny's mother!" she cried. "You go down and talk to her, Ann Marie, while I fix up!"

She flopped down at her dressing table and began to lather her face with cold cream.

Ann Marie took off her smock and went downstairs. She carried with her the cards that she had been painting for Mrs. Lawler . . . Mrs. Lawler had been so terribly business-like with her when she had ordered them that Ann Marie decided she would be business-like with her now.

"I think these are going to be pretty, don't you?" she asked, when she had seated her in the front room before the fire and called Alice.

But Mrs. Lawler scarcely noticed them. She just smiled at them and made a wide movement with her hand as if she were brushing them away.

"I want to give Alice and Johnny their first dinner since we've taken her into the family," she said, slipping out of her brown fur coat. "I came to talk to her about the date."

Then Mr. Macy came into the room, looking very shoddy and down-at-the-heel in his old Sunday trousers and threadbare smoking jacket.

"Lovely about the children, isn't it, Mr. Macy?" she gushed, pumping his hand up and down as she shook it. "I always did hope Johnny would have sense enough to pick one of your girls. For a while we all thought it would be Ann Marie, though."

Ann Marie stared and gasped. For she had known for days just how Mrs. Lawler really felt about her only son's engagement to Alice.

"However—people do change their minds, and Johnny could have done a lot worse than to get engaged to Alice," she thought. "Her only real fault is that she hasn't a lot of money."

And then Alice came into the room—and what an Alice she was! She had brushed all of the ripples out of her yellow hair and it was drawn into a knot at the back of her neck. She had on only the tiniest bit of rouge and no lipstick at all! She wore a pale-gray dress that Jeanie had finished for her the day before and she looked as demure as some young Quakeress in it! It was the only dress she had that covered her knees.

She walked straight up to Johnny's mother and kissed her on both cheeks.

"I knew you loved me," she said.

Afterward Ann Marie marveled at herself for not bursting into loud laughter at the whole scene.

* * *

By the end of February Ann Marie had $78 in Mr. Lawler's bank.

She was working just as hard as she could work at her orders, and helping her father in the shop besides. And she was saving every penny.

She was wearing cotton stockings that she bought for a quarter a pair at the Dollar Store. She was using salt instead of tooth paste once more. She was staying home nights instead of going to the movies once or twice a week as she always had. She loved the movies.

Late one night in the middle of March she was hard at work on some dance programs for a Saint Patrick's Day dance at the Country Club.

At 11:30 she finished the last of them—there had been 100—and groaned as she got up from her chair. It always made her back ache to bend over the table too long.

Lying in bed five minutes later, reading Neal's last letter to her, she heard a noise on the stairs just outside her door.

"Who's there?" she called.

There was no answer.

After a second or two the stairs creaked again . . . She knew that every member of the family had gone to bed. The house had been quiet as a tomb for over an hour.

"Who's there?" she called again, and got out of bed. She opened her door. The hall outside her room was pitch dark.

Co-Operation in America Is Needed to Meet Europe.

—By B. C. FORBES—

VERY fortunate is it for American people that we have in Washington a president and an administration qualified and disposed to allow industry reasonable latitude to formulate and execute plans and policies calculated to fortify our ability to hold our own throughout the markets of the world. Everywhere in Europe one senses a deep-rooted, acute, vengeful desire to hit us. European differences and animosities generations-old and being subordinated to the prevailing eagerness to give America battle by concerted action.

At banquets tendered visiting Americans and at other international functions participated in by Americans, fine-sounding sentiments of friendliness towards the land of Stars and Stripes are glibly expressed. But we should not be misled thereby.

Europe does not love us.

Europe envies us but does not admire us. She dislikes our revolutionary business methods—yet cannot shut her eyes to the results these methods achieve. Whereas the American zestfully pursues the new and revels in changes, the typical European is satisfied with the old and is disturbed by changes.

But so "menacing" has the "American invasion" become that European leaders have opened their eyes to the necessity for throwing off lethargy, for discarding old customs and traditions and processes, and for seeking and adopting modern practices which Americans have demonstrated to be profitable and victorious.

TWO main movements aimed at overcoming the American invasion are at this moment under way:

Britain is concentrating upon welding her far-reaching dominions into a united force determined to make the British empire one economic unit motivated by the slogan, "one for all and all for one."

Continental statesmen are striving with unexampled zeal to evolve a united states of Europe, also motivated by a desire to present a united front against industrial inroads by the rest of the world.

FAR-REACHING tariff readjustments doubtless will be enforced by and by to cripple American competition with home producers. One consequence of this will be the establishment of more and more American plants in foreign countries and the acquisition by American capital of many existing foreign enterprises.

This newest form of "invasion" Europe has not yet devised weapons to repel. Nor is it easy to foresee how this species of American strategy can be repelled.

Incidentally, this latest move on the international industrial chess board opens up the question, "how far will the widespread acquisition of American-owned and American-managed concerns abroad tend to slow-up expansion of American exports, exports of goods made by American breadwinners paid American wages and bringing up families on the American scale of living?"

Is this oncoming migration of American capital and American management to the ends of the earth destined to bring a corresponding migration of American citizens—American executives, American craftsmen, American salesmen?

THESE unfolding economic international developments cannot incite mental speculation among thoughtful citizens.

ALTHOUGH we hear very little about it on this side of the Atlantic, and although the subject is not featured by European newspapers, the traveler through Europe who mingles with all classes discovers that other nations are again apprehensive concerning Germany's looming comeback.

War-bred hatreds have subsided extraordinarily. German goods appear to have become as acceptable as American goods in most lands. But at the same time there is harbored a widespread feeling that Germany will repeat and probably excel her pre-war achievements in chemistry, in invention, in science, in industry, in shipping. Germany, it is noted, has already won the blue ribbon of the Atlantic, and it is Germany that designed and constructed the airship which has performed the unique feat of encircling the globe in twenty days.

VERILY, this is a time for the exercise of utmost American vigilance and the utmost co-operation between industry and government and between American employers and employes.

EVENING SUN-TELEGRAPH MARKETS

Stocks Under Pressure — *Local Market Steady*

STOCK MARKET BLOWS HOT AND COLD

List Generally Under Pressure Despite Wild Bullish Demonstrations

NEW YORK, Sept. 10.—(AP.)—The stock market alternately blew hot and cold today as opposing speculative forces struggled for control of the price movement, but the list generally was under pressure despite wild bullish demonstrations in a few high-priced specialties.

Fears of a mid-month credit pinch and a renewal of Federal Reserve pressure to force a reduction in brokers' borrowings had a chilling effect on bullish enthusiasm.

The drop of nearly 430,000 tons in the unfilled orders of the United States Steel Corporation took Wall Street by surprise, as earlier estimates indicated a drop of less than 300,000 tons, but Steel common received strong support. The Ajax Rubber Company reported another large deficit in the first half of the year. The Marlin Rockwell Company, which has been mentioned in merger rumors in connection with the Timken Roller Bearing Company, declared an extra dividend of 75 cents, the stock rallying 4 points on the announcement.

MONEY ADVANCED

Call money renewed unchanged at 8 per cent, but advanced to 9 by early afternoon, due to heavy out-of-town withdrawals. Purchase of about $2,500,000 in gold in London for shipment to New York was announced in London dispatches, despite recent rumors that Federal Reserve authorities were discouraging further importations at this time. Time money and bankers' acceptance rates held firm. Heavy federal income tax payments, due on the fifteenth, are likely to cause a temporary credit strain.

Some wide advances took place in a few issues on what Wall Street now characterizes as "a scarcity value." J. I. Case ran up 25 points to 440, American Machine and Foundry ran up 18½ to 239 and American Type Founders 12 to 180, all new high records. Atlas Powder advanced 5 points to a new peak at 139⅞, but Dupont broke 9 points. Republic Steel, which is expected to show increased earnings through its new welding process, was run up more than 6 points to a new peak at 134¼.

RADIO GAINS

Radio returned to the speculative spotlight, with an early gain of 4 points. Standard Brands, Packard (old stock) and Johns-Manville, which led yesterday's late rally, all sold off sharply. General Electric dropped 9¼ points, Air Reduction 8, American Water Works 7½, Commercial Investment Trust 6, Westinghouse Electric 5¾, United Aircraft 5¼ and Eastman Kodak 5. Atchison, Norfolk & Western, Illinois Central, American Telephone, American Can, and National Biscuit all sold down 3 or more points below yesterday's final quotations.

WALL STREET HEARS

That a new pool has been formed in National Cash Register.

That the Bethlehem Steel Corporation may issue new common stock and retire part of its funded indebtedness.

That a new market operation has been started in Standard Brands.

That the recent flurry of buying in General Motors was frowned on by "insiders."

Reichsbank Report.

BERLIN, Sept. 10.—(AP.)—The Reichsbank report as of September 7, shows the following changes in reichsmarks: Gold and bullion, decreased 97,000; reserve in foreign currencies, increased 12,237,000; bills of exchange and cheques, decreased 153,907,000; silver and other coins, decreased 1,508,000; notes on other banks, increased 8,660,000; advances, decreased 109,876,000; other assets, increased 7,742,000; notes in circulation, decreased 281,676,000; other maturing obligations, increased 37,685,000; other liabilities, increased 20,239,000.

Total gold holdings, 2,183,343,000.

Rate of discount, 7½ per cent.

STEEL TONNAGE DECLINES

NEW YORK, Sept. 10.—United States Steel Corporation's unfilled tonnage as of August 31 amounted to 3,658,211 tons against 4,088,177 tons on July 31, a decrease of 429,966 tons for the month. On June 30 unfilled tonnage was 4,256,910, on May 31, 1929, it was 4,304,167, and on August 31, 1928, was 3,624,043 tons.

The August drop in the corporation's forward orders was much larger than had been anticipated. Preliminary estimates in trade and financial circles had placed the probable decline at about 250,000 tons.

WEST. PUBLIC IN DEMAND HERE

Stock Makes Late Response To Gain in Lone Star; Austin Car Starts at 11¾

A slight recession in Lone Star and an upturn in Western Public Service marked the opening on the Pittsburgh Stock Exchange today.

Moderate profit-taking was responsible for the Lone Star trend while the gain in Western Public was due to buying by interests believing this issue had not made proper respone to Lone Star's recent advance. Both are under the same control and there have been rumors in the Street of an ultimate tie-up of the properties.

Blaw Knox continued to display notable strength, but there was a fractional decline in United Engineering on the opening.

The shares of the American Austin Car Company were admitted to unlisted trading privileges and started at 11¾ with 500 shares changing hands at that price.

EVENING SUN-TELEGRAPH MARKETS

New York Curb Market | Chicago Stocks

Stock Exchange Topics

Federal Reserve System Loans Increase Over Year Ago.

CHANGES revealed in the weekly consolidated statement of leading reporting member banks in the reserve system were about in line with what had been foreshadowed by the reserve statements themselves. Investments of these institutions were reduced by about $15,000,000, standing $486,000,000 under the same date last year. Loans on the other hand increased by $200,000,000 bringing the total to a figure $1,244,000,000 in excess of a year ago, the loan expansion reflected an increase of $117,000,000 in loans on securities or about $20,000,000 less than the increase in brok0ers' loans reported last Thursday, while commercial borrowing expanded by $84,000,000. Idebtedness to the reserve increased by $76,000,000 though the total stands $64,000,000 under the same date last year.

Several of the larger houses in the street were urging customers to shorten speculative sail on the theory that the market might be expected to run into a period of more prolonged corrective reaction than has been the case of late. One such firm was moved to advise its customers along that line on the strength of private Washington information to the effect that the large and successive increases in brokers' loans is causing considerable discussion of the general credit situation in administration quarters. According to such reports the steady mounting of collaterol borrowings at this time when demand for commercial credit is steadily growing has resulted in bringing the matte sharply before the cabinet for discussion.

UNITED STATES STEEL CORPORATION unfilled orders showed a drop of 429,966 tons, or much yreater than anticipated. Total of 3,658,211 tons on August 31, compared with 4,088,177 tons on July 31, and 3,624,043 tons a year ago. Industry apparentif has been cuttinf heavily into backlogs, although the trade estimates that increased fall business will place orders and output more in balance. Other developments of the day were mixed. Extension of gasoline price cuts to Pennsylvania, Delaware and outlying New York districts was announced, while reports indicate that additional territory on the Atlantic seaboard will shortly witness downward revisions. Chicago wholesale gasoline and fuel oil markets on the other hand are showing a firmer tendency. Leaders in two industries, refined sugar and linseed, announced increases in prices of their products. Corporate news was chiefly of a favorable nature.

Wall street is struggling hard to ignore the conditions that have existed in the petroleum trade through a period early in the year, which have been reflected in such heavily increased production that trade interests all over the world have been called on to arrange some plan by which conditions could be placed on a reasonable basis, so far these efforts have been futile, but a definite step toward the reduction of output is expected to result from the operation of the California Gas Conservation law, which went into effect at the beginning of the month, whether or not it will prove more effective than the joint action that was taken in the various fields a few months ago is something for the future to tell, but a measure of the results will be given in the trade statistics to be issued in the first half of the current week.

THE steady accumulation of Public Service of New Jersey which is on the dividend basis of $2.60 per annum, while the stock sells above 125, is one of the puzzles of the street, but those who have had confidence in the vigorous bullish activities in the utilities generally pay little attention to the small return on coast. Some of those who have been concerned in these activities insist that it is still going to a higher level and predict that within a short time a readjustment of capitalization will be made by which the present stock will be split up in the ratio of four for one.

While official confirmation is not forthcoming, it is understood that stockholders of Bethlehem Steel will in the near future be offered rights to subscribe to 80,000 shares of additional common stock at a price of approximately $110 a share, the proceeds of which will be used to retire a portion of the funded indebtedness of the company which on December 31, last, aggregated $199,421,172. Reports that the funds to be derived from the expected financing would be used toward retirement of preferred stock are without foundation according to interests usually well posted regarding the company's affairs. Besides resuming common dividends at $4 annually in January last, which rate was subsequently increased to $6 annually in July, directors this year have also given stockholders rights to subscribe to new stock at $85.

Graphophone-Radio Combine Predicted

LONDON, Sept. 10.—The "Financial Times" learns that Louis Sterling, managing director of the Columbia Graphophone Company, is leaving again for New York before the end of this month and it is expected that negotiations with the Radio Corporation of America will be resumed. Impression here is that there will probably be a big wireless-gramophone-talking picture combine eventually including Warner Bros., Paramount and Famous Players-Lasky.

Chesapeake Wants 53,000 Tons Rails

RICHMOND, Sept. 10. — Chesapeake and Ohio Railway Company is inquiring for 42,000 tons of 130-pound and 11,000 tons of 100-pound rails.

NEW YORK CURB MARKET

NEW YORK, Sept. 10.—(AP.)—Price movements were erratic on the curb exchange today. Operations for the advance were again pressed forward in some of the utilities, but most advances brought out heavy profit taking and gains were maintained with difficulty. A few of the industrials and investment trusts were urged forward, while others sagged.

Yesterday's heavy liquidation on the "big board," which was followed by uncertain price movements today, tended to unsettle confidence on this market. The rather ominous tone of several commission house advices, which warned customers to be prepared for further corrective reactions, was also a factor in the lightening of holdings. A firming of call money in the afternoon was also a depressing influence, the rate rising to 9 per cent after renewals at 8.

Following is the list of transactions on the New York Curb Exchange, giving all stocks and bonds traded (00 omitted in sales column of stock list; 000 omited in sales column of bond list):

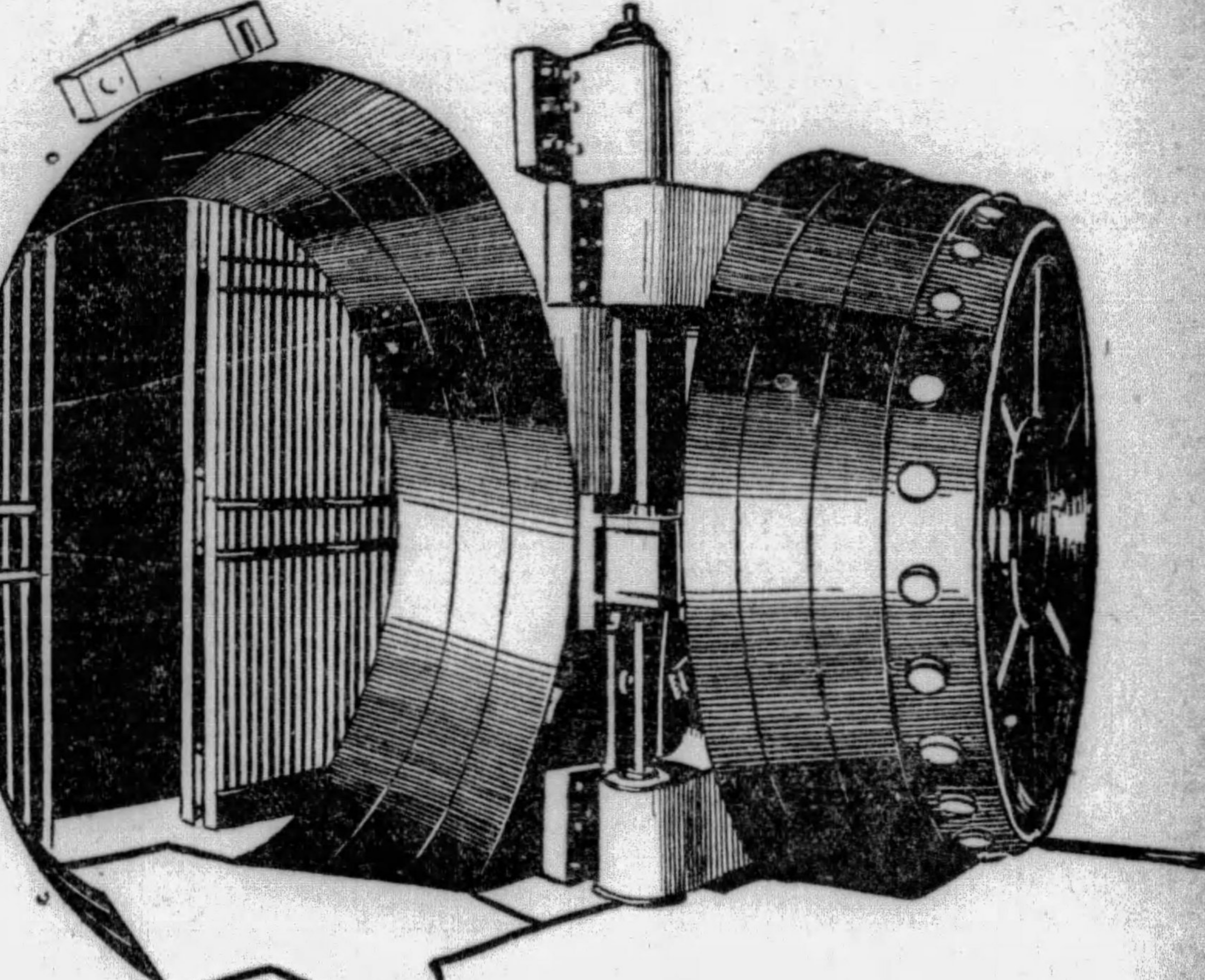
British Bewildered By Cotton Report

MANCHESTER, Sept. 10.—United States government cotton report was received with great surprise on Cotton Exchange here and market is reluctant to accept figures presented without further explanation. There has been a general expectation of a decrease in yield of the staple, but it is found difficult to understand the intimated all around decline of 14 per cent in cotton crop condition. Futures, therefore, only advanced 21 to 25 points and there is no likelihood for movement of traders being stampeded into buying.

World Zinc Output For July Decreased

NEW YORK, Sept. 10.—World output of zinc in July, the last month for which figures are available, was 135,969 short tons, against 134,475 short tons in June and 140,379 tons in May, according to the American Bureau of Metal Statistics.



A SAFE DEPOSIT BOX FOR SON AND DAUGHTER, TOO

Teach them, along with their lessons in thrift, the importance of the proper care of valuable papers. Rent a safe deposit box for the stocks and bonds they have bought with their own savings, life insurance policies, and other such papers. Learning to take care of personal property is just as important as learning to save.

A safe deposit box at the Mellon National Bank can be rented for as low as $4.00 a year. The box is made of aluminum, strong but light, and each box is enclosed in a separate steel compartment just large enough to hold the box. There are two keys to the compartment, one is kept by the box holder, the other is retained at the bank. Both keys are required to open the compartment.

MELLON NATIONAL BANK

"ALL YOUR BANKING UNDER ONE ROOF"

MONEY MARKET BALKS LOANS TO FARMS

Banks Unable to Raise New Funds on Satisfactory Basis; Eager for Inquiry

By MERRYLE STANLEY RUKEYSER.

NEW YORK, Sept. 10.—A serious by product of the new preference of the financial public to trade in common stocks rather than investing in bonds has been the drying up of various economic activities which are dependent on a good bond market.

For example, the farm loan system, because of the condition of the money market, is virtually at a standstill. On account of an unfavorable market for the bonds of farm loan institutions, the banks are unable to raise new funds on a satisfactory basis, and as a result they are currently making virtually no new loans to farmers. The present inactivity comes after a period of internal mismanagement of some of the banks, which resulted in several failures among the joint stock land banks. Moreover, several of the federal land banks have been in unsatisfactory condition.

Some of the competent and conscientious insiders are anxious for a thoroughgoing congressional investigation, with the hope that a constructive program can be evolved.

SYSTEM PARALYZED

In the 13 years of its operations, the system was perhaps never so paralyzed as today. The system consists of two groups of banks—joint stock land banks and federal land banks, which are under the supervision of the farm loan board at Washington.

About two years ago Eugene Meyer was called to the Federal Farm Board at Washington to improve the administration, and he and his associates in seeking to heighten the efficiency of the system, increased expenses. In its earlier years the system was badly managed in Washington. In 12 years it had five different commissions at the head of it, and there were numerous changes in the personnel of the board. Few real bankers were chosen for Washington board.

The system met its first great crisis with the post-war deflation of farm values. As a result of shrinkages, banks found themselves with mortgages covering not 50 per cent of the land value, but 75 per cent or more.

Furthermore, some of the banks had incompetent management. Indictments have been brought against the presidents of two of the largest banks, one in Kansas City being in receivership. There have been instances of dishonesty and criminal prosecution. Three joint stock land banks have been placed in receivership and even some of the federal land banks had tough sledding.

Conditions of regulation, which have been tightened, have further added to the difficulties of the Federal Land Banks. When the law was first passed, the expenses of the Federal Farm Loan Bureau were paid by the government. The law allows to the Federal Land Banks a gross profit on its operations of only 1 per cent, out of which all operating expenses must be paid. An amendment to the law in 1925 compelled the banks of the system to pay the entire expenses of the Farm Loan Bureau, which for the current fiscal year are estimated at close to $1,000,000, which must come out of the 1 per cent gross profit of the banks. The Federal Land Banks used to sell their bonds at 5 per cent, and lend to farmers on an amortization plan at 6 per cent.

SUSPEND NEW LOANS

Up to 15 months or so ago, when the bond market was still good, the best-managed Federal Land Bank could market bonds at a premium, and could also borrow at local banks at around 4½ per cent. Accordingly, they could re-lend to farmers for long periods on real estate, and make a profit. The change in the money market, with interest rates substantially higher all along the line, has caused the banks practically to suspend making new loans. With the administration under President Hoover committed to farm relief, it is important that a leading agency for farm aid after 13 years has become almost inoperative.

Some of the individual Federal Land Bank bonds are in better financial condition than at any time in the past, and their obligations, with their tax exempt features, are high grade investments. One well managed bank in the system, for example, has $13,000,000 of bonds outstanding, with over 300 per cent in collateral behind each bond. The Federal Land system is facing the same hardship that all agencies dependent on the sale of bonds are confronted with. Foreign governments, municipal and state governments, and high grade commercial bonds have all felt the radical change in money market conditions. Industrial corporations, however, have been able to adjust themselves to changing market conditions by selling shares instead of bonds in order to raise additional capital.

Besides the three joint stock land banks in receivership, there are 49 in good standing, with outstanding loans to farmers totaling $601,120,000. These banks are owned by investors who paid in $41,745,000 for capital stock and $1,587,000 as paid in surplus. The bond obligations of the joint stock land banks outstanding amount to $586,689,000.

Telephone's July Earnings Larger

NEW YORK, Sept. 10.—The net operating income of the American Telephone and Telegraph Company for July amounted to $2,878,183, compared with $2,695,067 for July, 1928. For the first seven months the company's income totaled $22,192,712, as against $21,619,837 for the corresponding period last year.

Pittsburgh Leads in Glass Output

By GEORGE H. SNYDER

PITTSBURGH is in danger of losing its position of supremacy in the glass industry, according to a study of the trend of new plant construction made by the National Glass Budget. The growth of Toledo as a glass center with such organizations as the Owens-Illinois Glass Company, the Libbey-Owens Glass Company and the Corl-Erie Glass Company is interpreted as offering serious rivalry to the position held by Pittsburgh for over 50 years.

While Toledo's importance to the glass business cannot be disputed, the natural trend of manufacturing activity from the city limits of Pittsburgh to surrounding communities appears to have been mistaken for a decline in this city's position.

The same assertions were made about the steel industry a few years ago when the United States Steel Corporation closed some of its obsolete plants within the city but more than balanced this by making enormous investments in the modernization of the plants at Homestead and McKeesport.

District Still Leads

THAT the Pittsburgh district is still dominant in the glass field is admitted by the Budget, although it appears to attach too great an importance to the activity directly within the city.

"If you are generous with your allowances so far as scope is concerned and Pittsburgh is permitted to include a radius of, say, 50 to 75 miles from the center of the city, she may yet be entitled to the title," says the Budget. "But if you confine the radius to the city limits and to the firms that maintain their general offices in the city, it is a question between Toledo and Pittsburgh.

"In making a comparison, it would not be fair to include Kopp Glass, Inc., of Swissvale, the Glenshaw Glass Company or the H. J. Heinz bottle plant, all located in close-lying suburbs of Pittsburgh; nor the Edward Ford Glass Company of Rossford, O.

"Providing that you reached out the distance mentioned from Pittsburgh, then there would be no question. When you include the number of plants that are located in Jeannette, Mt. Pleasant, Charleroi, Washington, Rochester, Monaca, all in Pennsylvania; Wheeling, W. Va., and many other small towns within the above radius, there is no doubt but that Pittsburgh still holds the honor.

Expansion at Toledo

"FROM the way glass manufacturing plants are expanding at Toledo, a different situation must prevail. To illustrate: the Libbey-Owens Glass Company now has a building program which, it is unofficially reported, will require about four years to complete. Then again, the Edward Ford Plate Glass Company is building a new works that will double the firm's capacity. In the past year Toledo also surged forward when the Owens Bottle Company and the Illinois Glass Company merged under the name of the Owens-Illinois Glass Company, with general offices at Toledo. Apparently the handwriting is on the wall as to which city has the most promising outlook," the Budget concludes.

The fallacy of the assumption lies in the mistaken belief that if Pittsburgh does not have steel mills and glass factories almost in the Golden Triangle, it is losing ground. This city is going through a necessary stage in its development from a mill town to a great commercial and financial center. Naturally, taxes and the cost of investments in real estate are too high for industrial plants requiring large areas of ground to stay within the city. This situation is caused by the growing demand for ground for offices, for stores, for warehouses and for wholesale establishments which must be within the city limits.

Not Leaving District

THE plants that have pulled up their stakes have not gone to Chicago, to Cleveland, to Toledo or any far-off places except in a few instances. They have gone to the smaller communities which are a part of the Pittsburgh disrict and which are more fitted for large-scale industrial operations.

There are no steel mills or glass factories on Wall Street or, for that matter, on the Island of Manhattan, but that part of the country seems to be doing fairly well.

Taking the entire Pittsburgh district, the glass industry most certainly is not going backward. The Pittsburgh Plate Glass Company is spending several millions to improve its Ford City plant. The same organization made the initial installations of its new process for making plate glass at Creighton. The Standard Plate Glass Company abandoned its Springdale operations but made such important changes in its Butler equipment that as much glass can now be made at that single plant as both factories formerly turned out.

Abolishing Smoke

AND while this city is having these growing pains and is pushing its factories into surrounding communities which still bring it commerce and are an integral part of its commercial life, Pittsburgh is getting rid of its smoke evil. Years ago it drew the well-deserved name of "Smoky City." The change in the city's industrial life has done much to make that title less appropriate. While the Pittsburgh of 20 years ago—which an observer, looking from Mt. Washington, called "Hell with the lid off"—was very impressive, the newer Pittsburgh is a more pleasant place to live.

UTILITY BONDS OFFERED

A $25,000,000 issue of 5½ per cent debentures for the Central States Electric Corporation, marking the introduction of the first security of this type with an optional interest feature, is being offered today by a banking group composed of Dillon, Read & Co., Stone & Webster and Blodgett, Inc., E. H. Rollins & Sons, Dominick & Dominick and Shields & Co., Inc.

The debentures, maturing in 1954, are priced at 99½. The optional interest privilege permits the holder of each $1,000 debenture to receive interest semi-annually in common stock or scrip at the rate of one-third of a share or $27.50 in cash at his option.

In addition to the speculative possibilities of the optional interest payments, the debentures carry common stock subscription warrants, detachable after March 15, 1930, entitling the holder to purchase up to September 15, 1934, 10 shares of the company's common stock. Prices will be determined by the order in which the warrants are exercised, at a rate of $89 a share for the first 62,500 shares, $94 a share for the second 62,500 shares, $99 a share for the third block of this amount and $104 a share for the remaining 62,500 shares.

Earnings of the Central States Electric Corporation, which is one of the largest public utility holding and investment companies in the country, have shown a striking increase in the past year. For the 12 months ended August 31, income available for interest totaled $19,274,025 compared with $7,279,573 for the preceding 12-month period.

The corporation is the largest single stockholder of the North American Company and has a controlling interest in the Class B common stock of the American Cities Power and Light Corporation as well as a substantial investment in the common stock of Electric Share Holdings Corporation. It recently participated in the formation of the Shenandoah Corporation, acquiring 2,375,000 shares of the latter's common stock and 375,000 shares of its preferred.

The total value of the Central States Electric Corporation's assets is placed at $350,000,000.

A. E. Patchin, one lot of household goods.
Red Ball Transit Company, one lot of household goods.
W. A. Riley, one lot of household goods.
Paul V. Stevenson, one lot of household goods.
All the property mentioned in the respection warehouse receipts issued to the bailors named, together with the contents of the dressers, chiffoniers, washstands, buffets, trunks and other parcels, will be sold in like manner.
Notice of the above and foregoing sale is given to each of the above named bailors, as heretofore given by the Hoeveler Warehouse Company.
Sale positive. Terms cash.
HOEVELER WAREHOUSE COMPANY,
750 Millvale Avenue, Pittsburgh, Pa.

BUGS BAER Says

A PRINCE TAKES THE AIR

EDDIE, ranking prince of the English Channel, is now an aviator.

And a real one too. He has flown big passenger planes all over Europe.

"Bugs" Baer

We know why Eddie has taken up aviation.

He wants to get over that Liverpool jump.

As a matter of statistics, Edward earned his wings while riding hoss-back.

We all remember his famous words to his hoss while taking a fence on Long Island:

"Don't go away. I'll be back."

He came back. Remounted, and made that hoss jump the hedge with him. Thereby winning millions of pals in America.

But aviation is a trifle more dangerous than equitation. That's why Eddie likes it.

He sold his racing stable when his hosses got spavined from taking bows on the wrong side of fences.

Don't allow anybody to convince you that steeple chasing is an easy method of spending a convalescence.

We once tried to ride a hoss in the U. S. artillery. In private life it had been a brewery hoss and should have recognized me.

Like a Kentucky mule, this hoss had no pride of ancestry nor hope of posterity. As for its pedigree, it made that up as it went along by kicking colonels, majors and generals.

It could smell oats over the telephone. But the only way you could ride that bird was by proxy.

That is when we got to admire the prince's equitation. True, the prince had been thrown so often that, when he got on a hoss, his shoulder blades opened up like parachutes.

But he kept trying. Which is more than we did. After one trip on that nag, we tried to get him shot for a spy.

We wish Eddie the best of good fortune in his new racket.

But we hope he doesn't try to Lindbergh the Atlantic.

Eddie never has done very well on water jumps.

BARNEY GOOGLE AND SPARK PLUG — He Just "Would" Do That — By DeBeck

THE BUNGLE FAMILY — He's Off Again — By Tuthill

ELLA CINDERS — Squaring the Triangle — By Plumb and Conselman

NINE OUT OF EVERY TEN OF ELLA'S FRIENDS ADVISED HER TO GIVE UP HER STAGE CAREER AND MARRY JIM BLUNT. BUT DESTINY DECREED OTHERWISE. ON THE EVE OF THEIR MARRIAGE, WHEN ELLA HAD DECIDED TO ABIDE BY THE DICTATES OF HER HEART AND THE ADVICE OF HER FRIENDS, JIM WAS INVEIGLED INTO COMPLICATIONS BY MAIZIE PURR, A DESIGNING SHOW-GIRL. ELLA APPARENTLY DISAPPEARED, BUT THE TRUTH WAS SHE WAS SLIGHTLY INJURED IN AN AUTO ACCIDENT AND LANDED IN THE HOSPITAL. NOW ELLA MUST TAKE UP HER LIFE WHERE SHE LEFT OFF. ROMANCE MUST WAIT FOR A BRIGHTER DAY, WHILE SHE STARTS AT THE BOTTOM AGAIN TO REGAIN HER LOST POSITION ON THE STAGE.

Reg. U. S. Pat. Off.; Copyright 1929, by Metropolitan Newspaper Service

AND MAIZIE PURR, THE GIRL WHO CAUSED ALL THE TROUBLE, HAS GAINED NOTHING BY HER SCHEME TO BREAK JIM'S AND ELLA'S ENGAGEMENT. SHE THOUGHT SHE'D WIN JIM FOR HERSELF AND GET ALL HIS MONEY. INSTEAD, SHE IS LEFT ALL ALONE TO PONDER ON THE BITTER LESSON THAT CAUSING TROUBLE FOR OTHERS NEVER BRINGS ANYTHING EXCEPT UNHAPPINESS AND DISAPPOINTMENT.

WHILE JIM, AFTER SEARCHING FRANTICALLY FOR ELLA, REFUSED TO HAVE ANYTHING FURTHER TO DO WITH MAIZIE AND RETURNED TO HIS RANCH IN THE WEST. JIM VOWS HE WILL NEVER ALLOW ANOTHER GIRL TO GET HIM INTO HER CLUTCHES. IT HAS BEEN A SAD EXPERIENCE. HE LIVES IN HOPE THAT SOME DAY ELLA WILL LET HIM KNOW WHERE SHE IS, SO THAT HE CAN EXPLAIN AND BE FORGIVEN.

Thus, for the time being, ends Ella's romance with Jim Blunt. She goes on her way alone, seeking a new life.

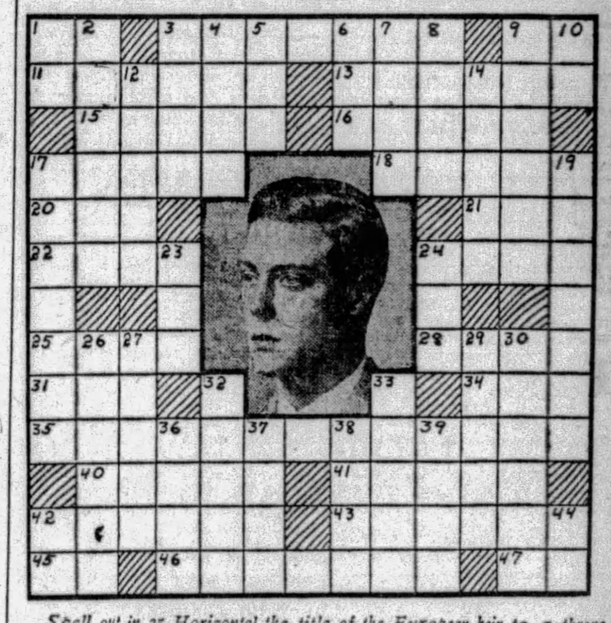
Today's Crossword Puzzle

By Eugene Sheffer



Spell out in 35 Horizontal the title of the European heir to a throne who raced by air, rail and motor to his father's bedside at the time of recent critical illness

HORIZONTAL

1—Above
3—Pertaining to dyes derived from coal-tar
9—Egyptian sun god
11—Heavy hammer
13—Musical exercises
15—Unnaturalized foreign resident
16—Concrete of lime, sand and hydraulic cement
17—Join
18—Measures
20—Snare
21—Self
22—Pace
24—Paradise
25—Sound additional to that of respiration
28—In the beginning
31—Sleeveless Arabian garment
34—Seventh letter of the Greek alphabet
35—What is the title given to the eldest son of the sovereign of England?
40—Pertaining to any open surface
41—Wrath
42—Vipers
43—Seesaw
45—Myself
46—Traders
47—Symbol for selenium

VERTICAL

1—Plural pronoun
2—One of the opaque bodies that revolve around the sun
3—Prepare for publication
4—Molding having in section a long S curve
5—Japanese coin
6—Beak of a bird
7—Article
8—Clever or sharp
9—In card playing, to fail to follow suit
10—Like
13—Choicest part
14—Lavished extreme fondness
17—Unfasten
19—Instrumental compositions
23—Prepared food baked between two crusts
24—Organ of sight
26—Rub away
27—A lord (Scottish)
29—Let again
30—Cubic units of metric measure
32—Frighten
33—Possessor
36—Have use for
37—Heroine of Wagner's opera "Lohengrin"
38—Destiny
39—Grows old
42—Part of to be
44—Note of the scale

Herewith is the solution to yesterday's puzzle.

Court and Commissioners Answer Gang Challenge

Gang political tactics, which, it is charged, contemplated the violation of the sacredness of the ballot box through the voting of thousands of "phantoms," has been answered in the decision of the County Commissioners to appropriate $10,000 for an investigation, the ordering of a grand jury inquiry by Judge Harry H. Rowand, of Common Pleas Court and an individual offer of $1,000 to begin a fund to be placed at the disposal of a non-partisan citizen investigation committee.

The court and the commissioners deserve public praise for the promptness with which they took cognizance of this alleged attempt to prepare for ruthless and brutal thwarting of the will of the people in an election that, campaign factors indicate, is regarded as the most important mayoralty contest that has engaged the attention of the electorate in years.

It is unlikely, however, that offices merely are the main prize in this alleged conspiracy. If the charges be true the extent of the plan is an indication that it is a battle of the all-highest in political gangdom for control of a political machine which would be all-powerful. The plum is so juicy and sweet that factions appear to have thrown prudence to the winds in the belief that one alone will sweep into power. "Harmony" has been shoved into the discard and the old give-and-take policy of dividing the plum evidently no longer prevails. Consequently one faction will be dominant and its opponents down. Hence the grimmest struggle for power and control that Pittsburgh has seen for years.

It is a proverb that honest men benefit when rascals fall out. It is to be hoped that will be the case in the present instance and that the activities begun Monday in behalf of the honesty of elections will result in uncovering the real instigators of such political trickery as is alleged to have been taking place.

Substitute for Platinum In Tubes Is Found Here

When we think about the search for precious metals we visualize the lonely prospector tramping the hills for years, sometimes rewarded for his patience with a "strike" which results in a "rush," great excitement and the world turned topsy-turvy as a result of the discovery. That is picturesque and romantic, intriguing our imagination and stimulating our emotions.

But there are other prospectors—in the research laboratory—whose discoveries may be even more important and yet be regarded as commonplace. Such a one appears to be that of Dr. Edwin F. Lowry, associated with the research department of the Westinghouse Company. This "prospector," whose territory is not mysterious mountains, but the realm of test tubes and crucibles, has found in them a "precious" metal, even more precious than gold because it is abundant and cheap. An alloy of cobalt, nickel and ferro-titanium, it is called "konel." Konel is so hard that, heated to a degree at which steel would be crushed, it will cause a triphammer to "bounce off."

It takes the place of platinum in the manufacture of radio tubes, and platinum, you know, is a real precious metal. At a cost of a fraction of a cent, konel does away with platinum that would cost 50 cents. That, of course, is only the beginning. Other uses are certain to be found for such a serviceable metal.

Imagination probably always will give a conspicuous place to the hardy prospector who insists "thar is gold in them thar hills," but the research laboratory may be expected eventually to do away with his occupation. Gold, of course, is elemental, and may be beyond the resources of a laboratory as far as reproduction is concerned, but for practical industrial purposes metallurgic chemists may be expected to find a substitute.

The possibilities in the field of alloys are most extensive.

OH, THESE WOMEN

By Leola Allard

SHE is a "high strung" woman, whatever that is, and she bought herself a very fine radio at a Fifth avenue shop, in New York. She used it a long time, and then one day it didn't seem to work just right. A repair man reported from the Fifth avenue shop and said the loud speaker was "shot." She needed a new one.

The lady swished into the store and ordered the best loud speaker and got it. Next day she phoned to say it worked beautifully. The machine was "like new."

Then she called again and said something was wrong and would the store be so good as to send her a good radio to use till hers was repaired.

The accommodating proprietor of the shop sent one of his best radios to her home and she kept it 10 days.

All her own machine needed was to have batteries recharged. She postponed the work and kept the new machine. It looked so pretty.

Then one day the man sent for his radio and took it away.

At 5 o'clock when the "high strung" woman came home and was told by her maid the radio was gone, she flew high up in the air and exploded. The idea! She was having a party and she needed it. The nerve of that man! Well he would jolly well return it, that's what he'd do or no more of HER trade.

"But Madame," said the patient proprietor over the phone, "I can't give you a new radio for nothing while you let your machine stand there. I charge $4.50 a week to rent those machines and you have had it two weeks for nothing. I can't do it, I tell you. But I don't want your trade. I can't help it. You should have been charging those batteries. You had plenty of time. But I won't give you something for nothing. I'm sorry."

The woman's husband takes the phone. What does the man mean talking "that way" to HIS wife. The machine he sold first wasn't any good. And anyway his wife had decided that she didn't want that $35 new loud speaker he had put into the machine.

"But she bought it and paid for it and paid for having it put into the machine. I won't take it back," said the exasperated dealer.

"But she doesn't want it. She made a mistake! She didn't need it.'

"Well—that's just too bad. She bought it."

In a few minutes the husband and the wife's sister (the wife was at home all unstrung and weeping) came into the radio store.

The situation was thoroughly explained to them.

"Well, maybe," said the sister, "my sister will buy a NEW MACHINE from you later if you will let her have that machine back, the one she's been using, till after her party, tonight."

"I won't sell her any more machines," said the dealer. "I don't want her business.

"We are going to get a lawyer, "thats what we are going to do," said the sister. "Come on, Jim," and the husband followed her meekly. Two angry women in his house. HIS house—that's a laugh! and while it looked weak following them like that, he figured that it was better than committing murder. Of course, the day may come when he won't feel that way.

Bible Passages

Joseph Cast Into the Pit

(Genesis 37; 14-24).

AND he said unto him, Go, I pray thee, see whether it be well with thy brethren, and well with the flocks; and to bring me word again. So he sent him out of the vale of Hebron, and he came to Schechem.

And a certain man found him, and, behold, he was wandering in the field: and the man asked him, saying, What seekest thou?

And he said, I seek my brethren: tell them, I pray three, where they feed their flocks.

And the man said, They are departed hence; for I heard them say, Let us go to Dothan. And Joseph went after his brethren, and found them in Dothan.

And when they saw him afar off, even before he came near unto them, they conspired against him to slay him.

And they said one to another, Behold, this dreamer cometh.

Come now therefore, and let us slay him, and cast him into some pit, and we will say, Some evil beast hath devoured him: and we shall see what will become of his dreams.

And Reuben heard it, and he delivered him out of their hands; and said, let us not kill him.

And Reuben said unto them, Shed no blood, but cast him into this pit that is in the wilderness, and lay no hand upon him; that he might rid him out of their hands, to deliver him to his father again.

And it came to pass, when Joseph was come unto his brethren, that they stript Joseph out of his coat, his coat of many colours that was on him;

And they took him, and cast him into a pit: and the pit was empty, there was no water in it.

The Rhyming Optimist

By ALINE MICHAELIS.

Joy Enough

JOY enough for all day long,
Though the hours slowly go,
In the laughter and the song
That my childhood used to know.

Echoes ringing down the years,
Lilting lightly, gay and sweet,
Bring me joys to banish fears
And to make all cares retreat.

Even though some griefs should fall
Like swift shadows on my days,
There was joy enough for all
Blooming in life's morning ways.

Joy enough to keep me glad,
Thrusting discord far away,
Lingers from the bliss I had
When life flowered like the May.

Though the flying years conspire,
Daily stealing youth and grace,
Joy enough for all desire
Lit my Mother's tender face.

THE ODYSSEY OF AN ONION

By Herbert Kaufman

GRAPES from Morocco and the Argentine; Washington apples and Oregon plums; Florida lettuce and Mexican tomatoes; Egyptian onions and California peas; Texas potatoes and Hawaiian pineapples; Porto Rican grapefruit and South African apricots—that's how Manhattan's market basket shops the garden patches of the world.

New York is a colossal GIRAFFE constantly stretching further for feeding grounds.

The universe is its green grocery store and its fruit stall—and all seven continents American BROWSING GROUNDS.

WE pay the least for what we actually consume; the greater part of our larder money goes for SPRAWLAGE and HAULAGE.

Transportation in one form or another confiscates HALF of every dollar spent upon the table.

We're space eaters, mileage ogres. Our appetites reach from the date palms of the Sahara to the truck farms of the Imperial Valley.

HOTEL menus are gastronomical towers of Babel. If the contents of a soup tureen spoke in native tongues, we'd hear a dozen foreign languages mingled in a ladle of petite marmite. And 50 more contending in the list of appetizers.

The complex machinery of delivery and preservation which keeps us daily supplied with fresh stuffs involves an investment of billions.

But not one man in a million ever pauses to wonder at the instruments of modern comfort and luxury.

THE Twentieth Century is so accustomed to service imperial tyrants could not command that the miraculous tales crowded on the pantry shelf fall upon DEAF imagination.

The next time your little boy asks for a bedtime story, read it from the SPICE CAN or from the Swedish MATCH-BOX. Relate the adventures of the NUTMEG which just seasoned his rice pudding or recite the odyssey of the onion, that set sail from the upper Nile to wind up in a pot of Irish stew.

(Copyright, 1929, by Daily Mirror, Inc., and Herbert Kaufman.)

∴ LISTEN, WORLD! ∴

By Elsie Robinson

HERE'S a scrap from a letter:

"I'm desperate—what can I do? . . . Don't tell me to snap out of it and go to work. I am at work. . . . Don't tell me to have a frank talk about my difficulties. I have already talked myself hoarse. . . . The truth is, the trouble is really in myself. Yet I can't seem to get at it. . . . I seem to be going through a fog, getting nowhere, accomplishing nothing, getting weaker and more discouraged all the time. What's the cure? ED, J. L.

I've been in moods like that. So have you. Perhaps the thing that has helped me has also helped you. It isn't actually a CURE. I've never yet found anything that will permanently cure the fogginess of life or my own blundering. But I have found something that helps tremendously . . . PRAYER.

Ed sniffs—mutters he "wasn't looking for religious advice."

I'm not offering it as religous advoice, Ed. This is shop talk—work dope—as though we were discussing the running of your car. You wouldn't sniff if some one told you of a good lubricant for your car. PRAYER IS A GOOD LUBRICANT FOR YOURSELF.

Talking things out to God. Mind you, Ed, I don't know what God is. I don't know whether God's a person who hears us or a force which supplies us. Nor do I know what happens when we compose ourselves and tell our story quietly to this Invisibility. But I do know SOMETHING HAPPENS.

I do know that if we'll tell our story STRAIGHT and ask for help, we'll get help. I don't know whether that help comes from some outside source or from some inside reserve, but I know we will get it.

But we must be honest about it. There's no use going into a corner, mumbling a lot of alibis and excuses, trying to run a bluff with God. We must put ALL our cards on the table—see the thing fully, state the case frankly—if we expect to be helped.

AND IF WE CAN SEE OUR CASE HONESTLY AND STATE IT BRAVELY, WITHOUT TRYING TO PUT THE BLAME ON ANYONE ELSE, THE TROUBLE IS MORE THAN HALF CURED.

It isn't necessary to understand God to pray. It isn't necessary to believe in religion. It's just necessary to BELIEVE. Believe that there is a greater supply of strength somewhere than you at present possess . . . believe that there is greater beauty than you at present display . . . believe that there are greater heights than you as yet have climbed.

BELIEVE—

Then go apart—be quiet—

And, in that quietness, state your need and acknowledge your lack—

Make up your mind to gain that which you do need, whatever the price—

THEN ASK—

AND YOUR PRAYER WILL BE GRANTED.

It may not be granted in the form in which it was made. If you're wise, you'll not make it in any definite form. But it will be granted in some form. If you really want strength, you will get strength. If you really hunger for beauty and wisdom AND ARE WILLING TO PAY THE PRICE FOR THEM, you will be given your chance.

FOR PRAYER WORKS!

Whatever you need, whatever your creed, whatever the mold of your mind, PRAYER ALWAYS WORKS!

(Copyright, 1929, King Features Syn., Inc.)

Worst Story I Have Heard Today

By WILL ROGERS.

THE boys that are coming back from the woods and lakes are telling the same old fish stories. One guy that stayed at home and worked was getting pretty tired of it, and made most of the fellows keep still by giving notice he was going to have to see the fish or even have a mess of it for dinner.

But the chief salesman for the company didn't let that stop him. "The biggest fish I caught I had to leave in the lake," he says, "because the fellow that owned the boat and run it wouldn't let me haul it aboard. He was afraid it would capsize the boat, and that's on the level."

"Oh, yes," says the stay-at-home guy. "I don't doubt it a bit. I was in exactly the same fix myself last summer, and I was mighty sore at the captain when he wouldn't risk his old boat by letting me pull the big fish aboard. He said he couldn't afford to have the boat go down, and I couldn't pay for it if it should happen to sink."

"Where was that?" says the salesman.

"On the Leviathan, crossing the Atlantic," says the other guy. And then they all went to work.

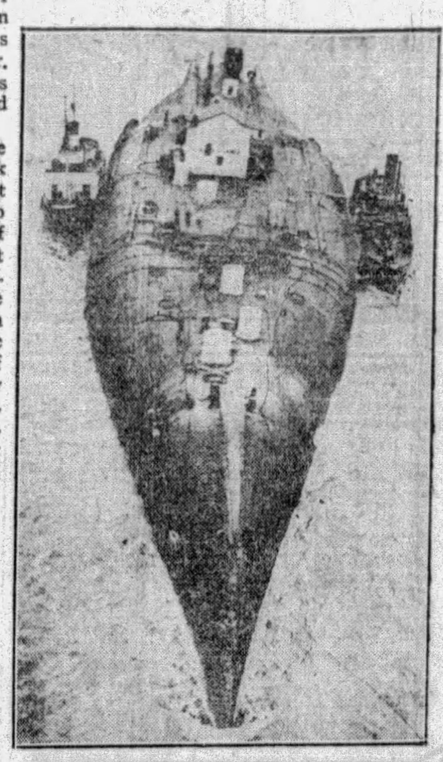
Sic Transit Gloria Mundi

And It's All for the Best.

This ship, towed from Scapa Flow to Rosyth to be broken up for old metal, propelled by two tugs, one of them the most powerful in the world, was once a proud battleship.

Named for the German ruler, it was called Kaiser. Great things were expected of it.

Little did the Kaiser think that this great fighting ship and the rest of his battle fleet would be interned by the British, then sunk to the bottom of Scapa Flow by patriotic German sailors, determined that Britain should not use the German ships.



THE KAISER'S "GREAT BATTLESHIP."

Much humiliation for the great fighting ship, first captured, under the terms of the armistice, then sunk, then raised, now being cut up by acetylene torches for old metal, then sent to the Krupp works to be made into ploughs, automobiles or other useful articles.

"Thus passes the glory of the world."

And the glory of Kaisers.

The man for whom this fighting ship was named is alive, in spite of all threats. England, of course, would not allow the first cousin of King George to be hanged, although Lloyd George and others promised that he SHOULD be hanged.

He is living comfortably in Holland, and the German people, pushing honesty, in the opinion of some, a little too far, allow him to retain his gigantic fortune of more than a hundred millions.

NEW YORK DAY BY DAY

By O. O. McIntyre

NEW YORK, Sept. 10.—Manhattan is the most fertile of all fields for the fly-penny peddler with his trifling gimcracks. This is especially true in summer, when the immense floating army of tourists descends and midtown becomes a glorified street carnival. An alert curb salesman is assured a living.

Around the Plaza fountain entrance nightly is a Mexican in native costume who sells coiling wooden snakes to motorists. He has a big sale among the so-called tin can tourists who want to take home a metropolitan souvenir.

A dozen old women standing at various other park entrances with their gaily colored balloons tugging at the breeze make a good living. So also do many old men with their tiny perambulating carts of chocolate bars, hokey pokey ice cream, peanuts and popcorn.

One old fellow in a wheel chair supports himself selling stale peanuts and pokes of bread crumbs for the squirrel and pigeon feeders in the park. On Fifth avenue is a shuffling figure moving in and out among limousines selling key rings. He is reputed well to do.

The best spot for the curbstone pitch is near the library wall on Forty-second street. Here the telescope man permits you to peep at Sirius the Dog Star for a dime. The Lord's prayer engraved on the head of a pin may be viewed through powerful glasses for a nickel.

There are also hawkers of silk socks and neckties who give the impression of offering such rare bargains until the packages are unwrapped at home. In Broadway doorways after dark are those grotesque toy figures that leap to hidden threads.

Then there are venerable map sellers, whispering salesmen of naughty Parisian pictures, trick mirrors, etc. All these seedy hucksters, aided by appeal of their abject shabbiness, are able to garner neat profits. And umbrella sellers, popping out so magically with a shower, always fare handsomely.

* * *

Some of the highly ballyhooed movie first nights are mere rackets. The huge searchlights "spotting" celebrities, magnificent carpets spread for the triumphal march from limousine to lobby, flashlights and grinding movie cameras are a slice of the hokum. In many instances no actual photographs or movies are taken. But suckers imagine they are going to get in a news reel release and so they pay from $8 to $12 for premiere tickets.

* * *

There are pleasant small town touches to upper reaches of Manhattan, especially in what is known as the Spuyten Duyvil section. It is about the only part of the city where people have open spaces at their door step and where the skyscraper has not in plutocratic solitude raised its shaft.

One may see young entymologists faring forth with nets. Pole and line fishermen drift toward the river banks with pipes and lunch. Young lovers sit in hammocks to look at the moon. There are front yards and in some elders are playing croquet.

Boys congregate at night under the corner electric lights to play go-sheep-go. Benches along expansive roadways are filled with nodding papas, knitting mamas and old Rover naps nearby. Now and then, to heighten the mid-Victorian touch, a trotter, attached to a buggy, flashes by, stepping high.

* * *

Far uptown, too, are the last of the vanishing dining car lunch wagons, long known as "Owls." Congestion has driven them out southward. Somehow they offer a distinct appeal to the hungry. The mustard and catsup bottles may be gummy and heavy china chipped, but there is a strange culinary zest to the cooking. Hamburger steaks and onions, for instance, become Epicurean delights, and there is a "certain something" to fried eggs—turned over. The chefs "cook by ear" and may ruin digestion, but many customers enjoy rare gastronomic thrills while it is being done.

Isn't It So?

Even a fast man may not make a rapid recovery when he's ill.

* * *

Never confide in a man until you know what kind of man he isn't.

* * *

If a man's wife cuts his hair he is entitled to a lot more sympathy than he gets.

* * *

Watch any man long enough and you will see him do something that he ought to be ashamed of.

* * *

A man's liberality always crops out when it comes to giving advice that he can't use in his business.

* * *

The average woman can detect flattery every time — except, of course, when it is lavished upon her.

Wise Words

We lose certainties whilst we seek uncertainties.—Plautus.

If little labor, little are our gains;
Man's fortunes are according to his pains. —Herrick.

Would you know the qualities a man is lacking? Examine those of which he boasts.—De Segar.

Extremely foolish advice is likely to be uttered by those who are looking at the laboring vessel from the land. —Helps.

I am indignant when I hear something abused, not because rudely or ungracefully framed, but simply because it is modern.—Horace.

It is not given to the human intellect to expand itself widely in all directions at once, and to be at the same time gigantic and well proportioned.—Macaulay.

Fame, impatient of extremes, decays
Not more by envy than excess of praise. —Pope.

Blessed is he who has found his work; let him ask no other blessedness.—Carlyle.

ONCE OVERS

By J. J. Mundy

HOW long before you are going to school yourself to impersonal friendship?

You think this attitude would take all the joy out of life?

You are mistaken.

If you expect nothing you are never disappointed.

If you expect little, you do not interpret little things to mean more than they are intended to mean.

And so you are happier, after all.

But there are some persons so constituted that they cannot stand the slightly indifferent air that an impersonal friend seems to assume.

They want allegiance.

They want to hear some sort of demonstration of your attitude toward them, and will work to get it.

It isn't at all that they care for you personally, but just to get an expression from you of personal preference.

Why satisfy this sort of person? If you can keep the impersonal, nice to everyone attitude, not caring particularly for anyone until you have had proof of loyalty on the part of your acquaintances, you have done much to keep poise and a happy heart.

Food Preservation Month

Pittsburgh Sun-Telegraph

ESTAB. 1927—VOL. 5—NO. 40 TUESDAY, SEPTEMBER 10, 1929 THREE CENTS

Food Preservation Month

Pittsburgh Joins National Food Preservation Movement

DR. JOHN M. CONOVER,
Medican director of Allegheny County:

"One of the greatest responsibilities of the home-maker is to keep her family in good health. The preservation of foods is the most important aid in her efforts, and any safe preservative of food stuffs gives her a considerable advantage. The home-maker should safe-guard the family health by refrigeration."

To the American Public:

HEALTH is life's greatest asset. To preserve Health is to perpetuate happiness and success.

So much depends on the food we eat that the proper care of food in the home is a paramount public as well as private responsibility.

The National Food Preservation Program, a movement looking toward wider knowledge of the scientific principles of food preservation, is deserving of cordial commendation.

DR. ROYAL S. COPELAND,
United States Senator

MRS. ENOCH RAUH,
Director of Department of Public Welfare:

"There is nothing of more vital importance to the woman of the family than the safeguarding and protection of the family's health. Any campaign which has for its object the safeguarding of food and the protection of health deserves the support of the mothers of this city who wish to give their children the advantage of good health."

MRS. JOHN S. SLOAN,
Past president of the Congress of Women's Clubs:

"Uncovered dishes containing perishable foods left in iceboxes and refrigerators not maintained at proper temperatures, appears to me to be the chief thing to be guarded against. Carelessness in this matter undoubtedly causes many of the ills that are unknown where proper refrigeration has been installed."

CHEF JOHN HAUNIKA,
Of the Keystone Athletic Association:

"There are many ways of preserving food but artificial refrigeration is the best method known to preserve food with its original taste and flavor. A temperature under 50 degrees should be maintained in the refrigerator at all times to keep the food from spoiling and make it eatable."

MRS. CHARLES MORRIS JOHNSON,
President of the Congress of Women's Clubs:

There is nothing more vital to the housewife and mother than the care of her family's health. This becomes a matter of first importance when milk must be kept fresh and sweet for baby's use. The only way to insure against bacteria and germs reaching the infant through its food is proper refrigeration.

"Hospitals and Nursing Centers are emphasizing this in their contacts with prospective mothers."

JAMES RAE,
President, Pittsburgh Chamber of Commerce:

"One of the best standards for judging the progress of a nation is the importance it places in a legal way on the subject of food preservation. In no other country in the world has so much been done to protect the public's health through safeguarding its food supply."

"Modern refrigeration has had much to do with stamping out disease epidemics."

Food Council Offers $25,000 In Essay Contest

1st Prize Winner Gets $10,000 Or Home

To stimulate interest in and study of the principles of proper care of foodstuffs in the homes of America, the National Food Preservation Council has announced a National Idea Contest on food preservation, with prizes totaling $25,000 offered for the best essays on the subject.

The first prize is a model home, costing more than $10,000, to be built in any community in the United States designated by the winner, or $10,000 in gold. The home location and its specifications are to be agreed on by the winner and the National Food Preservation Council.

835 Prizes in All

Second prize is a new automobile, whose regular list price is more than $3,500, or $3,500 in gold. The full list of prizes, 835 in all, and the rules for the contest, are printed on page two.

Three widely known men were chosen as judges for the contest. Two are magazine editors and the third is an expert in the study of chemistry in its relation to bodily health. The judges are:

Merle Thorpe, editor of Nation's Business.

B. C. Forbes, editor of Forbes Magazine.

Dr. Walter Hollis Eddy, professor of physiological chemistry, Teachers College, Columbia University.

Booklet Gives Material

In order to provide authoritative information on the subject for the use of contestants, the Council has had published a boklet, "How to Safeguard Your Family's Health." It was written by Mrs. Elizabeth Stone MacDonald, a nationally known home economist, writer and lecturer. The booklet also contains the rules for the contest, a list of the prizes and references for wider study. Copies may be obtained from the local Food Preservation Council in this city, or from the National Food Preservation Council, 420 Lexington avenue, New York City.

Mrs. McDonald in the booklet says:

"All the hygienic care that dealers can lavish outside the kitchen door, can be undone by carlessness within it wherever the home manager fails to keep the loyalty to family welfare inherited from her forebears.

Waste and Sickness

"Hygienic authoritles are one in emphasizing that waste of food in the home and preventable danger of sickness resulting from some forms of food spoilage are far too prevalent, considering the means of prevention now at our disposal.

"In fairness to the provider, to prevent needless waste, as well as to safeguard health, we should re-examine the perfection of our own home procedures in food preservation.

What Makes Food Spoil

"The homemaker, whether she knows it or not, is daily policing a 'crime wave' in her own house. The bandits are so small that they can not be seen with the naked eye. They are true criminals, however, for they do nothing toward their own support, but live instead of preying upon others.

"Technically these undesirable elements are microscopic plants or animals. The vigilance of the housekeeper against them can never relax because they are constantly active and invisibly present in the things we eat and drink. For instance, one harmful organism allowed to cultivate in unrefrigerated milk for five hours, can have produced one thousand and twenty-three more just like itself, all equally vigorous and dangerous.

That Run-Down Feeling

"Some of our run-down and tired feelings arise through failure to preserve food properly and its consequent service in a wilted or unhealthy condition.

"The difficulty in realizing the need for vigilance against micro-organisms is two-fold. In the first place only some of them are dangerous. The fact that so many are harmless keeps our caution drugged until after serious damage has been done by one of the virulent type. In the second place we have not yet become used to the existence, as dangerous realities, of things we cannot see. Take, for instance, the bacteria. They are the smallest plants known. On the ball of my thumb, as I write, I might have 300,000,000 of them, in a layer 100 deep, and still I could neither see them nor feel them.

"Luckily for us, not many of these micro-organisms are deadly and all of them can apparently be overcome if we use modern scientific precautions. In our daily experience these minute growths are more likely to waste our money by food spoilage than our bodies by sickness.

Always in the Air

"Mold, mildew and ferment are all due to micoscopic fungus growth. The sources of these growths are always in the air of a house. The 'musty' smell that sometimes meets the nose in a damp cellar is the signal sent us, by our nose, that the 'seeds,' or spores of these sub-sight plants are swimming especially thick upon that air.

"Like normal, green plants these infinitesimal ones grow both down and up. They burrow into the material upon which they fasten and they send up 'flowers' to 'seed.' Unlike green growing things they cannot manufacture their own food from air and water but must steal life from other organic material. The processes resulting from this theft we call various unpleasant names from even the sound of which our wholesome senses recoil—'rot,' 'putrefaction,' 'sour,' 'moulded.'

Refrigeration

"Refrigeration is undoubtedly the most effective aid which the homemaker can employ in commanding storage for a properly balanced, wholesome food supply the whole year through, whatever the climate.

"Adequate refrigeration sup-

NATIONAL ESSAY CONTEST JUDGES

B. C. FORBES

MERLE THORPE

DR. WALTER H. EDDY

Dr. Walter H. Eddy, professor of Physiological Chemistry at Columbia University; B. C. Forbes, editor of Forbes Magazine; and Merle Thorpe, editor of Nation's Business, will pass judgment on all essays submitted in the prize competition.

835 Cash Awards Set Aside for New Ideas

Bacteria Study Fixes Right Temperatures for Foods

Bacteria, molds and yeasts went unobserved for many years before the first crude microscopes interrupted their privacy. Now their every move is watched, their habits are studied, they are even photographed.

These three classes of infinitesimal organisms are at the bottom of all food spoilage, scientists have found. Whenever a piece of improperly preserved meat has a disagreeable odor; whenever an apple gathers a velvety fuzz or a pint of milk sours, the responsibility is theirs.

To find means of arresting activities of these destroyers Frigidaire Corporation maintains an extensive biological laboratory at Dayton, O. P. K. Bates, Ph. D., in charge, has been working for years to determine best methods of preserving food. In this work he has had the co-operation of Prof. S. C. Prescott, Sc. D., head of the Department of Biology and Public Health, Massachusetts Institute of Technology.

Equipped with a knowledge of average household refrigeration gained from a survey of many kitchens, Dr. Bates has conducted thousands of tests, watching the rapid growth of bacteria at temperatures higher than 50 degrees and seeing them become dormant at lower temperatures. He has proved that damp and poorly circulating air in a refrigerator is conducive to the rapid growth of mold while dry cold, with air properly circulating, retards such growth. He has watched food properly refrigerated remain fresh and eatable for many days while a similar quantity under inadequate refrigeration is soon ruined by the hungry molds, yeast and bacteria.

Kitchen Feels Cosmic Urge; Beauty Flies in Window

What will be the general appearance of the average American kitchen 10 years from today?

The housewife who can answer this question may write her own salary in letters a foot high. A lot of outstanding businessmen want to know. Kitchen appliance manufacturers everywhere and a score of allied interests ranging from makers of floor covering to paint concerns ponder this problem and await the answer.

Without a doubt the kitchen has felt the cosmic urge to become beautiful. It is in a state of transition. What it is going to look like ten years from now, no one can tell.

Once spacious in its dimensions, with room to accommodate the entire family, this room has become compact and efficient and a citadel of sanitation. Built-in equipment has completely transformed its arrangements. And now comes the compelling hand of beauty to still further speed its transformation.

Draperies of enticing sheen bedeck its windows. Daylight permeates its uttermost recesses. Labor saving appliances are all about. Painted walls, growing flowers and perhaps a picture or two have made their appearance. In short the lowly kitchen is fast becoming the bright spot of the entire home.

Stove and cabinet makers have caught the trend and have redesigned their products to please the eye and adorn the niches they must fill. Now the refrigerator manufacturer has joined in the task, presenting cabinets of beautiful lines and handsome, resplendent hardware.

Beauty has come to the kitchen. The old-fashioned work-shop has gone the way of the family almanac, the roller towel and grandfather's boot-jack.

FOOD CONTEST PRIZES TOTAL $25,000

$10,000 Home, $3,500 Auto Awarded Winners of First and Second Places

(Continued from Page One.)

plies the three most powerful aids to food preservation:

1. A temperature between 40 and 50 degrees Fahrenheit. Above 50 degrees the food compartment ceases to be a refrigerator and becomes an incubator.

"2. A current of clean, cold air in motion.

"3. Air free from excess moisture.

"Related experiments have proved the need for all three factors in combination.

Use of Refrigerator

"Refrigeration, like home lighting, is an all-year-round need. Any housekeeper who keeps track of food spoilage in winter, which the use of properly controled temperature would have prevented, can readily prove to himself the economy of its year-round operation.

"Our most essential foods are precisely the ones that the unseen food bandits like best. Food molds, meat spoils, vegetables rot, and milk sours because micro-organisms find nourishment in them and leave in them the harmful products resulting from their growth. This they do in all 12 months of the year unless preservation by dry, moving, clean air below 50 degrees and above 32 degrees guards them from attack.

"It has been scientifically established that in milk, for instance, bacteria will multiply 150 times as fast at 70 degrees F. as at 50 degrees F. The danger of maintaining an inefficient refrigerator, and at the same time not recognizing the inefficiency is self-evident.

"In the last 10 years the demand for refrigerators has increased approximately 30 per cent while the population has increased only 9 pert cent. At the same time there has been a decrease of infant deaths in 17 states at a rate ranging from one to 11 lives in every thousand. It is quite possible that refrigeration has played a considerable part in the protection of human life."

* * *

Rules of Contest

1—The contest is open to any resident of the United States, except persons or members of the families of persons connected with the refrigeration industry.

2—Essays must not be longer than 400 words, shall be written in English, and shall be on one side of the sheet only.

3—Each essay shall be headed "Why 50 Degrees is the Danger Point."

4—The subject matter of each essay must be the value of and benefits of food preservation, either from the standpoint of health, sanitation or economic saving, or any combination of these three.

5—Essays will be judged 90 per cent on the originality of thought and evidence of study displayed, and 10 per cent on clearness of expression, neatness and order of construction.

6—Essays need not be typewritten, but judges shall have the right to reject entries that are illegible.

7—Essays should be sent direct to the National Food Preservation Council.

8—At the top of each page of each essay the sender's name and address shall be written. Each essay shall be enclosed in a sealed envelope, with the contestant's name and address typed or clearly written in ink on the outside of the envelope and sent direct to the National Council, the sealed envelope enclosed in a larger envelope, addressed to Contest Department, National Food Preservation Council, 420 Lexington avenue, New York, N. Y.

9—Essays will not be returned. Winning essays shall become the property of the National Food Preservation Council and shall be used in any way the Council sees fit.

10—The contest closes at midnight, September 30, 1929. Essays bearing a postmark after midnight of September 30, 1929, will not be considered.

Essay Contest Prizes

First Prize—Model Home costing more than $10,000.00, to be built in any community in the United States designated by the winner; or $10,000.00 in gold. The home location and its specifications are to be agreed on by the winner and the National Food Preservation Council.

Second Prize—New 1930 Cadillac automobile, five-passenger coupe, list price $3,595 F. O. B. Detroit, delivered anywhere in the United States; or $3,500 in gold.

833 OTHER BIG CASH AWARDS

Third Prize	$2,000
Fourth Prize	1,000
Fifth Prize	500
Sixth Prize	400
Seventh Prize	350
Eighth Prize	300
Ninth Prize	250
Tenth Prize	200

TWENTY-FIVE PRIZES

Nos. 11 to 35 inclusive ..... $100 each

EIGHT HUNDRED PRIZES

Nos. 36 to 835 inclusive ..... $5 each

In the event of a tie for any prize, each tying contestant will receive the full amount of that prize.

ICE BOX TESTS NECESSARY

Doctoring the family refrigerator is fast becoming a part of the domestic routine among wise housewives as a precaution against food spoilage and extravagance of operation.

To determine whether the proper conditions are being maintained a thermometer is placed in the bottom of the refrigerator under the ice chamber, on the floor of the large food chamber, and at the top of the large food chamber. These three readings can be taken at one time if three thermometers are available or they can be taken first in one location then in another using the same thermometer. The thermometers should be set in a glass of cold water so that the mercury bulb is covered and glass and all should be removed when the readings are taken, otherwise the temperature will mount before it can be read.

READINGS NECESSARY

Also, a sufficient period of time should be allowed to permit accurate registration. This period should not be less than half an hour.

When all three readings have been taken add them together and divide by three. The result indicates the average temperature maintained by your refrigerator and this average should not exceed 50 degrees F.

If the result is found to be higher than 50 degrees F., something is wrong and to check up on this the housewife must know the construction of the refrigerator and the conditions under which it is maintained.

FAR FROM STOVE

If it is well made and insulated the trouble lies outside the refrigerator because a good refrigerator is capable of maintaining average temperatures under 50 degrees F.

But it must have plenty of ice. By this is meant that the ice chamber must be constantly more than half full of ice. It should be placed as far from the stove as possible, inside rather than on the back porch, and the doors should always be tightly closed excepting when food is actually being removed or placed in the box. Also, care should be taken that nothing warm finds its way inside.

But granted that the refrigerator is a good one and performs satisfactorily, there is still a point for the housewife to keep in mind if she would get the full benefit from this efficiency. She must be careful to keep each food in its proper place. Some things are highly perishable and require low temperatures for preservation, others are not so delicate, and some do not spoil at all easily and are kept in the refrigerator only as a protection from the extreme heat of the kitchen.

When the temperature is taken it will be noted that it varies several degrees between the coldest and warmest places. The significance of the average 50 degrees is that that figure makes it impossible for the temperatures at any given spot to be higher than is necessary for the preservation of the particular food which is kept in that place.

Therefore, it is important that in the coldest place, on the floor of the refrigerator, such perishables as milk, butter, fresh meats, and all foods containing milk be kept.

Eggs, lettuce, berries, cooked meats and the makings for salad come on the first and second shelves above the floor, and apples, oranges, grapefruit, cantaloupes and foods with strong odors are placed on the top shelf.

SMELLY FOOD AT TOP

By placing strong odored foods at the top the odor is carried out of the food chamber without spreading through the rest of the box. The reason for this is that there is a continuous circulation due to the falling of the cold air and rising of the warm. ' the current of air goes through the refrigerator starting in the ice chamber, traveling downward and then up through the large provision chamber, it picks up the odors on the top shelf and whisks them into the ice chamber where the melting surface of the ice absorbs them and carries them down the drain.

A good refrigerator, properly run, means excellence instead of mediocrity in the family meal or in the party. And above all, it means a healthy, happy family.

KNOWING UNIT IMPORTANT

"In my survey I find that the users of electric refrigeration do not get the real benefits of their refrigerators," says C. O. Emrich, of the Electric Appliance Company, 216 Penn avenue. Mr. Emrich believes that to get the utmost good from the unit one must understand it thoroughly.

"Food is woman's worry," continued Mr. Emrich, "and it is difficult for men to appreciate this fact three times a day and perhaps oftener, or whenever there is food to be prepared. Even where there are servants the woman still feels responsible to her family or guests for food. Food quality and food variety lead to an appreciation of her constant care for her family. Women cannot forget foods. Day after day foods are their choice, purchase, preservation and preparation."

REFRIGERATORS CUT NATION'S SICK BILL

Proper Food Temperatures Check Bacteria Growth; Stop Spread of Disease

Pittsburgh, in common with the rest of industrial America, is absorbing its proportionate share of $2,000,000,000 doctor's bill annually. Premature deaths cost another $6,000,000,000 in economic losses.

Despite striking progress made in checking some diseases in the last decade, the earning power of every person in the United States is reduced an average of almost $20 a year through ill-health.

These facts were made public in some impressive statistics compiled by the Chamber of Commerce of the United States. Through them the chamber hoped to call attention of business men and manufacturers to the enormous toll of sickness and preventable deaths exacted from the nation's earning power.

The final price industries pay for sickness has never been determined, the chamber declared. Only estimates may be presented, based upon records obtained from varied sources.

INDUSTRY LOSES

One manufacturer with an annual payroll approximating $5,000,000 estimated illness among his employes cost $287,500 annually. This includes charges for idle machinery and reduced production.

The loss to the individuals and the community due to illness of his employes is placed at $303,000 a year, taking into consideration direct loss of wages, lowered earning capacity during convalescence, medical expenses and charitable relief.

In the business world a representative group of stores, the chamber said, showed that illness and injury cost each employe an average of six days a year.

For a working force of 1,000 persons, earning an average of $3 daily, this totals up to $18,000 a year in direct wage loss alone.

The chamber pointed out that encouraging progress has been made in checking disease. The future promises even greater strides in this direction through improved sanitary conditions.

CONDITIONS IMPROVE

Many things are contributing to these improved conditions, chief among them being an awakened bacteria consciousness in America, and greater care in the preservation of food.

United States government dietitians point out that a diet must not only be well balanced, but must consist of food that has been properly protected from its source to the table.

Findings of dietitians of the United States Department of Agriculture indicate that milk, fresh meat, poultry, fish, fresh fruits, vegetables and other perishable foodstuffs must be kept at a temperature lower than 50 degrees in order to prevent the growth of bacteria and other micro-organisms which are responsible for many preventable diseases. A mechanical refrigerator, or an ice refrigerator well iced, will maintain temperatures well below the 50 degree mark.

KNOWLEDGE AIDS

Through better dietary control and increased knowledge of preventative methods applied to disease, tuberculosis, diphtheria, typhoid, influenza and pneumonia, which once exacted the greatest toll in human life, are being brought more under control each year, the chamber declares. Reduction of the tuberculosis mortality rate alone, since 1900, means a saving to the nation of $2,000,000,000 a year, it is estimated.

Hot Milk Layer Cake; 1929 Favorite

Ingredients—Three eggs, 1½ cups sugar, 1 cup hot milk, 2 tablespoons butter, 2 cups pastry flour, 2 teaspoons baking powder, pinch of salt, extract.

Method—Beat eggs slightly, add sugar, then beat together until creamy. Melt butter in hot milk and add to mixture. Sift flour and baking powder together four times. Mix all together and bake in layers in a hot oven. The consistency of the batter for this 1929 favorite is thin.

MONKS EMPLOY NEW DEVICES

For more than 900 years the monks of St. Augustine have fought their way through the bitter cold, over icy crags and through whirling snow, braving the terrific avalanches to find lost travelers seeking the haven of the hospice high in the Alps. During all of these years the monks have doled out food and warmth, a cheery mug of red wine and a bed to any wayfarer that came to their door.

Perched high in this mountain retreat, founded in 962, prisoners for 10 months of the year when snow piles into 40-foot drifts and the temperature sinks far below zero, the monks and the famous St. Bernard dogs daily patrol paths along which travelers usually follow. They are called upon time and again to rescue those lost in storms.

Modern methods and equipment are now being used in this life saving task. When travelers start for the hospice a 'phone call from the foot of the mountain advises the monks that the party has started and the number headed for the retreat. When weather permits, an automobile, brought in during 1906, is used along the treacherous mountain trails. The great log fires that provided heat and illumination for hundreds of years have been supplanted by sizzling steam radiators and electric lights. The power is generated far down the cliffs by a tumbling falls.

The kitchen is complete with modern equipment, range and serving tables. The need for this is readily understood when it is pointed out that during the summer months as many as 500 travelers may visit the hospice in one day. For centuries the wine was kept in deep cellars to prevent freezing. In the cold months it was impossible to keep fresh meats and dairy products, with the temperature far below zero. Salt meat was the staple food. Today a modern mechanical refrigerator holds all this fresh food for long periods and the monks are able to live comfortably and eat well.

MILK REQUIRES SPECIAL CARE

Diets may come and diets may go, but upon one article of food and its value in the food scheme of humanity practically everyone agrees. That favored food is milk. And because of its importance in the dietary scheme of things it has been the subject of much scientific investigation.

Recently the Bureau of Home Economics at Washington conducted a study to determine at what temperature milk can be best held in the household refrigerator. Their findings establish very definitely the fact that milk cannot be safely kept at too low a temperature—a temperature preferably of 45 degrees Fahrenheit, but certainly not above 50 degrees. It is especially important that milk which is to be held for more than 24 hours be kept well below 50 degrees, although it may be quite safely stored for that short period at exactly 50 degrees.

HEAT BREEDS GERMS

Once the temperature climbs above 50 degrees though beware! The tables showing the rate at which bacteria increase once this deadline is passed are enough to make the mothers of young children faint with dismay.

Another important factor in the care of milk is seeing to it that the milk is placed in the refrigerator as soon after delivery as possible. The tests showed that in many cases milk held for 1½ hours at room temperature (75 degrees), showed an advanced rate of bacterial increase equal to a 24-hour rate of increase at refrigeration temperature. They are a prolific bunch, those bacteria, and you just can't afford to give them any opportunity to get ahead.

USE CLOSED CONTAINERS

Investigation showed that milk should not be delivered in open containers, so in the most advanced dairies the milk is handled in covered containers from the time it is drawn from the cow and strained until it is delivered to you. It is up to you to continue this good work once you have the milk bottle at home. Never place milk in the refrigerator in an uncovered container. Milk is an excellent medium for bacteria, and readily absorbs flavors and odors, so keep it covered until immediately before using it. If only a portion of the bottle is used, cap it at once and return it to the refrigerator immediately.

Finally, keep your milk in the coldest part of your refrigerator.

Five Rules Outlined To Preserve Meat

Careful purchasers have learned five requirements for good meat. It should be bright in color and elastic but firm to the touch. It should also have a clean and fresh odor and juicy and streaked with fat. Last of all, it should be cut across the grain. Proper refrigeration will retain the bright, natural color of the meat, will keep it firm but elastic, and will preserve the clean freshness of its odor. If the meat is naturally juicy, refrigeration will retain this desirable quality, and will make the meat easy to slice across the grain. Beef should have a bright red color, while pork should be a dark pink. Veal should be pink, but less firm than beef.

Glass Ice Boxes Brighten Kitchen

Refrigerator sets in glass add to the immaculate appearance of the ice box. Their transparency is attractive, and the covered containers obviate the possibility of odors.

Space-saving sets are made in either circular or square design. The latter is composed of two large boxes placed one above the other, and two small ones which fit side by side on top of the larger box. The one lid serves for the whole set, as the containers are used one above the other. This set is made of clear glass. An arrangement of this type should encourage thrift in the household, as useful left-overs are often thrown away simply because of lack of space in the refrigerator.

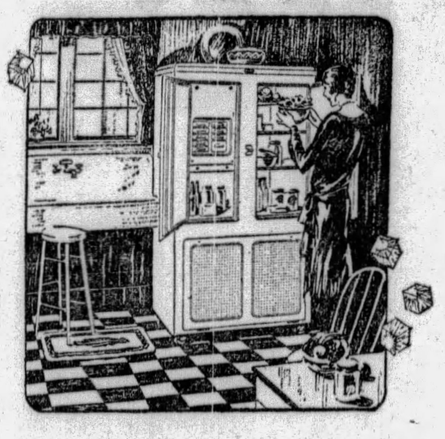
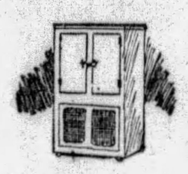
The New Servel Refrigerators

Invite Your Inspection!





HERE is the modern refrigerator . . . built to fit into every day kitchen practice . . . to save labor . . . to safeguard health . . . to make food preservation simple, economical and convenient. Designs . . . sizes . . . are all the result of careful studies of kitchen conditions. Servel is built for women . . . was designed to fit their needs. Thousands of housewives were consulted and the result, we believe, justifies our feeling that "SERVEL is the woman's choice."

See the new Servel—inspect it most critically. If you are planning to buy an automatic refrigerator you need look no further. Buy a Servel and enjoy the satisfaction of owning an electric refrigerator as modern and as efficient as it is possible to build.

Special SERVEL Features

Here is a brief summary of the special features enjoyed by the NEW SERVEL REFRIGERATORS

1. *Unbelievably Quiet*—Improved design of machine compartment and use of new compressor features make the New Servel unbelievably quiet.

2. *Smooth Running*—Carefully balanced parts, and a new resilient mounting eliminate practically all vibration. No light flicker or radio disturbance.

3. *More Ice Cubes*—Servel, always generous with its supply of ice cubes, now offers an even larger number. A big item to consider when you have much entertaining to do.

4. *Freezes Faster*—Freezing time greatly reduced, due to exclusive evaporator design. Freezes solid ice easily between meals, automatically.

5. *Improved System*—Sturdier parts. Low side float, no brine, improved seal, automobile type radiator.

6. *Economy of Operation*—New type of motor, improved direct expansion system makes the new model unusually economical to operate.

7. *And, of course, the Servel Standard of Beauty and Quality.*—New models will embody all our quality features of construction. Plus etched chrome-plated hardware. Plus the pleasing new rattan type lower panel. Plus choice of color or colors.

8. *Lowest Cost*—Through perfection of design and arrangement, the new Servel offers the lowest cost per cubic foot of refrigerating space of any automatic refrigerator.

COMMERCIAL REFRIGERATION

Sturdy commercial machines make Servel refrigeration economical and dependable for stores, restaurants and clubs. Vendors of ice cream find in our line of special cabinets and refrigerating units thoroughly practical aids to better business. Three types of water coolers provide Sanitary Servel chilling equipment for modern offices, factories and public buildings. The growing reputation of Servel for dependability in this new type of equipment rests on these sound foundations. A safe, simple and efficient refrigerating system. Years of specialization in automatic refrigeration and a high self-set standard of quality in materials and workmanship.

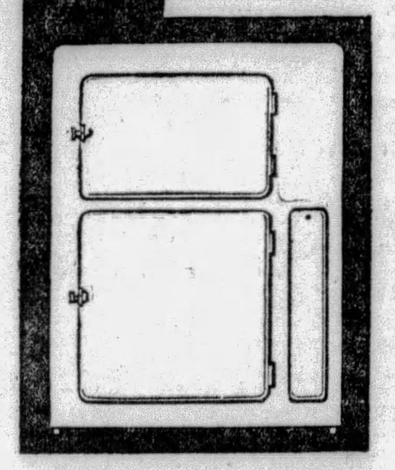
Use GAS for home refrigeration



Why GAS is Best

The Gas refrigerator costs less to operate than any other automatic refrigerator. It is cheaper than ice. It has no mechanical moving parts and, hence, is silent at all times.

Scientists, engineers . . . people who know . . . proclaim it the perfect type of automatic home refrigeration. Before buying any refrigerator get full information on the gas refrigerator.

Electrolux, the GAS Refrigerator, is made in many sizes. Sold on easy payments. $233 up.

Ever-Ready Batter Ginger Cookies Save Time and Expense

THE batter for this cake will keep for two or three weeks in a cool place. It calls for large portions, and may be baked in a variety of ways. Raisins or nuts or both may help to vary the flavor.

For cookies, batter should be dropped from spoon on buttered sheet.

It may also be baked as a ginger bread loaf and served hot.

Ingredients:—One pint lard (measure after melting); 1 quart molasses, 1 pound brown sugar, ½ teaspoon salt, ½ teaspoon cloves, 2 tablespoons ginger (scant); 2 tablespoons cinnamon, 1 pint buttermilk or sour milk, 2 level tablespoons soda dissolved (in ½ cup boiling water); 4 eggs, 3 quarts flour (or little less). Measure accurately.

REFRIGERATION PROBLEM OLD AS MAN

Ancient Emperors Used Snow And Ice From Mountains, Built Cooling Trenches

Tradition says that Nero and Alexander the Great put thousands of slaves to work bringing down snow and ice from the Alps to cool their wines. They dug huge trenches in which to store both snow and wines.

They assigned entire armies of men to this important business which is achieved nowadays much more scientifically, economically and effectively by relying on mechanical or ice refrigerators.

Refrigeration, you see, has been until very recent years, a vexatious but necessary problem.

Nature provided Jack Frost, but he came early and stayed late only in frigid or what may be called Nordic zones. And races other than Nordic, notably those in torrid and temperate zones, must, in times of plenty, provide food against the times of want. Famine was often the penalty of failure to make this provision; indeed, millions of lives ended prematurely by starvation and disease because refrigeration could not be controlled.

NATURAL PHENOMENA

As a matter of fact, refrigeration simply means cooling and is one of the commonest of natural phenomena. Yet this process was beyond man's power to control. Nothing could be done about the weather. Meats "went bad" at a certain point; starches became sugars; milk did not always "spoil" right and make cheese and many other foods underwent chemical changes which were not desired. And although, in the course of time, smoking or otherwise curing meats proved of value, and dehydration—the drying of foods—also was used long ago, yet the great bulk of nourishing commodities had to be used near the scene of their production very soon after they became first available, except in the realms of those powerful emperors and kings who could circumvent nature with prodigious wealth.

For the lavish feasts which such emperors as the mighty Nero gave, delicacies must be preserved. The Romans of imperial days loaded their tables with many strange luxuries; indeed, with more display of money than of good taste, as so often happens when people suddenly acquire vast wealth and, with it, the desire to dazzle the world with their splendor.

GUESTS IMPRESSED

From all parts of the known world came the products which graced their feasts. The farther these products came the better they were supposed to be. Often the guests were more impressed with the strangeness of the food than by the delicacy of taste.

At a single repast would appear vegetables and almost invariably lettuce, eggs, anchovies, olives, oysters and other shell fish and sea fish, both fresh and pickled, fowl of many sorts—even singing birds were sacrificed to the Roman's eccentric palates—peacocks and wild boars roasted whole, sweets, pastries and rare tropical fruits, both fresh and preserved.

They were gluttons rather than gourmets. They preferred the rare and costly to the dishes that were really delectable. Even sea nettles, loin of goat, sea snails and panned sows' udders appeared on their menus.

PROBLEMS SIMILAR

In this vulgar display the emperor's tables surpassed all others. And to serve these epicurean dishes, raw shell fish must be icy cold, wines must be iced, fruits be delicately chilled, lettuce crisp, olives firm and cold.

Quite the same problems as those of the modern housewife who gives a dinner party.

Yet the cook in royal Nero's kitchen had no refrigerator to ease his tasks. His refrigerator was a trench, packed with snow brought down by long pack trains of human slaves, from the summits of the mountains, whose white peaks outlined the distant sky.

And from these trenches, filled with sparkling cold, the imperial chef packed, with snow, large dishes in which he set jugs of wine, plates of shell fish and other delicacies to be sent to his master's table.

SOLVED AT LAST

Through successive ages, man did not always solve his refrigeration problems so well as did the rulers of the Roman empire. Until our modern day, food storage and food preservation baffled scientists and housewives.

Now meats need no longer "go bad" nor milks "spoil wrong" nor other foods undergo chemical changes which make them harmful to the human system.

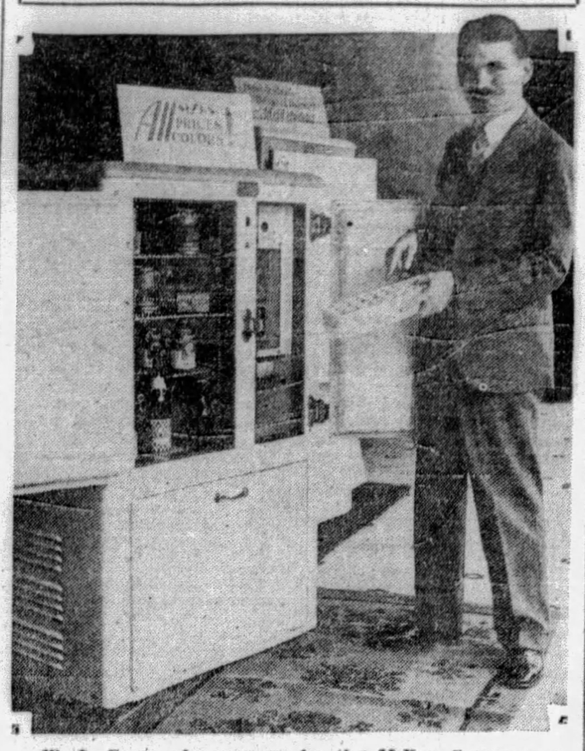
The refrigerator kept at an average temperature of 50 degrees, preserves them. In so doing, it helps to preserve the health of our families, the health of our nation.

Women Play Major Role in Purchasing

The hand that rocks the cradle influences the destiny of many a manufacturer. At least the destiny of those manufacturers who are engaged in making articles either for use in the home or for the family's personal use.

Women are the buiding power in the purchase of 95 per cent of the furniture and musical instruments sold in America, 83 per cent of the clothing for the family, 61 per cent of haberdashery for men and 90 per cent of the automobiles. It is estimated that 84 per cent of the women who drive the family car have the final word in deciding even the kind of gasoline the car should have.

A NEW "DOUBLE DECKER"



W. J. Cargo, sales manager for the McKean Company, explaining the benefits of the new "double decker" ice cube container—a feature of the Copeland refrigerators.

Boiling Important To Turkish Coffee

Allow one teaspoon of freshly ground coffee for each demi-tasse, 1 teaspoon of sugar and about 2 tablespoons of boiling water. Pour the boiling water on the coffee and sugar, boil it up 3 times quickly, then after a moment of settling pour it into the cups, where it will form a light brown foam and taste like freshly roasted coffee. There will be a sediment in cup. Only the finest of pulverized coffee can be used. Vary the sugar.

Boiled Beef Platter

Four pounds fresh beef, 3 carrots, 1 small cabbage, 6 potatoes, 6 onions, 2 turnips. Put meat in pan, cover with water and cook until almost tender. One hour before serving, add the vegetables cut in squares. Serve meat on platter, arranging vegetables around it and garnish with parsley.

Electric Machines May Cool Houses

"Press the button, John! and turn on the cold. This room is too warm to be comfortable," will say the wives of Johns all over the country some day. And John will push the button and in a few minutes the room will be cool and comfortable.

This is not a fairy story. It is a picture of a future modern home, electrically refrigerated, where all one has to do is to push a button and the house will be cooled down to one's favorite temperature.

Patient's Misgivings

Doctor—That pain in your heart will soon go away, Sambo.

Sambo — Yessah, da's awright, but what's posterin' me mo' than anything else, is whether I'll be here when de pain does goin' away.

FOOD SPOILAGE COST HEAVY

Arithmetic rules might have looked a little different to most people when they went to school than the equation which W. H. Ochiltree of the Ochiltree Electric Company, distributors of General Electric refrigerators, has set forth. The equation is simple and tells the story, which means a saving of money to every owner of an electric refrigerator.

Ten per cent of the food bought yearly in the United States is wasted on account of spoilage. Ochiltree's equation is—$700 minus 10 per cent equals $21,000,000. This staggering result is obtained in this way:

The average expenditure for food for each family is $700. According to Dr. Royal Copeland, 10% of this food is wasted each year. This means that the average family will lose approximately $70 every year through spoilage of food.

The saving brought about by electric refrigeration is enormous. There now are more than 300,000 General Electric refrigerators in the United States, and if we multiply this figure by $70, we get the total of $21,000,000 — representing the amount saved yearly by the owners of General Electric refrigerators.

Correct refrigeration does away with food waste—even more important, it safeguards health. All perishable foods should be kept well below 50 degree danger point. Mechanical refrigeration gives day and night service, year after year, for a small percentage of what other refrigeration costs which is not as efficient.

Ochiltree declared that bacteria multiplies about four hundred times faster over 50 degrees than it does below 50 degrees. He explained how most mechanical refrigerators today were maintaining a temperature under 50 degrees and that the trouble with ice boxes was that most people did not keep them well filled or that ice boxes with poor insulation would not keep the cold intact.

Gay Colors Needed At Afternoon Teas

For the midsummer afternoon tea it is pleasant to have everything green and cool—green glasses for cold tea, sprays of mint in the glasses, so that the spicy odor may be inhaled when the tea is sipped. Small sandwiches of cucumber, watercress or lettuce and cakes with mint frosting would add to the cool effect.

"I Like Milk if it's good and cold"

And so wise mother makes sure that it is always cold, for she knows that by doing so she can "sell" that much more. Children will not eat or drink foods which are not palatable.

She (we have said she is a wise mother) has installed in her kitchen an electric refrigerator, because she recognizes in this appliance a safe, easy, convenient way of preserving her family's food.

She knows, in the first place, that the temperature of an electric refrigerator never rises above the danger point at which micro-organisms begin to breed and to bring about putrefaction. No money is wasted on spoiled food in HER house.

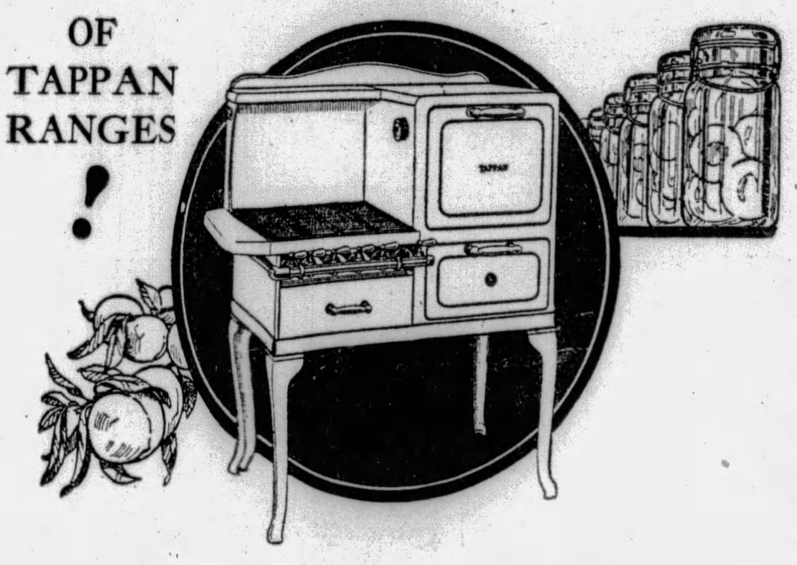
She knows, too, that the electric refrigerator decreases the number of her shopping tours, since food keeps for days in its cold, dry air. Here again is a saving, for food can always be bought cheaper in greater quantities. And it's a saving in labor, too, for because of the dryness of the air the refrigerator keeps clean and needs only be wiped out lightly about once a week.

KELVINATORS—FRIGIDAIRES
DOWN PAYMENTS AS LOW AS $25.00

$25,000 IN PRIZES!

Don't neglect to get the free booklet, entitled "How to Safeguard Your Family's Health," prepared by Elizabeth Stone MacDonald, Nationally-known Economist, for information about the feature essay contest of National Food Preservation Month. These booklets are available at all Gas & Electric Shops.

Canning Season Special OF TAPPAN RANGES!



We have on hand a limited number of well-established Tappan ranges which will certainly interest any housewife who is in the market for a range. And particularly now that it's canning season.

These ranges are perfect in every detail, each one equipped with Oven Heat Regulation and fully guaranteed.

MILK CONTAINS PROPER DIET VITAMINS

Butter, Eggs and Greens Provide Iron Needed To Make Child Strong

Luncheon for school children is no more important from the standpoint of health than any other meal in the day, but it is more difficult to keep up to the standard of wholesomeness and cleanliness.

No one food offers so good a combination of vitamins, lime, and protein as milk, and, since these three substances are needed by children, milk may be considered essential in their diet. A pint and a half of milk a day, served partly as a beverage and partly in other ways, is not too much for a child.

When milk is limited in quantity, butter, eggs and green-leaf vegetables are particularly important as sources of the growth-promoting vitamin A.

CHILDREN NEED IRON

Children also need iron, which is best provided by eggs, meat, green vegetables such as spinach, beets, and other greens, and some fruits including dried fruits like raisins, dates and figs.

Oranges, lemons and tomatoes are also important in the diet because of their richness in vitamin C.

Bread and cereals in general, which are among the cheapest food materials, should be served in variety and should be carefully prepared so that children will like them. Some of the cereal foods should always be of a kind known as "whole grain," and when fruits and vegetables are limited, practically all the cereals should be of this kind.

CARE OF FOOD

Because contaminated food may be the cause of disease, every care must be taken to keep food clean, not only while it is being prepared but until it is finally eaten. Lunch boxes and dishes should be scalded regularly. Children should be taught to wash their hands and faces just before eating and never to use each other's drinking cups, spoons, and forks.

When children come home for luncheon with only a short time between school sessions, the meal should be planned so that it can be promptly served to avoid hurried eating.

BOX LUNCH PLANS

Basket or box lunches should be planned and packed so that they will keep attractive and wholesome until they are eaten. A collection of small jars with screw tops, parchment cups, paraffin paper, and paper napkins are useful and inexpensive.

If children buy all or part of their lunch, they should be helped to choose wholesome, nutricious food rather than only ice cream, candy, and other goodies of doubtful quality.

Cottage Cheese Makes Good Filler

Cottage cheese makes a delicious sandwich filling for the picnic season. For sandwiches, moisten the cheese with sweet cream and flavor with a little chopped parsley, chopped or sliced olives, sliced celery, pimentoes, horseradish, Spanish onion, pickles or nuts. Some persons like the flavor of caraway seeds in cottage cheese. This spread is equally good on white bread, rye bread, nut bread and brown bread. Other sandwich combinations suitable for picnics are as follows:

Cucumbers, sliced very thin and spread with a little mayonnaise dressing. These are especially good on brown bread.

Boiled ham with chopped sweet pickles and salad dressing.

Cream cheese, ripe olives and nuts.

Chopped raisins, with nuts and lemon juice to season.

Hard-cooked eggs, chopped and mixed with mayonnaise and minced bacon.

Cottage cheese and bacon.

Butter mixed with strained honey.

Grated American cheese, mixed with salad dressing and chopped celery or pickles.

Smoked fish, carefully picked over to see that no bones are left in.

FROG RECIPE PIQUANT

Two large Jumbo frogs, 6 large mushrooms cut in dice, 1 small eggplant cut in dice, half pound butter, 2 lemons, 1 tablespoon of chopped parsley, salt, pepper and flour.

Take two large Jumbo frogs and clean them in cold water, dry between a clean towel and cut them into five pieces each by cutting apart the two legs, two shoulders and the back. Season with salt and pepper; roll in flour. Put two tablespoons of butter into a frying pan; add frogs when it melts and fry them slowly for 20 minutes or until they are cooked, turning them over on both sides so that each side will be a golden brown. Take them off the fire and dress them on a platter. In meantime, take your diced mushrooms and eggplant and cook them separately in a small stew pan for five minutes each or until cooked (follow the same procedure as in cooking the frogs). Dress the mushrooms and eggplant into two mounds at each end of the platter. Put three tablespoons of butter into the frying pan and cook until it becomes a golden brown. Squeeze the juice of one lemon over the frog, sprinkle the chopped parsley on top and pour over the brown butter. Garnish the platter with another lemon and a few sprigs of parsley.

This will serve two people.

Desserts and Puddings

The recipes given below for frozen desserts and puddings may prove just the thing necessary to top off your dinner.

MARSHMALLOW ICE CREAM

One pint milk, 1 egg, ¾ cup sugar, ⅛ teaspoon salt, 1 pint cream, 1 tablespoon vanilla, ½ cup marshmallows.

Scald milk, stirring constantly. Beat egg yolk, add sugar and pour the cream slowly on the mixture, beating constantly. Cook in double boiler until it thickens or coats the spoon. Add the marshmallows cut into small pieces. Cool and freeze. Serve with or without chocolate sauce.

The Freezing Mixture—One part salt to three parts ice, by measure, is a good proportion for home use. The ice should be crushed fine, to expose as much surface as possible to the action of the salt. Snow may be used instead of ice, but it is advisable to add a small amount of water to the freezer or mixed with the snow to hasten the melting process.

* * *

Coarse dairy salt or granulated rock salt is best for use in freezing.

The freezer should be filled one-third full of crushed ice. Salt and ice in the regular proportions should then be added in alternate layers so that as the ice melts it dissolves the salt, which then runs down over the ice in the bottom of the freezer. If the first layer of salt is added too close to the bottom of the freezer, much of it is wasted. Ice and salt are sometimes mixed together before being put into the freezer, but this is not the most efficient method, because the ice begins to melt at once and much of the cold is lost.

* * *

GLORIFIED RICE

Ingredients: ½ cup rice, ½ cup sugar, pinch of salt, 2 cups milk, ½ teaspoon salt, ½ lb. marshmallows, 1 can crushed pineapple, ½ pint whipped cream.

Method: Cover the rice with one quart cold water. Bring to boiling point and boil briskly for three minutes. Drain, and let cold water run through the rice to separate grains. Put in a double boiler with milk, sugar and salt. Cook until the milk is absorbed and the rice soft. Cool. Add drained pineapple, the marshmallows cut into quarters, and add more sugar if needed. Stir well, cover and set in refrigerator. In the meantime, whip the cream and add to the mixture. Add some whipped cream on top which may be divided in two sections, ½ colored green and ½ colored pink, which is very pretty when served in sherbets.

* * *

PINEAPPLE PUFF

Ingredients: 1 can crushed pineapple, 3 bananas, ½ pound marshmallows, 1 small jar cherries, ½ cup nutmeats, ½ pint whipping cream.

Method: Cut marshmallows into quarters with scissors (which have first been sterilized) and mix with pineapple from which the juice has been drained. Let stand for four hours or until marshmallows are softened. Cut bananas in small pieces and add together with nuts and cherries. Fold into whipped cream and mix thoroughly. Chill before serving.

SHOWING FOOD CARE

The Suburban Electric Development Company, 5624 Penn avenue, has established a course in food preservation and is co-operating with Pittsburghers interested in the $25,000 essay contest. Charts illustrating the care of food line the walls of the showroom.

AIDS TO BAKING LAYER CAKE

To insure a layer cake from sticking to the baking pan, line the pan with two layers of thick wax paper. To secure the correct size and shape of the paper lining, lay the paper on a table, placing baking pan over it, and draw a line around the pan with a pencil. Now, cut the paper to fit.

Always remove a layer cake from the pan as soon as baked to prevent sticking.

Always start baking a cake in a slow oven—never start it in a hot oven. Increase heat gradually.

LAYER CAKE

When a recipe for a layer cake calls for the yolks of the eggs only, use two-thirds flour and one-third corn starch, because there is no albumen in the yolks of eggs.

If you use ordinary flour instead of pastry flour in baking a cake, use two tablespoons less flour to each cup than the recipe calls for. Pastry flour is lighter in weight than ordinary flour and, therefore, requires a fuller measurement.

When you have more than one layer of cake in the oven at one time, do not place one pan directly over another.

TIME IMPORTANT

The thickness of the layers should decide the amount of time it takes to bake a cake. When you divide your recipe in three layers, the average time for each layer is 15 minutes, a recipe divided in two layers would average 20 to 30 minutes for each layer, and a loaf cake averages from 50 to 60 minutes.

When you do not have an oven regulator, you may determine the heat of your oven by placing a piece of writing paper in the oven for five minutes. If it turns a golden brown, you have a moderate oven. If it is dark brown, you have a moderately hot oven.

Pilof Appetizing As Made by Turks

One cup washed rice, 1 pound raw lamb, 1 teaspoon salt, 2 cups boiling water, 1 small onion or 2 cloves of garlic, 2 cups tomatoes, 2 tablespoons fat, pinch of red pepper. Fry onion or garlic, cut into small pieces in fat until light brown. Add rice seasoning, water, tomatoes, meat and cook in covered pan until rice is tender. Serve with hot rolls or in pop-overs.

OLD ENGLISH INN GETS ICE BOX

LONDON, Sept. 10.—A twentieth century product has made a place for itself in a sixteenth century setting at Ye Olde Cock tavern in London, where modern automatic refrigeration has been recently installed.

There are few inns in England with greater historic associations than Ye Olde Cock tavern, opened in 1549, and situated near the Temple bar at the end of Fleet street. The tavern barely escaped destruction during the great fire of London. Immortalized in prose and verse, the old inn has been the meeting place of hundreds of historic celebrities who have wined and dined there. Dr. Samuel Johnson, Charles Dickens, Edmund Yates and Lord Tennyson have met friends there for literary discussions over their mugs of ale.

The inn also has its theatrical history. Pepys often dined there with the actress, Mrs. Knipp, and the tavern was not unknown to Charles the Second's "pretty lady," Nell Gwynn. Oliver Goldsmith, Sheridan and Garrick were among its visitors, and at later date, W. S. Gilbert frequently supped there.

In such an ancient setting, the mechanical product of a mechanical age has been installed to safeguard the food served to modern-day patrons. Ever since its establishment, "The Cock" has been renowned for the quality of its fare, so even though the tavern retains its air of antiquity, its proprietor has adopted the most progressive method of food preservation.

In the basement, in cellars whose massive oak beams testify to the building's existence back into the time of the Stuarts, an automatic refrigerator has been installed. The large cabinet, built in a country which was an English colony at the time the inn was London's literary rendezvous, is surrounded by part of the equipment of the inn's historic tap room.

Goulash Takes Long Time To Cook

Ingredients: 1 pound lean beef cut in one-inch squares, 2 large onions cut very fine, 1 clove garlic, 2 teaspoons sweet paprika, juice of two ripe tomatoes, 2 medium size potatoes cut in one-half-inch squares, 1 pint water, 1 tablespoon lard, salt and pepper.

Method: Place lard in deep stew pan. When it is melted, add the cut onions and garlic clove. Cook five minutes, stirring occasionally to prevent burning.

Add the paprika and let simmer for 30 seconds. Add the beef and a little salt. Mix this very good and let it simmer on a slow fire with a cover on the stew pan. This will draw out the natural juice of the meat.

After it has simmered for one hour, add the tomato juice and water. Let it cook for a half hour, then add potatoes and cook one-half hour. When potatoes and meat are cooked, serve in casserole, very hot.

Thick Steak Needed For Plank Results

Select a good broiling steak about 1½ inches thick, round the ends and fasten securely with skewers. Place on center of a well-seasoned plank. On all space unoccupied by meat spread salt, which has been dampened with water to prevent burning the plank. Place on rack in broiler so that meat is about three inches below burner. Watch boiling carefully. When browned on one side, turn and brown other side. Remove from broiler; remove salt and force through a pastry tube a border of mashed potatoes, around steak. Return to broiler to brown tips of potatoes. Spread with butter and garnish with carrots, peas and beets. Place sprigs of parsley at the ends.

HOME LUNCHES OUTLINED

The following are well selected bills for home lunches:

Eggs, boiled, coddled, poached or scrambled; bread and butter; spinach or other greens; plain cake.

Beef stew with vegetables; crisp, thin tea biscuits; honey.

Dried bean, or pea, or peanut butter puree; toast; baked apple; cookies.

Vegetable-milk soup; zwieback; rice with maple sugar and butter, milk or cream.

Potato chowder; crackers; jelly sandwiches.

Cold meat; creamed potatoes; peas; bread and butter; frozen custard or plain ice cream; plain cake.

Lamb chop; baked potatoes; bread and butter; sliced bananas and oranges, cookies.

Baked omelet with spinach, kale or other greens; bread and butter; apple sauce, cake.

Milk toast; string beans; stewed dried fruits; cake.

Boiled potatoes; codfish gravy; bread and butter; lettuce; custard.

The following bills of fare for basket lunches may help in deciding what is satisfactory for the purpose. Many others equally good will suggest themselves.

Sandwiches with sliced tender meat for filling; baked apple; cookies, or a few lumps of sugar.

Slices of meat loaf or bean loaf; sandwiches; stewed fruit; small frosted cake.

Crisp rolls, hollowed out and filled with chopped meat or fish, moistened and seasoned, or mixed with salad dressing; orange, apple, a mixture of sliced fruits, or berries; cake.

Lettuce or celery sandwiches; cup custard; jelly sandwiches.

Cottage-cheese sandwiches, or a pot of cream cheese with bread-and-butter sandwiches; peanut sandwiches; fruit; cake.

CHICKEN DISH A LA CREOLE

Ingredients: Two fine spring chickens, 2 tablespoons butter, 2 tablespoons flour, 6 large, fresh tomatoes, 6 fresh green peppers, 1 dozen mushrooms, 2 cloves garlic, 2 large onions, 2 sprigs each of thyme and parsley, 2 bay leaves, 1 pint chicken broth or water, salt and pepper to taste.

Method: Clean and cut each chicken into four pieces at the joints.

Season well with salt and pepper.

Place two tablespoons butter in a stew pan and when it is melted add the chicken.

Brown slowly for five minutes on both sides.

Have ready the onions sliced. Add to chicken and let brown, then add two tablespoons flour. Brown again. Add the fresh tomatoes and the mushrooms sliced and let brown.

Cook very slowly, allowing the mixture to simmer gently. Add chopped parsley, thyme and bay leaf, cloves of garlic, finely minied, cover and let it smother over a slow fire for five minutes.

Remove the seeds from six green peppers, slice nicely and add them to the chicken. Stir well. Let all smother for 10 minutes, keeping well covered and stirring occasionally.

At this stage, pour in one pint of chicken broth or water. Let it cook for 25 minutes, stirring occasionally to prevent burning. Season to taste with salt and pepper and serve with rice border, very hot.

The rice border is made of rice cooked in salt water until tender, but not soft or mushy. Drain off water, toss the rice in a collander a few times to dry. Form a border or circle around the edge of the platter, placing the chicken in the center.

Serves four persons.

DEPENDABLE ELECTRIC REFRIGERATION

WHEN...

A CHANGE IN WEATHER "CUTS NO ICE"

IN cold weather or warm a good refrigeration system is essential to the home, because food, if it is to be wholesome, must be kept constantly at a temperature below 50 degrees.

Some people, careful of refrigeration in summer, grow lax in the cooler months, believing that by keeping food outside or in window boxes it will keep sufficiently cold. It has been proved, however, that in this variable climate there are but an average of nineteen days in the year when food can be perfectly preserved outside.

So it "cuts no ice" if it's cold outside. Get the habit of perfect refrigeration by having an electric refrigerator or a well-insulated ice box filled with ice in your kitchen. The result will be less waste and a saving in the long run!

GROUCHES LAID TO IMPROPER FOOD

Methods of Preservation Declared Chief Cause Of Lowered Vitality

Why do so many men and women—children, too, for that matter—feel "out of sorts" so much of the time?

Why are there so many cases of "stomach trouble," headaches, "summer complaint," indigestion, intestinal difficulties and other ills which upset the sufferer for a day or two, make him grouchy and irritable, cut down his vitality and lessen his efficiency, if they do not cause serious illness?

Of course there are many causes, overwork, nervous exhaustion, lack of sufficient sleep, lack of exercise, overeating, eating the wrong food—all take their toll in reducing the general average of health and cutting down the maximum efficiency of the nation.

STALE FOOD BLAMED

One of these contributing causes, scientists and health experts say, is the lack of proper care of food in the majority of American homes. These experts declare that although most housewives will indignantly deny that they ever serve their husbands and children food that is not absolutely fresh, they actually do—because they do not know how to take care of it after it is brought into the home and before it is eaten.

Recognizing all this, a number of national associations interested in the betterment of health and the proper care of food recently formed the National Food Preservation Council.

Its purpose is to try to spread in the homes of America the knowledge which scientific research has developed of the proper methods of caring for perishable foodstuffs.

SPOILS FREQUENTLY

Scientists and physicians say that under modern methods of production and distribution perishable foods—milk, meat, butter, green vegetables, fruits—are usually delivered to the American doorstep in good condition. But in perhaps the majority of homes this food, if it is not consumed immediately, is rarely kept in accordance with the scientific requirement of an average temperature of 50 degrees.

Refrigeration often is defective. Even with good refrigeration facilities, food is often handled carelessly. Bacteria multiply. Reduced vitality and lessened efficiency, if not actual sickness, are the result. The avoidable waste of spoiled food is enormous.

FOUR CAUSES

All this is undoubtedly due to a lack of general knowledge of what constitutes proper care of perishable food, and of the consequences of improper care.

The sequence of ideas which the council wishes to establish is as follows:

1. The reason why food decays—the growth of bacteria.
2. The relationship between food spoilage and health.
3. The fact that perishable food can be kept properly only when it is stored in a temperature of 50 degrees.
4. The necessity for proper all-year refrigeration in the home, as an essential to good health.

Scientists are agreed that the reason for food decay lies in the action of micro-organisms—living plant cells so small that they can be seen only with a microscope. These organisms, bacteria, molds and yeast, are everywhere, of course—in the air, in our bodies, in the food we eat.

GERMS MULTIPLY

Under favorable conditions of warmth and moisture, they multiply very rapidly by division—one splitting into two, two into four. With absolutely ideal conditions of propagation, it has been figured that one bacterium could in 15 hours produce a thousand million descendants. If they are permitted to multiply rapidly in milk, in meat, in butter, or any other food, they absorb, or eat up, certain elements in the food, causing chemical decomposition. Milk becomes sour, meat putrid, eggs rot.

When it goes that far, of course the housewife knows it, throws away the spoiled food and the only damage is the waste. But a greater danger, because it is not perceptible to sight or smell, is the partial decomposition before the food reaches the thoroughly damaged stage, and the poisonous substance left in it as a result of its passage through the bacterial digestive system. The former greatly lessens the nutritive value of the substance eaten, and the latter causes a lesser or greater direct injury, depending on the amount of poison taken into the system with the food.

PROVED BY RESEARCH

Laboratory investigations have demonstrated conclusively that the only way to prevent or retard the rapid multiplication of bacteria is by constant cold. The Department of Agriculture, for example, said in Farmers' Bulletin No. 1207 that the temperature in which food is stored must be kept at 50 degrees or less if rapid development of harmful bacteria is to be avoided.

Further, this temperature must be constant. The department says:

"Even a temporary rise in temperature . . . will help the development of bacteria."

The rapidity with which germs multiply in temperatures above 50 degrees is proved by a test conducted by the laboratory of the New York City Department of Health. The director of the laboratory took a fine sample of milk, containing only 3,000 bacteria in 15 drops. Kept 24 hours in a temperature of 50 degrees, the bacteria count went from 3,000 to 11,500; when the temperature was raised to 55 degrees, the count was 18,800; to 60 degrees, 180,000; to 68 degrees, 460,000, and to 86 degrees, 1,400,000,000.

Therefore, any refrigeration method, either the keeping of the food supply outdoors in supposedly cold weather, or in an ice refrigerator not filled with ice at frequent intervals, which does not maintain an average temperature of 50 degrees, is unhealthful and unsafe.

ECONOMICS

JOSEPHINE B. GIBSON

Miss Josephine B. Gibson, Home Economics Department of the H. J. Heinz Company, is interested in any movement that has for its purpose the preservation of food in a wholesome condition. Miss Gibson's company has urged the enactment of pure food laws.

Cheese Dishes

CHEESE AND OLIVE CANAPE

6 portions prepared bread.
3 T. cream cheese.
Olives stuffed with pimientos.
Garnish of red pepper or beet.

Spread on prepared bread a paste made by mixing equal portions of cream cheese and chopped stuffed olives. Garnish with ¼ border of chopped olives and a star of red pepper or pickled beet in the center of each.

* * *

CHEESE STRATA

Arrange alternate layers of bread and cheese in a baking dish. Fill the baking dish with he following mixture: Beat 3 eggs slightly, add 2 cups milk and season with salt and pepper. Bake in a moderate oven until set.

* * *

CHEESE SOUFFLE

Three tablespoons butter, 2 tablespoons flour, ½ cup milk, ¼ teaspoon paprika, ¼ teaspoon salt, ½ cup American cheese, 4 eggs.

Put butter and flour in double boiler. Stir till well mixed, add milk, seasoning and cheese. Let mixture cook slowly till it becomes smooth and creamy. Remove from fire and add yolks of eggs. Let cool and add whites of eggs beaten stiff. Pour into buttered dish and bake in moderate oven for 40 minutes. Serve immediately.

* * *

CREAMED EGGS WITH ANCHOVIES

Melt 4 tablespoons of butter in a deep pan, and to it add ¼ cup of soft bread crumbs and 1 cup of milk or thin cream. Stir constantly until it begins to bubble, then add 3 hard-boiled eggs, chopped, but not too fine, and about 8 chopped anchovies. Season with salt, pepper and paprika and let come to a boil. Remove at once and serve hot on toast. You can use sardines in place of anchovies, but the skin and bones must be removed.

FOOD CRUSADE WINS BACKING OF PUBLIC

Publicity Campaign on Huge Scale Indorsed By Clubs of Nation

The nation-wide food preservation campaign is now going at full speed, according to Frank Natwick, of Kelvinator-Leonard Corporation.

"This crusade against food spoilage and ill health resulting from partially or badly refrigerated foods is by far the most aggressive ever launched in behalf of the public weal. The publicity line-up is on a huge scale, and involves the use of outdoor posters, truck banners, window displays, milk bottle jackets, movie slides, newspaper advertisements of large size, and advertisements in leading magazines with circulation which insure the attention of the majority of the reading people of the entire country.

CAMPAIGN NEEDED

"Preparation for this campaign has been under way for many months. There has been intensive study by health authorities, light and power companies, medical associations, refrigerator manufacturers, ice manufacturers, and a score or more of other interested groups, the sole purpose of all being to publish accurate information on the subject of what is the correct temperature at which foods should be kept to make them palatable and safe to eat.

"The program has the endorsement and recommendation of important forces in the nation, including such key organizations as the General Federation of Women's Clubs, the Bureau of Home Economics of the Department of Agriculture, National Dairy Council, American Institute of Refrigeration, and the big gas, electric and illuminating associations. There are 20 regional directors, men of high standing in their various local commmunities and in the country at large. Prizes starting at $10,000 and running down to hundreds of prizes of from $5 to $100 in gold, to be awarded for best essays on the topic, "Why 50 Degrees Is the Danger Point."

ACCURACY SOUGHT

"It is the consensus of opinion among informed men and organizations that there is real need for the educational benefit of this campaign, to the end that the health of our adult and infant population may be conserved through the intelligent adoption of methods to preserve food. At present there is a lack of definite knowledge on the subject of proper food refrigeration. This national crusade will certainly disseminate complete information on the subject, which cannot fail to produce results that will be far-reaching in health preservation. All dealers in refrigeration agencies of every sort will heartily co-operate, not merely as a business proposition, but from a sense of public duty and good citizenship.

Broiled Meats Develop Muscles of Children

BROILED foods are not only more appetizing and easily digestible, but also more nourishing and healthful than other forms of cookery.

Broiled foods, especially, should form an important item in the diet of children to help build and strengthen the developing muscles and tissues and make certain a hardier vitality to assure their proper physical and mental development.

The health value of broiled foods is easily appreciated when you consider that food retains a greater percentage of its natural and nourishing juices when broiled than when cooked by any other known method of cookery.

BROILED STEAK

Select a good broiling steak at least one inch thick, wipe it with a damp cloth and lay on the well-greased broiler, which should be hot. Place about three inches from the burner and brown on one side, then turn over and brown the other. If a well-done steak is desired, turn over a second time. Have ready a hot platter on which has been placed some butter. Lay the steak on this and sprinkle with salt and pepper. Garnish with parsley and slices of fresh tomato or a few broiled mushrooms.

For a well-done steak allow 12 to 15 minutes, and for rare from 8 to 10 minutes.

* * *

BROILED SLICE OF HAM

If ham is salty, soak for one hour in lukewarm water. Drain, wipe and sear on both sides under broiler. Then reduce heat and broil three minutes. The slice should be about one-half inch thick for broiling.

* * *

BROILED MUTTON CHOPS

Six mutton chops, ½ teaspoon salt, ⅛ teaspoon pepper, ¼ cup butter, parsley. Trim and flatten mutton chops. Lightly grease broiler. Place a half cup water in the bottom of broiling pan. Set the rack in a hot broiler and cook chops five minutes on each side. Sprinkle with salt and pepper on hot platter, dot with butter, arrange the chops and garnish with parsley.

* * *

VEAL CUTLET OR CHOPS

Two veal cutlets, ¼ cup butter, 1 teaspoon parsley, melt 1 teaspoon salt, ¼ teaspoon pepper, 1 teaspoon Worcestershire sauce.

Cutlets or chops should be cut an inch thick at least. Wipe with wet cheesecloth. Place on wire rack of broiler with about ½ cup water in pan below. Set in hot broiler so as to sear the outside and keep the juices in. Turn and cook until tender. Place on hot platter, pour the seasoned melted butter over it.

* * *

MAITRE D' HOTEL SAUCE

Ingredients: ½ cup butter, 1 tablespoon minced parsley, ½ tablespoon salt, ⅛ tablespoon cayenne, 1 tablespoon lemon juice, ¼ tablespoon onion juice (optional).

Method: Cream the butter in a bowl as for cake, add the parsley, salt, cayenne and the lemon juice, and the onion, if used. Beat well, place on ice to chill, and serve with steak, chops or broiled fish, putting small ball or parts of the butter on the cooked meat or fish just before serving.

* * *

BROILED FINNAN HADDIE

Ingredients: 1 piece haddie, boiling water, butter. Wash and scrape and carefully clean the haddie. If it is dry, soak for half an hour in cold water. Drain and pour over it water just off the boiling point and let stand for 15 minutes. Remove the skin or not, as you choose, put it on a greased broiler, skin down if this has not been removed, dot generously with butter and broil until a nice brown. It will require 20 minutes, or about that. Serve on a hot plate, adding a little more butter, or pour hot cream over it. Garnish with parsley and serve with baked potatoes.

* * *

BROILED OYSTERS

Dry 24 oysters with a clean soft cloth. Heat broiler and grease well. Dip oysters in melted fat, then dry breadcrumbs, and arrange on broiler pan. Broil three minutes. Have ready six slices of toast, cut in uniform pieces.

Moisten toast with hot oyster liquid. Place four broiled oysters on each slice of toast and season with salt, pepper, paprika and several drops of lemon juice.

* * *

BROILED HALIBUT

Ingredients—1 thick slice halibut, salt and pepper, 6 strips bacon or salt pork, lemon juice.

Method—Wipe the fish with a damp cloth. Place on hot broiler, and lay the strips of bacon or salt pork on it. Cook slowly, turning once or twice during the process; the length of time required for the cooking will depend on the thickness of the fish. A slice of halibut one and one-fourth inches thick will take from 20 to 25 minutes to cook thoroughly. When half done, season with the salt, pepper and lemon juice. Transfer to a hot platter and garnish with parsley, potatoes, cut lemon and serve with maitre h'otel butter.

Real Spaghetti Italienne Recipe

Ingredients: 1½ pounds round steak, cut thin; 1 small bunch celery, 1 small bunch parsley, 1 cup grated Italian cheese, 1 can tomatoes, 1 can Italian tomato paste, small clove of garlic, 1 pound spaghetti.

Method: Cut the round steak in squares of about 6 inches and in the center of each put a little parsley, salt, pepper and dot of butter, and a little grated cheese. Tie with white thread and brown quickly on both sides, including the garlic (if you wish).

Then in a kettle put both the can of tomatoes and tomato paste, diluted with equal parts of water; add celery (about ½ cup diced) and a few tops, and the meat which has been browned, together with the drippings. Let simmer over a small flame for 1 or 2 hours.

When ready to serve put spaghetti in boiling water to which 1 teaspoon salt has been added. When done drain and on a platter alternate sauce, spaghetti, cheese and meat sliced. First remove the thread and they retain their circular shape. For the last layer use the sauce, then the cheese and meat arranged around, the edge. Looks very appetizing and is Remove garlic before serving. Serves six.

TASTEFUL SALAD DISHES

Because salads usually are made of fruits or vegetables or a combination of both, they should be served at least once a day. Salad greens should be thoroughly washed and placed in a cool place, preferably on ice, several hours before serving. The meat, fruits and vegetables to be used with the greens should also be chilled so as to achieve the delicious crispness that is so essential in a good salad.

The outer leaves of a head of lettuce or cabbage are the best because they are reached by the sun's rays. Therefore, they should never be discarded but may be cut into shreds and used as a foundation for salad.

* * *

TOMATO ASPARAGUS MOLDS

Dissolve a package of lemon-flavored gelatin in two cups of hot, strained tomato juice, in which has been cooked a bit of bayleaf, ½ teaspoonful of salt, a few slices of onion and one clove. Cool, and when of consistency of cream, add 1½ cups of cooked asparagus tips and cut in small pieces. Turn into individual molds or custard cups and chill. Unmold on lettuce leaves and garnish with asparagus tips and mayonnaise. This makes a pretty party luncheon dish.

* * *

FROZEN CREAM SALAD

One-half pound cream cheese, 1 cup drained crushed pineapple, ½ cup pineapple juice, ¼ cup cold water, 1 tablespoonful gelatin, 1 tablespoonful sugar, 1 cup cream, whipped.

Soak gelatin in water. Dissolve in heated pineapple juice. Mix with cream cheese, softened. Fold in sweetened whipped cream and pineapple. Freeze in electric regrigerator. Serve on lettuce with mayonnaise.

* * *

CARROT AND APPLE SALAD

Cut apples in cubes and cover with water in which you have squeezed the juice of a lemon. Cut carrots in small cubes and mix the carrots and apples with mayonnaise and serve on lettuce beds. A cup each of apple and carrot will serve six.

* * *

LEFT-OVER FISH SALAD

Any combination of left-over fish and potatoes, green peas, beans or mixed vegetables may be used. Moisten with French dressing. Arrange on net of crisp lettuce leaves and serve with or without mayonnaise dressing. Garnish with small cucumber pickles.

* * *

STRING BEAN SALAD

Marinate 6 cups cold string beans with French dressing. Add 3 teaspoons finely chopped chives. Pile in center of salad plate and arrange around base thin slice of radish overlapping one another. Garnish top with radish cut to represent a tulip.

* * *

SHRIMP SALAD

One can shrimp, 2 eggs (hard cooked), 1 onion, mayonnaise, 1 stalk celery, salt and pepper. Cut all ingredients in small pieces and moisten with mayonnaise. Serve on lettuce leaf.

* * *

MAYONNAISE No. 1

One teaspoon mustard, ½ teaspoon salt, ½ teaspoon paprika, 2 egg yolks, 3 tablespoons vinegar, 2 cups oil, ½ teaspoon onion juice.

Beat egg yolks slightly. Mix together dry ingredients and add to egg yolks. Then add vinegar and the oil very slowly.

Pineapple Fritters Served With Sauce

Drain a can of sliced pineapples and lay the fruit in a marinade made of a half cupful each of honey and ginger syrup, after cutting the hard center out of each slice. Make a batter of a small cupful of flour, a saltspoonful of salt, a teaspoonful of brown sugar and four tablespoonfuls of warm water. Mix well and let stand for one hour, then add the stiffly beaten white of an egg. Drain the fruit and dip each slice into the batter, then fry in hot fat. Drain and serve in a napkin. Add two tablespoonfuls of chopped preserved ginger to the marinade and flavor with a teaspoonful of vanilla or cherry sauce. This makes a good sauce for the fritters.

Anchovy Canapes

Ingredients—Anchovies, yolks of hard-boiled eggs, butter, lemon, onion juice, Worchestershire sauce, paprika. Bone the anchovies and mix with hard-boiled yolks of eggs. Add seasoning to form a paste. Cut round slices of bread and toast on one side. Spread the paste on the side of the bread that is not toasted. Garnish with sliced stuffed olives.

Your Children ... is their food safe?

YOU, as a conscientious mother, buy the best food for your children, prepare it with scrupulous care and cook it correctly. Yet, in spite of all, you may be giving your children food which is not wholesome—possibly dangerous!

For even the best food becomes unsafe to eat unless it is kept at the proper degree of cold, which medical authorities agree should be 50 degrees or less—always. Above that temperature, bacteria multiply, food is contaminated—becomes a menace to health.

There is only one way to be sure that your children's food is fresh and healthful—correct refrigeration. There is one refrigerator that assures you of scientifically perfect refrigeration at all times—the General Electric. Faithfully, quietly, day and night it maintains a temperature safely below that important border-line—50 degrees.

We endorse the National Food Preservation Program. 50° is the Safety Point for Perishable Foods.

The General Electric Refrigerator has a simple mechanism which you never need to oil, mounted on top of the cabinet and hermetically sealed in a steel casing. It has an accessible freezing regulator, makes a generous supply of ice cubes, creates no radio interference. It has the only all-steel, warp-proof cabinet—easily cleaned, sanitary. We shall be glad to help you select the model suited to your need and tell you about the spaced payment plan.

This record stands alone

There are now more than 300,000 homes enjoying the convenience, economy and protection of General Electric Refrigerators—and not one owner has spent a single dollar for repairs or service.

We endorse the National Food Preservation activity instituted by the Refrigeration Committee of the National Electric Light Association.

Every General Electric Refrigerator is hermetically sealed

GENERAL ELECTRIC

ALL-STEEL REFRIGERATOR

We endorse the National Food Preservation Program. 50° is the safety point for perishable foods.

No fans, belts or stuffing boxes. No oiling. No wood.

FOOD INSTITUTE PLANS CITY BUREAU

Spoilage Loss Prevention Aim of Investigation By Leonard Concern

GRAND RAPIDS, Mich., Sept. 10.—As a memorial to the American who more than any other made possible household refrigeration as we know it today, the Leonard Institute of Food Preservation is to be established here.

Announcement of this was made today by A. H. Jaeger, secretary and sales manager of the Leonard Refrigerator Company, named after C. H. Leonard, who founded it in 1882 and with which he was associated until his death in 1927.

The work of the institute, according to Mr. Jaeger, will be largely in investigations and research in various fields of food preservation, including refrigeration, made with the view of cutting down the tremendous losses sustained in America each year through food spoilage.

RESEARCH PLANNED

These researches will be carried on in conjunction with recognized public agencies and state universities, and the results of the findings placed before the public from time to time.

"Although remarkable advances in household refrigeration have been made in recent years," said Mr. Jaeger, "millions upon millions of dollars of food products are still lost annually because of our lack of observance of known refrigeration principles."

The average housewife knows more about the car in her garage than about the refrigerator in her kitchen. The institute will attempt to seek out the new facts on food preservation and to pass them on to the public.

HEALTH BIG FACTOR

Special attention will be given to those aspects of the subject which look toward safeguarding the family health and to the economies that may be achieved through proper refrigeration. We plan to make the institute a national clearing house of information on all matters bearing in any way on household food preservation.

"It is a long jump from the first crude ice chest C. H. Leonard built for his wife in 1882 to the present day all-steel ice refrigerator which is constructed to maintain proper temperatures at all times.

"A lot of valuable information lies hidden and stored away in scientific libraries and laboratories. It will be another function of the Leonard Institute of Food Preservation to bring this information to the surface and make it available for the use of every homemaker."

Tasty Sandwich

Chop hard-cooked eggs up fine and season them with salt and pepper. Add half as much finely chopped celery and enough mayonnaise to make the mixture easy to spread.

LEARNING THE ART OF ALL ARTS

Mary Boyd Irene E. McDermott Alberta Apfelbach

Miss Irene E. McDermott, domestic science teacher in the Taylor Allderdice High School, shows Mary Boyd and Alberta Apfelbach how to mix the one-egg cake.

POTATO CRUST BEEF PIE

Take as much cold roast beef as will half fill a baking dish, suited to the size of your family. Put the sliced beef into a stew pan with any good gravy that you may have—probably saved from the roast. Add a lump of butter, a bit of sliced onion, salt and pepper and enough water to make plenty of gravy. Dredge with a tablespoon of flour to thicken slightly, and let simmer over a slow fire about half an hour or more.

Boil potatoes, mash and whip up with milk and butter just as for ordinary serving, pile on top of the stewed beef (in a baking dish), filling the dish to the top with the potatoes. Brush over with egg, place in an oven and let remain long enough to brown. There should be enough good gravy with the beef so that the dish is not too dry. Serve with tomato or Worcestershire sauce.

Charcoal Kills Odor

A piece of charcoal placed in a refrigerator will take up the odor.

DECAYING FOOD HELD MENACE

The importance of proper refrigeration in the home and the absolute necessity of preventive measures in the fight against food spoilage is known to practically all intelligent Americans who read newspapers.

However, people are prone to become careless and it is essential that they be reminded from time to time of the very real menace that lies in improperly cared for foods.

We take excellent care of our health as a rule; careful not to overeat, not to be subjected to drafts, we run madly from infection when we are made conscious of its presence; yet, we, through carelessness, sometimes eat foods that are in a stage of decay that is not noticeable from a superficial inspection; foods that contain hundreds of bacteria which poison our systems and leave us prey to many minor and sometimes major diseases.

Zweiback Pie

Crust and top—One-half box zweiback, ½ cup English walnuts, 1-3 cup sugar, ¼ cup softened butter, ¼ teaspoon cinnamon. Grind the zweiback and walnuts. Mix sugar and butter, add cinnamon. Line pie pan with this mixture, saving ½ cup of it for top of pie.

Filling—Three egg yolks, 1-3 cup sugar, 1 heaping tablespoon cornstarch, 1½ cup milk, pinch of salt. Cook in double boiler. Let cool and add 1 teaspoon vanilla. Pour into pie pan lined with the first mixture. Cover with ½ cup of the first mixture, saved for the purpose. Bake in slow oven 20 minutes—hot oven 10 minutes.

CHEESE SAVORY AS FILLER

1. Mix equal quantities of Neufchatel or cream cheese with chopped olives, pimentos, and nuts, or any one or two of these. Add salt and a little onion juice, if liked. Spread on slices of white or graham bread.

2. Mix the cheese with finely chopped dill pickle, chow-chow, chili sauce, or any other desired pickle mixture. Use as sandwich filling or as a spread on crackers.

3. Into the soft cheese, work finely chopped parsley, watercress, lettuce, onions, celery, or any other salad vegetables. Add salt and any other seasoning desired, such as onion or lemon juice.

4. Wash prunes, dates, raisins, or dried figs or apricots, and put them through the food chopper, using the fine knife. Mix the ground fruit with about twice as much cheese. Add a little salt and chopped nuts if desired. This filling may also be served on crackers for afternoon tea.

5. Finely chopped pineapple mixed with the cheese makes an excellent spread for sandwiches, or for toasted bread or crackers for afternoon parties.

6. Spread slices of bread rather thickly with Neufchatel or cream cheese. On one of them put a layer of jam or jelly. Press the slices of bread together. These sandwiches are also excellent toasted.

7. Savoy cheese sandwiches are made of sharp-flavored club cheese, chopped English walnuts, a few drops of onion juice, a little salt and 2 or 3 tablespoons of tomato catsup. Place the cheese in a warm room to soften, and then add it to the other ingredients to form a mixture of the right consistency to spread.

Chinese Chop Suey Always Welcome

Two pounds veal, 2 pounds onion, ½ cup pearl barley, 1 pound pork steak, 4 stalks celery, 1½ pounds mushrooms, 2 cups La Choy sprouts, La Choy sauce.

Cut meat into small pieces and brown in butter. When meat starts to brown, add cleaned, diced mushrooms and cook until browned well. Add onions and celery cut into small pieces. Cook in covered vessel until vegetables are tender. Add cooked barley and sprouts. When vegetables are about tender add ½ bottle sauce.

Steamed Rice for Chop Suey Dinner.

Two cups rice, 1 quart boiling water. Cook rice in double boiler until tender.

Yellow bean salad (see salads), is a charming addition to the chop suey dinner.

to those who do not—

KNOW

The danger that lies in wait for all who fail to exercise the utmost care in the proper selection of food purchased AT THE STORE.

Is it of first quality, free from bacteria, and in perfect condition, when it leaves the store?

It is not enough that our Purchasing Department selects only the highest quality of foodstuffs for the consumption of our patrons. Perfect refrigeration insures proper care. Our store is equipped with one of the most complete refrigeration plants in existence. This system, installed by The York Mfg. Co., absolutely prevents food spoilage.

Patrons of our store are assured that all meats, fruits, vegetables and other perishable foods, purchased in our store, are the best obtainable in quality.

Despite this assurance of quality foods and added health protection SANDER PRICES ARE ALWAYS *LOWER*.

The spiced way then . . . the iced way now

. . thanks to refrigerating machinery manufacturers

Spices from China and the Indies were a fifteenth century necessity. Without them meat was scarcely fit for food.

Today, thanks to refrigerating machinery manufacturers, meat, fish or poultry comes to you fresh and palatable, even though it may have been shipped half way around the world. Refrigeration now prevents what spice once disguised.

In scores of ways refrigeration—and Westinghouse electric motors which drive refrigerating machinery—help to make modern life more pleasant and comfortable.

Because of refrigeration you can get fresh fruits and vegetables the year around—at moderate prices.

Refrigeration is essential in many manufacturing processes, too. Civilization owes an important debt to the men who make refrigerating machinery.

Westinghouse motors meet every power need of industry and the home. Numerous well-equipped and efficiently manned Service Shops throughout the country insure prompt SERVICE to the purchaser of Westinghouse products.

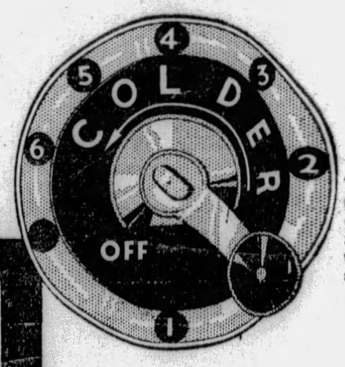
Frigidaire *offers*

greater beauty . . enclosed mechanical parts . . low operating cost . . low prices . . and

the "Cold Control" for quicker freezing of ice cubes *and* desserts



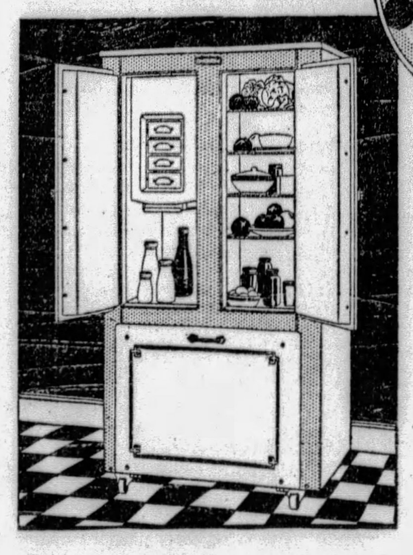
The Frigidaire "Cold Control" has introduced a new standard in electric refrigeration. It is as important as a gas regulator on an oven.

TODAY Frigidaire embodies a standard of design and renders a service that can not be duplicated by any other electric refrigerator or type of refrigeration. It is beautiful, simple, practical. Every mechanical part is enclosed, out of sight, away from dust and dirt. The sturdy steel cabinet is lined with seamless Porcelain-on-steel with rounded corners, lustrous white . . . easy to clean. The waist-high shelves make stooping unnecessary.

And Frigidaire's extra-powerful mechanism meets the heaviest demands for refrigeration easily . . . at low cost. It has the power to keep food well below 50° no matter how hot the weather or how warm your kitchen. And it is incredibly quiet. You don't hear it start, stop, or run.

In addition, Frigidaire gives you the patented Frigidaire "Cold Control" for faster freezing of ice cubes, salads and desserts. You have six different freezing speeds that you can use at will. And the self-sealing Frigidaire ice trays retain the cold and speed the freezing process still further.

These and other important features have caused more Frigidaires to be bought than all other electric refrigerators combined. And, as a result, you can now buy the new Frigidaire . . . with all its improvements . . . at the lowest prices ever offered. Let us give you complete information about the new Frigidaire and the liberal monthly terms. Have a demonstration. Visit our showroom . . . today.



Let us help you win in big $25,000.00 contest

Come into our display room. Learn why 50° is the safety point for perishable foods. Then write a letter that will give you a chance to win a model home, a Cadillac car or one of many other valuable awards now being offered by the National Food Preservation Council. Come in and get the rules of the contest and complete information today.

50° is the safety point for perishable foods

FISH IN SEASON HAS HIGH VALUE

Flesh Should Be Firm and Eyes Bright; Ranks Next To Mammals As Food

The meat of fish is the animal food next in importance to that of birds and mammals. Fish meat with but for exceptions is less stimulating and nourishing than meats of other animals, but is usually easier of digestion.

Salmon, mackerel and eels are exceptions to these rules and should not be eaten by those of weak digestion. White fish are easily digested. Fish meat is generally considered cheaper than meat of other animals. This is true when compared with the better cuts of meat, but not so when compared with cheaper cuts.

SHOULD BE FRESH

To obtain from fish its greatest value and flavor, it should be eaten fresh and in season. To determine freshness of fish, examine the flesh and it should be firm; the eyes and gills should be bright. On account of its strong odor, fish should never be put in an ice box with other food, unless closely covered. A tin lard pail will be found useful for this purpose.

Cut through the length of the skin on the back, close to the fin and remove. Then cut the skin on the other side, loosen it around the head and pull from head down to the tail. When a fish is not fresh, it is difficult to separate skin from flesh.

Small fish are broiled without splitting, with heads and tails removed if desired.

Medium sized fish are split down the back or through the stomach and broiled either with or without the head.

Large fish are usually cut in slices, preferably from one to two inches thick.

The fish may be cut into fillets if desired. Season liberally with salt and pepper. Rub over with melted fat. The skin side is done when it is a rich golden brown. At the beginning the fish should be kept close to the fire to sear its surface as quickly as possible. Gradually remove the rack to a lower position as the fish cooks, turning as needed till tender.

SHAD RECIPE

Clean and split a 3-pound shad. Stuff with bread cut finely and moistened with melted butter. Season with salt and pepper. Sew up securely and place in an oil dripping pan. Sprinkle with salt and pepper, brush over with melted butter and bake in a hot oven 30 to 50 minutes. Place a couple of strips of bacon over top before putting in the oven. Remove to serving dish and pour over, Roe sauce.

Half cup butter, yolk 3 eggs, juice half lemon, 1 teaspoon salt, ¼ teaspoon pepper, ½ cup boiling water. Beat butter to a cream with silver spoon, add yolks of eggs, one at a time, and beat well, then add lemon juice, salt and pepper. About 5 minutes before serving, add boiling water, a little at a time, stirring well. Place in double boiler, and stir rapidly, until the sugar thickens like boiled custard. This is one of the best sauces for fish.

Put 2 teaspoons each sherry wine, white wine and butter in small shallow pan and add ½ shad roe sprinkled with salt, pepper and few gratings of nutmeg. Cover with buttered paper and bake 20 minutes. Take from oven, remove membranes. Brown 3 teaspoons butter, add teaspoon flour and continue the browning; then pour on gradually while stirring constantly, 1 cup chicken stock. Bring to boiling point and add ¼ teacup beef extract, roe, and ¼ teaspoon salt.

TUNA ON TOAST

1 large can tuna fish (light meat if possible), 1 can small peas, 1 can mushrooms, chopped celery, 4 hard-boiled eggs, green peppers cut in small pieces; pepper, salt and paprika to taste; 2 tablespoons butter, 2 tablespoons flour, 3 cups milk.

Place tuna fish in colander. Pour over it boiling water and strain. Let stand until cool. Cut celery, peppers and eggs into small pieces. Season with salt, pepper and paprika and let stand.

Melt butter in pan and add flour, mix well.

Put milk in separate pan and bring almost to a boil. Pour milk over flour mixture and add mushrooms and peas. Mix other ingredients into this and then add tuna fish last.

Mix all thoroughly and heat through. Serve on toast.

Ingredients—2 cups flaked salmon, 1-3 cup thick white sauce: 1-3 cup milk, 1 tablespoon flour, 1 tablespoon butter; 1 cup boiled rice, dry rolled crumbs, salt, pepper, 1 teaspoon onion juice, 2 eggs.

Method—1. Combine salmon, rice, seasoning and white sauce. 2. Mold into shape and chill. 3. Dip in crumbs, eggs and crumbs, and bake in hot oven or fry in deep fat. 4. Serve with cream sauce; garnish with parsley.

MOTHER SERVES REFRESHMENTS

Little tots are often apt to become hungry between meals. A glass of milk, properly cooled, and a cookie goes far to make life bearable for the young one until the evening meal is served.

SHRIMP HELPS APPETITE

Shrimps are such a successful meat substitute that they are a delicacy. Combined with rice and other such ingredients as suggested in the following recipe they are not so expensive as may be feared.

* * *

SHRIMPS, DEVILED

Two small cans shrimps, 1 cupful toasted bread-crumbs, 1 tablespoonful chopped parsley, 1 small onion, ¼ teaspoonful pepper, 2 eggs, 1 tablespoonful chopped sweet red pepper, 3 tablespoonfuls margarine, 1 teaspoonful salt, about ¼ cupful milk.

Put shrimps and onion through the food-chopper, add ¾ of the crumbs, the parsley, red pepper, eggs beaten, one tablespoonful margarine, melted, salt and pepper, and the milk to moisten. Place in buttered ramekins, cover with the remaining crumbs and dot with margarine. Brown in a 500-degree F. oven.

* * *

SHRIMP CHEESE PUDDING

Two cans shrimps, 2 tablespoonsful butter, ½ teaspoonful pepper, six ¼-inch slices bread, ½ pound milk cheese, ¾ teaspoonful salt, ¼ teaspoonful paprika, 3 eggs, 3 cupsful milk.

Clean the shrimps thoroughly. Spread the bread with the butter and cut into inch squares. Place half the bread in a greased baking dish, spread over half the shrimps evenly. Sprinkle with seasonings and cheese; repeat. Beat the eggs, add the milk, and pour the mixture over the bread and shrimps. Bake about one hour in an oven registering 350 degrees F. Raw shrimps may be used, if obtainable.

* * *

SHRIMP COCKTAILS

One can shrimps, 6 tablespoonfuls grapefruit juice, tobasco, salt, 6 tablespoonfuls tomato catsup, 6 teaspoonsful spiced vinegar, chopped parsley.

Clean shrimps and divide into six portions. Arrange in cocktail glasses or red pepper cups. To each portion allow one tablespoonful each of tomato catsup and grapefruit juice, one teaspoonful of spiced vinegar, a dash of tobasco, a sprinkling of salt and a dusting of chopped parsley. Pour the seasoning over the shrimps and let them stand in a cold place for an hour or two.

Mince the onion and saute in the fat until it is tender and slightly browned. Then add the flour and blend thoroughly until smooth. Add the curry powder, salt and pepper. Add the milk a little at a time and stir until the mixture becomes smooth. Remove the viscera from the shrimp and cut them in halves. Add to the curry sauce, heat thoroughly, and serve with a border of the rice, which has been steamed until tender.

* * *

SHRIMP SANDWICHES

Half cup each of cooked shrimps and chicken liver, ½ Bermuda onion and ½ green pepper, seeds removed.

Put through the food chopper, season with salt and moisten with catsup or mayonnaise. Spread between thin slices of buttered bread.

* * *

SHRIMP AND RICE, CURRIED

One small onion, 3 tablespoonfuls butter, fat or oil, 3 tablesponsfuls flour, 2 teaspoonfuls curry powder, 1 teaspoonful salt, ¼ teaspoonful pepper, 3 cupfuls milk, 2 cupfuls cooked shrimp, 1 cupful rice.

Mince the onion and saute it in the fat until it is tender and slightly browned. Then add the flour and blend thoroughly until smooth. Add the curry powder, salt and pepper. Add the milk a little at a time and stir until the mixture becomes smooth. Remove the viscera from the shrimp and cut them in halves. Add to the curry sauce, heat thoroughly, and serve with a border of the rice which has been steamed until tender.

EASY DRESSING RECIPES

A good salad dressing is an important factor, and the recipes given below are easily mixed and will add piquancy to this part of your menu.

BOILED FRUIT DRESSING

One tablespoon cornstarch, 2 tablespoons sugar, ½ teaspoon salt, 2 eggs, ¼ cup pineapple juice, ½ cup orange juice, ¼ cup lemon juice, ¾ cup whipped cream.

Sift dry ingredients and add to beaten eggs. Add pienapple juice and cook in double boiler until thickened. Remove from fire, add orange and lemon juice and when cold fold in whipped cream.

When canned pears are used in the salad, the juice may be used instead of pineapple juice.

* * *

FRENCH DRESSING

Six tablespoons of oil, 2 tablespoons of vinegar or lemon juice, ½ tablespoon of salt, little minced onion, ½ tablespoon mustard, ½ tablespoon paprika, 1 tablespoon sugar, few drops Worcestershire sauce. Place dry ingredients in a jar and add onion and liquids. Shake thoroughly and place on ice till ready to use.

* * *

BOILED DRESSING

Yolks of 2 eggs, 1½ teaspoons flour, few grains pepper, 4 tablespoons sugar, ½ cup vinegar or lemon juice, ½ teaspoon salt.

Sift dry ingredients. Add to beaten yolks. Stir in vinegar or lemon juice and cook until it thickens. Thin with cream, preferably whipped.

* * *

FRENCH DRESSING

Ingredients—½ teaspoon mustard, ½ teaspoon salt, ½ teaspoon paprika, 1 teaspoon sugar, 4 or 5 drops Worcestershire sauce, 3 teaspoons minced onion, 3 tablespoons vinegar, 6 tablespoons oil.

Note—This recipe will serve eight people.

The dressing is most satisfactorily made in a pint jar. After the ingredients have been placed in the jar, fasten the lid on tightly and shake thoroughly.

Method—Mix dry ingredients first. Add onion, vinegar, Worchestershire sauce. Add the oil last. Set on ice until ready to serve.

* * *

MAYONNAISE WITHOUT OIL

One-fourth tablespoon salt, 2 teaspoons mustard, 1½ tablespoon sugar, few grains of cayenne pepper, 1½ tablespoons flour, yolks of two eggs, 1½ tablespoons melted butter, ¼ cup vinegar.

Mix dry ingredients, add yolks of eggs slightly beaten, butter, milk and vinegar very slowly. Cook over boiling water until mixture is thickened, stirring constantly. Strain and cool.

* * *

RUSSIAN DRESSING

Russian dressing may be made by adding chili sauce to the "boiled dressing" or "Mayonnaise without Oil" dressing.

Strawberry Cocktail

Place washed strawberries on ice till ready to serve. Do not remove the stems. Serve on plate with small mound of powdered sugar.

MOCK ROASTED CHICKEN

Ingredients—Two and one-half pounds boneless veal, salt, white pepper, 2½ tablespoons butter, 1 cup chopped parsley, 1 tablespoon flour, 3 or 4 cups water, cream.

Method—Wash meat with clean towel dipped in hot water. Slice meat across the grain. Pound lightly and sprinkle with salt and pepper. Rinse parsley, chopped coarsely, and work into butter. Place portion of parsley butter on each portion of roast. Roll and tie with cord which has previously been dipped in hot water. Heat frying pan slowly. Brown butter in skillet and place portions in butter and brown well.

When thoroughly browned, sprinkle with flour. Add water and fry very slowly until tender.

Remove from stove and cut cord. Add cream slowly to the gravy and strain. Serve gravy over meat.

Date Pudding Recipe

Ingredients: One pound dates, 1 cup raisins, 1 cup brown sugar, ½ cup sour milk, 1 egg, well beaten; 1 teaspoon baking soda, nutmeg, cinnamon.

Add enough flour to thicken to the consistency of fruit cake. Steam for three hours.

Baked Peaches Recipe

Peel, cut in halves and remove stones from six peaches. Place in a shallow pan, fill each cavity with 1 teaspoon sugar, ½ teaspoon butter and a little lemon juice and a slight grating of nuetmeg. Bake 20 minutes.

GLOEKLER PITTSBURGH —PA— MANUFACTURERS SINCE 1855

FOR THE PROPER PRESERVATION AND HANDLING OF FINE FOODS, YOU WILL FIND GLOEKLER'S REFRIGERATORS AND REFRIGERATOR DISPLAY CASES PREDOMINATING.

GLOEKLER PITTSBURGH —PA— MANUFACTURERS SINCE 1855

Choose:—

ACCORDING TO *QUALITY* AND *PRICE*

When a food product—be it meat, vegetable or fruit—of equal or better quality is sold at a lower price in one food store than in all others in a given community, it follows, logically, that consumers will patronize the food store giving the better value.

This is true PROVIDED the public KNOWS of this store and of the values it has to offer.

THEREFORE, We, of the North Side Market, have decided to tell the people of Pittsburgh about our store—a store comprising hundreds of merchants under one roof who offer, at their various stands, a wide variety of food products of HIGH QUALITY at prices LOWER than are obtainable elsewhere in this community.

ONLY FACTS WILL DO

"The proof of the pudding is in the eating." Statements that will not stand the acid test of proof are worthless. MAKE US PROVE OUR STATEMENTS! We invite any shopper in Pittsburgh to compare the quality and prices of our products with those on sale in other stores or markets in the Pittsburgh District.

For many years the Old Allegheny Market—now the North Side Market—set the pace for all other food stores in this section. Business changes. People forget. Buyers sometimes sacrifice economy for convenience. However, there are many thousands of food consumers who are still interested in saving twenty cents on each dollar they spend for food. To these intelligent consumers, this message is addressed.

The North Side Market Association

NOW ONLY $19.50 DOWN

Delivers to Your Home a New Model

KELVINATOR

The World's Oldest Domestic Electric Refrigeration

SAFETY IS BUILT IN KELVINATOR for $195.00. Only $19.50 down and two years to pay the balance. You, too, can enjoy the same Super-Refrigeration, Safety Tested Service FREE, which has functioned since 1914 in the home of JOHN D. ROCKEFELLER . . . which today refrigerates the home of HENRY FORD, ALFRED DUPONT, H. W. HOOVER, CHARLES G. DAWES and countless others who buy only the finest the world affords. AND IT COSTS NO MORE THAN OTHERS.

YOU, TOO, can enjoy KELVINATOR, which sails the seven seas, safeguards the health of U. S. Marines, U. S. Navy, Commander Byrd's expedition, and government equipped buildings.

Both Men and Women Appreciate This Wonderful Convenience

FREE OFFER!

We will include with every Kelvinator purchased at this store during the month of September, an AERATED ICE CREAM MAKER AND CARBONATED DRINK MIXER.

VALUE $9.00

Made of purest and highest grade rubber, the Kelvinator rubber ice tray flexes easily, releasing the ice cubes in a flash—one, a dozen, or all of them. No holding of metal trays under the faucet . . . no wasted ice supply . . . precious minutes saved.

MOST LIBERAL TERMS. SMALL DOWN PAYMENT.

YOUTHS—TWO OF THEM

Built a fire to freeze water and astonished the world with a new principle of refrigeration. University students in Sweden were these youths who questioned accepted theories, who visioned refrigeration without moving parts, and who, in their success, opened a new era in domestic refrigeration.

That was six years ago.

Today we are able to offer you what we consider a near-perfect gas refrigerator built and perfected after years of research, experiment and vision. A refrigerator fully approved by national authorities on refrigeration and food preservation.

This refrigerator employs ammonia, hydrogen and water as refrigerants. There are no moving parts—nothing to wear out. Nothing but a tiny gas flame is required to operate the apparatus, and should the flame by chance be extinguished the gas is automatically turned off. The refrigerating unit is heremetically sealed and it is impossible for the harmless gases to escape.

If you would have the finest in a refrigerator, one which is noiseless and which is assured to keep the inside refrigerator temperature well below the danger line of 50 degrees, inquire more thoroughly about the ELECTROLUX, sold at all of our appliance stores.

Visit our stores. Let our representatives know your needs in order that they can more intelligently advise you on this modern use of gas.

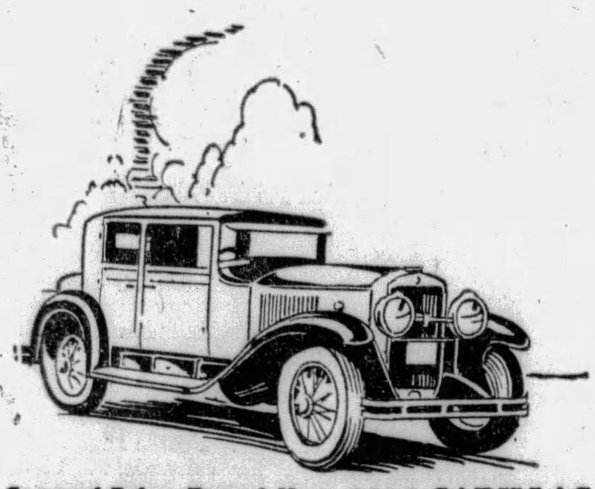
WIN FIRST PRIZE

$10,000 HOME

To be built in any community in the United States designated by the winner, on a location and to specifications to be agreed on by the winner and the National Food Preservation Council; or $10,000 in gold.



Second Prize Brand New 1930 CADILLAC

Five passenger coupe, list price $3,595 F. O. B. Detroit, delivered anywhere in the United States; or $3,500 in gold.

833 OTHER BIG CASH AWARDS

Third Prize	$2,000
Fourth Prize	1,000
Fifth Prize	500
Sixth Prize	400
Seventh Prize	350
Eighth Prize	300
Ninth Prize	250
Tenth Prize	200

Twenty-five prizes, Nos. 11 to 35 inclusive—$100 each. Eight hundred prizes, Nos. 36 to 835 inclusive—$5 each.

In the event of a tie for any prize, each tying contestant will receive the full amount of that prize.

$25,000 in Prize Awards

TO SET the nation thinking on this vitally important topic of proper food preservation—to glean new ideas, new facts and figures concerning food preservation in guarding health and preventing economic waste, the National Food Preservation Council offers prizes to the value of $25,000 for the best essays in a National Idea Contest.

The capital prize is a Model Home; or $10,000 in gold. The second prize a 1930 five-passenger Cadillac Coupe, selling at $3,595 f. o. b. Detroit; the third prize $2,000 in gold—and so on down the list of 833 other big cash awards.

Get your free copy of the booklet, "How to Safeguard Your Family's Health," and learn how to write best 400 word letter telling: "Why Fifty Degrees Is the Danger Point"—the subject of the contest. Read the contest rules and enter your letter today. These booklets are available at your Refrigeration Dealer or at the Gas & Electric Shops.

CONTEST RULES

1. The contest is open to any resident of the United States, except persons or members of the families of persons connected with the refrigeration industry. 2. Essays must not be longer than 400 words, shall be written in English, and shall be on one side of the sheet only. 3. Each essay shall be headed "Why 50 Degrees Is the Danger Point." 4. The subject matter of each essay must be the value of and benefits of food preservation, either from the standpoint of health, sanitation or economic saving, or any combination of these three. Booklets summarizing information on this subject may be obtained from the Food Preservation Council in your city or members of the Local Council, or from the National Food Preservation Council, 420 Lexington Avenue, New York City. 5. Essays will be judged 90 per cent on the originality of thought and evidence of study displayed, and 10 per cent on clearness of expression, neatness and order of construction. 6. Essays need not be typewritten, but judges shall have the right to reject entries that are illegible. 7. Essays may be submitted through the Local Council of the contestant's community, or may be sent direct to the National Food Preservation Council. 8. At the top of each page of each essay the sender's name and address shall be written. Each essay shall be enclosed in a sealed envelope, with the contestant's name and address typed or clearly written in ink on the outside of the envelope. If the essay is submitted through a Local Council, the name of the Local Council must also be written on the envelope. If the essay is sent direct to the National Council, the sealed envelope must be enclosed in a larger envelope, addressed to Contest Department, National Food Preservation Council, 420 Lexington Avenue, New York, N. Y. 9. Essays will not be returned. Winning essays shall become the property of the National Food Preservation Council and shall be used in any way the council sees fit. 10. The contest closes at midnight, September 30, 1929. Essays bearing a postmark after midnight of September 30, 1929, will not be considered.

How to Safeguard Your Family's Health in Winter Months

HEALTH centers upon the food we eat. You know that. And so for your family you buy the best of nourishing food.

But do you preserve this food safely, economically?

Doctors and public health authorities are agreed that only proper ice or mechanical refrigeration the year around safely guards perishable food products. Cold is the conqueror of those tiny micro-organisms that cause food to spoil.

Mother Nature is a poor guardian of perishable foods. Back-porch and window-sill makeshifts for food preservation are unsatisfactory, insanitary, unsafe. Study of Weather Bureau reports shows that only 19 days a year, on an average in the United States, afford outdoor temperatures that are safe for perishable foods. Ninety-four per cent of the time it is too warm—too cold.

Trusting to these makeshifts is not an economy. The food spoilage—a little here, a little there—amounts to a staggering loss at the end of a year. And the menace to health lurks always in these perishables that are improperly preserved.

Health Authorities, everywhere, recommend adequate artificial refrigeration the year around as the only safe and satisfactory way to preserve perishable foods. Take this step now to save money and safeguard the health of your family.

PITTSBURGH FOOD PRESERVATION COUNCIL
